Transmission, Power.—In the transmission of power to the driven wheels of a motor-vehicle, seven varieties of transmission are distinguished: (1) By chain and sprocket from the main shaft direct to the differential on the rear axle. (2) By chain and sprocket to each rear wheel separately, from a counter-shaft, driven direct from the motor. (3) By a propeller shaft from the motor to the rear axle. (4) by Spur-gear from the motor-shaft to the differential on the rear axle in electric vehicles. (5) By spur connection to an external or internal gear on each of the rear wheels from a transverse differential shaft in some electric vehicles. (6) By spur connection to an external or internal gear on each drive wheel, between each wheel and a separate motor, in electric vehicles solely, and (7) By the use of the hub of each wheel as one element of the motor, in electric "hub motors."

Transom.—Athwartship pieces forming the buttocks of a boat and extending across the stern-post, to which they are bolted. (2) A transverse piece of timber serving as a strut between two parallel members.

Transom Knees.—Curved timbers which bind and connect a boat's quarter to the transoms, being bolted to the latter and to the after timbers.

Transom-stern.—Same as square-stern.

Transverse-shaft.—See Shaft, Counter.

Trap-valve.—See Valve, Trap.

Trasue & Williams Co., The.—Alliance, O. Mfrs. drop forgings.

Traugott Golde.—Gera-Reuss, Germany. Mfrs. tops.

Travel.—The distance through which a part of a mechanism can move in a straight line.

Travelers' Insurance Co.—Hartford,

Conn. Automobile liability and accident insurance. New York office, 32 Nassau St.

Traveling-nut.—See Steering-gear.

Traver Blow-out Patch Co.—1265 Broadway, New York City. Mfrs. tire patches.

Traver, Judson D.—Rhinebeck, N. Y. (Waltham.)

Travis & Oczho.—215 N. Perry St., Johnstown, N. Y. Garage.

Travis Auto Co., C. W.—23 Main St., Evansville, Ind. (Buick, Pope-Waverley, Cadillac.)

Tray Plate Battery Co.—5 Frederick St., Binghamton, N. Y. Mfrs. tray plate storage batteries and all cell types, electric automobile and sparking batteries. Cap. \$50,000. Est. 1902. E. A. Beman, Pres.; Geo. C. Bayless, Treas., and A. C. Rane, Sec.

Treacy & Pierce.—Roanoke Rapids, N. C. (Waltham.)

Tread.—That portion of the surface of a tire that comes into contact with the road. (2) The distance, called also "gauge" and "track," from the center of the tire, on one side of the car, to the center of the tire on the same axle at the other side of the car. (3) That part of a runningboard on which the foot rests in stepping into or out of a car. (4) The length of a vessel's keel. (5) The gearing surface of a wheel.

Tread, Herringbone.—See Herringbone Tread.

Treat & Clark.—25 Palm St., Bangor, Me. (Mitchell, Jackson, Logan, Maxwell.)

Treat, S. W.—Atlantic, Ia. (Mason.) Est. 1906.

Trebert Gas Engine Co.—35-37 Ford St., Rochester, N. Y. Mfrs. gas engines, 9 styles and sizes, for marine and automobile purposes, gasoline automobiles. Cap. \$50,000. Est. 5 years. E. S. Bartlett, Pres.; Geo. Wagner, Jr., Sec. and Treas.; J. M. Morris, Supt.

Trecker & Son, C.—Odell, Ill. (Ramblers, Reo, Premier, Buick.)

Tredway, W. S.—Norwood, O. (Wayne.)

Tregoning Electric Mfg. Co. The.—224 High Ave. S. E., Cleveland, O. Mfrs. wire terminals.

Trembler.—A device, called also a "vibrator" and sometimes a "buzzer," for making and breaking an electric current. It consists of a flat steel spring secured at one end so that it may vibrate. At about its center an adjusting-screw touches it, and when the spring vibrates it springs away from the screw and returns to it. If one wire of the circuit is attached to the spring and the other to the screw, the circuit will be complete when the spring touches the screw, and broken when it springs away from it.

This type has been almost entirely replaced by the "magnetic vibrator," q. v.

Trembler-coil.—A coil with a trembler for making and breaking contact. See Coil, Induction.

Trembler, Magnetic.—For producing an induced current in the secondary circuit of an induction coil it is necessary to make and break the current. For this purpose a magnetic "trembler" is placed in the circuit. A soft iron core placed in the interior of a coil, E (see figure) is magnetized at the moment of the passage of the primary current, and attracts a mass of metal (hammer), D, fixed on a spring, C. The current which passes is broken by the separation of D and the

contact-screw, B. The soft iron core is demagnetized and the spring, C, raises the hammer and comes in contact with B again and at once re-establishes the current. The soft iron core is again magnetized and the phenomenon occurs anew. Consequently, at each position of D there is a breaking or making of the induced current, which occurs so rapidly that a buzzing sound is produced.

Tremont Garage.—541 Tremont St., Boston, Mass. Garage.

Tremont Garage & Repair Station.—1923 Washington Ave., New York City. Garage.

Trenery & Co., C. L.—700-720 Court St., Le Mars, Ia. (Gale, Queen, Olds.) Est. 1884, automobile, 1901. Garage, 20 cars. Repairing.

Trenton Auto & Supply Co.—130 N. Warren St., Trenton, N. J. Garage.

Trenton Electric Auto Garage.—Trenton, N. J. (Columbus.)

Trenton Malleable Iron Co., The.—New York Ave. Trenton, N. J. Mfrs. jacks, gasoline automobile motors and tire irons.

Trenton Rubber Mfg. Co.—Trenton, N. J. Mfrs. tire cement, rubber mats, tire patches and inner tire tubes.

Tricar.—A motor vehicle comprising three wheels, one driving wheel in the rear and two steering wheels in front, and with two seats, one behind the other or side by side.

Trig.—A shoe for a wheel to ride on in descending a hill. A skid.

Trim.—The set of a boat on water, whether by head or stern, or on an even keel.

Trimble, G. T.—Ellsworth, Kan. (Northern.)

Trimmer, Dr. E. D.—High Bridge, N. J. (Maxwell.)

Trimont Mfg. Co.—Roxbury, Mass. Mfrs. wrenches.

Trinity Chimes Co., The.—29 N. Capitol Ave., Indianapolis, Ind. Mfrs. exhaust horns.

Trip or Trippet.—A projection intended to strike some object at regularly recurring intervals; a cam, lifter, toe or wiper.

Trip-rod.—The same as tappet-rod. See Rod, Tappet

Tripri Bros. & V. De Prisco Co.—Factory, cor. Broome & Mott Sts.; office, 179 Mott St., New York City. Mfrs. horns, brass tubing, screens and bulbs.

Triple Action Spring Co.—1254 Michigan Ave., Chicago, Ill. Mfrs. shock absorbers.

Triple State Electric Co.—McFarland St., Charleston, W. Va. (Pope-Waverley.)

Tripoli.—A fine and earthy siliceous material, usually reddish and of a geological origin similar to that of "rottenstone," and like it, used for polishing metals.

Tripp, B. D.—Marion, Mass. Garage.

Tritt, B. E.—Sec., Treas. and Gen. Mgr. Tritt Electric Co., 301 Division St., Union City, Ind.

Tritt, C. W.—Vice-Pres. Tritt Electric Co., 301 Division St., Union City, Ind.

Tritt, E. C.—Pres. Tritt Electric Co., 301 Division St., Union City, Ind.

Tritt Electric Co.—301 Division St., Union City, Ind. Mfrs. magnetos, spark coils, storage batteries, storage battery chargers, battery switches and spark plugs. Cap. \$100,000. Est. 1904. E. C. Tritt, Pres.; C. W. Tritt, Vice-Pres.; B. E. Tritt, Sec., Treas. and Gen. Mgr., and R. J. Tritt, Supt.

Tritt, R. J.—Supt. Tritt Electric Co., 301 Division St., Union City, Ind.

Triumph Cycle Co., Ltd.—Coventry, England. Mfrs. Triumph motorcycles.

Triumph Engineering Co.—226 Lafayette St., New York City. Mfrs. spark plugs.

Triumph Mfg. Co.—Nashville, Tenn. Mfrs. gasoline and keronene burners.

Trojan Button Fastener Co.—594 River St., Troy, N. Y. (Queen, Gale.)

Trout, H. G.—King Iron Works, 226 Ohio St., Buffalo, N. Y. Mfrs. brass castings.

Troutt Yokom Car Co.—Port Huron, Mich. Mfrs. gasoline commercial automobiles.

Trowbridge Co., F. A.—17 South St., Morristown, N. J. (Reo, Premier.) Est.

1898. Cap. \$10,000. F. A. Trowbridge, Sec., Treas. and head of department. Garage, 50 cars. Repairing; garage; supplies; electric charging.

Trowbridge, F. A.—Sec. and Treas. F. A. Trowbridge Co., 17 South St., Morristown, N. J.

Troy & Albany Auto Exchange.—State and Larke Sts., Albany, N. Y. (Franklin.)

Troy Auto Exchange.—22 4th St., Troy, N. Y. (Buick, Pierce Arrow, Pope-Toledo, Franklin.)

Troy Carriage Sunshade Co.—Troy, O. —Mrs. automobile tops and wind shields.

Troy Carriage Works.—745 3rd Ave., and 5th Ave. and Federal St., Troy, N. Y. (Chadwick, Mitchell, Frayer-Miller, Wayne, Baker.) Est. 1882. Cap. \$40,000. J. K. P. Pine, Pres. and M. J. Adams, Sec. and Treas. Repairing.

Troy Spring Works.—394-96 Congress St., Troy, N. Y. Mfrs. leaf springs.

Troyell, Joseph.—Sec. and Mgr. New Amsterdam Motor Co., 152 W. 56th St., New York City.

Truchet.—11 rue du Léman, Geneva, Switzerland. Mfrs. non-skids.

Truck.—A heavy freight vehicle with a platform body without side-panels, and with either two or four wheels.

Truffault, Jules.—51 Avenue des Inventor of the Truffault shock-absorber for automobiles.

Trumbauer, W.—836 Delaware Ave., Bethlehem, Pa. (Ford.)

Trump, Rob't. W.—Gen. Mgr. Philadelphia Stove & Iron Foundry Co., 1631 N. 5th St., Philadelphia, Pa.

Trumpet.—One of the two trumpet-shaped pieces that constitute a rear support to the speed-boxes of the C. G. V. cars.

Trunk-cabin.—A cabin half above and half below the upper deck of a vessel.

Trunk-piston.—See Piston, Trunk.

Trunnion.—One of the two short projecting axles or pivots on which an oscillating cylinder, Bessemer converter, etc., turns in its support.

Truscott Boat Mfg. Co.—St. Joseph, Mich. Mfrs. gasoline marine motors, automobile motors and motorboats.

Trutz, N.—Coburg, Germany. Mfr. bodies.

Try-cock.—See Cock, Try.

Tubbs, Dr. R. B.—Council Bluffs, Ia. (Holsman.)

Tube.—A general name for pipe of any description, excepting that made of cast iron.

Tube-bending.—See Tubing.

Tube-drawing.—See Tubing.

Tube-expander.—A tool used for widening the ends of metal tubing by means of pressure applied to the inside of the

tube. It is used especially in fixing the ends of boiler or condenser tubes in the tube-plate.

Tube, Finger.—See Boiler.

Tube, Fire.—See Boiler.

Tube Ignition.—See Ignition.

Tube, Inner.—In a pneumatic tire, an air-tight tube of rubber which fits within the casing.

Tube-plate.—The plate which carries the ends of the tubes in a boiler or surface condenser.

Tube, Platinum.—See Platinum Tube and Ignition.

Tube-plug.—See Boiler, Tube-plug.

Tube, Water.—See Boiler.

Tubing.—A term for pipes of other material than cast iron, say wrought iron, steel, brass and copper. It is distinguished as "solid drawn" when made without a seam. If made with a seam, the joint ("lap," or "butt") is brazed, welded, soldered, or, in some cases, riveted.

Copper tubes of small diameter may be bent cold, by hand simply. When over half an inch in diameter they cannot be bent without first filling them with melted resin or lead. After this a curved form may be easily given them without any danger of breakage. The folds or wrinkles formed at the bend may be removed by the light and repeated blows of a round-faced hammer. Steel tubes, even of small diameter, cannot be bent by hand when empty, but must be previously filled with very dry sand. This done, the place in the tube where the bend is to be made is heated, and the curving is effected in a vice and by the use of a hammer, if need be.

In the manufacture of seamless steel tubing, the first operation consists in heating a large billet of steel (of the finest grade if for axles) and placing it in a machine in which it is pierced longitudinally through the center. Then it is re-heated and drawn through a die which reduces its size and increases its length. This operation is repeated until the tube is sufficiently reduced for the final process of cold drawing. This is very similar to the previous operations except that the tube is not heated again, but is drawn through the die cold, an operation that gives it a bright polish and compresses the grain of the steel, and adds materially to its stiffness. In this condition it is taken from the machine ready for use.

Tubing-machine.—A machine, called in England a "Spewing machine," used for the manufacture of solid rubber tires. It consists of a large screw revolving inside of a steel tube at the mouth of which there is an opening shaped for the tire. The rubber dough is fed into the rear of the tube and "spewed" out of the

mouth in a form that just fits the mould in which it is baked.

Tucker, Albert Badgley.—Writer on automobiling and kindred topics. B. Boston, Mass., March 6, 1869. Ed. public and high school. Sec. N. A. A. M. November, 1903, until May 1, 1904. Sec.

Photo by Spomer and Wells

touring board A. A. A. 1904-1905. In charge of A. A. A. tour, Buffalo to St. Louis, 1904. Supt. 1st Glidden tour, Buffalo to Bretton Woods and return, 1905. Supt. 2nd Glidden tour, New York to Bretton Woods, 1906. Racing Sec. Florida East Coast Automobile Club and Supt. of Ormond Beach races, Dec. 1904 to Feb. 1905. Contributor to Automobile Topics and other publications on automobile and similar subjects. Since October, 1905, has been commercial press agent for numerous leading manufacturers.

Tucker, C. F.—Hartford, Conn. Mfr. oil cups and oil guns.

Tucker, Geo.—Brattleboro, Vt. (Cartercar.)

Tucker, Harry S.—Supt. of garage R. H. Beacham & Son, Fleet St., Portsmouth, N. H.

Tucker, W. M.—399 Spadena Ave., Toronto. Can. Garage

Tucker Wood Work Co., The.—Sidney, O. Mfrs. automobile and carriage seat bendings, steering wheels and bicycle rims. Cap. \$150,000. Est. 1895. James B. Tucker, Pres. and Gen. Mgr. W. C. Horr, Sec. and Treas.

Tulane Automobile Co.—933 Perdido St., New Orleans, La. (Royal.)

Tulley, John L.—Pres. and Designer Albany Automobile Co., Albany, Ind.

Tulsa Automobile Co.—Tulsa, Indian Ter. Garage.

Tumble-home.—That part of the hull in some vessels which leans inward, above the line of greatest breadth. (2) The distance or amount of such leaning, on one side of the vessel.

Tundish.—The same as funnel.

Tungsten.—A rare metal, called also "wolfram" (symbol W), extracted from wolfram (tungstate of iron and mineral manganese) or from scheelite (tungstate of calcium). It is slightly fusible and employed in the metallurgy of iron and steel to obtain a very durable product called "tungsten steel." It is also used

for making the filaments for "tungsten lamps."

Turbine.—A motor in which rotary motion is obtained by the gradual change in the momentum of a fluid.

Turckheimer.—4 via Lambro, Milan, Italy. Mfrs. motorcycles.

Turgan Etablissements Ltd.—96 Rue Antonin-Raynaud, Levallois, Perret-Seine, France. Mfrs. steam commercial automobiles and gasoline commercial automobiles. (Turgan.)

Turnbuckle.—A coupling so threaded or swiveled in the center that when con-

necting lengthwise two rods, pipes or wires it may be turned so as to regulate the length or tension of the connected parts.

Turnbull, G. A.—440 S. Main St., Princeton, Ill. (Moline.) Est. 1900. G. A. Turnbull, Prop. Garage, 10 cars. Repairing.

Turnbull, Wm.—221 S. Madison St., Peoria, Ill. Garage.

Turntable.—A revolving platform in

or movable on a floor for turning motor vehicles around.

Turner & Co., Ltd.—1 George St., Lisson Grove, London, W., England. Mfrs. carburetters.

Turner & Milner.—1532-4 Michigan Ave., Chicago, Ill. General machine shop.

Turner Brass Works, The.—Sycamore and Chicago, Ill. Mfrs. automobile bumpers, foot treadles, reserve valves, mufflers, carburetters, name plates, gasoline torches and appliances, oilers, aluminum castings and machinery, tire pump inflators. Cap. \$150,000. Est. 1871. C. C. Reckitt, Pres.; Geo. B. Vance, Gen. Mgr.; Robert Kerr, Sec. Heads of Depts.: Geo. B. Vance, Mgr. Contract Dept.; Robt. Kerr, Mgr. Torch Dept.; Frank A. Reid, Mgr. Name Plate Dept., and F. C. Binkley, Mgr. Automobile Dept. Aug. Dobrick, Supt.; H. H. Smith, Purch. Agt.

Turner, F. A.—Sandwich, Ill. (Holsman.)

Turner, G. W.—45 Stanhope St., Boston, Mass. Garage.

Turner's Motor Mfg. Co.—Wolverhampton, England. Mfrs. steam automobiles (Turner-Miesse).

Turrell & Co., H. M.—17-19 Jefferson St., Waterbury, Conn. (Rambler.)

Turrell, Frank.—Asst. Supt. Auburn Auto Co., Auburn, Ind.

Turtle-deck.—See Deck, Turtle.

Tuthill, Frank H.—Pres. Tuthill Spring Co., 215 W. Polk St., Chicago, Ill.

Tuttle, D. M.—Pres. D. M. Tuttle Co., Canastota, N. Y.

Tuttle Co., D. M.—Canastota, N. Y. Mfrs. gasoline motors and motor-boats. Cap. \$60,000. Est. 1897. D. M. Tuttle, Pres.; W. H. Tuttle, Sec. and Treas.; J. B. Holden, Head of Motor Dept.; A. E. Scofield, Hd. Launch Dept.

Tuttle Mfg. Co.—South Norwalk, Conn. Mfrs. motor-boats.

Tuttle, W. H.—Sec. and Treas. D. M. Tuttle Co., Canastota, N. Y.

Tuxedo Garage Co.—33 E. 58th St., New York City. Garage.

Tweedy, O. S.—Treas. Ventilated Cushion & Spring Co., Jackson, Mich.

Twentieth Century Mfg. Co.—19 Warren St., New York City. Mfrs. lamps. Cap. \$100,000. Est. 1897. Mem. M. & A. M. W. J. Crary, Pres. and Treas., and James N. Quakenbush, Sec.

Twentieth Century Motor Car Co.—121-125 S. Lafayette St., South Bend, Ind. (Buick.) Est. 1895. M. L. Williams, Prop. Mfrs. folding wind shields; also transmission bearings. Garage, 100 cars. Repairing.

Twenty-ninth St. Automobile Station.—95-7 29th St., Chicago, Ill. Repairing.

Twenty-second St. Garage.—Toledo, O. (Ford.)

Twin-screw.—See Screw; Twin.

Twining Auto Co.—218 N. Broad St., Philadelphia, Pa. Mfrs. motorcycles.

Twining Co., Thos. W.—326 N. Broad St., Philadelphia, Pa. (Crawford, Marion.)

Twist-drill.—The same as auger-bit.

Twist-gear.—See Gear, Screw.

Two-cycle.—See Cycle.

Two-throw Crank-shaft.—See Crank-shaft.

Two-to-one Gear.—See Gear, Two-to-one.

Twyford Motor Car Co.—Brookville, Pa. Mfrs. gasoline automobiles.

Tygar, James W.—920 South Ave., Plainfield, N. J. Garage.

Tyler & Sons.—Belle Isle, King's Cross, London, N., England. Mfrs. carburetters.

Tyler & Sweezy.—Junction City, Kan. (Rambler, Premier.)

Tyler, A. W., Jr.—Chief Draughtsman and Inspector Muncie Auto Parts Co., Elliott St. and L. E. and W. Yards, Muncie, Ind.

Tyler Co., W. S.—1158 St. Clair St., Cleveland, O. Mfrs. horn screens.

Tyler, F. W.—Chester, Conn. Garage.

Typhonoid Screw.—See Screw, Typhonoid.

Tyrone Motor Car Co.—Tyrone, Pa. (Rapid.)

Tyrrell, Geo. H.—2639 Webster Ave., New York City. Garage.

U

U-Section.—A cross-section shaped like a flat-bottomed U.

Ulrich & Co.—Buffalo, N. Y. Mfrs. metal polish.

Ultimate Strength.—The total load which is necessary to break a structure or a given piece of material.

Unbuilding.—The demagnetization of the field magneto of a dynamo or motor.

Uncas Specialty Co.—21 Shipping St., Norwich, Conn. Member M. & A. M. Cap. \$50,000. Est. May 21, 1905. F. W. Browning, Pres.; F. S. Jerome, Vice-Pres.; B. F. Leavitt, Sec. and Treas. New York City office, 1691 Broadway.

Underberg et Cie., E.—rue de Coulmiers, Nantes, France. Mfrs. marine motors.

Underhay Oil Co.—275 Franklin St., Boston, Mass. Mfrs. oils.

Underhill, Benj.—Gen. Mgr. Pierson Motor Supply Co., 1175 Bedford Ave., Brooklyn, N. Y.

Underslung Battery.—See Battery, Underslung.

Underwood, Chas. R.—Pres. Central Motor Car Co., Bloomfield, N. J.

Uniform Steel Co.—Newark, N. J. Mfrs. steel castings.

Union.—A fitting whereby two pieces of pipe can be connected and be easily disconnected without unscrewing the pipe.

Union Auto Co.—Washington, D. C. (Elmore.)

Union Auto Co.—Bulls Ferry Rd. and Main St., Union Hill, N. J. (National, Rambler.)

Union Auto Co.—1651 Elk St., Bellingham, Wash. (Winton, Cadillac, Auto-car.)

Union Auto Garage Co.—35 S. College St., Akron, O. (Buick, Pope-Toledo, Thomas Flyer.)

Union Automobile Co.—521 Homewood Ave., Pittsburg, Pa. (Panhard, Renault.)

Union Automobile Co.—Homewood, Pa. Garage.

Union Automobile Co.—33 Grant Square, Brooklyn, N. Y. Garage.

Union Automobile & Supply Co.—Plainview, Tex. (Pope-Hartford.)

Union Bow Co.—421 Superior Ave.,

N. W., Cleveland, O. Mfrs. bows of all kinds.

Union Carbide Co.—Michigan Ave. and Adams St., Chicago, Ill. Mfrs. carbide.

Union City Body Co.—Factory, West Pearl St., Union City, Ind. Mfrs. automobile seats and bodies. Cap. \$10,000. Est. 1903. A. R. Bell, Pres. and Treas. C. C. Adelsperger, Sec.

Union County Automobile Association.—W. H. P. Veysey, Sec., Plainfield, N. J.

Union Drawn Steel Co.—Beaver Falls, Pa. Mfrs. steel.

Union Drop Forge Co.—64-76 E. Ohio St., Chicago, Ill. Mfrs. drop forgings.

Union Garage.—784-86 Union St., Brooklyn, N. Y. Garage.

Union Garage.—Pasadena, Cal. (Ford.)

Union Garage Auto Co.—St. Louis, Mo. (Rauch and Lang.)

Union Electric Light & Power Co.—3920 Morgan St., St. Louis, Mo. (Rauch and Lang, Studebaker, Columbia.) Cap. \$10,000,000. W. V. N. Powelson, Gen. Mgr.; Chas. E. Michel, Head of Automobile Dept. Garage, 52 cars. Repairing.

Union Steam Pump Co.—Battle Creek, Mich. Mfrs. boilers, fuel and air pumps.

Union Steel Screw Co.—Cleveland, O. Mfrs. bolts, nuts, screws.

Unique Metal Co.—25 Illinois St., Buffalo, N. Y. Mfrs. red and yellow brass, phosphor and manganese bronze, copper and aluminum. Cap. \$10,000. Est. 1904. W. G. Grove, Sec. and Treas.; P. M. White, Pres.; Chas. Dutcher, Gen. Mgr.

Unit.—A selected quantity, the amount of which is fixed and invariable, used as a standard of comparison in stating or determining the amounts or values of other quantities of the same nature. The fundamental units generally chosen are those of "length," "mass" and "time." From these are obtained "derived units." The chief units in mechanics, and their symbols, are "velocity" (V); "acceleration" (A); "force" (F); and "work" (W).

Unit of Heat.—See Calorie.

Unit of Work.—See Work.

United Mfg. Co.—175 Woodbridge St., Detroit, Mich. Mfrs. gasoline automobile and marine motors.

United Motor Car Co.—6112 Euclid Ave., Cleveland, O. (Dragon.)

United Motor Industries, Ltd.—Sherbourne Works, Coventry, England. Mfrs. storage batteries, electric horns, spark plugs, goggles, coils.

U. S. Jack Co.—128-30 W. Lake St., Chicago, Ill. Mfrs. automobile jacks and tire tools. Cap. \$2,500. Est. 1904. A. J. Oliver, Pres.; J. W. O'Leary, Sec. and Treas.

U. S. Cast Iron Pipe & Foundry Co.—280 Box Ave., Buffalo, N. Y. Mfrs. iron pipe.

U. S. Steel Products Export Co.—203 Ellicott Sq., Buffalo, N. Y. Mfrs. steel.

United States Aluminum Castings Co.—Hamilton and Vandalia Aves., Cincinnati, O. Mfrs. aluminum and brass, bronze, aluminum and copper castings.

United States Aluminum Co.—Pittsburg, Pa. Mfrs. aluminum, brass, bronze, aluminum and copper castings, dashes and fenders.

United States Automobile Co.—21-29 Plymouth Ave., nr. Main St., W., Rochester, N. Y. (Locomobile, Stevens-Duryea, Pierce Arrow, Stearns.) Supplies; garage; repairing.

United States Battery Co.—New Rochelle, N. Y. Mfrs. storage batteries.

United States Bronze Co.—149 Columbus St., Cleveland, O. Mfrs. aluminum, brake bands, brass, bronze, aluminum and copper castings, Babbitt and bronze metals, aluminum solder.

United States Coil Co.—Jersey City, N. J. Mfrs. spark coils and plugs.

United States Dash & Fender Co.—147 E. 42nd St., New York City. Mfrs. automobile tops.

United States Electro-Galvanizing Co.—1-9 Park Ave., Brooklyn, N. Y. Galvanizing.

United States Emergency Case Co.—Utica, N. Y. Mfrs. medical emergency cases.

United States Fastener Co.—95 Milk St., Boston, Mass. Mfrs. curtain fasteners.

United States Graphite Co.—Saginaw, E. S., Mich. Mfrs. graphite, grease.

United States Indestructible Gasket Co.—16 S. William St., New York City. Mfrs. corrugated and plain copper, lead, steel, bronze, etc. gaskets of every size, shape and thickness.

United States Industrial Alcohol Co.—100 Williams St., New York City. Mfrs. denatured alcohol.

United States Mineral Wool Co.—140 Cedar St., New York City. Mfrs. gaskets.

United States Tube and Iron Co.—Pittsburg, Pa., Mfrs. wrought iron and steel pipe.

United Wire & Supply Co.—109-19 Summer St., Providence, R. I. Mfrs. brass and copper tubing, seamless and brazed;

silver solder for brazing. Cap. \$2,000,000. Est. 1901. Chas. Sydney Smith, Pres.; Wm. B. Gladding, Vice-Pres.; Henry E. Smith, Treas.; A. J. Stillman, Asst. Treas.; Henry T. Smith, Gen. Mgr.; Chas. M. Holmes, Asst. Gen. Mgr.

Universal Clutch Co.—226 S. 11th St., Philadelphia, Pa. Mfrs. clutches.

Universal Coupling.—See Joint, Hooke's.

Universal Cross.—See Cross.

Universal Electric Storage Battery Co.—108 La Salle St.; Factory, 36-38 Union Park Place, Chicago, Ill. Mfrs. train lighting, vehicle and ignition batteries. Cap. \$600,000. Est. 1905. A. F. Callahan, Pres.; H. B. Spencer, Vice-Pres.; J. S. Burnet, Sec. and Treas.; W. Bentley, Supt., and Edward Sokal, Chief Chemist.

Universal Joint.—See Joint, Universal.

Universal Tire Repair Co.—1900 Broadway, New York City. Vulcanizing.

Universal Tool Co.—54 Taylor St., Springfield, Mass. Mfrs. tools.

University Auto Co.—30 Carlton Pl., Rochester, Pa. (Mitchell.)

University Garage Co.—St. John and Olive Sts., New Haven, Conn. Supplies; garage. (Wayne.)

University Place Garage.—Washington Sq., New York City. Garage.

Unkrich, Fred.—Schaefer Block, Galion, O. Garage.

Unterberg und Helme.—Karlsruhe, Germany. Mfrs. high tension magnetos.

Unwin, Harry.—Salesman Peerless Motor cars. B. Cambridge, England, June 4, 1868. Ed. Cambridge, England. Res., 664 Laurel Ave., Bridgeport, Conn. Office, Bridgeport, Conn. In the trade since Jan. 15, 1902. During 1902-3 Sec. N. A. A. M. Handled export business at Detroit for Olds Motor Works. Had New York agency for Pierce Arrow. New York Sales Mgr. White cars 1906.7.

Updike, C. Ora.—145 E. Main St., Lexington, Ky. (Rambler.) Est. 1901. Garage, 20 cars. Repairing.

Upham Co., U. J.—Duluth, Minn. (Waltham.)

Upper Automobile Co.—35 Clifford St., Providence, R. I. Garage.

Upper-works.—The side of a vessel's hull from the water-line to the covering-board.

Upsetting.—The shortening or thickening of metal by end compression, either by hammering or machinery. (2) Spreading the teeth of a saw.

Upton Bolt & Nut Co.—Cleveland, O. Mfrs. bolts, nuts and washers.

Uptake.—A term applied to that portion of a steam boiler arrangement through which the hot gases pass before making their entrance into the atmosphere.

Upthegrove Sporting Goods Co.—Val-

paraiso, Ind. Mfrs. miscellaneous wearing apparel.

Up-to-date Garage.—1141 1st St., San Diego, Cal. (Réo.)

Upton, King.—Pres. Helios Mfg. Co., Bridesburg, Philadelphia, Pa.

Ure & Co., John, Jr.—172 12th St., Milwaukee, Wis. (Marmon.)

Urich, Harry C.—Treas. Reading Metal Body Co., Reading and Fleetwood, Pa.

Urling, Geo. A.—Treas. Hiland Automobile Co., 5811-17 Center Ave., Pittsburgh, Pa.

Urquhart, A. S.—Calgary, Alta, Can. (Matheson, Northern.)

Urquhart, W. J.—Mgr. Chicago Branch The White Co., 240 Michigan Ave., Chicago, Ill.

Urquiza, M. M.—Queretaro, Mex. (Holsman.)

Usine Fulminator.—Saventhem, Belgium. Mfrs. coils.

Usines de Puteaux Société Anonyme.—4 rue de Paris, Puteaux, Seine, France. Mfrs. gasoline commercial automobiles. (U. D. P. X. trucks.)

Usines de Sainte-Marie et Gragny Société Anonymes des.—Gragny, Eure, France. Mfrs. metallic rims.

Usines de Saventhem.—Saventhem-lez-Bruxelles, Belgium. Mfrs. marine motors.

Usines et Fonderies de Baume et Marent.—Haine-Saint-Pierre, Belgium. Mfrs. gasoline automobiles.

Usines Jackson.—Halluin, Nord, France. Mfrs. pneumatic tires.

Utah Automobile Co.—57 Market St., Salt Lake City, Utah. (Pope-Toledo.)

Utermöhle Gesellschaft, J. W.—Köln, Germany. Mfrs. gasoline automobiles.

Utica Automobile Station.—22-24 W. Utica St., Buffalo, N. Y. Supplies; garage; repairs.

Utica Cycle Co.—21 Columbia St., Utica, N. Y. (Rambler.)

Utica Drop Forge & Tool Co.—75 Genesee St., Utica, N. Y. Mfrs. nippers and pliers. Est. 1895. Wm. Pierrepont White, Pres.; H. F. Kellemen, Vice-Pres.; Hugh White, Sec. and Treas. New York Office, 108 Duane St., New York City.

Utica Foundry Co.—Utica, N. Y. Mfrs. gray iron castings.

Utica Motor Car Co.—333 Bleecker St., Utica, N. Y. (Buick, Peerless, Pierce Arrow, Thomas Flyer, Baker, Cadillac, Darracq.) F. P. Miller, Pres.; E. J. Otis, Vice-Pres.; H. H. Mundy, Treas.; A. B. Maynard, Gen. Mgr. Garage; repairs; supplies.

Utica Steam Engine & Boiler Works.—Utica, N. Y. Mfrs. gray iron castings.

Utility Co., The.—233 Greenwich St., New York City. Mfrs. hand soap and tire-irons.

Utz, J. G.—Designer E. R. Thomas Detroit Co., 2704-2718 Jefferson Ave., Detroit, Mich.

V

V.—Symbol for "vanadium."

V.—Symbol for (1) "velocity"; (2) "volume"; (3) potential difference or "electromotive force."

V-shaped Belt.—See Belt.

V-shaped Motor.—See Motor.

Vaala & Natwig.—Saude, Ia. (Holzman.)

Vachon, Louis A.—1209 Center St., Newton Center, Mass. Garage.

Vacuum.—Theoretically, an empty space, containing no matter whatever. In practice the term is applied to a space containing gas at a very low pressure.

Vacuum-pump.—The same as air-pump.

Vacuum Oil Co.—Rochester, N. Y. Mfrs. oils.

Vadon, C.—17 rue du Musée, Lyon, France. Mfr. non-skids.

Vale, Harry M.—736 Broad St., Beloit, Wis. (Rambler.)

Valentine & Co.—257 Broadway, New York City. Mfrs. paints, varnishes.

Vallade et Cie.—116 Bvd. Pereire, Paris, France. Mfrs. automobile motors.

Vallée, V.—23 passage Menilmontant, Paris, France. Mfr. acetylene lamps.

Vallejo Auto Exchange.—P. O. 427 Vallejo, Cal. Garage.

Valley Automobile Co.—133 E. Market St., Warren, O. (Cadillac, Baker, Pope-Hartford, Pope-Toledo.)

Valve.—A device for closing a pipe or passage in order to control, or entirely stop, the flow of a liquid or gas. Valves, as regards motion relative to their seat, may be divided into three classes, viz.: (1) rotary valves, which rotate in opening, as the throttle-valve; (2) lifting valves, which rise perpendicularly, or nearly so, as the poppet-valve; and (3) sliding valves, which open by moving parallel with their seat, as the D-valve. Valves are of various types, and are sometimes named from their form, as "ball-valve," "needle-valve," "D-valve," "mushroom-valve," etc.; and sometimes from their functions, as "check-valve," "slide-valve," "rotary-valve," "safety-valve," etc.

Valve, Admission or Inlet.—In a gas-motor, the valve through which the explosive mixture is admitted to the cylin-

inder. Inlet-valves are of two kinds,

Fig. 1

automatic and mechanical. The former C (Fig. 1) is opened by the vacuum due to the descent of the piston and is afterwards closed by the spring, R, while the opening of the latter, C (Fig. 2), is effected by mechanical means, that universally adopted being a push-rod, T, controlled by a cam, C, working on a short shaft revolving at half the velocity of the crank shaft and termed a "half-speed shaft."

Valve, Air.—A valve for admitting air to relieve the pressure in a steam-boiler when the steam is allowed to condense.

Valve, Air, Automatic.—A valve for maintaining an even quantity of the gaseous mixture in the carburetter as the motor speeds up or slows down. This it does by automatically opening and closing to admit more or less air as it is needed.

Valve, Annular.—A valve consisting of numerous ring-like heads which rest in corresponding ring-like openings.

Valve, Auto-mechanical.—An inlet-valve used on the Duryea cars, which operates partly mechanically and partly automatically, and which is so constructed as to open when the pressure in the cylinder falls to atmospheric pressure, by the removal of the pressure of the spring against which all other types of automatic valves have to open.

Valve, Balloon.—A valve from one to three feet in diameter consisting of two semi-circular flaps of strong wood which are hinged to a support forming a diameter of a circular frame, and which open inward, and are kept closed by the upward pressure of springs. The valve is

Fig. 2

opened by pulling what is called the "valve-line," a rope that descends to the car through the neck of the balloon. An improved valve, devised by M. Giffard, consists of a metallic disk four feet in diameter pressed against a wooden hoop by sixteen steel springs. It is opened by pulling the valve-line, which is attached to the center.

Valve, Ball.—A check-valve in which a ball, C (see figure), is mounted in a cage, B, and fits on a seat. The ball will seat, no matter how much it may be turned or moved, since its form causes it to seat equally well in any position. See Check-valve.

Valve-box.—A valve-chamber, q. v.

Valve, Bucket.—The valve in the piston of a suction-pump.

Valve, Butterfly.—A valve (see figure) consisting of two leaves, A and B, hinged to a rod, pivoted in a tube, C, and designed to reduce or diminish its section, and consequently the flow of gas through it. "Butterfly-valves" are frequently employed in carbureters to throttle the admission-pipes which supply the explosive mixture to the motor.

Valve-cage.—A frame-work, grating or box to prevent the escape of a valve-ball.

Valve-cam.—One of the cams which lifts the push-rod of an inlet or exhaust-valve.

Valve-cap.—A cover for protecting the inlet and exhaust-valves of a motor.

Valve-chamber.—The space or chamber in which a valve works, a continuation of the combustion-chamber itself, on a gasoline motor.

Valve, Check.—A valve which allows a flow of gas, air or fluid through it in one direction, but prevents any flow in the opposite direction. Among the forms of check-valve in automobile use are the ball-valve and the tire-valve.

Check-valves are called also "clack-valves," or "non-return valves."

Valve, Clack.—A flap or hinged valve, such as that of a pump.

Valve, Cut-off.—A valve that cuts off the entrance of steam to a cylinder before the piston reaches the end of its stroke.

Valve, Cut-out.—

A valve placed in the exhaust-pipe between the motor and muffler whereby the exhaust can be turned directly into the atmosphere without passing

through the muffler.

Valve, D.—A short slide-valve having the form of a D.

Valve-disk.—See Disk, Valve.

Valve, Drop.—A type of valve, called also a "swing valve," from the drop or flap, B (see figure). This drop is made of brass and is so turned that its shoulder fits closely to the edge of the bore. The drop swings on a lever, the top of which is pivoted to a stud, H. The pressure of the gasoline, water, steam or other fluid keeps the flap open, and when it ceases the latter falls. The inlet pressure is in the direction of the arrow.

Valve, Electric.—See Rectifier.

Valve, Exhaust.—A mushroom-valve with a conical seat (operated once in every two revolutions) to allow the escape of the exploded charge in a gasoline motor. The figure represents the exhaust-valve of such a motor. It consists of a "head," A, prolonged by a "stem," B, and which rests on a "seat," C, formed in the explosion-chamber of the motor and cooled by a circulation of water in the jacket, F. The valve-edge and seat are beveled so as to make an accurate fit. The valve is frequently made of nickel-steel, a metal which resists, without deformation, the high temperature (approaching dull red) of the exhaust-gases. Sometimes, the head alone is of nickel-steel, or even of pure nickel, and the steel stem is riveted to it. More rarely, the whole is of pure nickel. Below the valve there is a cavity, D, into which debouches the exhaust-pipe, E.

A screw-plug, K, situated above, permits of reaching the valve in order to dismount or grind it. The stem passes through a guide, G, of phosphor-bronze or of Siemens-Martin steel, screwed into the explosion-chamber, D. The spring, H, bears, on the one hand, against the guide, and, on the other, against a cup, I, held by a key. The valve, on lifting, uncovers an annular space beneath it for the passage of the gases, which flow, by D, through the tubulure, E. In order to

insure a maximum section, the valve should have a lift of $\frac{1}{4}$ of its smallest diameter.

Valve, Flap.—The same as Clack-valve, q. v.

Valve, Foot.—The valve at the bottom of a pump-barrel.

Valve, Gate.—A type of lift-valve consisting of a conical plug which is seated or unseated by turning its threaded stem by means of a hand wheel.

Valve-gear.—The mechanism which operates the valves of an engine.

Valve, Generator.—The same as mixing valve, q. v.

Valve, Globe.—A form of valve usually placed in a gasoline tank, to shut off gasoline from the carburetter.

Valve - gridiron.—A slide-valve provided with numerous cross-bars operating over many ports, so that a large area or opening with a minimum of motion may be secured

Valves, Grinding of.—See Grinding in.

Valve, Ignition.—See Ignition.

Valve, Induction.—The same as Inlet Valve, q. v.

Valve, Inlet.—A mushroom-valve which admits the explosive mixture into the combustion-chamber of a gasoline motor. It may be automatic or mechanical. There is another type of inlet-valve called a three-port inlet valve and consisting of three small atmospheric valves grouped within a circle. It is claimed that by such valves greater power is obtained.

Valve, Intake.—The same as Inlet and Admission-valve.

Valve, Lapped.—A slide-valve with a lap. See Lap.

Valve, Leaf.—The same as Flap Valve.

Valve, Lift.—A check-valve in which the plug is lifted by the pressure of a fluid entering from below, and which drops upon its seat and closes the opening as soon as the pressure ceases.

Valve-lifter.—A device for lifting a poppet-valve off its seat, when, for any reason, such an operation becomes necessary. (2) A valve push-rod, q. v.

Valve-line.—A rope attached to a balloon-valve, and used for opening it.

Valve, Lip.—Same as Poppet-valve.

Valve, Magnetic.—A valve (usually a poppet-valve) operated by the attraction of a magnet.

Valve, Mixing.—A device, called also a "generator valve," for carburetting gasoline for use in a gasoline motor. It differs in constructional details from a carburetter. See Carburetter.

Valve, Mushroom.—A conical-seated valve having a mushroom-shaped head provided with a stem and having an axial lift. It is the usual type of valves in explosion motors. See Valve, Poppet.

Valve, Needle.—A pointed rod, P, of metal (see figure), attached to the float, F, of a carburetter, and the point of which exactly fits into a suitably shaped hole, which it opens or closes by its motion. On steam-cars needle-valves are used for regulating the supply of oil to the burners.

Valve, Non-return.—The same as Check-valve.

Valve, Piston.—A valve consisting of a piston-like head which opens and closes ports by sliding to and fro past them.

Valve-pocket.—A passage at one side of the cylinder-head in which the inlet and exhaust-valves are placed.

Valve, Pop.—A steam carriage safety-valve, supposed to be so-called because the steam in lifting the valve from its seat usually makes a "pop" or sudden detonation, but merely an abbreviation of "poppet-valve," q. v.

Valve, Poppet.—A disk valve, called also "puppet-valve," "pop-valve," "potlid," "pot-valve," "mushroom" and "tappet-valve," borne on a stem and having a motion in a line with its axis.

Valve, Pot.—The same as Pop-valve.

Valve, Pressure.—A valve through which the pressure of the exhaust gas is used to feed gasoline to the carburetter, or oil to the sight-feed lubricators.

Valve Push-rod.—See Push-rod.

Valve, Reducing.—A valve which keeps the steam or gas pressure on its outlet side constant, notwithstanding the pressure on the other side is in excess of the required amount.

Valve, Regulator.—The same as throttle-valve.

Valve, Relief.—A valve to release the liquid air or gas from a vessel or pipe when it exceeds a given pressure. A safety-valve is a relief-valve used on steam-boilers. It is usually kept on its seat by a spring set at a determinate pressure. When this is exceeded, the valve lifts.

Valve-rod.—A name frequently applied to a valve-stem (q. v.); used in steam engineering by preference.

Valve, Rotary.—A valve, the partial or

entire rotation of which alternately uncovers or covers ports communicating with the source of power and the exhaust of an engine. It is used in the Corliss and Greene type of steam-engine and the Duryea type of gasoline motor.

Valve, Safety.—A valve of ordinary construction so arranged as to close a steam-pipe outlet under pressure of the weight or spring. The safety valves used on steam-cars are constructed on the same general principles as the spring valves used on locomotive or other boilers.

Valve, Screw.—A stop-cock of which the valve is actuated by a screw.

Valve, Screw-down.—A valve of which the stem has a thread by which it may be screwed down to its seat.

Valve-seat.—The edge of a port against or upon which a valve rests when closed.

Valve, Segment.—A steam-engine valve of which the seating surface is a portion of a cylinder.

Valve, Slide.—A sliding cut-off particularly employed in the distribution of steam engines. It is sometimes used as a regulating valve in pipes, as, for example, in carburetters.

Valve, Snifting.—An air-valve connecting with a cylinder in a steam-engine.

Valve, Spindle.—A valve, the motion of which is guided by a rod fixed to the movable portion and running through bearings.

Valve-spindle.—Same as valve-stem, q.v.

Valve-spring.—A compression spring that holds an inlet or exhaust valve to its seat.

Valve, Steam.—Any valve for controlling the flow of steam.

Valve-stem.—The rod, called also a spindle, to which a valve is attached, and through which it is operated.

Valve, Swing.—Same as drop valve.

Valve, Tail.—An air-pump valve in one form of condenser, opened by the steam entering the condenser, but closed by atmospheric pressure when a partial vacuum exists in the condenser. (2) A snifting-valve.

Valve, Tappet.—Same as poppet-valve.

Valve, Throttle.—See Throttle and Butterfly-valve.

Valve, Tire.—A non-return valve (see figure) allowing air to be pumped into a pneumatic tire, and preventing its return.

Valve, Trap.—The same as check-valve, q.v.

Valve-truer.—A tool by means of which the angles of valves can be re-turned by hand ready for grinding in.

Valve, Vacuum.—A reversed safety-valve opening inwardly by the pressure of the air when there is a negative pressure in the boiler.

Valve, Wing.—A valve provided with projections to guide it into its proper position.

Valvoline Oil Co.—11 Broadway, New York City. Mfrs. oils.

Vanadium.—A rare element coming between phosphorus and arsenic in the Periodic System. Atomic weight 51.2. In its physical properties it resembles a metal, but its chemical properties are those of a non-metal. It is obtained by reducing the dichloride in hydrogen at a bright red heat. So prepared, it is a crystalline grayish-white powder, which melts at 3035° F., and has a specific gravity of 5.5. The element is widely distributed, but always in small amounts, and apparently always in the form of vanadates.

Vanadium Steel.—See Steel, Vanadium.

Van Allen, W. C.—Mechanic St., Boonton, N. J. (Reo, Cadillac.)

Van Amberg, C. E.—118 N. Front St., Kingston, N. Y. (Maxwell.)

Van Auken-Cleavage Co.—Yonkers, N. Y. Mfrs. gasoline automobile motors.

Van Automobile Co.—4706 Washington Ave., St. Louis, Mo. (Cleveland, Stoddard-Dayton, Marmon.)

Van Benschoten, John.—273 Main St. and 14 Catherine St., Poughkeepsie, N. Y. (Mitchell, Thomas Flyer, Stevens-Duryea, Pope-Waverley, Pope-Hartford, Lozier.) Garage; repairing; supplies.

Van Bilderbeck, H. W.—Jacob Van Campenshstraat 54, Amsterdam, Holland. Mfr. pneumatic tires.

Van Brunt, Henry H.—Pres. Henry H. Van Brunt Co., Sioux Falls, S. Dak.

Van Brunt Co., Henry H.—Sioux Falls, S. Dak. (Richmond.) Est. 1903. Cap. \$50,000. Henry H. Van Brunt, Pres.; Jno. P. Bleeg, Sec. and Mgr.

Vance, D. T.—Plumtree, N. C. Mfr. cut mica, sheet mica, mica washers.

Vance, Geo. B.—Gen. Mgr. The Turner Brass Works, Sycamore and Illinois Sts., Chicago, Ill.

Vancouver Auto & Bicycle Co.—Vancouver, Canada. (Oldsmobile.)

Vandecar Auto Co., W. D.—157 Ottawa St., Grand Rapids, Mich. (Reo, Glide.) Est. 1905. Cap. \$10,000. W. D. Vandecar, Gen. Mgr. Garage; 20 to 25 cars; repairing.

Vandegrift Automobile Co.—13th and Cumberland Sts., Philadelphia, Pa. Mfrs. gasoline automobiles.

Van den Plas.—6 rue des Drapiers, Brussels, Belgium. Mfrs. bodies.

Vanderbeek Tool Works.—Hartford, Conn. Mfrs. tools, universal joints.

Vanderbilt, H. M.—Suffern, N. Y. (Haynes.)

Vanderbilt, William Kissam, Jr.—Donor of the Vanderbilt Cup and member of the Van-

derbilt Cup Commission; president of the Long Island Motor Parkway, Inc. B. 1878. Drove a racing car in Europe and America with considerable success in the early and middle '90s, and has long been prominently

identified with the sport and pastime of automobiling. In 1904, at the Ormond-Daytona Beach races, he made one mile in 39 seconds and established records, at that time, for 5, 10, 20, 30, 40 and 50 miles.

Vandergrift Automobile Club.—E. L. Hoofring Sec., 172 Franklin Ave., Vandergrift, Pa.

Vandergrit Mfg. Co.—Shelbyville, Ind. Garage.

Vanderslice, C. M.—185 Hanover St., Pottstown, Pa. (Cadillac.)

Vandervelde.—36 rue des Foulons, Gand, Belgium. Mfr. motorcycles.

Vandervell & Co., C. A.—Warple Way, Acton Vale, London W., England. Mfrs. storage batteries.

Vanderwerf, J. W.—Vice-Pres. Nungesser Electric Battery Co., 3519 King Ave., Cleveland, O.

Vandever & Co., H. W.—807 Market Pl., Wilmington, Del. (Pope-Hartford.)

Van Dervoort, W. H.—Pres., Gen. Mgr., Designer and Purch. Agt. Moline Auto Co., East Moline, Ill.

Van Dorn & Dutton Co., The.—2714 E. 79th St., Cleveland, O. Mfrs. cut gears and gear cuttings. Cap. \$150,000. Est. 1897. J. H. Van Dorn, Pres.; F. Schneider, Vice-Pres.; W. H. Dutton, Sec. and Treas.

Van Dorn, Fred H.—31 E. Front St., Redbank, N. J. Garage.

Van Dorn J. H.—Pres. The Van Dorn & Dutton Co., 2714 E. 79th St., Cleveland, Ohio.

Van Duzen Kehm Motor Car Co.—Birmingham, Ala. (Rambler, Reo.)

Van Dyke, R. B.—Asst. Vice-Pres. American Locomotive Automobile Co., Providence, R. I.

Vane.—A plate, arm or blade projecting from an axis in order that it may be acted on by a moving current of air, water, etc., as in the case of a fan, centrifugal pump, etc.

Van Fenen & Co.—Billings, Mont. (Winton.)

Van Fleet Mfg. Co.—Joliet Ill. (Atlas.)

Van Horne, Chas.—Advt. Mgr. Jackson Automobile Co., Jackson, Mich.

Van Horn, Grant.—Findlay, O. Garage.

Van Hovenberg, Henry.—Engineer Adirondack Auto Co., Lake Placid, N. Y.

Van Kattengell, Edw.—Monmouth St. and Maple Ave., Redbank, N. J. Garage.

Vanlaethem, L.—4 rue du Débarcadère, Paris, France. Mfr. carbureters.

Van Leer, B. C.—Sec., Treas. and Hd. automobile supplies, etc., Keiser, Van Leer Co., 505-7 N. East St., Bloomington, Ill.

Van Meter, H.—Glen Ellen, Cal. (Wal-tham.)

Van Ness Garage.—Rear Van Ness House, Burlington, Vt. (Reo, Premier, Rapid.)

Van Nieuwenhoven und de Clerq.—376 rue Longue-d'Argile, Anvers, Belgium. Mfrs. motorcycles.

Vanpelt Auto Co.—26 S. Van Pelt, Philadelphia, Pa. Garage.

Vanse, W. A.—Officer The Quad Mfg. Co., 37 S. Scioto St., Columbus, Ohio.

Van Sicklen, Norton Harding.—B. La Fayette, Ind., Feb. 9, 1864. Ed. 2 yrs. public school. Mem. Clubs: Chicago A. C., Chicago Motor, Chicago Athletic Ass'n., South Shore Country, Fox River Country. Res., St. Charles, Ill. Used first car 1904. Formerly published Motor Age, The Bearings and The L. A. W. Bulletin. Recreations: Bicycling, automobiling.

Van Sicklin, W. L.—Sec. and Treas. Bailey Automobile Co., Birnie Ave., Springfield, Mass.

Vanstone, W. A.—Bridgeport, Conn. (Knox.)

Van Wart's Garages.—Van Brunt St. and 46 Palisade Ave., Englewood, N. J. (Reo, Maxwell, Studebaker, Crawford.) Est. 1903. Garage, 40 cars; repairing.

Van Wye, John E.—Willis, O. (Maxwell.)

Van Zandt, R.—Mgr. Los Angeles Branch Geo. P. Moore Co., Inc., 1005 S. Main St., Los Angeles, Cal.

Vapor.—An elastic fluid produced by liquid or solid bodies, at the ordinary temperatures and under atmospheric pressure. The passage of such bodies into a gaseous state constitutes vaporization. It takes place at every temperature with the majority of liquids, as well as with some solids which sublime before they liquefy (such as iodine, camphor, etc.). An ordinary liquid is vaporized in two different ways: by evaporation or slow production of vapors at the surface when it is abandoned to the open air; and "ebullition" or intense production of bubbles of vapor in the midst of the heated liquid. Under a given pressure, ebullition takes place in every liquid, at a constant temperature, its

temperature of ebullition, which may serve in certain cases to characterize it. At atmospheric pressure the temperature of ebullition of pure water is 212° F. or 100° C. Generally speaking, the boiling temperature is such that the maximum elastic force of the vapor is equal to the pressure which is exerted at the surface of the liquid (in the preceding case, at atmospheric pressure).

Vaporization.—The conversion of a liquid or solid body into a vapor, with or without the intervention of heat.

Vaporizer.—The same as "mixing valve." See Valve, Mixing, and Car-burette.

Vaporizer, Check-valve.—The same as generator-valve, q. v.

Vaporizer, Coil.—See Coil-vaporizer.

Vaporizing-nozzle.—The same as spray-nozzle. See Nozzle, Spray.

Varley, W. P.—Van Brunt St., Englewood, N. J. (Franklin.)

Varney, F. L.—Foreman of Rep. Shop and Stock Clerk Long Beach Auto Co., 142 Pacific, Long Beach, Cal.

Varney, W. M.—Prop. and Mgr. Long Beach Auto Co., 142 Pacific, Long Beach, Cal.

Varnish.—A transparent liquid composed mainly of oil, gum and turpentine. applied with a brush and giving a hard, glossy surface.

Vaseline.—A gelatinous, translucent, unctuous substance derived from crude petroleum and popularly known as "petroleum jelly." It is used as a lubricant and for preserving leather, etc. It is distinguished commercially as "red," "blonde" and "white."

Vauxhall Motors, Ltd.—Luton, England. Mfrs. gasoline automobiles (Vauxhall cars).

Veal, S. H.—Sec. and Purch. Agt. Cleveland Motor Car Co., Cleveland, O.

Védrine et Cie., A.—7 quai de Seine, Coubevoie, Seine, France. Mfrs. bodies.

Védrine, Société Anonyme des Voitures Electriques.—59 boulevard du Chateau, Neuilly, France. Mfrs. electric automobiles (Védrine cars).

Veeder, Curtis Hussey.—Pres. Veeder Mfg. Co. B. Allegheny, Pa., Jan. 31, 1862. Ed. Plattsburg, N. Y. high school, Lehigh University; graduated in 1886 with the degree of M. E. Vice-Pres. Post & Lester Co. Mem. Am. Soc. Mech. Eng., Franklin Inst., Am. Ass. Adv. Sci., Am. Geo. Soc., Nat. Geo. Soc., Am. Forestry Ass., League Am. Wheelmen since 1881, A. A. A., A. M. L., Aero C. A., Hartford, Musical Club of Hartford, University of Hartford, Laurentides Fish and Game Club of Quebec. Res., 40 Willard St., Hartford, Conn. Office, 20 Sargeant St., Hartford, Conn. In the trade since 1900. Used first car ("Mobile") in 1900. Rec-

reations: Bicycling, automobiling, trout fishing.

Veeder Mfg. Co.—Cor. Garden and Sargeant Sts. Hartford, Conn. Mfrs. cyclometers, odometers, tachometers, tachodometers, counters, fine castings. Member M. & A. M. Cap. \$12,000. Est. 1895. C. H. Veeder, Pres.; D. J. Post, Treas.; H. W. Lester, Sec.

Vehicle Apron & Hood Co.—Columbus, O. Mfrs. storm aprons and curtains, automobile covers, robes, lamp covers, tire cases, tire shoes, tire sleeves, tool bags, wearing apparel, leggings.

Vehicle Specialty Co.—32 Union Pl., Hartford, Conn. Mfrs. washing apparatus.

Vehicle Storage Co.—6014 Rodman St., Pittsburg, Pa. Garage.

Vehicle Top & Supply Co.—900 Cass St., St. Louis, Mo. Mfrs. storm aprons and curtains, lamp covers, tire cases, automobile tops.

Veit und Co., W. F., Wagen und Karosseriefabrik.—Urbanstrasse 67, Berlin, Germany. Mfrs. bodies.

Velie, C. P.—Minneapolis, Minn. Garage.

Velo, Angel.—Havana, Cuba. (Queen.)

Velocimeter.—A device for measuring speed.

Velocity.—See Speed.

Velofabrik Liesthal.—Liesthal, Switzerland. Mfrs. motorcycles (Oris).

Velograph.—An instrument for showing the time when each start and stop of a car occurs, and the distance between stops, and permitting of determining the speed of the vehicle and the distance covered.

Venango Auto Station.—Franklin, Pa. (White.)

Vent, Eugene.—Mexico City, Mex. (Royal.)

Ventilated Cushion & Spring Co.—Jackson, Mich. Mfrs. cushion springs, ventilated cushions, complete trimmings. Cap. \$45,000. Est. 1906. S. F. Randolph, Jr. Pres.; O. S. Tweedy, Treas.; P. W. Hood, Sec.; L. A. Young, Mgr. Trimming and Cushion Dept.

Verdon, E.—20 rue Brunel, Paris, France. Mfrs. solid tires.

Verea, Lic Jarrer.—Quadalajara, Mex. Garage.

Vereinigte Berlin Frankfurter Gummiwarenfabrik.—Gelnhausen, Germany. Mfrs. pneumatic and solid tires.

Vereinigte Dürener Treibriemen fabriken.—Düren, Germany. Mfrs. non-skids.

Vereinigte Gummiwarenfabriken Harburg - Wien.—Harburg-am-Elbe, Germany. Mfrs. pneumatic tires.

Vereinigte Gummiwarenfabriken Harburg - Wein.—Vienna, Austria. Mfrs. pneumatic tires.

Vereinigte Hanfschlauch und Gummi-

warefabriken Actiengesellschaft.—Gotha, Germany. Mfrs. pneumatic tires.

Verity, Geo. M.—Vice-Pres. De Luxe Motor Car Co., Clark and Jefferson Ave., Detroit, Mich.

Vermorel, V.—Villefranche, Rhone, France. Mfr. motorcycle motors.

Vermot, Ch.—Chatenois, Haut-Rhin, France. Mfr. springs.

Verste.—A Russian measure of length equal to 1.06 km=.65 mile.

Verstraete Mfg. Co., Ed.—421 Clinton St., Milwaukee, Wis. Mfrs. circulating pumps, clutches.

Vesta Accumulator Co.—1334 Michigan Ave., Chicago, Ill. Mfrs. storage batteries, horns, lamps.

Vestal Shock Absorber Co.—Baum and Whitfield Sts. E. E., Pittsburg, Pa. Mfrs. shock absorbers.

Veuniss, E. D.—Pres. The Lee Mfg. Co., Conners St., Port Huron, Mich.

Veziel, Fouanon et Cie.—45 rue Jean-Macé, Suresnes, France. Mfrs. wood wheels.

Vezzoni Fabbrica Italiana de Pneumatici, E.—15 via Torino, Milan, Italy. Mfrs. pneumatic tires.

Vibration.—In mechanics, a term usually applied to an intermittent or irregular motion which is generally of an undesirable character, and is rarely used to describe any regular motion of the true character of vibrations.

Vibrator.—See Trembler.

Vibrator-coil.—The same as trembler-coil, q. v.

Vichie, James.—Director Hercules Auto Specialty Mfg. Co., 115 Dearborn St., Chicago, Ill., and 936 Denver Ave., Los Angeles, Cal.

Vick, V.—Houston, Tex. Garage.

Vicory, Chas. A.—R. F. D. 2, Hornet, Mo. (Holsman.)

Victor Auto Storage Co.—147-49 W. 55th St., New York City. Est. 1902. Cap. \$10,000. J. R. Kirkpatrick, Pres.; Wm. M. Haradon, Sec., Treas. and Gen. Mgr. Garage, 100 cars; repairing.

Victor Auto Tire Repair Co., The.—220 Madison St., Passaic, N. J. Repairing. Mfrs. inner tubes.

Victor Automobile Co.—809 Massachusetts Ave., Indianapolis, Ind. (Marvel, Dragon.)

Victor Automobile Mfg. Co.—171 Carroll St., St. Louis, Mo. Mfrs. gasoline automobiles.

Victor Electric Co.—55-61 Market St., Chicago, Ill. Mfrs. portable electric buffers, polishing outfits, air compressors, portable electric tire inflating outfits.

Victor Factories, The.—Broadway and 65th St., New York City. Mfrs. wind shields, slip covers, dust hoods, automobile tops. C. H. Schub, Lessee.

Victor Metals Co.—29 Broadway New York City. Mfrs. metal trimmings.

Victor Rubber Co., The.—Springfield, O. Mfrs. rubber mats, matting and bow spreaders. Cap. \$50,000. Est. July 2, 1904. H. H. Durr, Pres.; J. S. Holliday, Sec.; H. J. Robben, Treas.

Victor Shock-Absorber Co.—1937 Broadway, New York City. Mfrs. and jobbers shock absorbers. Est. Jan., 1907. E. S. Aker, Pres.; Theo. B. Nisbet, Treas.

Victor Supply Mfg. Co.—101 W. 66th St., New York City. Est. April, 1907. Supply house. Harry A. Robinson and A. M. Reynaud, officers. I. J. Reynaud, Mgr.

Victoria.—An open carriage for two, with a seat for a servant, either in front or behind the main seat and elevated above it. A "victoria" is always fitted with a special folding leather top known as a "victoria top." It is sometimes called a "mylord."

Victoria Phaeton.—See Duc.

Victoriawerke Actiengesellschaft.—Nürnberg, Germany. Mfrs. motorcycles.

Victory Motor Car Co.—San Jose, Cal. Mfrs. gasoline automobiles. (Sunset cars.)

Vie au Grand Air, La.—Pub. at 9 ave. de l'Opera, Paris, France.

Vie Automobile, La.—Pub. at 49 quai des Grands-Augustans, Paris, France.

Vie Illustrée, La.—Pub. at 122 rue Raumur, Paris, France.

Vigneaux, C.—5 rue Bacon, Paris, France. Mfrs. shock absorbers.

Vigo et Cie.—24 via Maria Vittoria, Turin, Italy. Mfrs. wearing apparel, coats.

Viking Co., The.—801 Boylston St., Boston, Mass. Mfrs. gasoline commercial automobiles.

Villeneuve, U.—Aubenas, Ardèche, France. Mfrs. wearing apparel fur coats.

Vim Motor Co., The.—Sandusky, O. Mfrs. gasoline marine motors.

Vincent Valve Co., The.—Sandusky, O. Mfrs. brass, bronze, aluminum and copper castings, throttle valves.

Vinet Amovile, La Jante.—2 ave de Messine, Paris, France. Mfrs. detachable rims.

Vinet et Boulogne.—61 rue de Villiers, Neuilly, Seine, France. Mfrs. wood rims, bodies and tops.

Vinot et Deguingand.—29 quai National, Puteaux, Seine, France. Mfrs. gasoline automobiles (Vinot cars).

Virginia Automobile Co.—223 W. Broad St., Richmond, Va. Garage.

Virginia East Coast Association.—J. Roy Collins, Sec., Norfolk, Va.

Virginia Motor Car Co.—Roanoke, Va. (Maxwell.)

Virtue & Pound Mfg. Co.—Owatonna, Minn. Mfrs. transmission gears, gasoline marine motors.

Vis-a-Vis.—An open carriage with side entrance, having a front seat for the

driver, and inside two single seats placed facing each other.

Viscosimeter.—An instrument used for comparing viscosities.

Viscosity.—The property possessed by a liquid of resisting deformation. The practical significance of viscosity is very great with respect to lubricants, all of which possess a perceptible degree of viscosity. The viscosity is measured by the time which a known volume of the oil takes at a given temperature to flow through an aperture of known form and dimensions under a known mean pressure.

Viscosity Oil Co.—21 River St., Chicago, Ill. Mfrs. oils.

Vise.—A tool used for holding small pieces of work while they are being operated upon, and of which there are many forms and sizes. It consists of a pair of jaws which can be made to recede from or approach each other by means of a screw. Vice-jaws are usually striated in order to keep the work from slipping. When the piece to be operated upon is delicate or the metal not very hard, a clamp of lead, copper or wood is usually inserted between the jaws in order to protect it from injury.

Visor Knitting Co.—2016 Whirlpool Ave., Niagara Falls, N. Y. Mfrs. wearing apparel, mufflers.

Vitriol, Blue.—See Copper Sulphate.

Vitz, Clarence H.—Auditor Locke Regulator Co., 76 North St., Salem, Mass.

Vivax Storage Battery Co.—2228 Michigan Ave., Chicago, Ill. Mfrs. primary and storage batteries.

Vivinus, Société Anonyme des Ateliers.—54 rue Destonvelles, Brussels, Belgium. Mfrs. gasoline automobiles (Vivinus cars).

Voegtey, Chas.—Tecumseh, Mich. (Cadillac.)

Vogel, H. G.—Vice-Pres. Harry S. Hought Co., 63rd St. and Broadway, New York City.

Vogel und Prein.—Hagen im Westphalia, Germany. Mfrs. differential and steering gears.

Voigt, Emile Victor.—Manufacturer. B. Lille, France, Dec. 8, 1871. Ed. Paris, University. Director, Charron Limited. Mem. Cercle Artistique et Littéraire, A. C. de France, Yacht Club de France, Calumet, etc. Res., Bouchevilliers Eure. France. Office, Puteaux, Seine, France and 1849 Broadway, New York

City. In the trade since 1897. Used first car 1896; first yacht 1892.

Vogt Mfg. & Coach Lace Co.—322-4 St. Paul St., Rochester, N. Y. Mfrs. cloth and carpet trimmings.

Vogt.—30 rue du Vieux-Mayeur, Liege, Belgium. Mfrs. bodies.

Voiturette.—From the view-point of their classification, under the regulation of the Automobile Club of France and of clubs of other countries, a voiturette is a vehicle of which, when empty, the weight does not exceed 1000 pounds. By empty is meant without water, oil, gasoline or accumulators. Motors having ignition by magneto are allowed a further weight of 13 pounds. From a practical view-point, a voiturette is a small, very light and very simple car (single-cylinder motor), with seats for two side by side, and occasionally for three, afforded by a spider. The voiturette is a vehicle for utility or pleasure, but not for sport. It is not supposed to run more than from 16 to 25 miles an hour nor to carry a greater weight than that for which it was intended.

Volkel Wm.—Perrysville, Ind. (Holzman)

Volker und Prügel.—Obernberg-am-Main, Bavaria, Germany. Mfrs. automobile motors, motorcycles (Elsava).

Volkman, C. F.—Nappanee, Ind. Garage.

Volt.—Unit of measure of the difference of potential. See Potential.

Volta Storage Battery Co.—Monadnock Bldg., Chicago, Ill. Mfrs. storage batteries.

Voltage.—An improper expression to designate the difference of potential between two terminals. See Electromotive Force and Potential.

Voltaic Cell.—See Cell, Primary.

Voltmeter.—An apparatus designed to effect the decomposition of a liquid by means of an electric current. This must not be confused with "Voltmeter."

Voltmeter.—An apparatus for directly measuring voltage or difference of potential. See Ignition.

A voltmeter is indispensable for ascertaining the state of charge of a battery of storage-cells. For automobile use pocket-voltmeters are made.

The chief difference between a voltmeter and an ammeter (q. v.) is that the active coil in the voltmeter is in series with a resistance, while in the ammeter it is connected across the terminals of a shunt-block. For motor-car use a voltmeter and an ammeter are usually mounted on one base with their

graduated scales near enough together to permit of the battery conditions being

quickly read. The accompanying figure shows a type of voltmeter employed on electric vehicles. Some styles of such instruments have the index scales side by side instead of end to end.

Voltmeter, Electrostatic.—A voltmeter depending upon the principle of the electrometer (q. v.), which itself forms a voltmeter applicable to many purposes. Voltmeters of this type are much used in alternate current work.

Voltmeter, Hot-wire.—An instrument in which the expansion of a thin wire of high resistance, when heated by the passage of a current, is caused to move a pointer. Such a voltmeter is equally applicable for continuous or alternating currents.

Voltmeter, Magnetic.—An instrument which, in principle, is a high resistance galvanometer, and is constructed either with a fixed coil and moving magnet, or with a fixed magnet and moving coil. A type of voltmeter suitable for continuous currents only.

Voltz, Daniel W.—Treas. Limousine Carriage Mfg. Co., Mich. Ave. and 35th St., Chicago, Ill.

Voltz, Edward C.—Pres. Limousine-Carriage Mfg. Co., Mich. Ave. and 35th St, Chicago, Ill.

Volute Spring.—See Spring, Volute.

Von, A. M.—Pres. and Mgr. Chelsea Auto Storage Co., 516-520 W 37th St., New York City.

VonderLinden, H.—52 Market St., Poughkeepsie, N. Y. (Rambler).

Von Hamm, C. C.—Sec. Treas. and Mgr. Von Hamm Young Co., King and Bishop Sts., Honolulu, Hawaiian Islands.

Von Hamm Young Co.—King and Bishop Sts., Honolulu, Hawaiian Is. (Stevens-Duryea, Pope-Hartford, Pope-Waverley, White, Autocar, Maxwell, Buick, Stoddard-Dayton, Peerless.) Est. 1899. Cap. \$100,000. Alex. Young, Pres.;

A. A. Young, Vice-Pres.; C. C. Von Hamm, Sec. Treas. and Mgr. Garage, 50 to 60 cars. Repairing.

Von Wyck Machine Tool Co.—Cincinnati, O. Mfrs. special automobile machinery

Voorhees Rubber Mfg. Co.—18-40 Bostwick Ave., Jersey City, N. J. Mfrs. cellular tires.

Voris, Edwin F.—Pres. The Auto Shop Co., 731 Vincent Ave. N. E., Cleveland, Ohio.

Vosburgh, A. C.—Sec. and Treas. New Process Raw Hide Co., 500-14 Plum St., Syracuse, N. Y.

Voss, Walter.—Sec. and Treas. Lobec Pump and Machinery Co., Cor. Terrace and Erie Sts., Buffalo, N. Y.

Vrard et Cie.—12 bvd. d'Asnieres, Neuilly-sur-Seine, France. Mfrs. gasoline automobiles (Stabilia).

Vrooman Bros.—1259 State St., Schenectady, N. Y. (Elmore, Waltham.) Est. 1905. Garage, 35 cars; repairing.

Vuille, Chas. A.—819 Washington St., Huntington, Pa. (Cadillac, Franklin.) Mfrs. hydrometers.

Vulcan Schweiz-Automobil und Motorbootfabrik Actien Gesellschaft.—Alstetten-Zürich, Switzerland. Mfrs. gasoline automobiles. (Vulcan cars.)

Vulcan Tire Repair Co.—226 W. 53rd St., New York City. Vulcanizing.

Vulcanite.—Rubber mixed with a very large percentage of sulphur and exposed for a considerable time to a high temperature. (2) A name sometimes applied also to vulcanized fiber. See Fiber, Vulcanized.

Vulcanization.—An operation which consists in combining sulphur with natural rubber in order to modify its properties; particularly in order to prolong the life of its elasticity and to prevent it from softening by heat. See Sulphur.

Vulcanized Fiber.—See Fiber, Vulcanized.

Vulcanizer.—A portable apparatus by means of which a comparatively inexperienced person can make repairs upon either the tube or shoe of his tire. There are numerous forms in the market, some of them so small that they can be screwed directly upon the wheel and a cut be repaired in a shoe without removal of the tire, the entire process consuming but little more time than it takes to put on a patch. One of the most ingenious vulcanizers in use consists of a flat or concave metal core heated by electricity, but the improbability of getting an electrical current just when it is needed restricts this apparatus to the repair shop or garage. One of the earliest of portable vulcanizers was made both for steam and dry heat. While dry heat vulcanizers can be made to do the work very well they usually require careful

watching; so the great majority of vulcanizers are made for steam heat. These generally carry a pressure-gauge, a thermometer and a poppet-valve, which blows off above the critical temperature. Many persons find hot vulcanizing too inconvenient and prefer the various cold-cure processes now on the market. With such a process, it generally suffices to cement the parts first, and, when dry, to

brush the surfaces with a patent solution and then press them together, when the vulcanization will be accomplished.

Vulpes, Société Anonyme des Automobiles.—170 bvd. National, Clichy, Seine, France. Mfrs. gasolene automobiles (Vulpes cars).

Vyzelaar & Van den Bergh.—63 Amsterdam, Haarlemmer Hottuin, Holland. Mfrs. pneumatic tires.

W

W.—Symbol for "electric energy."

W.—An abbreviation of "watt."

W.—Symbol for "tungsten" or "wolfram."

W, h.—An abbreviation of watt-hour.

W, w.—Symbol for work.

Wagner, Louis.

—A famous French racing driver, whose most notable exploit was the winning of the 1906 Vanderbilt cup race. B. in Paris Nov. 2, 1881. He has also competed over the Ardennes Circuit in Belgium, which he won, in the

voiturette class in 1903. He is in the employ of Darracq et Cie.

Wagner Motor Cycle Co.—327 St. Peter St., St. Paul, Minn. Mfrs. motorcycles.

Wagner und Co., Wagenfabrik.—Brandenburg, Germany. Mfrs. bodies.

Wagonette.—A general term applied to all vehicles provided with two longitudinal seat-boards, where the passengers sit face to face, and where the entrance is from the rear. The form, shape and size of the body, the form and arrangement of the driver's seat, and the presence or absence of a top, may vary the style infinitely, but the vehicle is still a true wagonette so long as the above-named characteristics remain. The French term, "char-i-bancs"—literally, a carriage with bench-seats—is the equivalent of the English term "wagonette" in this technical sense.

Wahlman, S. J.—Ishpeming, Mich. (Pope.)

Wahrer, Roofus.—Wapokoneta, O. Garage.

Wainwright, L. M.—Pres. Diamond Chain & Mfg. Co., Indianapolis, Ind.

Waist.—Of a vessel, the uppermost part of the top-sides.

Washington Garage.—3918 Washington Blvd., St. Louis, Mo. (Pierce-Arrow, Peerless, Winton).

Washington Motor Car Co.—Washington, Ind. Mfrs. gasoline automobiles.

Washington Sq. Garage.—73 S. Washington Sq., New York City. Garage.

Waskey, Geo. H.—Partner Gulstine & Waskey, Madison, S. D.

Wasson Co.—Lincoln, Ill. (Pope-Waverley).

Waste-cock.—See Cock, Waste.

Waste, Cotton.—See Cotton-waste.

Waste-pipe.—The same as over-flow pipe.

Watch City Auto Garage.—Rear Park Theatre, Elm St., Waltham, Mass. Repairing.

Watch, Tachometric.—An instrument which indicates the average speed of travel of a motor-vehicle.

Water - column.—A small vertical column fitted with stop-cocks at different heights and connected with the generator of a steam-car, in order to permit the driver to gauge the height of water therein.

Water-cooling.—See Cylinder-cooling.

Water-feed.—A term applied to acetylene generators in which water is dripped on the carbide or otherwise fed to it.

Water-gauge.—A dial fixed to the dashboard to show the pressure of water in the circulation system due to the pump. (2) An upright glass tube connected at both ends with a steam boiler, so that the water-level in the tube is always the same as that in the boiler; same as water-glass, q. v.

Water in Gasolene.—See Gasolene.

Water-glass.—See Water-gauge (2).

Water-jacket.—See Jacket, Water.

Water-line.—A line on the plane of a vessel's flotation.

Water-meter.—The same as Water-gauge, q. v.

Water-pipes.—The pipes through which the water for cooling the cylinders of a motor circulates.

Water-skimmer.—See Hydroplane.

Water-tank.—See Tank, Water.

Water-tube Boiler.—See Boiler.

Water, Weight of.—One cubic foot of water weighs 1,000 ounces=62.4 pounds

=0.28 ton=6.24 gallons. 1 gallon=10 pounds. The pressure of 1 foot head of water=62.4 pounds per square foot=.4335 pound per square inch. The pressure of 1 atmosphere=14.7 pounds per square inch=33.9 feet of water=29.9 inches of mercury.

Waterbury Brass Co.—Waterbury, Conn. Mfrs. sheet and rod brass and copper, brazing compound, and brass and copper tubing.

Waterbury Mfg. Co. — Waterbury, Conn. Mfrs. lock nuts and washers, screws.

Waterbury Tool Co. — Waterbury, Conn. Mfrs. tools.

Waterloo Automobile Co.—Waterloo, N. Y. (Buick, Marmon).

Waterloo Woolen Mfg. Co.—Waterloo, N. Y. Mfrs. cloth and carpet trimmings.

Waterman Bros. Co., Inc.—1222 1st St., Fresno, Cal. (Cadillac, White).

Waterman, Cameron B.—Pres. Waterman Marine Motor Co., 1506 Fort St. W., Detroit, Mich.

Waterman Marine Motor Co.—1506-1512 Fort St. W., Detroit, Mich. Mfrs. marine and automobile motors. Cap. \$30,000. Est. 1906. Cameron B. Waterman, Pres.; Frank R. Thrall, Treas. and Gen. Mgr.; R. W. Fishback, Supt.; E. L. Anderson, Chief Engineer.

Watermann-Hunter Co.—515 1st Ave. S., N. E. Minneapolis, Minn. Mfrs. portable houses.

Waters, Elmer R.—South Raub, Ind. (Haynes).

Waterson & Sons, H.—67 Albert Rd., Aston, Birmingham, England. Mfrs. goggles and radiators.

Watertown Auto & Supply Co.—Watertown, N. Y. (Matheson).

Watertown Automobile Club.—Watertown, N. Y. I. G. De Cant, Pres.; C. A. White, Sec.

Watertown Motor Co.—40 Moulton St., Watertown, N. Y. Mfrs. gasoline marine motors and motorboats.

Waterville Motor Co.—245-249 Main St., Waterville, Me. (Reo, Lambert). Est. 1905. Garage, 25 cars. Repairing.

Watkins Co., The Frank M.—525-531 Baymiller St., Cincinnati, O. Mfrs. gasoline marine motors.

Watkins, J. M.—Mt. Carmel, Pa. (Maxwell).

Watres Mfg. Co.—1131 Broadway, New York City. Mfrs. exhaust horns.

Watrous Automobile Co.—Main St., Elmira, N. Y. Garage.

Watson, Alfred S.—Sec. and Treas. Witherbee Igniter Co., 541 W. 43rd St., New York City.

Watson Bros.—Foundry and Division Sts., S. Boston, Mass. Mfrs. mica.

Watson Bros.—Marinette, Wis. (Waltham).

Watson, Coleman.—290 Broad St., Lynn, Mass. (White).

Watson Co., H. F.—Erie, Pa. Mfrs. asbestos.

Watson, Isaac.—Madison, N. J. Garage.

Watson, J. C.—Scales Mound, Ill. (Waltham).

Watson, P. M.—Sec. and Treas. Indianapolis Drop Forging Co., Indianapolis, Ind.

Watt.—The unit of power employed in electro-technics. It is the energy furnished in 1 second by a current of 1 ampere flowing under a potential difference of 1 volt, that is, 1 joule. One horsepower (q. v.) equals 746 watts.

Watt-hour.—The unit of work in electro-technics and corresponding to 1 ampere-hour (q. v.) multiplied by 1 volt. The multiples of the watt-hour are the hektowatt-hour, equal to 100 watt-hours, and the kilowatt-hour equal to 1,000 watt-hours. While the watt measures the power, that is to say, the energy, furnished per second, the watt-hour measures the total energy supplied in a given time. See Watt, Kilowatt, Hektowatt-hour and Kilowatt-hour.

Watt-meter.—An apparatus for measuring directly the electric power of a current which is expressed in watts. A current of U volts and I amperes has a power, W, equal to U I watts. The apparatus consists of a coil of fine wire movable in the interior of a fixed coil of coarse wire, placed in front. The couple which tends to produce the rotation of the movable coil is proportional to the power of the current, that is to say, to U x I. It is measured by the torsion of the spring supporting the movable device, to which is fixed the indicating pointer. The watt-meter is used chiefly with alternating currents.

Watt Engine Co.—Port Huron, Mich. Mfrs. gasoline automobile motors.

Watters, John S.—233 Baronne St., New Orleans, La. (Wayne).

Watts De Golyer Co., The.—377 Illinois St., Chicago, Ill. Mfrs. enamel, varnishes.

Watts, Harry. — Logansport, Ind. (Lambert).

Wachusett Automobile Club of Fitchburg.—Gardner, Mass. L. H. Greenwood, Sec.

Waugh & Co., Chas.—856-864 Main St., Cambridge, Mass. Mfrs. automobile tops.

Waugh, T. Milton.—1525 Monadnock Blk., Chicago, Ill. Mfr. spring leaves.

Waukegan Motor Car Co.—119 S. Sheridan Rd., Waukegan, Ill. (Elmore).

Waukesha Motor Co.—110 North St., Waukesha, Wis. Mfrs. and dealers gasoline engines, timers, transmissions, clutches and garage connections. Mfrs.

gasolene automobiles. Est. 1906. A. T. Stebbins, Pres. and Sales Mgr.; Fred Ahrens, Supt. of Works and Vice-Pres.; H. L. Horning, Mechanical Engineer, Sec. and Treas.

Waukesha Sheet Steel Co.—Waukesha, Wis. Mfrs. sheet iron and steel.

Waverly Electric Auto Co.—Charleston, S. C. (Pope-Waverley).

Waverly Garage.—334 Waverly Ave., Brooklyn, N. Y. Garage.

Way Muffler Co., The.—23rd and Arch Sts., Philadelphia, Pa. Mfrs. mufflers, wearing apparel.

Wayman & Murphy.—Randolph and Sagamon St., Chicago, Ill. Mfrs. automobile tops.

Wayne Automobile Agency.—507 Mutual Life Bldg., Seattle, Wash. (Wayne).

Wayne Automobile Co.—Piquette and Brush Sts., Detroit, Mich. Makers of the Wayne Thirty; first automobile marketed in 1901. Nine models made since. Cap. \$300,000. B. F. Everitt, Pres. and Gen. Mgr.; Chas. L. Palms, Chairman of the Board, Sec. and Treas.; J. B. Book, Vice-Pres.; Wm. Kelly, Consulting Engineer; J. W. Grose, Purch. Agt.; Joseph D. Porter, General Sales Mgr.; Directors: B. F. Everitt, Charles L. Palms, J. B. Book, C. R. Wilson, Wm. Kelly. Agents and dealers: Aston, T. R., Bridgeport, Conn.; Bennett Auto Co., E. J., Los Angeles, Cal.; Bonney Motor Car Co., Kansas City, Mo.; Capitol Automobile Co., Indianapolis, Ind.; Central Automobile Exchange, Providence, R. I.; Commercial Auto & Supply Co., Washington, D. C.; Craig Garage Co., Toledo, O.; Cramer, J. A., Buffalo, N. Y.; Davis, C. H., Columbus, O.; Donato, Lanza & L., La Paz, Bolivia; Evans Motor Car Co.; Menneapolis, Minn.; Fich, H. Chr., Copenhagen, Denmark; Fraser & Reynolds, Philadelphia, Pa.; Freed & Bransford, Salt Lake City, Utah; Gloyd, S. M., Oklahoma City, Okla.; Elguera, Hermanos, Lima, Peru; Hobron, T. W., Honolulu, H. I.; International Automobile Co., Toronto, Can.; Johnston & Co., C. S., New Haven, Conn.; Johnstown Automobile Co., Johnstown, Pa.; Kane, M. Francis, Seattel, Wash.; Kull Auto Co., A. L., New York City; Lakedel Automobile Co., St. Louis, Mo.; Liberty Automobile Co., Pittsburg, Pa.; Linscott Motor Co., Boston, Mass.; Morfin, Carlos, Aguascalientes, Mex.; Motor Car Agencies Co., San Francisco, Cal.; Mullock's Garage, Atlantic City, N. J.; Newark Motor Car Co., Newark, N. J.; Neeley, N. A., Christ Church, New Zealand; Pales, D. W., Guayama, Porto Rico; Pawler, P., Calumet, Mich.; Solliday Motor Car Co., Milwaukee, Wis.; Smith, William, Jersey City, N. J.; Southern Automobile Co., Mobile, Ala.; Stringer, Bert A., Calgary, Alberta, Can.; Tredway, W. S., Nor-

wood, Cincinnati, O.; Troy Carriage Works, Troy, N. Y.; Warminster Motor Co., Ltd., Warminster, England; Wayne Motor Co., Chicago, Ill.; Wentworth, Frank, Dover, N. H.; Western Automobile Co., Denver, Colo.; West Side Motor Co., Hamilton, O.

Wayne Garage.—33 Grant Sq., Brooklyn, N. Y. (Wayne).

Wayne Motor Co.—1337 Michigan Ave., Chicago, Ill. (Wayne).

Wear, F. E.—Pres. Kansas City Motor Car Co., Sheffield, Mo.

Weatherford Electric Co.—Weatherford, Tex. (Holsman).

Weathers, J. F.—Columbus, Ga. Garage.

Weaver, C. H.—255 Elm St., Oil City, Pa. (Buick, Oldsmobile and Royal).

Weaver, H. C.—Portsmouth, N. H. (Maxwell).

Weaver, J. C.—720 S. Main St., Akron, O. (Queen).

Weaver, Jos. W.—621 Spring Alley, Lebanon, Pa. Garage.

Weaver, K. B.—Asst. Supt. Long Arm System Co., Lakeside Ave. and E. 38th St., Cleveland, Oo.

Weaver, R. H.—Mgr. W. C. P. Automobile Supply House, 1739 Broadway, New York City.

Web.—The thin plate of metal connecting the boss with the rim of a gear-wheel. When the web is cut through radially into alternate spaces and arms it forms a spoked-wheel. (2) The arm of a crank when flat and thin. (3) The narrow part of an anvil below the head. (4) The blade of a saw. (5) The central vertical part between the flanges of an I-beam.

Web-plate.—The metal which connects the eye-boss of a wheel with its rim.

Webb & Son, James A.—50-52 Stone St., New York City. Mfrs. denatured alcohol.

Webb & Son, W. H.—316 State St., Conneaut, O. (Rambler). Est. 1892. W. H. Webb, Prop.; C. W. Webb, Mgr. Garage, 8 cars. Repairing; supplies.

Webb Auto Co., A. C.—2nd and Joplin St., Joplin, Mo. Garage.

Webb, Clarence R.—San Angelo, Tex. (Cameron).

Webb, C. W.—Mgr. W. H. Webb & Son, 316 State St., Conneaut, O.

Webb, E. H.—Vice-Pres. Webb Mfg. Co., 60 Shipman St., Newark, N. J.

Webb, Frank Gardinier.—Governor L. I. A. C. B. Brooklyn, N. Y., Aug. 18, 1868. Ed. public, grammar schools. Director Home Title Insurance Co. of New York. Harwood Mfg. Co. Incorporator, ex-pres. and now governor L. I. A. C. Mem. clubs: A. C. A., N. Y. Motor. Suffolk County Gun, Society of Mayflower

Descendants, L. I. Historical Society, Tavern of Brooklyn. Res., 105 Garfield Pl.; office, 81 Willoughby St., Brooklyn, N. Y. Used first car (Winton) 1900. Mem. of executive com. of Vanderbilt Cup commissioners 1906-1907. One of the active organizers of the A. A. A. and mem. first board of governors.

Webb, H. B.—Treas. H. H. Franklin Mfg. Co., 302 S. Geddes St., Syracuse, N. Y.

Webb Mfg. Co.—60 Shipman St., Newark, N. J. Mfrs. speedometers, flexible shafts, wire belts. Cap. \$210,000. Est. Jan. 1, 1906. B. S. Whitehead, Pres.; E. H. Webb, Vice-Pres.; Walter C. Heath, Treas., and A. A. Bergner, Sec. Mem. M. & A. M.

Webb, W. H.—Prop. W. H. Webb & Son, 316 State St., Conneaut, O.

Webbing.—A strong hempen band used to connect the bows of vehicles and hold them in place. See Bow.

Weber.—The C. G. S. unit of the flux of magnetic force. It is the flux of force which traverses a square centimetre taken in an equipotential plane of a uniform field of an intensity equal to a C. G. S. unit or "gauss." (2) An old term for "ampere."

Weber Co., Orlando F.—1322 Michigan Ave., Chicago, Ill. (Pope-Toledo, Pope-Hartford, Pope-Waverley).

Weber Cycle & Supply Co.—Colorado Springs, Colo. Mfrs. turn tables.

Weber, Landolt.—Menziken, Argovia, Switzerland. Mfr. gasoline commercial automobiles.

Weber, W. H.—Detroit, Mich. (Rambler).

Webster, James.—Sec., Treas., Gen. Mgr., Sales and Adv. Mgr. Chicago Coach & Carriage Co., 1223-31 Michigan Ave., Chicago, Ill.

Webster Mfg. Co.—149 Jefferson Ave., Detroit, Mich., and Keany Sq. Bldg., Boston, Mass. Mfrs. gasoline tank gauges.

Webster Mfg. Co.—1075 W. 15th St., Chicago, Ill. Mfrs. axles.

Webster, W. H.—Sec. Motor Car Maintenance Co., 247-49 W. 49th St., New York City.

Weckerlein und Stöcker.—Werderstrasse 7, Nürnberg, Germany. Mfrs. make-and-break plugs.

Wedding, C. H.—Jerseyville, Ill. Garage.

Wedekind, Adolph.—Hamburg, Germany. Mfrs. storage batteries.

Weeber, Chas. L. F.—Vice-Pres. The Rauch & Lang Carriage Co., W. 25th St., Cleveland, O.

Weeber Mfg. Wks., C. F.—170-172 Central Ave., Albany, N. Y. Mfrs. mufflers and shock absorbers.

Weed Chain Tire Grip Co.—28 Moore

St., New York City. Mfrs. anti skid devices and tire chains.

Weed Garage.—233 Ontario St., Toledo, O. (Columbus).

Weed, W. S.—Ontario St., Chicago, Ill. Garage.

Weeks, C. M.—Babylon, N. Y. (Caddillac).

Wehrfreitz & Waldo.—150 Mulberry St., Newark, N. J. Garage.

Wehrle, R. L.—South Norwalk, Conn. Garage.

Wehrly, H. A.—New Paris, O. (Waltham).

Weichman, Veuve Franz.—Dresdenerstrasse 116, Vienna, Austria. Mfrs. acetylene lamps.

Weidig, J. F.—Supt. Winton Motor Carriage Co., Cleveland, O.

Weidely, G. A.—Treas. and Supt. Premier Motor Mfg. Co., Indianapolis, Ind.

Weidmann und Co.—93 Brunastrasse, Zürich, Switzerland. Mfrs. gasoline automobiles and automobile motors.

Weidner, Richard.—Liepzig, Germany. Mfrs. circulating pumps, carburetors and lubricators.

Weigel Motors, Ltd., 1907.—90 Goswell Rd., London, E. C., England. Mfrs. gasoline automobiles (Weigel).

Weight.—The action of gravity on a body. In the French system the unit of mass is a "gramme." A gramme-weight is the weight of a cubic centimetre of distilled water at 40°C. Thus the unit of mass is directly connected with the unit of length. There is no similar simple relation between the units of mass in the English system: a cubic inch of water weighs 252.5 grains. The English unit of mass is the standard pound avoirdupois. This contains 7,000 grains. There is also another pound in use called pound Troy, containing 5,760 grains. The ounce avoirdupois contains 437.5 grains, while the ounce Troy contains 480. The confusion which may arise from the use of two different pounds disappears if the weights are expressed in grains, for the grain is common to both systems.

Weight, Atomic.—The smallest weight of an element which enters into a molecule of any of its compounds. In the case of elements in the solid state, the atomic weight is related to the specific heat=6.4 (Dulong and Petit's law). The absolute weight of an atom of any element is unknown; so that the atomic weights have to be referred to some arbitrarily selected standard. Sometimes the atomic weight of hydrogen is put=1, and all others expressed in terms of it. It is now very common to take the atomic weight of oxygen=16, and express all other atomic weights in terms of that, in which case H=1.01.

Weight, Dead.—The weight of a vehicle without load (empty).

Weight, Heavy.—An automobile designed for public service, such as an omnibus, for transporting numbers of people, or a "truck" designed for commercial and industrial work.

Weight of Air.—One cubic foot of air at a pressure of 14.7 per square inch (i. e., 1 atmosphere) weighs, at 32°F., 0.08073 lb. or 1.29 ounce or 565.1 grains.

One litre of air at a pressure of 1 atmosphere (i. e., 1.0335 kilog. per square centimetre), at 0°C., weighs 1.293 gramme.

One atmosphere=14.7 lb. per square inch, or 2116.4 lb. per square foot, or 1.0335 kilog. per square centimetre.

Weight of Metals.—The following are the weights of one cubic inch of various metals: Steel, in pounds, 0.2833; in ounces, 4.533. Cast iron, in pounds, 0.263; in ounces, 4.208. Wrought iron, in pounds, 0.277; in ounces, 4.444. Copper, in pounds, 0.3225, in ounces, 5.159. Brass, in pounds, 0.308; in ounces, 5.333. Platinum, in pounds, 0.775; lead, in pounds, 0.377; cast aluminum, in pounds, 0.092; cast tin, in pounds, 0.32; cast zinc, in pounds, 0.262.

Weight of Water.—See Water, Weight of.

Weights, Metric.—

Weiler, Ernst.—Blankenfelderstrasse 6, Berlin, Germany. Mfr. detachable rims.

Weill, H.—36 rue de Clery, Paris, France. Mfr. wearing apparel, fur hats, coats and coats.

Weingarten, Oscar.—Vice-Pres. Times Square Auto Co., 1599-1601 Broadway, New York City.

Weir Cycle & Gun Co.—106 W. 1st Ave., Monmouth, Ill. Garage.

Weisel, P. J.—Anaheim, Cal. (Moline, Ford, Maxwell).

Weiss & Son, Chas.—4725 Cottage Grove Ave., Chicago, Ill. Mfrs. curtain fasteners and automobile tops.

Weiss, Louis T.—286-90 Taaffe Pl., Brooklyn, N. Y. Mfrs. horns.

Welch, Andrew.—Aurora, Ill. (Cadillac).

Welch, A. R.—Gen. Mgr., Sales and Adv. Mgr. Welch Motor Car Co., Pontiac, Mich.

Welch Bros. Motor Car Co.—Grand Ave., cor. 7th St., Milwaukee, Wis. (Locomobile, Packard, Pope - Hartford, Woods). Garage, repairing, supplies.

Welch, F. S.—Sec. and Supt. Welch Motor Car Co., Pontiac, Mich.

Welch, G. R.—Sec. Holley Bros. Co., 661-75 Beaubien St., Detroit, Mich.

Welch Motor Car Co.—1871-1873 Broadway, New York City. (Welch). Est. 1905. Cap. \$100,000. L. H. Perlman, Pres.; J. H. Duffy, Vice-Pres.; John E. Brodsky, Sec. and Treas., and P. W. Strong, Mgr. Repairing.

Welch Motor Car Co.—Pontiac, Mich. Makers of the Welch car; first marketed in 1901. Seven models made since. Arthur Park, Pres.; W. L. Churchill, Vice-Pres.; F. S. Welch, Sec. and Supt.; A. R. Welch, Gen. Mgr., Sales and Advt. Mgr.; F. S. Milward, Purch. Agt. Agents and dealers: Auto-Motor Car Co., 804 Sycamore St., Cincinnati, O.; Bergdoll Motor Car Co., 323 N. Broad St., Philadelphia, Pa.; Ettwine Motor Car Co., 5701 Main St., Kansas City, Mo.; Keystone Automobile Co., 5905 Centre Ave., Pittsburg, Pa.; Mills-Kenedy Co., 733 Boylston St., Boston, Mass.; Morrison Auto Co., 3916 Washington Ave., St. Louis, Mo.; Neumann & Co., Wm. F. V., 1342 Woodward Ave., Detroit, Mich.; Power Vehicle Service Co., North and Madison Aves., Baltimore, Md.; Salliday Motor Car Co., 321 4th St., Milwaukee, Wis.; Welch Motor Car Co. of New York, Broadway and 62nd St., New York City.

Weld County Automobile Club.—Greeley, Colo. Frank I. Ewing, Sec.

Weld, Scarf.—The welding of two pieces of iron of which the edges have been flattened or chamfered.

Welding.—The process of forming a homogeneous joint between two pieces of iron or mild steel by heating them to a high temperature termed "welding heat," and pressing and hammering them together. "Welding heat" is a temperature of from 2500° to 2700° F. in the case of wrought iron; steel welds at a lower temperature.

Welding, Electric.—A process of welding metals by heating the parts by electric means. It is employed for pipes, rods, wires, sheet metal, etc. There are two methods, viz.: the "Incandescent" or Thomson system, and the "Arc" system. In the first, a very large current with a low voltage (usually 1 volt or 2 volts) is passed across the junction from one piece of metal to the other, and intense heat is produced in the vicinity of the joint, owing to the increase in the resistance of the hot metal. The two pieces of metal, on being pressed together, become welded into a homogeneous mass. In the arc system, a continuous current of much smaller amount, but with a voltage of 70 to 150 volts is used. The positive terminal is attached to the metal and the negative to a carbon rod fixed in a handle held by the operator. A powerful arc is formed between the

metal and carbon, and is caused to travel along the joint.

Welding Heat.—See Welding.

Welfringer et Cie., L.—9 cité de Phalsbourg, Paris, France. Mfrs. horns and sirens.

Wellendorf, B. E.—Vice-Pres. Stackpole Battery Co., St. Mary's, Pa.

Welles, Richard H.—Gen. Mgr. and Treas. The Badger Brass Mfg. Co. B. Saxton, Mo., Nov. 13, 1872. Ed. University School, Kenosha. Director Badger Brass Mfg. Co. of Kenosha and New York. Mem. Chicago Athletic Ass'n., Chicago A. C. Res., 180 Deming St., address, Kenosha, Wis. In the trade since 1899. Used first car (Locomobile) first year made. Original introducer and manufacturer of acetylene cycle lamps in the U. S. A.

Wellington Garage.—826 7th Ave., New York City. 2nd-hand cars.

Wellman, J. A.—Manchester, N. H. (Rauch and Lang).

Wells, A. H.—Pres. and Treas. A. H. Wells & Co., Watertown Rd., Waterbury, Conn.

Wells & Co., A. H.—Watertown Rd., Waterbury, Conn. Mfrs. seamless drawn tubing in brass, copper, bronze and silver. Cap. \$50,000. Est. 1887. A. H. Wells, Pres. and Treas.; S. J. Wells, Vice-Pres.; C. H. Wells, Sec. and Asst. Treas.

Wells Auto Co., G. A.—Tucson, Ariz. Garage.

Wells, Chas.—Gen. Sales Mgr. Glidden Varnish Co., Rockefeller Bldg., Cleveland, O.

Wells, C. H.—Sec. and Asst. Treas. A. H. Wells & Co., Watertown Rd., Waterbury, Conn.

Wells, F. J.—Engineer James McNaughton Co., 29 W. 42nd St., New York City.

Wells, Geo. W.—1013 14th St. N. W., Washington, D. C. (National).

Wells Light Mfg. Co., The.—44-46 Washington St., New York City. Mfrs. Wallworks patent, non-skidding tire covers. Roughsedge Wallwork, Prop. at Manchester, England; Geo. H. E. Rolinsen, Mgr. at New York.

Wells, Wm.—Machine Shop Dept. Cincinnati Auto Co., 215-219 E. 5th St., Cincinnati, O.

Wells, Prince.—814 4th Ave., Louisville, Ky. (Rambler).

Wells, S. J.—Vice-Pres. A. H. Wells & Co., Watertown Rd., Waterbury, Conn.

Weish, J. E.—Asst. Sec. Carter Motor Car Corp., 409-410 Munsey Bldg., Washington, D. C.

Welt.—The strip of iron laid over a butt-joint.

Wenne, E. H.—West Park St., Portland, Ore. Garage.

Wentworth Auto Station.—Central

Ave., Dover, N. H. (Reo, Premier, Wayne). Est. 1897. Garage, 35 to 40 cars. Repairing.

Wentworth Garage.—6346 Wentworth Ave., Chicago, Ill. (Cartercar).

Wentworth Motor Car Co.—11406-8 Euclid Ave., Cleveland, O. (Mora).

Wenzel, Gustav.—Niedersedlitz, Dresden, Germany. Mfrs. marine motors.

Werant & Rembe.—Havestraw, N. Y. (Ford).

Werner Car Importing Co.—110 W. 34th St., New York City. Mfrs. shock absorbers.

Werner, Geo. J.—Rye, N. Y. (Maxwell).

Werner, W.—401 Northampton Rd., Easton, Pa. Garage.

Werntz, O. S.—Treas. The National Acme Mfg. Co., cor. Stanton Ave. S. E. and E. 75th St., Cleveland, O.

Wert Motor Car Co.—Van Wert, O. (Ford, Rambler, Maxwell).

Werth, M. F. Maury.—Head of Marine Dept. Witherbee Igniter Co., 541 W. 43rd St., New York City.

Wertz, Charles.—113 S. Front St., St. Mary's, O. Garage.

Wertzig & Vermette.—Concordia, Kan. (Waltham).

Wesco Supply Co.—7th St. and Clark Ave., St. Louis, Mo. Mfrs. dry batteries.

Wesley, G. W.—Supt. General Vehicle Co., Broadway and 62nd St., New York City.

West Barnstable Motor Co.—West Barnstable, Mass. (Logan, Commercial).

West Box Co., F. M.—225 Liberty St., Springfield, Mass. Mfrs. battery, spark coil and tool boxes.

West Chester Garage.—118 W. Main St., West Chester, Pa. (Autocar, Winton).

West Coast Auto Co.—1008 Florida Ave., Tampa, Fla. (Maxwell).

West Coast Motor Car Co.—387 Golden Gate Ave., San Francisco, Cal. (Darracq).

West End Auto & Machine Co.—72 W. Main St., Stamford, Conn. (Maxwell).

West End Auto Garage Co.—1435 Washington St., West Newton, Mass. Garage.

West End Automobile Palace.—212 W. 89th St., New York City. Rental service, garage.

West End Garage.—266 W. 135th St., New York City. Repairing, garage, rental service.

West End Garage.—Long Branch, N. J. Garage.

West Garage.—Cor. Milton Ave. and Front St., Ballston Spa, N. Y. Est. 1907. Cap. \$50,000. T. W. Nichols, Mgr.; Walter Moyer, head of machine shop; Albert Parker, head of office. Garage, 75 cars. Repairing.

West, Geo., Jr.—Ballston Spa, N. Y. (Simplex).

West, Ltd.—85 Shaftsbury Ave., London, W. England. Mfrs. West-Astor gasoline automobiles.

West, W. E.—833 W. Myrtle St., San Antonio, Tex. Garage.

West Side Motor Co.—Hamilton, O. (Wayne).

West-Stillman Motor Car Co.—153 N. Broad St., Philadelphia, Pa. (Pennsylvania, Mercedes).

Westchester Motor Car Co.—124-26 Main St., near Franklin Ave., New Rochelle, N. Y. Supplies, garage, repairing.

Westchester Motor Club.—Tarrytown, N. Y. A. B. Barkman, Sec.

Westcott, W. A.—Purch. Agt. C. H. Blomstrom Motor Co. and De Luxe Motor Car Co., Clark St. and Jefferson Ave., Detroit, Mich.

Westerdale, H. E.—Adv. Dept. The Automobile. Flatiron Bldg., New York City.

Westerfield Motor Co., The.—1525 S. Main St., Anderson, Ind. Mfrs. transmission gears, gasoline automobile motors and mufflers.

Westergard, Wm. J.—Valley City, N. Dak. Garage.

Westerly Garage, The.—88 Main St., Westerly, R. I. Supplies, garage and repairing.

Western Auto Co.—Denver, Colo. (Wayne).

Western Auto Co.—4701 Washington Blvd., St. Louis, Mo. (Pierce-Arrow, Winton).

Western Auto Parts Co.—107 Dearborn St., Chicago, Ill. Mfrs. gasoline automobiles.

Western Auto Supply Co.—414-416 3rd Ave., Cedar Rapids, Ia. (Mitchell, Reo and Glide).

Western Auto Supply Co.—285 Virginia St., Milwaukee, Wis. Mfrs. gasoline marine motor.

Western Automatic Machine Screw Co., The.—Elyria, O. Mfrs. bolts, nuts, screws, steps.

Western Automobile & Supply Co.—115 N. Cascade. Colorado Springs, Colo. (Peerless, Oldsmobile, Columbus, Franklin).

Western Automobile & Supply Co.—211 S. Main St., Wichita, Kan. Repairing.

Western Automobile Co.—Calgary, Alberta, Can. (Logan).

Western Automobile Co.—384 Cedar St., St. Paul, Minn. (Winton, Woods, Pope-Toledo, Franklin).

Western Brass Mfg. Co.—21st and Rockwell Sts., Chicago, Ill. Mfrs. brass, bronze, aluminum and copper castings.

Western Drop Forge Co.—Marion, Ind. Mfrs. drop forgings, boiler-steel shells, tanks, and storage tanks.

Western Electric Co.—259 S. Clinton St., Chicago, Ill. Mfrs. ammeters and voltmeters, primary batteries, spark coils, electric switches.

Western Engine Works, The.—Austin, Chicago, Ill. Mfrs. gasoline automobiles.

Western Garage.—218 S. 40th St., Philadelphia, Pa. Garage.

Western Instrument Co.—18-20 W. Randolph St., Chicago, Ill. Mfrs. screw machine products and stampings.

Western Launch & Engine Works.—Michigan City, Ind. Mfrs. gasoline marine motors.

Western Malleable Steel Co.—1250 River St., Detroit, Mich. Mfrs. gray iron castings, steel castings, drop forgings.

Western Motor Car Co.—1004-6 K St., Sacramento, Cal. (Jewel, Reo, Stoddard-Dayton, and Maxwell).

Western Motor Car Co.—1412-14 Michigan Ave., Chicago, Ill. (Stearns).

Western Motor Car Co.—Sturgis, Mich. (Knox).

Western Motor Car Co.—Lincoln, Cal. (Maxwell, Rambler).

Western Motor Car Co.—Los Angeles, Cal. (Packard, Thomas, Stevens-Duryea, Buick). Est. 1904. Cap. \$100,000. Chas. E. Anthony, Pres.; Earle C. Anthony, Vice-Pres. and Mgr.; H. K. Anthony, Sec. and Treas. Garage, 50 cars. Repairing.

Western Motor Co.—Logansport, Ind. Mfrs. Rutenber gasoline motors and gray iron castings. Est. 1900. Cap. \$250,000. Robert Parker, Pres.; E. H. Wolcott, Vice-Pres.; F. B. Wilkinson, Sec. and Treas. Repairing.

Western Motor Co.—Logansport, Ind. Garage.

Western Oil Pump Co.—2447 Kosciusko St., St. Louis, Mo. Mfrs. oil pumps, tanks, storage tanks.

Western Realty & Loan Co.—Glen Ulen, N. Dak. (Buick).

Western Reserve Varnish Co.—Marquette St., Cleveland, O. Mfrs. varnishes.

Western Rubber Co.—Goshen, Ind. Mfrs. rubber cloth.

Western Storage Battery Co.—Indianapolis, Ind. Mfrs. storage batteries.

Western Tool Works.—Galesburg, Ill. Makers of the Gale gasoline automobiles and commercial vehicles.

Western Tube Co.—Kewanee, Ill. Mfrs. pipe and brass fittings, wrought iron and steel pipe, safety valves.

Westfaelische Automobile Gesellschaft.—Soest-im-Westphalia, Germany. Mfrs. gasoline automobiles.

Westfaelische Metallindustrie Actiengesellschaft.—Lippstadt, Germany. Mfrs. acetylene lamps, horns.

Westfield Auto Station.—95 Elm St., Westfield, Mass. Garage.

Westing Co., G. H.—219 Massachusetts Ave., Indianapolis, Ind. (Indian).

Westinghouse Air Brake Co.—Pittsburg, Pa. Mfrs. air compressors.

Westinghouse Electric & Mfg. Co.—Pittsburg, Pa. Mfrs. ammeters and voltmeters, charging apparatus, electric controllers, electric generators, electric motors. Selling Agts. The American Distributing Co., Cleveland, O.

Westinghouse Electric Co., Ltd.—4 rue Aubert, Paris, France. Mfrs. chains.

Westinghouse, Société Anonyme.—2 bvd. Sadi-Carnot, Havre, France. Mfrs. gasoline and gasoline commercial automobiles (Westinghouse).

Westlake Garage Co., Inc.—660 S. Alvarado St., Los Angeles, Cal. Garage.

Weston, Edward.—Pres. Weston Electrical Instrument Co., Waverly Park, Newark, N. J.

Weston, Edward F.—2nd Vice-Pres. Western Electrical Instrument Co., Waverly Park, Newark, N. J.

Weston Electrical Instrument Co.—Waverly Park, Newark, N. J. Mfrs. electrical measuring instruments. Cap. \$500,000. Est. March, 1888. Edward Weston, Pres.; John R. Hardin, 1st Vice-Pres.; Edward F. Weston, 2nd Vice-Pres.; Frederick Bristow, Treas., and Caxton Brown, Sec. Mem. M. & A. M.

Weston, H.—Jacksonville, Fla. Prop. Duval Garage.

Weston-Mott Co.—Flint, Mich. Mfrs. axles, channels, hubs, steel rims and wood wheels.

Westrumite.—A tar preparation designed to lay the dust on roads (see Tarring). It is produced by emulsifying or semi-saponifying wood-tar, pure or otherwise, with coal tar by means of alkaline liquids such as the ammoniacal or gas liquor.

Westwood, E. C.—Sec. Austin Automobile Club, Austin, Tex.

Westwood Tyre & Rim Co., Ltd.—89 Station St., Birmingham, England. Mfrs. metallic rims.

Wet Battery.—See Battery, Wet.

Wet Steam.—See Steam, Wet.

Wetherill Finished Castings Co.—Office, 12th and Cumberland Sts.; factory, Richmond St. and Erie Ave., Philadelphia, Pa. Mfrs. castings, aluminum and brass.

Wetmore, H. A.—Athon, Ia. (Waltham).

Wetmore, John Chetwood.—Automobile editor and adv. mgr. N. Y. Evening Mail; correspondent Motor Age. B. Elizabeth, N. J., Aug. 22, 1856. Ed. Columbia grammar school 1875, Columbia University 1879, Columbia Law School 1881. Mem. Sons of American Revolution, N. Y. Yacht Club. Res. Elizabeth, N. J.; office 29 W. 42nd St. New York City. Recreation, motor boating.

Wetzel, Thos. Johnson.—Manufacturers' selling agent. B. Dayton, O., June 2, 1867. Ed. public school Mem. Cleveland A. C., Buffalo A. C., N. Y. Athletic. Res. Richfield Springs, N. Y.; office 29 W. 42nd St., New York City. In the trade since 1901. Used first car (Oldsmobile) 1903.

Wever, H. E.—Portsmouth, N. H. (Maxwell).

Weygant Son's, R. F.—Central Valley, N. Y. (Maxwell).

Weygant, W. M.—Tuxedo Park, N. Y. (Maxwell, Mitchell).

Weyher et Richmond Société Anonyme des Établissements.—52 route d'Auber-villiers, Pantin, France. Mfrs. steam automobiles. (Weyher-Richmond cars).

Wheel & Wood Bending Co., The.—141 John St., Bridgeport, Conn. Mfrs. top bows, wood wheels, wood bendings.

Wheel, Artillery.—Wooden wheels of the "artillery" type are now almost universally used for automobiles. This type of wheel is constructed with wedge spokes (Fig. 1) set together around the nave, and a hub of steel plates, front and rear bolted through the spokes and holding the axle-box in place. As may be seen from Fig. 2, which represents a complete wheel, this wheel has a long bearing surface on the axle, which increases its wearing power, and gives it greater stability. It has been adopted in motor-car construction because of its great strength in comparison with its weight. Motor-vehicle wheels are much smaller than those of horse-drawn vehicles, varying from 26 inches in small runabouts to 36 inches in large cars. One reason for this, aside from their greater strength, is that the motor runs more rapidly than the wheels, which necessitates gearing, and large wheels require a greater difference in gear-ratios than do small ones. The wheels of motor-cars are often slightly "dipped" (see Dip) in order to prevent their tendency to fly out when running at a high speed under load.

Fig. 1.

Fig. 2.

Wheel-base.—See Base, Wheel.

Wheel, Bevel.—Gear, Bevel.

Wheel-boss.—The enlarged part of a shaft on which a gear-wheel is keyed. See Boss.

Wheel, Chain.—The same as sprocket. q. v.

Wheel, Cog.—See Cog-wheel.
Wheel, Compression.—See Wheel, Road.

Wheel, Crown.—A toothed wheel with the teeth at right angles to its plane. Used in certain cases instead of a bevel wheel for connecting two shafts at right angles.

Wheel, Dipped.—See Dip.

Wheel, Dished.—See Dish.

Wheel, Disk.—A wheel consisting of two steel plates, each dished, and the two fastened together at their edges. The disk wheel possesses great strength, greater, in fact, for a given weight, than either a wooden spoked or wire wheel; and, in addition, is easily cleaned and nearly impossible to damage. This type of wheel, however, is but little used at present, notwithstanding its numerous advantages.

Wheel, Driving.—One of the wheels of the rear axle of a motor-vehicle to which is transmitted the action of the motor.

Wheel, Fifth.—See Fifth Wheel.

Wheel, Fly.—See Fly-wheel.

Wheel, Gear.—See Gearing.

Wheel, Half-time.—A toothed wheel keyed on the cam-shaft of a 4-cycle motor, and so called because to it is communicated a velocity whose ratio to that of the crank-shaft is as 1 to 2.

Wheel, Hand.—Any wheel rotated by hand to actuate a piece of mechanism.

Wheel, Idle.—See Idle-wheel.

Wheel Lock.—See Lock.

Wheel, Milling.—A small wheel of strongly tempered steel, with corrugations on its periphery, and by means of which corresponding corrugations can be rapidly made on objects of softer metals, such as copper, bronze nuts, caps, screw-heads, etc.

Wheel, Plate.—A wheel of which the boss is connected to the rim by a web (see Web).

Wheel, Ratchet.—See Ratchet-wheel.

Wheel, Sprocket.—See Sprocket.

Wheel, Spur.—See Gear, Spur.

Wheel, Steering.—Properly, one of the wheels of the front axle of a motor vehicle, but by common usage, the hand-wheel at the top of the post that conveys motion to the steering-gear. See Steering-wheel.

Wheel, Suspension.—See Wheel, Road.

Wheel-teeth, Shaping.—See Pitch-circle.

Wheel, Tubular, Steel.—A wheel which has been used to a certain extent on motor-cars, and which has the advantage of possessing considerable strength, especially in a lateral direction, and of being greatly superior to the wire wheel. It is imperfectly elastic, however, and has very little of the spring effect desirable.

Some of the advantages claimed for steel tubular wheels are true, balanced running; ability to withstand the torsion and tension of severe strains in the transmission of power, and perfect alignment of all parts.

Wheel, Wire.—See Wheels, Road.

Wheelan, J. D.—Care of Dallas Auto Co., Dallas, Tex. (Thomas.)

Wheeler & Schebler.—Shelby and Sanders Sts., Indianapolis, Ind. Mfrs. carburettors. Est. 1904. Mem. M. & A. M.

Wheeler, B.—Stanfordville, N. Y. Garage.

Wheeler, O. D.—19 Maple St., Marlboro, Mass. (Moline, Pope-Hartford).

Wheeler, C. F.—Vilas, Colo. (Walsham).

Wheeler, Schuyler Skaats.—Electrical engineer. B. N. Y. City, May 17, 1860. Ed. Friends Sem., Keble Hall, Columbia grammar sch., Columbia Univ.; grad. Hobart Coll., Dr. S. Pres. Crocker-Wheeler Co. Mem. Am. Soc. of Mech. Eng's.; Am. Soc. of Civil Eng's.; Inst. of Electrical Eng's. (pres.); St. Nicholas Soc. (chm'n. Bldg. Com.). Clubs: A. C. A., University, Lawyers, Lotus, Engineers. Address: Ampere, N. J. Was chairman of Building Com. of A. C. A. during erection of new club house, under direction of which the new dynamometer and testing plant was installed.

Wheeler, W. L.—Menasha, Wis. (Buick, Winton).

Wheeling Automobile Co.—"The Auto Inn," 16th and Eoff Sts., Wheeling, W. Va. (Winton, Cadillac, Frayer-Miller, Reo, Rapid.)

Wheels, Auto, Speed Revolutions of.—The following table gives the number of revolutions per minute of automobile road-wheels at different rates of speed:

Diam. of Wheel	MILES PER HOUR									
	2	4	6	8	10	15	20	25	30	40
24 in.	28	56	84	112	140	210	280	350	420	560
26 "	26	52	78	103	129	194	258	323	388	517
28 "	24	48	72	96	120	180	240	300	360	480
30 "	22	45	67	90	112	168	224	280	336	448
33 "	20	41	61	82	102	153	204	255	306	408
36 "	19	37	56	75	93	140	187	234	280	374
42 "	16	32	48	64	80	120	160	200	240	320

Wheels, Friction.—An arrangement in which the extremity of an axle (see figure), instead of

resting in a cylindrical socket, is made to rest on the circumferences of two wheels, to the axles of which the friction is transferred, and consequently diminished in the ratio of the radius of each friction-wheel to the radius of its axle. (2) The wheels or disks in a friction transmission, q. v.

Wheels, Road.—Motor-car road-wheels may be divided into two types,

"suspension" and "compression." The first are formed of hard-drawn steel wire spokes, which are held into the hub by means of a shoulder and drawn tight into the rim by a nipple. In this type of wheel the spokes require to be "staggered" in order to give the wheel lateral stability. A suspended wire wheel can carry considerable weight in proportion to its own weight, but is unable to sustain as great a lateral stress, or stress at right angles to its plane, as a wooden wheel. Some years ago wire wheels were extensively applied to motor-cars of all powers, but are scarcely used now except with the buggy type of vehicle (see figure). At present wooden compression wheels of the artillery type are the kind almost universally employed on automobiles. See Wheel, Artillery.

Wheel, Wire.—See Wheels, Road.

Wheelwright, Geo. F.—488 Broad St., Providence, R. I. (Lambert).

Wheezing.—A sound in the cylinder due to the escape of gas or air under pressure, often caused by loose or worn piston-rings or scoring of the bore of the cylinder.

Whipple, Harlan Woodbury.—Retired.

B. South Dartmouth, Mass., Oct. 8, 1865. Ed. Phillips Andover, '85; Williams College, '88. Mem. clubs: A. C. A., Mass. A. C., R. I. A. C., Bay State Auto Ass'n., Worcester A. C., Vesper Country. Boston. Res. Westbury Court, Andover,

Mass. Used first car February, 1900. Is now driving 23rd car. 60 hp. Matheson.

Whipple, R. W.—169 State St., Binghamton, N. Y. Mfrs. brakes, jacks, automobile seats, and dos-a-dos seats.

Whipple, "The Motorcycle Man."—260 W. Jackson Blvd., Chicago, Ill. (Indian and Merkel).

Whistle.—A signaling device which emits a loud sound when steam or air is blown through it. The United States Government regulations demand the use of a suitable signal on all launches propelled by machinery of any description.

Witcher & Co., Frank W.—14 Albany

St., Boston, Mass. Mfrs. leather and artificial leather.

Whitcomb Auto Co.—Merrick Rd. and Broadway, Lynbrook, Long Island, N. Y. (Maxwell).

Whitcomb Auto Co., T. C.—E. 9th St., Cleveland, O. (Rambler).

Whitcomb, Lawrence.—Sec. Treas. and Gen. Mgr. National Brake and Clutch Co., 16 State St., Boston Mass.

Whitcomb, M. L.—Pres. Haverhill Fire Appliance Co. Office, 40 Merrimack St.; factory, Island Park, Haverhill, Mass.

Whitcomb, Wm, W.—Pres. National Brake and Clutch Co., 16 State St., Boston, Mass.

White & Bagley Co., The.—100 Foster St., Worcester, Mass. Mfrs. oils, automobile body soap, hand soap.

White & Grasswick.—Calgary, Alberta, Can. (Marmon, Russell, Rambler).

Whits & Poppe, Ltd.—Coventry, England. Mfrs. automobile motors, carbureters and motorcycle motors.

White, A. Corydon, Jr.—640 Main St., Springfield, Mass. (White, Stanley).

White, A. E. F.—Treas. Acme White Lead & Color Works, Detroit, Mich.

White Agency.—176 State St., Binghamton, N. Y. (White.) Est. 1905. John A. Gale, Pres.; C. E. Collier, Sec. and Treas.

White Auto Co.—11 Dorrance St., Providence, R. I. (White).

White Auto Repair Co.—164 W. 46th St., New York City. Repairing.

White Auto Station.—26 Sabin St., Providence, R. I. Garage.

White Automobile Agency.—1116 Main St., Buffalo, N. Y. (White). Supplies and garage.

White Automobile Co.—976 N. High St., Columbus, O. (Aerocar, White, Baker).

White Blakeslee Mfg. Co.—Birmingham, Ala. Garage.

White, Chas.—Monett, Mo. (Jewel).

White, Chas. E.—Pres. Standard Automobile Wks., 110 5th Ave., Clinton, Ia.

White Co., The.—Rose Bldg., Cleveland, O. Makers of White steam cars; first marketed in 1901. Eight different models made since. Windsor T. White, Pres.; Rollin H. White, 1st Vice-Pres.; Walter C. White, 2nd Vice-Pres.; A. R. Warner, Sec.; Bert Graves, Supt.; E. L. Hewitt, Purch. Agt.; R. H. Johnston, Adv. Mgr. Branches: Boston, 320 Newbury St., J. S. Hathaway, Mgr.; Chicago, 240 Michigan Ave., W. J. Urquhart, Mgr.; Cleveland, O., 407 Rockwell Ave., J. L. Cross, Mgr.; London, 35 King St., Regent St., Frederick Coleman, Mgr.; New York City, Broadway and 62nd St., G. W. Bennett, Mgr.;

Philadelphia, 629 N. Broad St., G. H. Smith, Mgr.; San Francisco, 1760 Market St., C. A. Hawkins, Mgr.

White Co., The.—35 King St., Regent St., London, England. (White). Frederick. Coleman, Mgr.

White Co., The.—19 E. 9th St., Bellefontaine, O. (White).

White Co., The.—484 Main St., East Orange, N. J. (White.) Cap. \$25,000. B. F. Adams, Mgr.

White Co., The.—417 Federal St., Troy, N. Y. (White.)

White Co.—Detroit, Mich. Garage.

White Co.—19 E. 9th St., Cincinnati, O. (White).

White Co., H. C.—North Bennington, Vt. Garage.

White Copper.—See German Silver.

White Dental Mfg. Co.—Philadelphia, Pa. Mfrs. flexible shafting.

White, Frank.—Portland, Ind. (Pope-Hartford.)

White, Fred R.—Vice-Pres. and Gen. Mgr. The Baker Motor Vehicle Co. Vice-Pres. American Ball Bearing Co. B. Cleveland, O., Feb. 17, 1872. Ed. Cornell. Director Baker Motor Vehicle Co. Mem. clubs: Union, University, Roadside, Cleveland A. C. Res., 6619 Euclid Ave., Cleveland, O. Office, Baker Motor Vehicle Co., Ft. 80th St. N. W., Cleveland, O. In the trade since 1899. Used first car 1897.

White, Frederick W.—Treas. Pilot Garage & Supply Co., Worcester, Mass.

White Garage.—Coronado, Cal. Garage.

White Garage.—712 S. Broadway, Los Angeles, Cal. (White, Pope-Hartford, Pope-Toledo.)

White Garage.—1010 Morton, Baltimore, Md. Garage. (White.) H. M. Rowe, Mgr.

White Garage.—Lynn, Mass. (White.)

White Garage.—666 State St., New Haven, Conn. (White.)

White Garage.—Petersboro, N. H. Garage.

White Garage.—1215 Madison Ave., Toledo, O. (White.)

White Garage Co.—240 Michigan Ave., Chicago, Ill. (White.)

White, Geo. W.—Treas. Pope Automobile Co. of Washington, 817-19 14th St. N. W., Washington, D. C.

White, H. A.—Memphis, Tenn. (Cadillac.)

White, H. C.—Sec. The Insulated Wire and Cable Co., 114 Liberty St., New York City. Factory. Bayonne, N. Y.

White Heat.—The temperature at which a body emits a white light. The "white heat" of the smith's forge is the temperature to which a large piece of iron is heated before removal from the fire. say between 2370 and 2730 F.

White, H. Kirke.—Vice-Pres. Acme White Lead & Color Works, Detroit, Mich.

White, Hugh.—Sec. and Treas. Utica Drop Forge & Tool Co., 75 Genesee St., Utica, N. Y.

White, J. Bartlett.—Waltham, Mass. Garage.

White, John.—Direc. Pittsfield Spark Coil Co., Dalton, Mass.

White, J. L.—419 Auburn St., Buffalo, N. Y. Garage.

White, J. W.—543 Broad St., Augusta, Me. Garage.

White Lead.—See Lead, White.

White Metal.—Another name for Babbitt's metal, q. v.

White Mfg. Co.—72 S. Canal St., Chicago, Ill. Mfrs. braziers.

White Mfg. Co.—Cannon St., Bridgeport, Conn. Mfrs. lamps and metal trimmings.

White, M. T.—74 Bridge St., Springfield, Mass. (Maxwell.)

White Plains Garage.—2-4 Mamaronck Ave., White Plains, N. Y. Supplies; garage.

White, P. M.—Pres. Unique Metal Co., 25 Illinois St., Buffalo, N. Y.

White, R. C.—Pres. Baker Motor Vehicle Co., 80th St. N. W., Cleveland, O.

White, Rolin Henry.—Vice-Pres. The White Co. B. Cleveland, O., July 11, 1872. Ed. Cornell University. Director The White Co.

White, Sam B.—91 Sabin St., Providence, R. I. Mfr. valve lifters.

White-Savage Auto Co.—43 S. State St., Salt Lake City, Utah. (Stearns, Matheson, Cadillac.)

White Steam Cars.—21 E. 9th St., Cincinnati, O. (White.)

White, T. L.—Manchester, Mass. Mfrs. motor-boats.

White, Walter C.—A racing and touring driver of prominence, Second Vice Pres. The White Company, makers of White steam cars. He competed in the Elimination trials, held to select a team to represent America in the 1905 Vanderbilt Cup race, and in many races on the track, hill-climbs, etc.

White, Windsor Thomas.—Pres. The White Co. B. Orange, Mass., Aug. 28, 1866. Ed. Worcester Polytechnic Institute, degree B. S.

Director The White Co., White Sewing Machine Co., First National Bank of Cleveland, Park Drop Forge Co. Mem. clubs: Union, Tavern, Hermit, Country of Cleveland, Engineers', Green Spring Valley Hunt Res., Bratenahl, Cleveland, O. Office, St Clair Ave. and 79th St. Cleveland O. In the trade since 1900

White, W. McKean.—Automobile editor Philadelphia Press. B. Philadelphia, Pa. April 25, 1885. Ed. Blair Academy, University of Pennsylvania, B. S. Formerly with Martin and Hart Motor Co., Philadelphia, 1905-1906, with J. Hervey Nichols, Jr., Denver, Colo., 1905.

White, Wm. Pierrepont.—Pres. Utica Drop Forge & Tool Co., 75 Genesee St., Utica, N. Y.

Whitehead, B. S.—Pres. Webb Mfg. Co., 60 Shipman St., Newark, N. J.

Whitehouse, H. H.—Sales Mgr. Pier-son Motor Supply Co., 1175 Bedford Ave., Brooklyn, N. Y.

Whiteley Steel Co.—Muncie, Ind. Mfrs. steel castings.

Whiteside Wheel Co.—W 10th St and Canal, Indianapolis, Ind. Mfrs. wheels. Cap. \$200,000. Est. Oct., 1906.

Whitewater Automobile Club.—Whitewater, Wis. T. M. Blackman, Sec

Whitfield, N. B.—143 Park St., New Haven, Conn. (Oldsmobile.)

Whiting, Allan Hart.—Vice Pres. Atlantic Motor Car Co. B. Spuyten Duyvil,

New York, July 26, 1874 Ed. Wilson &

Kellogg School, Sheffield Scientific School of Yale University. Director Atlantic Motor Car Co. Mem. clubs: University, Yale. A. C. A., N. Y. Motor, A. A. A., N. Y. State Auto Ass'n., Northampton, Sigma Phi, Theta Nu Epsilon, Aero C. A., Yale University, Yale Yacht. A. I. E. E.

Res., Hotel Cumberland. Office, 1776 Broadway, New York City. In the trade since Sept. 1, 1896. Used first car 1899.

Recreations: Motoring, boating.

Whiting & Mudgett.—Santa Cruz, Cal. Garage.

Whiting Auto Co., H. E.—22 Park Sq., Motor Mart, Boston, Mass. (Mora.)

Whiting, C. L.—591 Main St., Rochester, N. Y. (Buick)

Whiting Motor Car Co.—Jackson, Mich. Mfrs. gasoline commercial automobiles.

Whitley Motor & Engineering Co.—Fleet St., Coventry, England. Mfrs. automobile motors.

Whitlock Coil Pipe Co., The.—Elmwood St., Hartford, Conn. Mfrs. radiators, coolers, hoods, exhaust, inlet and water pipes. Cap. \$400,000. Est. 1892. Mem. M. & A. M. Arthur S. Hyde, Sec., Treas and Gen. Mgr. New York Office, 85 Liberty St.

Whitman Agricultural Co.—St. Louis, Mo. Mfrs. gasoline commercial automobiles.

Whitman & Barnes Mfg. Co.—Akron, O. Mfrs. drop forgings, wrenches, tools.

Whitman, E. D.—Supt. Richmond Forgings Corp., Belle Isle, Richmond, Va.

Whitman, H. G.—Pres. Bailey Automobile Co., Birnie Ave., Springfield, Mass.

Whitman, R. H.—Powell St., Richford, Vt. (Stanley, Ford, Waltham)

Whitmore, E. T.—750 Main St., Williamantic, Conn. Garage.

Whitney Bros.—Wellsley Hills Sq., Wellesley, Mass. Garage.

Whitney, C. F.—Mgr. and Treas. Park Sq. Auto Station, 43 Columbus Ave., Boston, Mass.

Whitney, E. D.—50 Greene St., Brattleboro, Vt. (Stevens-Duryea.)

Whitney Electrical Instrument Co.—Concord, N. H. Mfrs. ammeters and voltmeters.

Whitney, E. R.—Designer. Commercial Truck Co. of America, 1222 Arcade St., Philadelphia, Pa.

Whitney, F. I.—Vice-Pres. Fouch Disc Wheel Co. Office, Room 11, Tribune Bldg., Minneapolis, Minn.

Whitney, Geo.—Supt. Mora Motor Car Co., Newark, N. Y.

Whitney Mfg. Co., The.—Hartford, Conn. Mfrs. chains, vises and milling machines.

Whitney, R. A.—Sales Mgr. The Bartholomew Co., Peoria, Ill.

Whitney, R. S.—7 Dunlap St., Brunswick, Me. (Jackson, Logan.)

Whittaker, E. F.—Purch. Agt. Waltham Mfg. Co., Waltham, Mass.

Whittaker, H. C.—Wheeling, W. Va. (Pope-Hartford.)

Whittemore, C. C.—123 W. Eagle St., Buffalo, N. Y. Garage.

Whitten, B. D.—Great Falls, Mont. (Holsman.)

Whitten, C. E.—40 Central Ave., Lynn, Mass. (Thomas Flyer.)

Whitten, F. A.—Supt. Landsen Co., 54-56 Lackawana Ave., Newark, N. J.

Whitten, F. R.—Sec. and Adv. Mgr. Automobile dealer and repairer, 24 Murray St., New York City.

Whitten-Gilmore Co.—907 Boylston St., Boston, Mass. (Thomas.)

Whitten, Harry E.—16 Andrew St., Lynn, Mass. (Springfield, Rambler.)

Whitten Motor Car Co.—Broad and Potter Sts., Providence, R. I. (Rambler.)

Whittier, D. L.—Pres. Eclipse Machine Co., Elmira, N. Y.

Whittington, N. T.—Cayuga, Ind. (Holsman.)

Whyte Auto Station, C. F.—109 Waverly St., S. Framingham, Mass. Garage.

Wichita Automobile Co.—Topeka, Kan. (Pope-Hartford.)

Wichita Automobile Co.—123-25 S. Lawrence Ave., Wichita, Kan. (Reo, Rambler, Maxwell, Pope-Waverley, Stoddard-Dayton.)

Wichita Falls Implement Co.—Wichita Falls, Tex. (Waltham.)

Wick, Asbestos.—Selected asbestos fiber spun into a soft, strong wick-like form, used as a packing and insulating material.

Wick, Carburetter.—See Carburetter.

Wick, H. B.—Elyria, O. Garage.

Wicke, J. A.—2nd St., Van Horne, Ia. (Moline.) Est. 1901. J. A. Wicke, Gen. Mgr. Garage, 20 cars. Repairing; supplies.

Wickersbau, R. S.—Gen. Mgr. Grip Nut Co., 152 Lake St., Chicago, Ill., and 500 Fifth Ave., New York City.

Wickersheim, E. F.—515 N. Main St., Santa Ana, Cal. (Jackson.)

Wicks, F. N.—Sec. and Treas. Kalamazoo Spring & Axle Co., Kalamazoo, Mich.

Wickstrom & Schafer.—Kansas City, Mo. (Holsman.)

Wickwire Steel Co.—Office, 1027 White

Bldg., Buffalo, N. Y. Plant, Wireton (Rattlesnake Is.), Buffalo, N. Y. Mfrs. steel.

Widmayer, Frank B.—2312 Broadway, near 84th St., New York City. Selling Agent Indian and Yale motorcycle, supplies and motorcycle parts. Repairing and storage.

Widmer Machine Works.—43-7 Fort St. E., Detroit, Mich. Mfrs. metal gear wheels, rawhide gear wheels and machine work to order.

Width Over All.—The distance from one extreme side of a car to the other extreme side.

Weider Harness Co.—Calumet, Mich. Repairing.

Weiner Aero Club.—(Vienna Aero Club.) Vienna, Austria.

Wiener, L.—Zwolla, Holland. Mfrs. marine motors.

Wiener Lüftschiffer Zeitung.—1 St. Annahoff, Vienna, Austria. (Aeronautical magazine.)

Wieress et Cie.—Liestal, Switzerland. Mfrs. primary batteries.

Wiest, H. G.—Sec., Treas. and Supt. York Electric & Machine Co., 30-34 N. Penn St., York, Pa.

Wight, Ed. L.—Atlanta, Ga. (Pope-Hartford.)

Wight, W. W.—Cornwall, Cal. (Rambler.) Garage.

Wightman, Elmer.—Tulare, Cal. Garage.

Wilcox, Crittenden & Co.—Middletown, Conn. Mfrs. gray iron castings.

Wilcox, E. C.—Pres. Connecticut Telephone & Electric Co., Inc., 70 Britannia St., Meriden, Conn.

Wilcox, H. E.—Pres., Purch. Agt. and Mgr. H. E. Wilcox Motor Car Co., 1030 N. E. Marshall St., Minneapolis, Minn.

Wilcox, Howard A.—Designer and Supt. Reliance Motor Car Co., 89 Fort St. E., Detroit, Mich.

Wilcox, John F.—Vice-Pres. H. E. Wilcox Motor Car Co., 1030 N. E. Marshall St., Minneapolis, Minn.

Wilcox, Lewis E.—Main St., Cor. Grand Ave., Middletown, N. Y. Renting.

Wilcox, M. E.—Providence, R. I. Mfr. wood and metallic bodies.

Wilcox Mfg. Co., D.—Mechanicsburg, Pa. Mfrs. drop forgings.

Wilcox Motor Car Co., H. E.—1030 N. E. Marshall St., Minneapolis, Minn. Makers of the Wolfe car: first marketed in 1906. One model made since. Cap. \$100,000. H. E. Wilcox, Pres., Purch. Agent and Mgr.; John F. Wilcox, Vice-Pres.; Maurice Wolfe, Sales Mgr.; W. R. Cray, Sec.; R. D. Wilcox, Treas.; R. J. Rubesky, Supt.

Wilcox, R. D.—Treas. H. E. Wilcox Motor Car Co., 1030 N. E. Marshall St., Minneapolis, Minn.

Wilcox, W. A.—Westbrook, Conn. Garage.

Wilcox & Co., W. H.—23 Southwark St., London, S. E., England. Mfrs. circulating pumps.

Wilcox, Wallace L.—Central St., Fall River, Mass. (Franklin.)

Wilder, C. D.—Treas. Darracq Motor Car Co., 1989 Broadway, New York City.

Wildern, George R.—Washington Ave., Charlotte, Mich. Repairing.

Wildes, Thomas.—246 Water St., New York City. Mfr. babbitts metal, solder.

Wildmann, Victor.—Offenbach, Germany. Mfr. tire pumps.

Wildman's Auto Garage.—Belmar, N. J. Garage.

Wiley & Son Co., Wm. H.—Box 30, Hartford, Conn. Mfrs. storm aprons, and curtains, automobile covers, lamp covers, tire case, leggings.

Wiley, F. S.—Pres. Crescent Auto & Machine Co., cor. East 2nd and Marr St., Fond du Lac, Wis.

Wiley, W. H.—Treas. and Gen. Mgr. Coppock Motor Car Co., Decatur, Ind.

Wylford et fils.—Tamise, Belgium. Mfrs. marine motors.

Wilhelm, A. J.—Prophetstown, Ill. (Waltham).

Wilhide, J. L. B.—2329 Madison Ave., Baltimore, Md. (Atlas, Frayer-Miller).

Wilkerson, Geo. S.—Youngstown, O. (Rauch and Lang).

Wilkes-Barre Automobile Club.—Dr. E. C. Wagner, Sec., 125 S. Washington St., Wilkes-Barre, Pa.

Wilkesburg Automobile Co.—819 Hay St., Pittsburg, Pa. Garage. (Elmore).

Wilkinson & Co., F. W.—Manchester, England. (Stanley).

Wilkinson, E. J.—617 Clinton St., Fort Wayne, Ind. Garage.

Wilkinson, F. B.—Sec. and Treas. Western Motor Co., Logansport, Ind.

Wilkinson, J.—Designer, H. H. Franklin Mfg. Co., 302 S. Geddes St., Syracuse, N. Y.

Wilkinson, J. Franklin.—Gloucester, Mass. Mfr. foot-levers.

Willard Auto Station.—400 14th St., Washington, D. C. (Dolson, Jackson.)

Willard, Clare.—Allegany, N. Y. Garage.

Willard Co., H. J.—18 Forest Ave., Portland, Me.; Bangor, Me.; 48 Ash St., Lewiston, Me. (Packard, Elmore, Cadillac, Franklin, Winton.)

Willard, J. L.—Purch. Agt. Mora Motor Car Co., Newark, N. Y.

Willard Storage Battery Co.—1279-1281 Bank St., Cleveland, O. Mfrs. storage and ignition batteries. Cap. \$250,000; \$100,000 paid. Est. 16 years. T. A. Willard, Pres.; E. V. Stebbins, Vice-Pres. and Gen. Mgr.; J. A. Richmond, Sec. and Treas.; R. Norburg, Supt.; G. S. Rankin, Chief Accountant; B. S. Brown, Purch. Agt.

Willard, T. A.—Pres. Willard Storage

Battery Co., 1279-81 Bank St., Cleveland, Ohio.

Willet Engine & Carbureter Co.—764 Ellicott Sq., Buffalo, N. Y. Mfrs. carbureters, gasoline automobile and marine motors.

Willets, W. W.—Vice-Pres. Curtain Supply Co., 85-93 Ohio St., Chicago, Ill.

Willey, C. A.—Hunter's Point, New York. Mfr. varnishes.

Williams et Cie.—1 rue Caumartin, Paris, France. Mfrs. wearing apparel, coats.

Williams & Co., J. H.—150 Hamilton Ave., Brooklyn, N. Y. Mfrs. drop forgings, wrenches.

Williams & Son, E. A.—107 Plymouth St., Jersey City, N. J. Mfrs. babbitt metals, bushings, bearings, aluminum, brass and bronze castings, crank cases, engine cases. Cap. \$300,000. Est. 1857. Thomas H. Williams, Jr., Gen. Mgr.

Williams & Son, J. C.—Orange, Cal. (Reo.)

Williams & Son, J. J.—109 Main St., Montpelier, Vt. (Buick, Pope-Hartford.)

Williams, A. A.—Pres., Mgr. and Supt. Duluth Gas Engine Works, Cor. Vine St. and Minnesota Ave., Duluth, Minn.

Williams, A. S.—Pres. Berkshire Cycle & Auto Co., 95 Main St., North Adams, Mass.

Williams Auto Co., R. O.—621-3 Broad St., Columbus, O. (Stearns.)

Williams Co., The John.—114-18 Liberty St., New York City. Mfrs. steam engines.

Williams, E. Q.—533 S. Clinton St., Syracuse, N. Y. Mfr. ammeters and voltmeters, spark coils, spark plugs, electric switches.

Williams, E. S.—Sec. Continental Caoutchouc Co., 43 Warren St., 2100 Broadway, New York City.

Williams, Fred.—224 16th St., Denver, Colo. Repairing.

Williams, F. Y.—Mgr. Lothrop Davis Co., 105 Main St., Tonopah, Nev.

Williams, Harrison.—Pres. Waltham Mfg. Co., Waltham, Mass.

Williams, Harry.—Sec. and Treas. Motz Clincher Tire & Rubber Co., Akron, O.

Williams, Harvey R.—Lancaster, Pa. (Queen.)

Williams, Jas. C.—Sec. Palace Auto Co., 1408-10 Walnut St., Kansas City, Mo.

Williams, J. H.—Monroe, Wis. (Jewell.)

Williams, John.—464 Pleasant St., Fall River, Mass. (Reo.)

Williams, John R.—2nd Vice-Pres. Electric Storage Battery Co., Allegheny Ave. and 19th St., Philadelphia, Pa.

Williams, M. L.—Prop. Twentieth Cen-

tury Motor Car Co., 121-25 S. Lafayette St., South Bend, Ind.

Williams Motor Car Co.—Akron, O. Garage.

Williams, Philip A., Jr.—Sales Mgr. Atlas Motor Car Co., Birnie Ave., Springfield, Mass.

Williams, R. H.—Mgr. Baltimore, Md., Branch Winton Motor Carriage Co.

Williams, Roger H.—Treas. The Eaton Cole & Burnham Co., Bridgeport, Conn.

Williams, Thomas H.—Gen. Mgr. E. A. Williams & Son, 107 Plymouth St., Jersey City, N. J.

Williams, T. J.—Des Moines, Ia. (Holsman.)

Williams Valve Co., D. T.—904-10 Broadway, Cincinnati, O. Mfrs. carburettors, brass, bronze, aluminum and copper castings, brass couplings, brass pipe fittings, grease cups, lubricators, oil cups, oil pumps, gasoline strainers, safety valves, throttle valves.

Williams-Wittlesey Co.—Long Island City, L. I., N. Y. Mfrs. motorboats.

Williams, Wm. J.—Vice-Pres. Draper Bros. Co., Canton, Mass.

Williams, W. R.—Vice-Pres. and Treas. Richmond Forgings Corp., Beile Isle, Richmond, Va.

Williamsburg Automobile & Storage Co.—159 Clymer St., Brooklyn, N. Y. (Autocar.) Garage.

Williamson, W. S.—123 Liberty St., New York City. Rubber goods.

Williamson, W. S.—220 Clifton Pl., Brooklyn, N. Y. (Holsman.)

Williamsport Auto Exchange.—599 W. 3rd St., Williamsport, Pa. (Maxwell, Premier, White.)

Williamsport Automobile Club.—Williamsport, Pa. F. Grant Sweet, Sec.

Willink Garage.—Flatbush and Ocean Ave., Brooklyn, N. Y. (Marmon.)

Willink, Gebrüder.—12 Paleistrasse Amsterdam, Holland. Mfr. marine motors.

Willis Co., E. J.—8 Park Pl., New York City. Est. 1892. Supply house. E. J. Willis, Pres. and Treas.; Wm. Baker, Vice-Pres.; Wm. B. Myers, Sec.

Willis, E. J.—Pres. and Treas. E. J. Willis Co., 8 Park Pl., New York City.

Willis, F. B.—Sec. Fisher Auto Co., 330 N. Illinois St., Indianapolis, Ind.

Williston Cycle Agency.—Williston, Md. Garage.

Willocq-Bottin.—33 square Gutenberg, Brussels, Belgium. Mfrs. acetylene lamps, oil lamps.

Willoughby Co.—86 Genesee St., Utica, N. Y. Mfrs. wood and metallic bodies.

Willoughby, S. W.—27 W. Bridge St., Grand Rapids, Mich. Repairing.

Willow St. Motor Car Repair Co.—Willow St., Fitchburg, Mass. (Rambler.)

Wills, Geo. E.—84 Court St., Auburn, Me. (Holsman.)

Willss, August.—Eisenach, Germany. Mfr. wearing apparel, fur coats.

Willyoung Appliance Co.—Ludlow Station, Yonkers, N. Y. Mfrs. ignition coils, magnetos, spark plugs, tire chain grips, shock absorbers and combustion engines. Cap. \$125,000. Est. Feb. 26, 1907. Elmer G. Willyoung, Pres.; Geo. M. Conner, Sec.; Jerome Bradley, Treas.; Benjamin Biscoe, J. D. Maxwell, Directors; Geo. Helfrich, Asst. Sec. and Office Mgr.; Louis E. Shaw, Chief Engineer; Ewald Raves, Gen. Supt.; Elmer G. Willyoung, Mgr.

Willyoung, Elmer G.—Pres., Gen. Mgr. and Director Willyoung Appliance Co., Ludlow Station, Yonkers, N. Y.

Willys Crew Motor Car Co.—117-19 Main St., Elmira, N. Y. (Rambler, White, Premier, Pope-Waverley, Ford, American.) Garage; supplies; repairing.

Wilmarth & Morman Co.—585 Canal St., Grand Rapids, Mich. Mfrs. drill grinders, surface grinders, arbor presses, friction countershafts, Nelson patent pulleys. Cap. authorized, \$50,000; paid in and surplus, \$40,000. Est. 1900. L. T. Wilmarth, Pres. and Gen. Mgr.; S. A. Morman, Vice-Pres.; Chas. E. Meech, Sec. and Treas.; E. T. Gorham, Supt. Above officers are also directors.

Wilmarth, L. T.—Pres., Gen. Mgr. and Director Wilmarth and Morman Co., 585 Canal St., Grand Rapids, Mich.

Wilmington Auto Co.—Delaware and 10th Sts., Wilmington, Del. (Autocar, Franklin, Winton.)

Wilmington Malleable Iron Co.—Wilmington, Del. Mfrs. malleable iron castings, steel castings.

Wilner, Elias R.—Sec. and Gen. Mgr. Manhattan Screw & Stamping Works, West End Ave. and 67th St., New York City.

Wilner, Samuel.—Pres. Manhattan Screw & Stamping Works, West End Ave. and 67th St., New York City.

Wilson, A. H.—2nd and Market Sts., Canton, O. (Cadillac, Winton, Northern.)

Wilson & Co., F. Cortez.—239-41 Lake St., Chicago, Ill. Mfrs. underground gasoline storage outfits, lubricating oil tanks, gasoline measures, funnels, floor pans, luggage carriers, cooking outfits, acetylene generators, pumps. Est. 1869. C. E. Wilson, Owner; George Landis Wilson, Mgr.

Wilson & Co.—142 Bank St., Ottawa, Can. (Pierce Arrow, Franklin.)

Wilson & Ellett Motor Car Co.—Alliance, O. (Cadillac, Winton.)

Wilson, A. S.—23 Cooper St., Woodbury, N. J. (Ford, Studebaker.)

Wilson, A. S.—1548 Broadway, Denver, Colo. (Earl, Ford, Columbus, Dragon.)

Wilson Automatic Clock Co.—935 Arch St., Philadelphia, Pa. Mfrs. automobile clocks.

Wilson Automobile Co.—117 Craig St., West, Montreal, Canada. (Buick, Babcock, Pierce Arrow, Rapid, Franklin.)

Wilson Automobile Co., Ltd.—142 Bank St., Ottawa, Canada. (Stoddard-Dayton.)

Wilson Automobile Co.—118 St. Lawrence Ave., Wichita, Kan. (Stearns, Northern.)

Wilson, C. A.—South Bethlehem, Pa. Garage.

Wilson, C. D.—Sec. and Treas. Hamilton Motor Car Co., 26 N. 2nd St., Hamilton, O.

Wilson, C. D. & Parrish, L. M.—Hamilton, O. Garage.

Wilson, C. E.—Owner F. Cortez Wilson & Co., 239-41 Lake St., Chicago, Ill.

Wilson, C. H.—Vice-Pres. C. R. Wilson Body Co., Detroit, Mich.

Wilson Co., D. B.—13 E. Main St., Waterbury, Conn. (Maxwell.)

Wilson, C. R.—Pres. and Gen. Mgr. C. R. Wilson Body Co., Detroit, Mich.

Wilson Body Co., C. R.—Detroit, Mich. Mfrs. automobile bodies, wood, steel or aluminum. Member M. & A. M. Cap. \$50,000. Est. 35 years. C. R. Wilson, Pres., Supt. and Gen. Mgr.; C. H. Wilson, Vice-Pres.; P. D. Dwight, Sec. and Treas.

Wilson, C. R.—Director Wayne Automobile Co., Piquette and Brush Sts., Detroit, Mich.

Wilson, E. C.—Richfield, Kan. (Holzman.)

Wilson, E. L.—Treas. Kinsey & Mahler Co., 400 S. Adams St., Peoria, Ill.

Wilson, G. B.—Treas. The Safety Insulated Wire & Cable Co., 114 Liberty St., New York City. Factory, Bayonne, N. J.

Wilson, Geo. L.—Mgr. F. Cortez Wilson & Co., 239-41 Lake St., Chicago, Ill.

Wilson, G. L.—Asst. Factory Mgr. National Auto Top Co. Main Office, 1904 Broadway. Factory, 244-50 W. 49th St., New York City.

Wilson, Jack.—Hd. of Rep. Dept. Hamilton Garage Co., 133-5 King St. W., Hamilton, O.

Wilson, J.—Foreman J. E. Crane, 922-30 18th St., Denver, Colo.

Wilson, Jim P.—Alpine, Tex. (Waltham.)

Wilson, John A., Jr.—Supt. Automobile Dept. Noye Mfg. Co., 50 Lake View Ave., Buffalo, N. Y.

Wilson, R. A.—Supt. Long Arm System Co., Lakeside Ave. and E. 38th St., Cleveland, O.

Wilson, Sam J.—Eau Claire, Wis. (Jackson.)

Wilson, Thos. H.—Detroit Club. Detroit, Mich. (Stearns.)

Wilson, T. H.—215 Seneca St., Canajoharie, N. Y. Garage.

Wilson, W. Grant.—2343 Military St., Port Huron, Mich. (Maxwell.)

Wilson, Wm. P.—Hd. of Oil Pump Dept. Detroit Lubricator Co., Trumbull Ave., Lincoln Ave. and G. T. Ry., Detroit, Mich.

Wilson's Garage.—Savannah, Ga. (Pope.)

Wilson's Garage.—Wells, Md. (White.)

Wincapaw & Co., C. C.—Prince's Bay, N. Y. (Waltham.)

Wincer and Co., C.—Brace St., Wall-sall-on-Thames, England Mfrs. carburettors.

Winchendon Auto Transit Co.—Winchendon, Mass. Garage.

Winchester Automobile Co.—Winchester, Mass. Garage.

Winchester Speedometer Co., Inc.—Mortor Mart, 62nd St., and Broadway, New York City. Mfrs. speedometers.

Wind, Resistance of.—See Atmosphere.

Wind-screen.—A large plate of glass set into a frame and placed in the front

part of a car to protect the occupants from the rush of wind when the car is running fast; or in the forward part of a motor-boat to protect the passengers from both wind and spray.

Wind, Velocity.—See Atmosphere.

Windham Patent Bodies.—Clapham Junction Station, London, England. Mfrs. bodies.

Windhoff Frères.—100 ave. Parmentier, Paris, France. Mfrs. radiators.

Windhoff, Gebrüder.—Rheine-im-Westphalia, Germany. Mfr automobile motors, radiators, carburettors.

Windiate & Vandenbrooks.—Craps Bldg., Bay City, Mich. (Maxwell.)

Windsor Auto Co.—115 W. 37th St., New York City. Garage.

Windsor Spring Co., The.—Kenosha, Wis. Mfrs. seat springs.

Wine, E. H.—Harrisburg, Va. (Ramler.)

Wing.—A guard made of metal or other material, called also "mud-guard," placed at each side of a car to prevent the splashing of mud over the vehicle and its occupants. (2) A term sometimes used as a synonym for "fin," "flange," "gill" or "rib." q. v. (3) One of the vanes of a fan.

Wing & Co, Charles.—Amesbury, Mass. Mfrs. and wholesale dealers Mfrs. cushion springs, automobile strapping. Dealers leather for upholstery, and all other upholstering materials, hardware. Cap. \$60,000. Est. 1840. Inc. 1893. Wm. W. Hawkes, Pres. and Treas.; Charles A. Stein, Sec.

Wing, F. A.—Mgr. Broadway Automobile Co., Broadway and Madison St., Seattle, Wash.

Wing-iron.—A stay used to support the mud-guards of motor-cars.

Wing-nut.—See Nut, Wing.

Wing-transom.—In vessels, the uppermost transom of the stern-frame.

Wing-valve.—See Valve, Wing.

Wing Motor Car Co., F. E.—12 Columbus Ave., Boston, Mass. (Marmon.)

Wink, W. F.—Treas. Berwin Automobile Co., 128-32 N. 8th St., Allentown, Pa.

Winkley Co., The.—226 Abbot St., Detroit, Mich. Mfrs. carburetters, grease cups, lubricators, oil cups, oil guns, gasoline strainers.

Winkley, Robert Lefavour.—Confidential Sec. B. Boston, Mass., March 28, 1858. Ed. Westfield State Normal School, Trinity College, Hartford, Conn. Res., Hemenway, Chambers. Office, 221 Columbus Ave., Boston, Mass.

Winn, C. H.—621 South St., Peekskill, N. Y. Garage.

Winn, Wm. R.—143 Maiden Lane, New York City. Mfr. lubricating oils, steam packing, rubber hose and automobile supplies.

Winship, W. W.—71 Summer St. and 11 Kingston St., Boston, Mass. Mfr. trunks, lunch baskets, robes, leather pockets, automobile record trip books, automobile baggage. Est. 1847.

Winslow, A. S.—New Rochelle, N. Y. (Cadillac)

Winston, F. G., Jr.—709 Hennepin Ave., Minneapolis, Minn. (Columbia, Oldsmobile, Waltham, Woods.)

Winter-Darnell Auto Co.—3rd and Market St., Alton, Ill. (Jackson.)

Winter, Gustav.—Zittau, Germany. Mfr. bodies

Winton, Alexander.—Pres and active head of the Winton Motor Carriage Co.

B. Grangemouth, Scotland, June 20, 1860. Ed. Scottish schools. Director Winton Motor Carriage Co., Cleveland Cap Screw Co., Lindsay Wire Weaving Co. Mem. clubs: A. C. A. Cleveland A. C. Clifton, Lakewood Yacht, (Commodore),

Cleveland Engineers' Res., Roseneath, Lake Ave., Lakewood, O. Address, Berea Road, N. W., Cleveland, O. Recreation, Boating.

Winton Garage.—406 N. Clark St., Chicago, Ill. Repairing.

Winton Motor Carriage Co., The.—Berea Rd., Cleveland, O. Makers of the Winton car; first marketed in 1897. Sixteen models made since. Cap. \$1,000,000. Alexander Winton, Pres.; Thos. Henderson, Vice-Pres.;

GEO. H. BROWN
Sec. and Treas. Winton Motor Carriage Co.

son, Vice-Pres.; Geo. H. Brown, Sec and Treas.; Chas. B. Shanks, Gen. Sales Mgr.; H. B. Anderson, Engineer; J. F. Weidig, Supt.; E. C. Ranney, Purch. Agt.; Chas. W. Mears Advt. Mgr. Branches: Boston, F. A. Hinchliffe, Mgr.; Chicago, C. M. Brown, Mgr.; Cleveland, C. M. Brockway, Mgr.; Detroit, F.

W. Henderson, Mgr.; London, W. L. Duck, Mgr.; New York City, C. W. Churchill, Mgr.; Philadelphia, A. E. Maltby, Mgr.; Pittsburg, Earl Kiser, Mgr.; Seattle, Wash., G. W. Miller, Mgr.; San Francisco, Chas. M. Brown, Mgr.;

Baltimore, R. H. Williams, Mgr. Historical:

First long distance automobile tour in America—Cleveland to New York, July 28 to August 7, 1897, by Alexander Winton. This trip was duplicated by Mr. Winton in May, 1899, and in November, 1900. First automobile trip from coast to coast (San Francisco to New York), May 23 to July 26, 1903, by Dr. H. Nelson Jackson in Winton two-cylinder car. First automobile trip from Mexico to Puget Sound (Seattle), May 8 to June 7, 1904, by C. L. Roy in two-cylinder Winton car.

First tonneau car made in America was the 1902 Winton two-cylinder touring car, produced in the fall of 1901. The first four-cylinder horizontal in America

First multiple cylinder car built in the United States, Winton 1896. Two vertical cylinders, water-cooled.

was the Winton Quad, made in the summer of 1904. The first eight-cylinder car in America was the Winton Bullet No. 2, built by Alexander Winton in 1903 and successfully raced on the track for three years by Mr. Winton, Barney Oldfield and Earl H. Kiser.

World's record (track) made by Winton cars (one mile): Alexander Winton, driver, 1.47, Cleveland, May 30, 1897; 1.33 2-5, Chicago, Sept. 18, 1900; 1.12 2-5, Detroit, Oct. 10, 1901; 1.09, Detroit, Oct. 23, 1901; 1.06 4-5, Detroit, Oct. 24, 1901; 1.02 1/4, Cleveland, Sept. 16, 1902. Barney Oldfield, driver, 1.00, Columbus, August 28, 1903; .59, Cleveland, Sept. 4, 1903; .57 1/4, New York, Oct. 3, 1903; .56 4-5, New York, Oct. 3, 1903; .56, New York, Oct. 3, 1903; .55 1-5, Los Angeles, Nov. 20, 1903; .55, Los Angeles, Nov. 20, 1903; .54 4-5, Los Angeles, Nov. 22, 1903. Earl H. Kiser, driver, .54, Cleveland, August 22, 1904; .52 4-5, Cleveland, August 22, 1904.

Wipe-contact.—See Contact-maker.

Wipe-spark.—See Ignition.

Wiper.—A cam projecting from a horizontal shaft and acting periodically upon a toe, the elevation of which lifts the valve-rod and poppet-valve in a steam-engine.

Wire.—A cylinder of very small diameter, made by drawing an iron, brass, copper or steel rod through a hole in a steel plate of slightly smaller diameter

than the rod. The process is repeated with successively smaller holes until wire of the requisite fineness has been obtained.

Wire Belt.—See Belt.

Wire, Bowden.—See Transmission, Flexible.

Wire Cable.—A cable formed of a number of steel wires, whereby great flexibility and strength is given to it. It is used in some cars for operating brakes.

Wire-cloth.—A fabric of woven wire, used on motor-cars as a straining material. See Wire-gauze.

Wire, Conducting.—Any wire employed to conduct an electric current.

Wire, Copper.—The wire used for all electric wiring, since it is the best conductor of electricity after silver, which is too expensive for electrical work.

Wire, Cross.—A non-skid consisting of projections on the tread of a pneumatic tire, often incorporated with the tire itself.

Wire-drawing.—The operation of making wire by drawing a rod of metal through a hole in a steel plate of slightly smaller diameter than the rod, and repeating the process with successively smaller holes until the wire of requisite fineness has been obtained. (2) The reduction of the pressure of steam or other motive fluid by friction when it is caused to flow through a small or narrow passage.

Wire, Earth.—See Wire, Ground.

Wire-edge.—The thin burr thrown up on the edge of a tool during grinding or sharpening on stone.

Wire, Electric.—A name commonly given to "conductors" of electricity, which are always of copper wound with cotton or covered with an insulating material consisting of gutta percha or vulcanized rubber. Flexible wires are small cables composed of a large number of very fine wires.

Wire, Flexible.—See Wire, Electric.

Wire, Fuse.—A wire made of a lead alloy, having a low melting point, and inserted in an electric circuit of smaller section than the conducting wires so that, in the event of an excessive current passing, the fuse melts before any damage has been done to the other wires.

Wire-gauge.—See Gauge, Wire.

Wire-gauze.—See Gauze, Wire and Wire cloth.

Wire, Ground.—The wire employed to connect the "ground" (see Ground) terminal of the coil to any part of the motor or frame.

Wire, High-tension.—Same as secondary wire, q. v.

Wire, Insulated.—See Wire, Electric.

Wire, Iron.—Fine, soft iron wire is

used for forming the core of an induction-coil, q. v.

Wire, Low-tension.—Same as primary wire, q. v.

Wire, Platinum.—Platinum wire is used in making small incandescent lamps, and is employed also as a material for the electrodes of spark-plugs.

Wire, Primary.—The coarse insulated wire winding of an induction-coil. See Coil, Induction and Wire, Low Tension.

Wire Rope.—The same as wire cable.

Wire, Secondary.—The wire of an induction coil in which a high tension current is induced. See Coil, Induction.

Wire, Steel.—A wire used according to gauge, for making cables, belts, spokes for wire wheels, for operating a throttle lever, etc.

Wisconsin Graphite Co.—Allegheny, Pa. Mfrs. crucibles, graphite, grease.

Wisconsin Motorcycle Co.—Monroe, Wis. (Indian).

Wisconsin State Automobile Association.—Milwaukee, Wis. Org. May, 18, 1907. Neal Brown, Wausau, Wis.; Pres.; C. O. Josslyn, Oshkosh, Wis., 1st Vice-Pres.; M. C. Moore, Milwaukee, Wis., 2nd Vice-Pres.; James T. Drought, 97 Wisconsin St., Milwaukee, Wis.; Sec.; George A. West, Milwaukee, Wis.; Treas. Membership: Beloit Automobile Club, Janesville Automobile Club, Milwaukee A. C., Oshkosh A. C., Portage A. C., Whitewater A. C.

Wisconsin Wagon Co.—Madison, Wis. Garage.

Wise, S. J.—Sales Mgr. Garford Motor Car Co., 1540-42 Broadway, New York City.

Wishart Machine Works, John.—63 65 S. Canal St., Chicago, Ill. Mfrs. vulcanizers.

Wiss & Bros., Victor A.—12 Pine St., Morristown, N. J. (Cadillac).

Wichita Automobile Club.—Scott Wynne, Sec., Wichita, Kan.

Withee, W. W.—La Crosse, Wis. (Mitchell).

Witherbee Igniter Co.—541 W. 43rd St., New York City. Mfrs. storage batteries, spark plugs, coils, switches, timers, wire, boat electric fittings. Member M. & A. M. Cap. \$50,000. Est. 5 years. William Barret Ridgely, Pres.; Alimand B. Elliott, Vice-Pres.; Alfred S. Watson, Sec. and Treas.; Albert J. Fisk, Gen. Mgr.; F. E. Roth, Supt.; M. F. Maury Werth, Marine Dept.; Theodore Goetz, Sales Dept.; W. W. Robinson, Adv. Mgr.; Alimand B. Elliott, Electrical Engineer.

Witherbee Mfg. Co., Inc.—433 W. 42nd St., New York City. Mfrs. dealers and agents; storage batteries, coils, timers, plugs, electric motors and generators, automobile parts, gas engines. Cap. \$100,000. Est. March, 1907. Thos. S.

Witherbee, Pres.; Harry H. Cooley, Treas.; John H. Hendrick, Sec.; Thos. S. Witherbee, Gen. Mgr.; H. F. Kenneal, Supt.

Withers & Co., Ltd.—35 Edgware Rd., London W., England. Mfrs. gasolene automobiles (Withers).

Withington, P. H.—Pres. Geo. A. McKeel Co., Jackson, Mich.

Withington, S. S.—Vice-Pres. Adrian Steel Casting Co., Beecher St., Adrian, Mich.

Withington, Winthrop.—Vice-Pres. Geo. A. McKeel Co., Jackson, Mich.

Witter & Hock.—Storm Lake, Ia. Garage.

Wittman Co.—205 S. 11th St., Lincoln, Neb. (Pope-Toledo, Pope-Hartford, Pope-Waverley).

Witz, J. L.—Staunton, Va. (Pope-Hartford).

Woelk, W. N., Jr.—Larned, Kan. Garage.

Wogaman, J. Webster.—Union City, Ind. Mfr. wood and metallic bodies.

Wolcott, L. A.—Huntington, W. Va. (Cadillac).

Wolf, J., Lindgren, A., & Weber, M.—La Porte, Ind. Garage.

Wolf, John.—Michigan City, Ind. (Winton).

Wolf, John F.—Forge and Willow Sts., Lebanon, Pa. (Indian).

Wolf, M. L.—710 Gay St., Knoxville, Tenn. Est. September, 1893. M. L. Wolf, Hd. Depts. Garage, 75 cars. Repairing.

Wolf Pederson Automobile & Machine Co.—1219 Devon Ave., Chicago, Ill. Garage.

Wolfram.—See Tungsten.

Wolf und Struck.—Vaals, Holland. Mfrs. marine motors.

Wolf, William.—Vice-Pres. Motz Clincher Tire & Rubber Co., Akron, O.

Wolfe, F. D.—San Jose, Cal. (Jewel).

Wolfe, Lewis C.—Mgr. automobile dept. W. H. and L. C. Wolfe, 1011 Chestnut Ave., Altoona, Pa.

Wolfe, M. J.—Prop. Williamsburg Auto & Storage Co., 159 Clymer St., Brooklyn, N. Y.

Wolfe, Maurice.—Sales Mgr. of the H. E. Wilcox Motor Car Co., 1030 N. E. Marshall St., Minneapolis, Minn.

Wolfe, W. H. & L. C.—1011 Chestnut Ave., Altoona, Pa. (Thomas, Winton, Studebaker, Pope-Toledo, Autocar, Buick). Est. 1901. Lewis C. Wolfe, Mgr. automobile dept.; O. J. Evans, Foreman. Garage, 35 cars. Gen. repairs, sundries and tires.

Wollenzier.—Hd. of press room Globe Machine & Stamping Co., 3868 Hamilton Ave. N. E., Cleveland, O.

Wolseley Tool & Motorcar Co.—Adlerley Park, Birmingham, England. Mfrs. gasolene automobiles (Wolseley cars, Sidley cars), marine motors.

Wolsit, Fabbrica di Automobili.—Turin, Italy. Mfrs. gasoline automobiles (Wolsit cars).

Wolven, E. J.—Worthington, Minn. (Rambler).

Wolverine Auto & Commercial Vehicle Co.—Dundee, Mich. Garage.

Wolverine Leather Goods Co.—59 E. Fort St., Detroit, Mich. Mfrs. leather, leather washers.

Wolverine Motor Works.—130 S. Front St., Grand Rapids, Mich. Mfrs. motorboats, gasoline marine and kerosene motors.

Wolverine Radiator Co.—Detroit, Mich. Mfrs. radiators.

Wolverton, Thos. C.—537-539 Mercer St., Jersey City, N. J. (Maxwell).

Women's Motor Club of Chicago.—Chicago, Ill. Mrs. A. F. Chase, Sec.

Wood & Barnett.—1333 Broadway, Denver, Colo. (Stoddard-Dayton). Est. 1905.

Wood & Son, Frederick R.—219 W. 19th St., New York City. Mfrs. storm aprons and curtains, wood and metallic bodies, automobile covers and tops.

Wood Alcohol.—See Alcohol, Wood.

Wood, Allan.—Coudersport, Pa. Garage.

Wood Automobile Co., Frank B.—60-62 River St., Elgin, Ill. (Ford, Rambler, Kisselkar). Est. Jan. 1, 1907. Garage, 40 cars. Repairing.

Wood, Ben.—Sec. Darracq Motor Car Co., 1989 Broadway, New York City.

Wood, B. F.—City Island, N. Y. Mfr. motorboats.

Wood Bros.—Santa Cruz, Cal. Garage.

Wood, C. E.—Vice-Pres. Pope Automobile Co. of Washington, 817-819 14th St. N. W., Washington, D. C.

Wood, Colbin C.—Plymouth, Mass. (Lambert).

Wood, Harry.—Care of Dayton Auto Co., Dayton, O. (Jewel).

Wood, H. Holton.—Vice-Pres. Duplex Rolling Bushing Co., Belfast, Me.

Wood, J. Elmer.—106-110 Rantoul St., Beverly, Mass. (Stanley). Est. 1897. Garage, 35 cars; repairing.

Wood, John D.—Geneseo, Ill. (Cameron).

Wood Screw.—See Screw, Wood.

Wood, William P.—Treas., Mgr. and Director Pittsfield Spark Coil Co., Dalton, Mass.

Wood, W. W.—133 Greene St., Marietta, O. (Maxwell).

Woodbridge, J. E.—Pres., Treas. and Mgr. The A. Z. Co., 527 W. 56th St., New York City.

Woodbridge, R. S.—Sec. The A. Z. Co., 527 W. 56th St., New York City.

Woodbury, E. P.—Burlington, Vt. (Cadillac).

Woodford, J. M.—Elkins, W. Va. (Waltham).

Woodin, C. D.—St. Joseph, Mich. Garage.

Woodland Auto Garage.—6430 Jackson Park Ave., Chicago, Ill. Garage.

Woodland Garage.—Woodland, Cal. Garage.

Woodlawn Auto Station.—6310 Woodlawn Ave., Chicago, Ill. Garage.

Woodmans Sons, C. B.—Westbrook, Me. (Jewel).

Woodmont Garage & Livery.—Woodmont, Conn. Garage.

Wood-Redington Machinery Co.—Cota, and Anacapa Sts., Santa Barbara, Cal. Garage.

Woodruff & Sons Co., Walter W.—Mount Carmel, Conn. Mfrs. hardware, mountings and specialties. Cap. \$80,000. Est. 1835. Arthur E. Woodruff, Pres. and Treas.; Harry P. Woodruff, Sec.

Woodruff, A. A.—Mgr. automobile dept., Schubert Bros. Gear Co., 42-44 Cedar St., Oneda, N. Y.

Woodruff, Arthur E.—Pres. and Treas. Walter W. Woodruff & Sons Co., Mount Carmel, Conn.

Woodruff, Harry P.—Sec. Walter W. Woodruff & Son's Co., Mount Carmel, Conn.

Woods & Co., C. W.—Timuru, N. Zealand. (Monarch).

Woods Motor Vehicle Co.—945 8th Ave., New York City. (Woods).

Woods Motor Vehicle Co.—Factory, 2515-2521 Calumet Ave., 2510-2520 Cottage Grove Ave. Salesrooms, 1408 Michigan Ave., Chicago, Ill. Mfrs. gasoline and electric automobiles (Woods).

Woods, Wm. F., & Chas. E.—18 Congress St., Portsmouth, N. H. (Cadillac).

Woodward, C. F.—Pres. The Woodward-Reopell Co., 18-20 Fort St., Springfield, Mass.

Woodward, C. M.—Treas. The Woodward-Reopell Co., 18-20 Fort St., Springfield, Mass.

Woodward-Reopell Co., The.—18-20 Fort St., Springfield, Mass. (Stoddard-Dayton). Est. 1905. Cap. \$10,000. C. M. Woodward, Treas.; C. F. Woodward, Pres.; A. V. Reopell, Mgr. Garage, 25 cars; repairing.

Woodwell Co., Jos.—201 Wood St., Pittsburg, Pa. Supplies.

Woodworth Bros.—2 Hartford St., Newton Highland, Mass. Garage.

Woodworth, C. C.—Aguascalientes, Mex. (Waltham).

Woodworth, Charles B.—Officer Leather Tire Goods Co., 325 Boylston St., Newton Upper Falls, Mass.

Woodworth, D.—Officer Leather Tire Goods Co., 1325 Boylston St., Newton Upper Falls, Mass.

Woodyard, C. C.—Parkersburg, W. Va. (Waltham).

Wool-slag.—A material, called also "silicate cotton" and "silicate wool," composed of very thin filaments of blast-furnace slag. It is used as a "lagging" and as an abrasive. See Lagging.

Woolman, Maurice.—Council Bluffs, Ia. (Haynes).

Wooster Auto Co.—88 Chambers St., New York City. Supply house.

Worcester Automobile Club.—44 Front St., Worcester, Mass. Organized Feb. 6th, 1901, "to develop motor-vehicles and good roads." Charter members: O. M. Savels, R. M. Garfield, J. L. Rhodes, T. J. Toner, F. Goddard, F. S. Taylor, R. G. Bicknell, G. B. Cutting, J. W. Harrington, J. W. Higgins, Alex. Bowler, B. A. Robinson, F. H. Hamblin, H. E. Shiland, J. P. Coglin, Pres.; D. F. Gay, Vice-Pres. and Chairman Membership and Laws and Ordinance Committee; F. E. Frost, Sec.; W. B. Stark, Treas.; M. P. Whittall, Chairman Runs and Tours Committee; W. E. Hassem, Chairman Highways Committee; W. N. Stark, Chairman House Committee; James W. Bigalow, Asa Goddard, former pres'ts. Conducted Dead Horse Hill climb, May, 1905, and May, 1906.

Worcester Machine Screw Co.—Worcester, Mass. Mfrs. bolts and nuts, machine screw products.

Worcester Pressed Steel Co.—Cor. N. and Barber Aves., Worcester, Mass. Mfrs. automobile, bicycle and motorcycle fittings, brake drums, ball cups, dust caps, heads, head fittings, clusters, brackets, braces, carburetter parts and all kinds of stamped specialties, flanges. Member: Cycle Parts and Accessory Mfrs. Assn. Cap. \$100,000. Est. 1883. Inc. 1904. Milton P. Higgins, Pres.; George I. Alden, Treas.; John W. Higgins, Sec. and Gen. Mgr.; Eveleth V. Hill, Sales Mgr.; Arthur P. Higgins, Purch. Dept.; E. W. Ward, Accounting Dept.; A. G. Anderson, supt. factory. Chicago office, 1064 Monadnock Block.

Worcester Steel Foundry Co.—Millbury, Mass. Mfrs. crucible steel castings, crank shafts, gearing. Cap. \$300,000. Est. 1905. William Pestell, Pres. and Gen. Mgr.; V. H. Moody, Treas.

Work.—The product of a force by the length upon which it acts in the direction of its motion. The C. G. S. unit of work is the "erg" or dynecentimetre. The practical unit of work or energy is the "kilogrammetre." It is the work done when a weight of a kilogramme is raised through a height of a metre. This is equal to 7.28 foot-pounds, and a foot-pound equals .1383 of a kilogrammetre. If a force equal to the weight of one pound act through a distance of one foot, the work done is one "foot-pound." The

latter is the English unit of work. Work must not be confounded with power, which is the ratio of work to the time during which it is effected. In electricity, the term "work" or "electrical energy" is given to the product of a quantity of electricity by a difference of potential. The electrical energy is measured in volt-coulombs or "joules" in practical units. The joule=10⁷ ergs. Industrially, for mechanical work, the unit called "horse-power hour" is used (1 h.p.=33,000 foot-pounds of work per minute). For electric work, the "watt-hour," which equals 3600 joules and its multiples, which are the "hektowatt-hour" (1000 w.h) and the "kilowatt-hour" (1000 w.h) are used. In thermic motors (steam, gas, or gasolene) the term "indicated work" is applied to the work actually produced in the cylinder by the expansion of the steam or gas during a certain time. This quantity is obtained by determining the mean pressure in the cylinder and as a function of the piston surface, of its stroke, and of its velocity. The "effective work" at the fly-wheel of the engine is the product of the indicated work by the organic efficiency of the motor.

Working-beam.—See Beam. Walking.

Working Load.—The load to which a machine is subjected in ordinary use.

Workman, R. A.—Woodward, Okla. (Waltham).

Worm.—A shaft provided with a screw-thread, and which, through its rotation, revolves a worm-wheel.

Worm-gear.—See Gear. Worm.

Worm-wheel.—See Gear. Worm.

Worth & Bowen.—Rushville. Ind. (National).

Worth Motor Car Mfg. Co.—219 Upper 1st St., Evansville, Ind. Mfrs. gasolene commercial automobiles.

Wortham, W. F.—Waco, Tex. (Maxwell).

Worthing Automobile Co., G. W.—31 W. 2nd St., Fond-du-Lac, Wis. (Jackson, Pope-Waverley).

Worthington, James.—Asst. Designer Haynes Automobile Co., Main St., Kokomo, Ind.

Wray Pump and Register Co.—191-93 Mill St., Rochester, N. Y. Mfrs. pressure gauges, tire pumps.

Wrench.—A tool for turning nuts, bolts, pipe, or the like, and consisting of a lever with jaws, lugs or a socket adapted to fit the head of bolt, nut or other object to be turned. The number of types of these tools is so large that only those most commonly used by the automobilist can be mentioned; viz.: The "monkey" wrench (Fig. 1), which has the advantage of having jaws that can be adjusted to any size nut; the "alligator" or "bulldog" wrench (Fig. 2); the Stillson,"

adjustable pipe wrench (Fig. 3), with narrow jaws for use in confined places, and capable of gripping anything as small as a $\frac{1}{8}$ -inch wire or as large as a $\frac{3}{4}$ -inch pipe; the double-end "S" wrench (Fig. 4),

Fig. 1 Fig. 2 Fig. 3 Fig. 4 Fig. 5

for general automobile purposes; and the "socket" wrench or "box spanner" (Fig. 5), a tubular piece of metal shaped at the ends (one of which is sometimes offset as in the figure) to fit a standard nut, and provided with apertures to receive a cross-pin for giving a better grip for the hand.

Wrench, Tap.—See Tap-wrench.

Wridgway, Charles George.—Vice-Pres. and Gen. Mgr. Peerless Motor Car Co. of New York. B. London, England, Feb. 15, 1873. Ed. grammar schools. Director Peerless Motor Car Co. of New York, Motor Car Service Co. of New York, Peerless Garage, Brooklyn, N. Y. Mem. clubs: A. C. A., N. Y. Motor, N. Y. Athletic, Columbia Yacht. Res. 463 W. 140th St.; office, 220-24 W. 41st St., New York City. In the trade since 1896. Used first car 1896.

Wright & West.—Stockton, Cal. (Maxwell).

Wright, A. E., Jr.—Main St., Buena Vista, Colo. (Reo, Premier). Est. mercantile, 1892; automobiles, 1906. A. E. Wright, Jr., sole owner.

Wright, B. A.—Newport, Ky. (Haynes).

Wright, C. H.—Boulder, Colo. (Holsman).

Wright, Christopher.—Pres. Wright Cooler & Hood Mfg. Co., Chicago, Ill.

Wright Co., H. B.—Newark, Del. (Rambler).

Wright Cooler & Hood Mfg. Co.—1545 Michigan Ave., Chicago, Ill. Mfrs. automobile coolers, radiators, hoods, mudguards, gasoline tanks, metal dashes, garage pans, engine boots. Cap. \$10,000. Est. December, 1905. Christopher Wright, Pres.; H. A. Wright, Sec.; R. E. Wright, Treas.

Wright, Dell.—Sales Mgr. Broadway Automobile Co., Broadway and Madison St., Seattle, Wash.

Wright, Elsom, Jr.—141 N. Blvd., Oak Park, Ill. Garage.

Wright, Frank.—Appleton, Wis. (Pope-Waverley).

Wright, Geo. H.—Greenfield, Mass. Morgan and Wright tires.

Wright, Geo. M.—Somers, N. Y. (Aerocar).

Wright, H. A.—Sec. Wright Cooler & Hood Mfg. Co., Chicago, Ill.

Wright, H. E.—11 S. Main St., W. Bethlehem, Pa. Garage.

Wright, H. M.—Sec. and Treas. Flatrock Auto Co., Flatrock, Ind.

Wright, John Dunbar.—Artist. B. New York City, May 3, 1862. Ed. Charliers Institute. Mem. clubs: Racquet, Brook, N. Y. Yacht, Larchmont, Lambs, A. C. A., Camp Fire, Camera, Salamagundie, Geog. Society. Res. 41 E. 51st St.; studio 53 W. 33rd St., New York City.

Wright, L. W.—South Norwalk, Conn. Garage.

Wright Motor Co.—48 S. Division St., Buffalo, N. Y. Mfrs. gasoline automobile and gasoline marine motors.

Wright, Northam.—Chesterbrook, Conn. (Rambler).

Wright, R. E.—Treas. Wright Cooler & Hood Mfg. Co., Chicago, Ill.

Wright, R. G.—Supt. Autocar Equipment Co., 77-79 Edward St., Buffalo, N. Y.

Wright, W. E.—Vice-Pres. and Sales Mgr. Knox Automobile Co., Springfield, Mass.

Wright, W. G.—Paulsboro, N. J. Mfr. motorboats.

Wrist-pin.—A straight cylindrical piece of steel, called also a piston-pin, fastened into the piston, and on which the small end of the connecting-rod turns. In a steam engine, a cross-head pin as distinguished from a crank-pin.

Writer, Geo. S.—Nyack, N. Y. (Ford).

Wrought Iron.—See Iron, Wrought.

Wulf, W. J.—San Juan, Porto Rico. (Thomas Flyer).

Wüppermann, Wilhelm.—Hagen, Germany. Mfr. chain.

Wurth, Louis J.—26 William St., Morristown, N. J. (Mitchell).

Wyckoff, Church & Partridge.—Broadway and 56th St., New York City. Est. 1900. Cap. \$500,000. (Stearns.) Clarence F. Wyckoff, Pres.; Alfred W. Church, Sec.; E. S. Partridge, Vice-Pres.; George Mortenson, Mgr. repair and storage depts.; R. H. Weaver, Mgr. accessory dept.; E. B. Ayers, Supt. repair dept. Garage, 300 cars; repairing.

Wyckoff, Clarence Frederick.—Pres. Wyckoff, Church & Partridge. B. Ithaca, N. Y., Jan. 2, 1876. Ed. Brooklyn Polytechnic, Cornell, Berlin Universities. Di-

rector Wyckoff, Church & Partridge, Wyckoff Adv. Co., Booths Hyomer Co. Mem. clubs: A. C. A., N. Y. Motor, N. Y. Athletic. Cornell, Chi Psi Fraternity, Triton, Stony Island, Ithaca Town and Country. Res. 65 Central Park West; office 1743 Broadway, New York City. In the trade since 1900. Used first car 1898.

Wyckoff Lumber & Mfg. Co.—Ithaca, N. Y. Mfrs. portable houses. •

Wyeth Auto & Supply Co.—216-218 N. 2nd St., St. Joseph, Mo. (Locomobile, Buick, Cadillac, Haynes, Stevens-Duryea).

Wyeth, C. E.—47 W. Main St., Newark, O. Garage.

Wyldo & McInnis.—Belvidere, Ill. Garage.

Wyman & Gordon.—30 Bradley St., Worcester, Mass. Mfrs. connecting rods, crank shafts, drop forgings.

Wynkoop, Theo.—406 Main St., Catskill, N. Y. Garage.

Wyoming Valley Motor Car Co.—35 N. Washington St., Wilkesbarre, Pa. (Buick, Locomobile, Cadillac, Pope-Waverley).

Wyss et Cie.—Seloncourt, Doubs, France. Mfrs. clutches.

X

X.—Symbol for "reactance."
Xander Machine & Supply Co.—926-930 Bingham St., Reading, Pa. J. G. Xander, Prop. Machine shop.

Xardell Co., C. A.—Utica, N. Y. Mfrs. carbureters, gasoline automobile motors.
X-Spring.—See Spring, X.
Xylonite.—A form of "celluloid," q. v.

Y

Yacht, Ferry.—A type of motor-boat, 50 to 80 feet in length, designed to carry business men to and fro between maritime cities and their distant summer residences.

Yacht, Launch & Engine Co.—Philadelphia, Pa. Mfrs. motor boats.

Yacht, Le.—Pub. at 55 rue de Chateaudun, Paris, France.

Yachting.—Pub. monthly by Yachting Pub. Co., 20 Vesey St., New York City. Oswald Garrison Villard, Pres.; Harold G. Villard, Vice-Pres.; Robert M. McBride, Sec. and Treas.

Yachting Gazette.—Pub. at 41 rue Meyerbeer, Paris, France.

Yakima Auto Co.—Yakima, Wash. (Monarch).

Yakima Garage & Auto Co.—N. Yakima, Wash. (Cameron).

Yale Automobile Club.—P. O. box 64, Yale Station, New Haven, Conn. Object: To promote interest and knowledge in automobiles. Org. April 10, 1907. Charter members: C. S. Bragg, W. J. Morden, W. Johnson, G. H. Townsend, R. B. English, W. B. Webb, H. J. Chisolms, G. Haas, L. C. Phipps. Officers: G. H. Townsend, Pres.; L. C. Phipps, Vice-Pres.; W. J. Morden, Sec.; E. H. Butler, Jr., Treas. Chairman of committees: C. S. Bragg, chairman Committee of Events; R. B. English, chairman motor cycle department. Promoted races April 27, 1907; May 25, 1907; at Branford Driving Park.

Yale, Wm. A.—Fitchburg, Mass. (Waltham).

Yankee Muffler Co., The.—Utica, N. Y. Mfrs. mufflers.

Yates, Harry.—Treas. Babcock Electric Carriage Co., 226-242 W. Utica St., Buffalo, N. Y.

Yates, Russel P.—887 Main St., Buffalo, N. Y. Supplies.

Yberty et Merigoux.—Royat Puy-de-Dome, France. Mfrs. solid tires.

Yerkes, Geo. B.—Pres. Brush Runabout Co., 14-16 Baltimore Ave. W., Detroit, Mich.

Yocom Co., A. H.—Reading, Pa. Mfrs. gasoline automobile motors.

Yoke.—A transverse bar of wood or metal used as a substitute for the tiller, crossing the head of a boat's rudder, and having a line attached to each extremity for steering. (2) Another name for bridge and bolt, q. v. (3) A clamp or clip for holding a part or parts of a mechanism in place.

Yoke-end.—See Clevis.

Yoke-line.—One of a pair of ropes attached to the ends of a yoke on a rudder-head.

Yonkers Automobile Club.—Yonkers, N. Y. F. P. Fuller, Sec.

Yonkers Auto Station.—71 S. Broadway, Yonkers, N. Y. (Locomobile, Maxwell). Garage; repairs.

York Auto Garage.—S. S. Blk., York Village, Me. (Reo, Premier).

York County Garage.—Mechanic St., Sanford, Me. (Stevens-Duryea, Stanley, Cadillac, Buick). Est. 1905. Cap. \$2,000. Chas. S. Holmes, Pres., Treas. and Gen. Mgr. Garage, 20 cars. Repairing.

York Electric & Machine Co.—30-34 N. Pennsylvania St., York, Pa. Mfrs. wrenches. Cap. \$10,000. Established

March 26, 1903. John E. Graybill, Pres. and Mgr.; Paul McJunkin, Vice-Pres.; H. G. Wiest, Sec. Treas. and Supt.

York Motor Car Co.—240 N. George St., York, Pa. Makers of the Pullman car; first marketed in 1905. Five models made since. Cap. \$100,000. S. E. Bailey, Pres.; Thos. C. O'Connor, Vice-Pres.; Oscar C. Stevenson, Sec.; J. A. Kline, Treas., Gen. Mgr. and Designer; Chas. Swartz, Supt.; H. R. Averill, Sales Mgr. Agents and dealers: Cimiotti Bros., 1843 Broadway, New York City; D. B. Hoffer & Sons, 126 S. 10th St., Reading, Pa.; Hooker, Stanley A., 216 E. 3d St., Cincinnati, O.; Keystone Motor Car Co., 1019 Market St., Harrisburg, Pa.; Lewistown Motor Car Co., Lewistown, Pa.; Frederick E. Randall Co., 245 Columbus Ave., Boston, Mass.; Pullman Auto Agency, H. A. Stone, Mgr., Los Angeles, Cal.; Thomas & Tolman Auto Co., 1828 L St., N. W., Washington, D. C.; Frank O. Renstrom Co., 424 Stanyan St., San Francisco and Oakland, Cal.; Shaffer Mfg. Co., 428 N. Calvert St., Baltimore, Md.; Snyder Auto Cycle Co., York, Pa.; State Automobile Co., Mignonette and Randolph Sts., Pittsburg, Pa.; L. E. French, 205 N. Broad St., Philadelphia, Pa.; Sullivan, J. P., Mgr. Monte Cristo Garage, New London, Conn.; Star Motor Car Co., 226 Halsey St., Newark, N. J.

York, Roy F.—Vice-Pres., Sales Mgr. and Adv. Mgr. F. B. Stearns Co., Euclid and Lakeview Aves., Cleveland, O.

Yorkville Auto Renting Co.—64 W. 63rd St., New York City. Rental service.

Yorkville Auto Station.—285 E. 88th St., New York City. Garage.

Yorkville Central Garage, Inc.—205-9 E. 86th St., New York City. Garage.

York Wagon & Gear Co.—York, Pa. Mfrs. wood and metallic bodies.

Yorton, J. H.—413 S. State St., Syracuse, N. Y. Garage.

Yost & Oester.—Illinois St., Mendota, Ill. (Jackson).

Youlden, Geo. A.—Ware, Mass. Garage.

Youmans, John.—251 S. Main St., Watertbury, Conn. (Mitchell, National).

Young, A. A.—Vice-Pres. Von Hamm Young Co., King and Bishop Sts., Honolulu, Hawaiian Is.

Young, Alex.—Pres. Von Hamm Young Co., King and Bishop Sts., Honolulu, Hawaiian Is.

Young Carriage Co., Wm.—4524 Delmar Ave., St. Louis, Mo. Mfrs. wood and metallic bodies.

Young, Geo. A.—51 Coyle St., Woodford, Me. Garage.

Young, Geo. H.—814 Hepburn Ave., Williamsport, Pa. (Baker).

Young, L. A.—Mgr. trimming and cushion dept. Ventilated Cushion & Spring Co., Jackson, Mich.

Young, M.—Orange St., Riverside, Cal. (Ford).

Y. M. C. A.—West side branch, 318 W. 57th St., New York City. Instruction automobile and motor boat engineering.

Y. M. C. A.—Bedford branch, Brooklyn, N. Y. Instruction automobile engineering.

Young, Orlando W.—180 Freylinghuyssen Ave., Newark, N. J. Mfr. anti-freezing solutions, tire cement, grease, oil, metal polishes, auto body soap, repair kits.

Youngs & Co.—249 Grand St., Newburgh, N. Y. (Autocar).

Young's Auto Garage.—Long Branch, N. J. Garage.

Youngs, H. M.—Sag Harbor, N. Y. Garage.

Youngstown Automobile Club.—Geo. L. Fordyce, Sec., Youngstown, O.

Youngstown Iron, Steel & Tube Co.—Youngstown, O. Mfrs. sheet iron and steel.

Youngstown Sheet & Tube Co.—Youngstown, O. Mfrs. wrought iron and steel pipe.

Young, Thos. G.—707 Pacific Ave., Tacoma, Wash. (Rambler).

Young, W. J.—Treas. and Gen. Mgr. Essex Engine Co., 416 Union St., Lynn, Mass.

Youse, Ed. S.—46 N. 5th St., Reading, Pa. (Reo, Rambler, Premier). Est. 1900. Garage, 120-122 Madison Ave., 60 cars. Repairing and electric charging. Dealer and jobber automobile supplies. Mfr. air couplings, timers, drop brakes.

Yowell, Jos. E.—Nashville, Tenn. (Moon).

Yule, Geo. A.—Pres. Badger Brass Mfg. Co., 11th Ave., 36th to 37th Sts., New York City. and Kenosha, Wis.

Z

Zn.—Symbol for "Zinc."
Zacharias, C. R.—Eagle Hall, Main St., cor. Sewall Ave., Asbury Park, N. J. Est. 1898. Garage, 150 cars. Repairing.
Zavala, Adolfo, S. en C.—Calle 55 esquina de 64, Merida, Yucatan, Mex. Garage.
Zearian Auto Co., J. A.—Davenport, Ia. (Maxwell).
Zédeco Société des Accumulateurs.—97 rue Saint-Lazare, Paris, France. Mfrs. storage batteries.
Zeigler, Roy.—Muncie, Ind. (Haynes).
Zena, Societa Anonima di Automobili.—Via XX Settembre, Genoa, Italy. Mfrs. gasoline automobiles (Zena cars).
Zenith Motor Engineering Co.—101 Stroud Green Rd., Finsbury Park, London, England. Mfrs. Zenith motorcycles, tri-cars and guads.
Zerbel & Mulkern.—225 Grand Ave., Milwaukee, Wis. Garage.
Zero Valve & Brass Mfg. Co.—419 Chicago St., Buffalo, N. Y. Mfrs. brass castings.
Zierold, Arno.—Crimmitschau, Germany. Mfr. tire pumps.
Zimalium.—An alloy formed by adding to aluminum small quantities of magnesium and zinc.
Zimbrich, A. M.—45-49 South Ave., Rochester, N. Y. (Stoddard-Dayton, Maxwell, Marmon, Dolson).
Zim-Kel Motor Car Co.—320 N. Broad St., Philadelphia, Pa. (Pungs-Finch).
Zimmerman et Cie.—22 ter, Blvd. Bourdon, Neuilly-sur-Seine, France. Mfrs. bodies.
Zimmerman & Sons, F. F.—Waupun, Wis. Mfrs. wood and metallic bodies.
Zimmerman, Axel.—Sec. Duluth Gas Engine Works, Vine St. and Minnesota Ave., Duluth, Minn.

Zimmerman, Chas.—Gasolene engineer, Neustadt Auto & Supply Co., 3948-50 Olive St., St. Louis, Mo.

Zimmerman, Dr.—Ludwigshafen-am-Rhein, Germany. Mfr. radiators.

Zimmerman Hardware Co.—Wapakoneta, O. (Richmond).

Zimmerman, Smith Co.—N. Towanda, N. Y. Garage.

Zinc.—A bluish-white metal, having a lamellar, crystalline structure, and, under ordinary circumstances, brittle, although ductile and malleable between 212° and 300° F. It is used in making "galvanized" iron and many important alloys, such as brass, bronze and German silver, and is employed likewise as the negative pole in a number of important cells.

Zinc-pole.—The negative pole of a voltaic cell.

Zinnel, Frank.—Savana, Ill. (Moline, Oldsmobile).

Zornow.—Altona, Germany. Mfrs. wooden wheels.

Zorn-Strauss Co.—Louisville, Ky. (Stevens-Duryea, Franklin).

Zücker, Ph.—17 Clarastrasse, Bale, Switzerland. Mfr. motorcycles.

Zuntini, Romeo.—Gaiba, Italy. Mfr. motorcycles.

Züst, Roberto.—via Borgogne, Milan, Italy. Mfr. automobile motors, gasoline automobiles (Züst cars).

Zylonite.—The same as Xylonite, q. v.

Zincing Copper.—To copper and brass articles may be given a very adhesive and brilliant coating of zinc by first cleaning them with hydrochloric acid (spirits of salt) and then immersing them in a boiling solution of sal ammoniac containing an excess of zinc granules or turnings.

AUTOMOBILE LAW SECTION

PART ONE

Explanatory

Registration.

The automobile laws of the United States and other countries, as a general rule, provide for registration by three distinct classes of persons, i. e., owners of automobiles, manufacturers or dealers, and chauffeurs. These three main classes are covered in most of the enactments, but some of the laws contain modifications, such, for example, as requiring all operators, irrespective of whether they are owners or chauffeurs, to obtain driving licenses. Then, again, in some of the States of the United States, such, for example, as in Pennsylvania, only drivers are required to register and procure a license. No provision in this State is made specifically requiring owners or chauffeurs to become registered with the Secretary of State.

Registration Officers.

Registration is generally required to be made with a specified official, and the Secretary of State, in most of the States of the Union, is the designated officer with whom all or either one of the classes above mentioned must register their vehicles. In a few jurisdictions other officers are designated by law, such, for example, as in New Jersey, where the Assistant Secretary of State is, *ex officio*, Commissioner of Motor Vehicles. In Alabama the probate judge of the county is the official for the purposes of registration, and in one or two other jurisdictions registration officers other than the Secretary of State are appointed by law. A glance at the digest of the automobile laws will show who the proper registration officers are in the different jurisdictions.

How to Register.

In order to register either as an owner, manufacturer or dealer, or chauffeur, all that is necessary is for the applicant to write to the official having jurisdiction of the matter, who, as has been pointed out, is generally Secretary of State, and request that printed registration blanks be sent to him for the purpose of filling them out. These blanks should be filled out accurately, in accordance with the facts required to be stated, and if it is necessary to make affidavit to the statements contained in the blanks, the applicant should go before a notary public or other officer authorized to administer oaths and

swear to the facts he has written. It should be here noted that the making of a false statement in an application for registration and a license constitutes perjury and will subject the guilty applicant to criminal prosecution, so care should be taken to state the exact truth. It is a general requirement of the various officials with whom registration is made that the application blanks should be type-written. This is to avoid mistakes. The fees should be sent in with the application, but in some jurisdictions, personal checks are not accepted. Money orders are generally receivable, and in some places certified checks are acceptable.

Speed Limitations.

The various speed limits prescribed by many laws regulating the operation of automobiles on the public highways are necessary matters of information for the automobilist to ascertain whenever he drives or tours in any particular State or jurisdiction. Little can be said here in regard to speed limits other than that the motorist should be familiar with the maximum rates in places where he drives. In several of the States, municipalities and local authorities have passed speed ordinances which materially reduce the speed rates lower than the limits prescribed by the general State laws. The automobile driver should ever be on the lookout for municipal regulations of this kind; but in some of the States, municipalities are prohibited from regulating the speed of automobiles. Reference to the compilation of laws herein will enable the reader to ascertain what the speed limits are in the various jurisdictions of the United States, and British North America.

Equipment.

The matter of the equipment of one's automobile is of some little importance, since the laws in the various jurisdictions require that motor vehicles must carry lights, be equipped with suitable brakes and possess a suitable warning signal device. The kind, size and position of number tags are also matters of legislative requirement and it is necessary, in order for the motorist to be a legal traveler upon the public highways, to have his machine equipped according to law. Very little objection by the authorities, however, has been made in the past in regard

to the equipment of automobiles and it is unlikely that arrests will become common for minor delinquency concerning equipment.

Non-Residents.

Non-residents are permitted to enter some of the States, as will be seen by the chart of automobile laws, without taking out local registration and procuring a local license. It should be a matter of ascertainment by the automobilist who expects to tour through several States, whether he is permitted to drive in any particular jurisdiction without complying with the local registration requirements.

In most of the States a non-resident is permitted to enter under his own home State credentials, but several of the jurisdictions prohibit this, such, for example, as New Jersey and Pennsylvania. Many of the States allow the non-resident to enter and remain for a limited period of time, while some of the States say nothing about non-residents at all.

Speed at Curves, Corners, Descents, Bridges, etc.

In regard to the speed of automobiles at curves, corners, approaching and traversing bridges, and descending hills, it should be said that the laws require the speed to be reduced materially at such places, and in some of the States it is required that a less rate of speed must be maintained while passing travelers on the highway than otherwise if such travelers were not there.

The more specific and precise rules of law governing the operation of automobiles on the public highways and the various legal questions decided by the courts will be found in the pages following.

Meeting Horse-Drawn Vehicles.

It is the duty of the motorist to use reasonable care upon meeting travelers who are driving horse-drawn vehicles. Reasonable care in regard to this matter means that care which a reasonable man might be expected to exercise under the circumstances. It is the duty of the automobilist to stop his automobile if he sees that he is frightening a horse, and to stop his engine if it is frightening the animal. This matter is provided for by statute in most of the States, but even where no statutory provision exists, the common law demands that the automobile driver must exercise care to protect those with horses.*

Miscellaneous Provisions.

Miscellaneous provisions of the various automobile laws must be complied with, but we have heretofore mentioned the main subjects that the automobilist must consider in operating his car. The rules of

the road are familiar to all, and it is unnecessary to say that lamps should be lighted before dark and kept lighted until daylight. The various statutory enactments prescribe the exact hours for lighting lamps, but it is hardly a matter of seriousness if lamps are not burning until it is actually dark, or so dark that it would be carelessness to drive without lights.

THE AUTOMOBILE AND THE LAW.

Definitions.

At the outset, the subject of definitions is one which is dealt with to considerable extent in our automobile laws. For example, in most of the jurisdictions where automobile legislation has been enacted, the term "motor vehicle" is specifically defined by statute as to include all vehicles operated by power other than muscular, excepting motor vehicles run only upon rails or tracks.¹ This is the common definition which is to be found in the many motor vehicle laws of the States, with some few modifications, such, for instance, as excluding steam road rollers, fire engines, etc. No question is apt to arise in regard to what the term "automobile" or "motor vehicle" includes, because it is very well understood that the vehicle commonly called an automobile is that which is meant.

Words "Vehicle" and "Carriage."

The words "vehicle" and "carriage" are comprehensive enough to include the

*Note: Reasonable care must be taken by the driver of an automobile not to frighten a horse into committing injury and it is the duty of the automobilist upon meeting a frightened horse to slow down or stop.

Murphy vs. Wait, 103 N. Y., App. Div. 121, 92 N. Y., Supp. 253; Shinkle vs. Cullough, 116 Ky., 980; Indian Springs Co. vs. Brown, 74 N. E., Rep. 615.

Independently of a statute requiring an automobile driver to slow down or stop upon signal from a horseman, on the giving of a signal, the automobilist should stop when he sees that he is frightening a horse by proceeding.

Christy vs. Elliott, 216 Ill. 31.

However, where the horse plunges just as a slowly moving automobile is opposite it and no warning is given to the automobilist, the automobile driver is not liable for not stopping.

Davis vs. Maxwell, 108 App. Div. 128.

Only due and reasonable care is required of the automobilist and whether such care is exercised is to be determined by all the facts and circumstances of the case.

Indiana Springs Co. vs. Brown, 74 N. E., Rep. 615.

"Just when a horse is about to become frightened and just when he is actually frightened is very difficult to determine, and we think that the plain meaning of the statute is to require persons using such vehicles as automobiles, calculated to frighten horses, to stop the same whenever a horse shows indication of fright upon their approach." is the language of the Illinois Supreme Court in

Ward vs. Meredith, 77 N. E., Rep. 118, 220 Ill. 66.

¹See the automobile statutes of the various States.

automobile³ and in common parlance, unless something to the contrary appears to make the meaning different, in almost every law where these terms are used the automobile would very properly be included, no matter if the law was passed before the advent of the horseless carriage. There are, however, some instances where it would be necessary to specifically mention the automobile in order to have it included within the terms of legislation and legal instruments, or else use the word "vehicle" or some other term comprehensive enough to cover the automobile. A recent case decided in the State of New York by the Supreme Court⁴ affords an example of the necessity for specifically including the power vehicle in the terms of a toll bridge charter. It was held in this case that inasmuch as the charter did not specifically allow the bridge company to charge tolls for automobiles, and since there was no other general word to cover motor vehicles, the toll bridge company had no right to charge tolls for automobiles which passed over its bridge.

Other Terms Including the Automobile.

The automobile may also be included within the terms of certain words which would at first blush, and in common understanding, not include what we commonly understand the automobile to be. In the State of Maine by express terms of the statute, it is declared that the word "team" shall include all vehicles and carriages.⁵ Inasmuch as the automobile is a vehicle it naturally is by a strained construction of the term "team," included within its meaning. Some of the State statutes, in defining the term automobile, use the terms "autocar" and "locomobile" as meaning the automobile, but the use of these terms is obviously improper. There may be instances arising where the term "carriage" would not include the automobile if it can be ascertained from the wording of the entire statute or instrument that an intention existed not to include the motor vehicle, such, for example, where a man makes his will and leaves all his vehicles

to his son, naming each vehicle, and it appears that he possessed only horse-drawn carriages. It is very probable that a subsequently acquired automobile would not pass under the will as a subject of the specific bequest. Some such ruling as this has been made in England. Other definitions will be considered in the following pages under different topics.

RIGHT TO USE THE HIGHWAYS.

The public highways were not meant to be confined in their use to any particular means of transportation.⁶ The law keeps pace with the progress of scientific inventions and the necessities of the times.⁷ The primary purpose of our public ways is to accommodate travel, whether that travel be by foot or by animal-drawn vehicles or power conveyances. These rules in regard to the purposes of our public thoroughfares have been firmly established in our English jurisprudence and it is not long since it was forever set at rest that our public avenues of travel even contemplated transportation by means of the trolley car operated upon tracks. So there can be no question regarding the right to operate an automobile on the public highways; in fact, the motor vehicle possesses equal rights on our public thoroughfares and animal-drawn carriages have no rights superior to them.⁸

THE CHAUFFEUR.

Definitions.

The term "chauffeur" is defined in our automobile legislation as one who operates an automobile as a mechanic or employee, or for hire. In one of the Canadian provinces, he is defined as a person who habitually operates a motor vehicle for pay, or as one who is a paid automobile driver. In Missouri, the automobile enactment does not speak of hired drivers as chauffeurs but calls them "auto drivers." It makes very little difference as to the name given to those who operate motor vehicles for hire, if the law makes it clear as to the persons meant.

Relation Between Chauffeur and Employer.

The chauffeur is in law considered to be a servant. His employer is the master.

³The automobile is a vehicle in common use for transporting both persons and merchandise upon the public ways. *Baker vs. Fall River*, 72 N. E. Rep. 336. See also *Com. vs. Hawkins*, 14 Pa. Dist. Rep. 503. In *Thompson vs. Dodge*, 58 Minn. 555, the court says concerning the bicycle: "The term 'vehicle' includes a bicycle, the latter being used very extensively for convenience, recreation, pleasure and business; and the riding of bicycles upon the public highway in the ordinary manner, as it is now done, is neither unlawful nor prohibited, as they cannot be banished because they were not ancient vehicles and used in the Garden of Eden by Adam and Eve." The same may be said of the automobile.

⁴*Mallory vs. Saratoga Bridge Co.*, 104 N. Y. Supp. 1025.

⁵See the Law of the Road in the Maine statutes.

⁶*Macomber vs. Nicholas*, 84 Mich. 217; *Indiana Springs Co. vs. Brown*, 74 N. E. Rep. 615.

⁷*Indiana Springs Co. vs. Brown*, 74 N. E. Rep. 615.

⁸*Macomber vs. Nicholas*, 84 Mich. 217; *Moses vs. Pittsburgh R. R. Co.*, 21 Ill. 515; *Indiana Springs Co. vs. Brown*, 74 N. E. Rep. 615; *Christie vs. Elliott*, 216 Ill. 31; *Upton vs. Windham*, 75 Ct. 288; *Shinkle vs. Cullough*, 77 S. W. Rep. 196. But automobiles, according to a California decision, may be excluded from country roads at night. See *Ex parte Berry*, 82 Pac. Rep. 44. *Bertles vs. Turnpike Co.*, 15 Pa. Dist. Rep. 94.

There exists between the two what is termed in law, the relation of master and servant, employer and employee, principal and agent. This relation is of the utmost importance, since the principal, the employer, the master, is responsible for all the acts of the chauffeur which he commits while acting for his employer, or within his authority, expressed or implied. If the chauffeur, while driving for his master, runs into another on the highway and injures him, while carelessly driving at the time, the master is liable,⁸ but, in order to hold the employer legally liable for an injury committed either to person or property, it must be alleged and proved that the chauffeur acted for his employer, and not contrary to, or outside of his instructions.⁹ If a chauffeur drives contrary to authority at any particular time or to any particular place, without the assent of his employer, or if he drives for the purpose of his own pleasure, or the pleasure of his friends, then his employer is not liable for any injury which happens during such driving.¹⁰ This is well established, although in Missouri there is a decision which has recently been handed down, holding that one who drives as a chauffeur is presumed to have acted for his employer unless the contrary is shown.¹

Chauffeur's Duties.

The duty of the chauffeur is to act for his employer, not only in driving the automobile, keeping it in reasonable repair and complying with the law, but to act for his employer honorably in supplying the vehicle with necessary parts. This means that the chauffeur has no legal authority to obtain secret commissions in purchasing supplies.² Such commissions are clearly illegal. Between the chauffeur and his employer there exists the relation of trust and confidence. This relation is well recognized by the law and any benefit derived by the chauffeur in handling his master's business legally belongs to

the employer. Garage keepers and others who do business with chauffeurs are equally as bound by this rule of law as chauffeurs and may be compelled to restore to owners secret commissions which chauffeurs obtain.

Compensation.

The chauffeur is entitled to compensation from his employer and may not be unlawfully discharged before the expiration of his term of service, but if the chauffeur acts wrongfully, or fails to fulfill his duties, then the master has sufficient ground for terminating the employment. On the question of wages, if the chauffeur has wrongfully used the car, without authority, or damaged it, it is perfectly legitimate for the owner to detain an amount equal to such damage from wages due to the chauffeur, but no more than the damage actually suffered can be withheld.

THE GARAGE KEEPER.

An automobile garage has been defined by the Supreme Court of the State of New York as the modern substitute for the ancient livery stable,³ the court holding that the garage keeper possesses no lien upon an automobile for unpaid charges for repairs and storage where the machine is used and taken out from day to day by the owner, independently of any contract creating a lien. It should be suggested here that it would be highly advisable for garage keepers to enter into a specific written contract providing for a lien when they take machines upon storage, that is, if they desire to possess authority to detain an automobile until charges are paid. It has also been held in the State of New York that an automobile garage located upon the public highway is not a nuisance *per se*,⁴ but in Massachusetts it has been held by the Supreme Judicial Court that the erection of an automobile garage violates a covenant in a deed running with the land which prohibited the building of structures or carrying on of any business which would make the community unfit or unpleasant for dwelling purposes. There have been a few decisions concerning the storage of gasoline in garages, especially in New Jersey where it has been held that to store certain quantities of gasoline in the tanks of automobiles, which vehicles are kept in a wooden structure, constituted such a nuisance, threatening danger from conflagration, that an adjoining property owner had the right to resort to an injunction to restrain the conduct of the business in such a manner.

⁸See Huddy on The Law of Automobiles, p. 94. No liability for negligence of borrower of machine, on part of owner. *Doran vs. Thomsen*, 66 At. Rep. 897. A dealer or seller is liable where he furnishes a careless chauffeur. *Burnham vs. Central Automobile Exchange*, 67 At. Rep. 529.

⁹*Lotz vs. Hanlon*, 66 At. Rep. 525; *Patterson vs. Kates*, 150 Fed. Rep. 481; *Evans vs. A. L. Dyke Automobile Supply Co.*, 101 S. W. Rep. 1152; *Doran vs. Thomsen*, 66 St. Rep. 897; *Lotz vs. Hanlon*, 217 Penn. 329; *Braverman vs. Hart*, 105 N. Y. Supp. 107; *Reynolds vs. Buck*, 103, N. W. Rep. 946; *Clark vs. Buckmobile Co.*, 107, N. Y. App. Div. 120; *Stewart vs. Baruch*, 93 N. Y. Supp. 161; *Collard vs. Beach*, 81 N. Y. App. Div. 582. See Huddy on The Law of Automobiles, p. 95.

¹⁰*Lotz vs. Hanlon*, 66 At. Rep. 525. See also citations in note⁸.

¹*Long vs. Nute*, 100 S. W. Rep. 511.

²See *People vs. Bergoli*, New York Law Journal, Jan. 14, 1907. In some States the automobile laws expressly prohibit "graft" by chauffeurs, notably Illinois. A general statute takes care of the matter in New York.

³*Smith vs. O'Brien*, 46 N. Y. Misc. Rep. 325.

⁴*Stein vs. Lyon*, 91 N. Y. App. Div. 593.

The garage keeper is a bailee for hire. He takes into his custody the property belonging to others for storage, safe keeping and protection. He agrees to keep the property safely, and within the terms of the contract of bailment it is his duty to provide proper storage facilities for careful protection of machines, not allowing outsiders to enter the garage and do damage, or insiders to injure the automobiles in his custody. The garage keeper is responsible if articles of personal property left in machines are stolen from his garage, no matter by whom taken. He is obliged to take reasonable precautions against fire, and to protect machines from freezing. On the other hand, he is entitled to the compensation agreed upon for the storage or repairs of automobiles, and where there has been no express agreement, to a reasonable sum for his services.

RIGHTS AND LIABILITIES OF INNKEEPERS.

The touring automobilist frequently comes in contact with hotel proprietors and innkeepers. He is compelled to stop at inns and hotels all along his tour and it is necessary for him to know his rights as against the hotel proprietor or the keeper of an inn in order to understand what his obligations are. Most of the hotels and inns provide a place for storing automobiles belonging to guests, either a garage, or a barn, or some kind of a shed. It should be said, however, that if a place of storage is provided at a hotel or an inn, and a charge is made for the storage, a proper place must be afforded, and it is the duty of the hotel proprietor or innkeeper to place his guests' automobiles in a safe enclosure, which will protect machines from cold, fire, or theft.

In regard to the compensation for storing an automobile, a reasonable price is all that may be charged by a hotel proprietor or innkeeper, and what is reasonable is to be determined by what the customary charge is in the particular locality. Any damage suffered by the machine while in the care of the hotel proprietor must be paid for by him. He is, in fact, a garage keeper for all intents and purposes, to the extent of caring for the machines of those who stop at his hotel or inn.*

MUNICIPAL REGULATIONS.

Throughout the United States and some of the foreign jurisdictions, municipalities and local authorities have passed regulations concerning the operation of automobiles. The automobilist should ever be on the lookout for these local regulations, for he is apt to be controlled

by them when he does not know it. In many of the States of the United States, municipalities are prohibited from enacting local ordinances concerning the automobile or its operation. In some of the States there is no such prohibition and the question has arisen whether, in the absence of anything said in the State motor vehicle laws concerning the subject, a municipality possesses the power to pass local regulations. It has been held that under such circumstances the local authorities may enact ordinances governing the operation of motor vehicles. This has been the ruling in Pennsylvania.

The decisions concerning this subject will be found in the foot note.*

VIOLATIONS OF LAW.

By far the greater number of violations of law by automobilists are for over-speeding. More cases are brought into the courts on this charge than other infractions of the provisions of our automobile legislation. Our automobile laws establish such low rates of speed that it is practically impossible to obey the legal requirements.

In proving that an automobilist violated the speed law it is necessary for the prosecution to establish two facts, first, that the machine traveled faster than the legal limit; second, that the accused drove the machine at the time. These facts must be established not by merely a preponderance of evidence, but beyond a reasonable doubt. Stop-watch testimony is competent for the purpose of establishing a violation of the speed limit, but the evidence derived from the use of a speedometer is more trustworthy, since this instrument requires no judgment in the estimation of the time consumed and is purely mechanical, while the stop-watch requires judgment on the part of the officer. The automobilist is entitled to bail upon being arrested and to a full and fair hearing. These are constitutional rights afforded to every person accused of crime. Violations of the automobile laws are merely misdemeanors and in no jurisdiction is such a violation a felony. For first offense, a fine is generally the penalty, but subsequent offenses may make imprisonment possible. It is advisable for those who expect to contest cases of speed violation, to measure the course over which they were timed by the officer in order to ascertain the number of feet of the course, and defendants in speed cases

**People vs. Hainer*, New York Law Journal, Oct. 31, 1907, holding that the State speed limits still control in New York City. See also *Brazier vs. Philadelphia*, 15 Pa. Dist. Rep. 14; *city of Bellingham vs. Cassa*, 87 Pac. Rep. 481. In *Chicago vs. Banker*, 112 Ill. App. 94 it was held that the city of Chicago had no power to pass local regulations concerning licenses.

*See VI., The Garage Keeper.

should also make very thorough preparation of their cases before going to trial, since it is one of the most difficult of tasks to break down stop-watch evidence.

THE LAW OF THE ROAD.

The law of the road consists of those rules governing travel in the public highways. This law had its origin in custom and differs somewhat in different localities. For example, in England vehicles turn to the left in passing, while in America they pass to the right. The rule in regard to passing is not inflexible, however, for circumstances may compel travelers to disobey the generally established rule. Where to turn to the right would cause danger or injury, the traveler is justified in passing to the left in the United States and to the right in England. The one main and great rule for travelers on the public ways to follow is, avoid danger to yourselves and others.

Lighter vehicles are expected to favor heavier conveyances when the heavier carriage is less easily handled. It is the duty of each driver to give a passing vehicle half or an ample part of the road. The highway must not be unreasonably blocked.

OPERATION OF AUTOMOBILES.

"A public highway is open in all its length and breadth to the reasonable, common, and equal use of the people, on foot or in vehicles. The owner of an automobile has the same right as the owner of other vehicles to use the highway, and, like them, he must exercise reasonable care and caution for the safety of others. A traveler on foot has the same right to the use of the public highway as an automobile or any other vehicle. In using such highway all persons are bound to the exercise of reasonable care to prevent accidents. Such care must be in proportion to the

danger in each case. Where one undertakes to pass another on the highway, going in the same direction, he must take reasonable care to exercise that right so as not to injure another, and would be liable for all consequences resulting from negligence or imprudence on his part. It is the duty of a person operating an automobile or any other vehicle upon the public highway, to use reasonable care in its operation, to move it at a rate of speed reasonable under the circumstances, and cause it to slow up or stop, if need be, when danger is imminent, and could, by the exercise of reasonable care, be seen or known in time to avoid accident. There is a like duty of exercising reasonable care on the part of the person traveling on foot. The person having the management of the automobile and the traveler on foot are both required to use such reasonable care, circumspection, prudence, and discretion as the circumstances require; an increase of care being required where there is an increase of danger. And both are bound to the reasonable use of all their senses for the prevention of accident, and the exercise of all such reasonable caution as ordinarily careful and prudent persons would exercise under like circumstances. The more dangerous the character of the vehicle or machine, and the greater its liability to do injury to others, the greater the degree of care and caution required in its use and operation. And a person traveling on foot on a public road is required to use reasonable care to avoid collision with a vehicle, and if he saw the vehicle before it struck him, or by the reasonable use of his sense could have seen it in time to avoid the injury, it is his duty to do so.'

¹*Simeone vs. Lindsay*, 65 At. Rep. 778 per Judge Pennewill; *Mendelson vs. Van Rensselaer*, 103 N. Y. Supp. 378; *Lampe vs. Jacobsen*, 90 Pac. Rep. 654.

PART TWO

Numbers.	Not less than 4 in. high on rear, with "Va."	At least 4 in. high on rear, light on dark background, followed by "Wn."
Lamps and Equipment.	At least 1 white forward and 1 red rear, illuminating the number tag.	At least 1 white forward, showing red to the rear, white to contain numbers. Good brakes, suitable signal device and a muffler must be provided.
Non Residents.	Not exempt.	Exempt if carrying own State credentials.
Speeds.	12 m. corporate limits of cities or towns; outside 15 m., except curves, declines, intersections, crest of hills, passing vehicles where careful operation must be observed; 8 m. built-up sections of cities, towns or villages, curves, intersections in open country or where there is a gathering of horses or people.	Must always be reasonable. 12 m. thickly settled or business sections of cities and villages; 24 m. country; 4 m. crossings.
Misc. Provisions.	Must exhibit certificate to toll gate keepers and officers.	Must stop upon signal from horseman.
Penalties.	\$10. to \$100. or 5 to 30 d. or both.	\$100. maximum.

	WEST VIRGINIA.	WISCONSIN.
Registration.	State licenses granted by State Auditor to owners. No others than owners can legally be licensed.	Owners and manufacturers or dealers must register with the Sec. of State.
Fees.	\$10. duplicates \$1. The license is perpetual.	Owners, \$1. Manufacturers or dealers, \$5. The licenses are perpetual.
Numbers.	Front and rear, containing word "licensed."	3 in. high on rear, followed by "W."
Lamps and Equipment.	No State provision concerning lamps and equipment.	At least 1 light forward. Brakes and suitable signal device must be had.
Non Residents.	Not exempt.	Exempt. if carrying own State credentials.
Speeds.	No State provision. Local or municipal authorities should be consulted.	12 m. cities and villages; 25 m. elsewhere.
Misc. Provisions.		Must stop if frightening horse or upon signal, unless to do so will cause danger.
Penalties.	Defacing or destroying tag of another, \$5. to \$25.; \$20. to \$100. driving without tag; \$20. to \$100. driving without license, or 3 m. Failure to produce license, \$10. to \$100.	\$10. to \$100.

BRITISH NORTH AMERICA

	BRITISH COLUMBIA.	NEWFOUNDLAND.
Registration.	Owners must register with Superintendent of Provincial Police. Not applicable to manufacturers or dealers.	Machines owned in Electoral Districts of St. John's, East and West, must be registered with St. John's Municipal Council. Drivers must register annually. Persons under 17 years disqualified for driver's license, excepting machines under 5 hp., in which cases 14 years is the limit.
Fees.	\$2. annually.	\$5. except under 5 hp., in which case the fee is \$3.
Numbers.	Not less than 3 in. high on rear.	Mark indicating registered number must be fixed on rear in such manner required by the Municipal Council.
Lamps and Equipment.	A lighted lamp or lamps which must display numbers. Must have suitable alarm.	A lighted lamp or lamps. front.
Non Residents.	Not exempt.	Not exempt.
Speeds.	10 m. cities, towns and incorporated villages; 15 m. outside.	Must always be reasonable. 20 m. during day; 10 m. during night in and within 1 m. of cities, towns or settlements.
Misc. Provisions.	Must prevent frightening horses and stop upon signal.	Must stop in case of accident and give name and address. Must not be left standing unattended without locking.
Penalties.	\$25. 1st offense; subsequent offenses \$25. or 1 m.	\$50. maximum 1st offense; \$100. maximum 2nd offense; \$100. maximum or 1 m. subsequent offenses; failure to produce license \$25.; other violations \$100. maximum 1st offense; \$200. maximum or 3 m. subsequent offenses.

	NEW BRUNSWICK.	ONTARIO.
Registration.	Sec. Department of Public Works. Owners, manufacturers or dealers and chauffeurs must register.	Owners must register with Provincial Secretary. Lieutenant-Governor in Council may make regulations regarding renewals and transfers of permits, fees therefor and the registration of cars by manufacturers.
Fees.	Owners \$5. Manufacturers \$1. for duplicate seals. Chauffeurs \$2.	Fees not mentioned.
Numbers.	Rear 3 in. high, ½ in. wide, with initial letters of Province.	Not less than 5 in. high on front and back. No other numbers can be carried.
Lamps and Equipment.	1 or more white lights, showing number 1 in. high and ¾ in. wide. Efficient brakes and signal device must be provided.	A lighted lamp front and back lamp illuminating numbers. Searchlights not allowed. Lock must be had.
Non Residents.	Exempt if carrying own State credentials.	Not exempt.
Speeds.	1 m. 8 min. built up sections; elsewhere in city, town or village, 1 m. 5 min.; elsewhere outside, 1 m. 4 min.; bridges, sharp curves, steep descents, 1 m. 15 min.	Must always be reasonable. 10 m. cities, towns, incorporated villages; 15 m. outside; 7 m. approaching and passing horses.

	New Brunswick (continued)	Ontario (continued)
Misc. Provisions.	Must stop upon signal from horseman and in case of accident.	Must prevent frightening horses and stop upon signal. Machine not to be left unattended without being locked.
Penalties.	Penalties ranging from \$50. to \$200. are provided for first offenses, and imprisonment may be the penalty for subsequent offenses.	Numbers, racing, name and address in case of accident maximum \$50. 1st offense; \$100. maximum 2nd offense; 3rd offense 1 m.; other violations \$10. to \$50.

	QUEBEC.	SASKATCHEWAN.
Registration.	Owners, manufacturers or dealers, operators and chauffeurs must register with Provincial Treasurer.	Resident and non-resident owners must register with the Provincial Secretary.
Fees.	Owners \$5. Manufacturers or dealers \$10. Operators and chauffeurs \$5. Operators' and chauffeurs' licenses expire annually, April 1st.	\$10. The license is perpetual.
Numbers.	4 in. high, front and rear, with "Quebec" under numbers 4 in. high.	Not less than 5 in. high on rear.
Lamps and Equipment.	2 white forward with numbers and 1 red reverse. Good brakes and suitable signal must be provided. Must have lock.	"A lighted lamp or lamps" forward containing numbers. Proper alarm bell or horn must be had.
Non Residents.	Owners who reside in any other Province of Canada are exempt if vehicle indicates registration elsewhere. Residents of the United States are not exempted from registration and must furnish bonds unless relieved by Provincial Treasurer.	Not exempt.
Speeds.	6 m. cities, towns, villages; 15 m. other localities; 4 m. sharp curves, bridges, steep descents and crossings.	10 m. cities, towns or incorporated villages; outside 20 m.; 6 m. passing horses.
Misc. Provisions.	Must prevent frightening horses and stop upon signal. Must not leave machine unattended without locking.	Must prevent frightening horses.
Penalties.	Operating after license withdrawn \$100. maximum or 10 d. or both; other offenses \$20. minimum, \$100. maximum, 1st offense; subsequent offenses \$100. to \$200.; interfering with machine \$10. minimum or 6 m. or both.	\$50. maximum.

Touring Information

SHIPPING INSTRUCTIONS, CUSTOMS DUTIES, RULES OF THE ROAD.

Automobile touring has grown to such an enormous extent that practically all transportation companies here and abroad are making special efforts to obtain the business of tourists. This is particularly true of the big trans-Atlantic steamship lines, to which the tide of European travel falls. Each year the service rendered by these lines becomes more varied and complete, until now, in one or two cases, the tourist may entrust to them the task of receiving his car at his residence or garage and delivering it at any point and at any time desired. Almost without exception the transportation lines require the car to be properly boxed or crated; but it is now customary with some lines to do the work of crating also, for account of the shipper, while custom house brokers make a specialty of this work also.

Chief among the companies that make special efforts to secure the trade of this kind are the North German Lloyd, the Hamburg-American and the Cunard lines. The Hamburg-American requires, in addition to proper crating, that the tanks shall be free from all fluids. They require furthermore that any package weighing over two tons shall be loaded for shippers' account and discharged for consignees' account. To ports of call they accept a limited number of cars as passenger baggage, provided the owner accompanies the machine, and in such case the rate is 25 cents a cubic foot. The only steamer upon which they do not carry automobiles either as freight or as baggage, is the "Deutschland," as her hatches do not admit of doing so.

The North German Lloyd have gone farther than the other companies. They will undertake to crate or box a car, accepting it from the owner on their wharf and taking entire charge of it to the point of destination. They even go farther than this.

Generally speaking the cost of building the box and securing the car in it varies from \$55 for a touring car to \$65 for a limousine. As already stated it is advisable to turn this work over, together with all details of the shipment, to a reliable customs broker or express company who will see that the proper care is taken. The cartage fee to the steamer is usually about \$10 and the broker's commission for attending to the customs formalities, crating and registry in order to secure free re-entry is another \$10, making a total of from \$75 to \$85.

To motorists who wish to look after the crating personally the following information is furnished:

The best way to pack an automobile for shipment abroad is to build a closed box of matched timber around the car. The platform should be built on 2 x 4 braces, beveled at the ends. The sides, ends and top should be constructed on a lighter frame. Use heavy bolts to bind between platform and top, use at least four of these on each side. In addition fasten four iron bands upon the box extending diagonally from the lower corners to points near the lateral center of the sides. The upper ends of these bands terminate in eyes. Through the four eyes have a chain placed. This will give a center hold to which hoisting tackle can be fastened. Brace wheels by blocks fastened to the sides of the box and brace smaller boxes containing spare parts to the platform of the box. The box can be left with forwarders after the outward passage, for use in returning.

Under a decision of the Treasury Department, upon re-importation of cars previously exported, if repairs exceeding in amount 10 per cent of the original cost of the car have been made, while abroad, the car is liable to duty at its full value. It is quite immaterial under this ruling whether the repairs were necessitated by accident or otherwise. If the car is of foreign make, therefore, have it examined before shipment by the United States customs authorities so as to avoid trouble and delay upon its re-importation.

A passport from the United States Government is a good thing to have, though not absolutely necessary. It can be secured by writing to the Passport Bureau of the State Department at Washington for blank. When received, fill and return with fee of \$1. Enclose no return postage; government franks. Passports are good for two years and are renewable. A triptyque (frontier pass) entitles a tourist to cross and recross a frontier any number of times (except in Germany), but the endorsement of exportation should be made by the customs officials only upon final departure from a country.

It should be remembered that while speed laws are not rigidly enforced except in Switzerland, all drivers should be reasonable in their handling of cars. Road rules should be strictly observed everywhere.

It is best to be sure that one has coin of the country which is about to be entered before reaching the frontier. Cus-

Touring Information (Continued)

toms officers will accept nothing but money of their own country. Before leaving it is always advisable to notify the frontier station a day or two before reaching it, so that the officials may have time to secure sufficient funds for reimbursement. Ordinarily they do not keep much money on hand.

Throughout Europe the rule is: Automobiles and motor cycles, horns; bicycles, bells. By this the driver knows what is approaching from the rear and can govern himself accordingly.

It is always essential to carry an exhaustive makers' certificate showing make and type of car, number of car and motor, weight, specifications, value, capacity and details of parts. Complete answers to these items are necessary in obtaining licenses and triptyques in France, and are useful for like purposes in Italy and Germany. A certificate of ability as a driver is indispensable.

Never pass or cross in front of a policeman or other official. The dignity of the law is sacred in Europe. Be polite to all officials under all circumstances; you will gain by this. Generally, you will find the officials overpoweringly polite to you.

Guide books can be obtained in book stores in any of the large cities of Europe. Baedeker's are standard and generally up to date. Rolfe's "Satchel Guide" is also good. Cooks' and Gazes' tourist agencies also publish reliable hand-books. And there are other good publications. Both the Michelin and Continental tire concerns publish guides which give much information not otherwise found in repair stations, garages and fuel depots. Good maps are plentiful and not expensive. The sectional ones are particularly good in Europe. Never travel without a map, as local information is not always reliable.

On arrival at a town, leave your car and make hotel and garage arrangements before any of your party dismounts or any baggage is taken out. The fear that you may go to another hotel will insure better terms from the hotel and garage people.

Be good-natured but firm. Be just in giving gratuities; not too liberal. Too much generosity makes it harder for those who follow. Plan your itinerary in advance, but allow a day here and there for departures from it.

Following is detailed information regarding the formalities and regulations of the countries most visited by tourists:

France.—Nine-tenths of the tourists in making up an itinerary of European travel start from France, and strangers

Touring Information (Continued)

can avail themselves of the services of the Touring Club of France and of the Association Générale Automobile (an adjunct of the Automobile Club of France) in the following manner:

The cost of membership in the Touring Club of France is 6 francs (\$1.17) and can be secured, through arrangements between the T. C. F. and the Automobile Club of America and the American Automobile Association, in the one case by presentation of certificate of membership in the A. C. A. and in the latter by written request stating membership in the A. A. A. and upon payment of the annual fee.

The T. C. F. can arrange for the deposit of the customs duties of the several countries about to be visited and can issue a triptyque. The deposit will be returned by the club at the end of the tour. Thus all duties can be paid in a lump sum, eliminating all frontier delays and troubles, and collected upon return. If the tourist knows what his plans are a couple of months in advance all this can be arranged before leaving this country.

The Association Générale Automobile also can issue the triptyques to its members, as well as confer several additional favors. Membership costs 10 francs per year and application blanks can be secured through the A. C. A. or the A. A. A. The association will furnish reliable chauffeurs, and is also empowered to issue temporary driving licenses. To secure this license is one of the first and most important items to attend to on arrival.

Ordinarily this will involve a delay of two or three days, according to the idea the official has of the value of time or his inclination to work. The A. G. A. is empowered by the national authorities to hold examinations and grant temporary operating licenses, which can be exchanged at leisure for the official document. A stranger arriving would present himself at the association headquarters with his car, a few unmounted photographs of himself, and the necessary documents to prove his identity. Immediately an examiner takes him in hand, and, if satisfied with his ability to handle an automobile, grants him a certificate which will be accepted by any sergeant de ville or gendarme in France, or almost every other country of Europe. When the clerks in the Mining Department have gone through their routine papers will be forwarded, probably three weeks later. If a member of the Association Générale Automobile, you can obtain a chauffeur whose ability has been proved and whose moral character is vouched for by that

Touring Information (Continued)

body. The A. G. A. keeps close watch over the men it recommends, causes them to report to headquarters whenever out of employment, and withdraws their diploma on any proved case of misdemeanor.

Further advantages of the association are information on tours, maps, etc., a discount on tires, spare parts, etc., by arrangement with a number of firms.

The French customs on cars weighing 125 kilos (275 lbs.) is 120 francs per 100 kilos. On cars weighing more than 125 kilos a deposit of 50 francs (\$10 per 220 lbs.). Average deposit: Touring cars, \$175; limousines, \$200. Money refunded when leaving, if within one year. French cars are free of duty on presentation of certificate issued by the customs officials at the time of original export, this is good for one year and is renewable, but as there is much red tape in connection with securing free entry it is advisable to pay the duty and have it refunded.

Great Britain and Ireland.—No duty. Observe road rules carefully. Remember to turn to left in passing instead of right. Some roads are closed to motorists, most frequently in Scotland. Roads are good and carefully signposted. Speed 20 miles, except where special notices are posted. Driver must be over 17 years of age. Two white lights in front, one red in rear; loud sounding horn. Two registration plates must be procured, to attach both front and rear.

For registration of car cost 20/-, driver 5/- and owner 5/-. An inland revenue tax of £4 4/- is imposed on cars weighing over one ton; 15/- for employing male servant. This tax is often ignored by tourists who remain in England only a short time. Inland revenue tax can be paid at any postoffice. Driver's license and registration taken out in important towns only; London, at Spring Gardens, County Council, or Westminster; Southampton, Town Hall; Liverpool, municipal offices; Canterbury, if landing at Dover or Folkestone. Lewes, if landing at New Haven; Ipswich, if landing at Harwich. The Motor Union, 1 Albemarle street, London, membership is valuable for information; fee, \$5.25.

Germany.—Customs imposed on entrance, and refunded on departure. If departure is from some small town, refund is invariably refused and tourist must apply to some main office (which may be many miles away) to secure it. It is advisable to have a triptyque from the Touring Club of France or Italy to avoid this difficulty. Tax is collected at frontier, 15 marks for 5 days', and 40

Touring Information (Continued)

marks for 30 days' permission to travel in country. A foreigner's home permit to run his car, and his driving license must be viséd by a German Consul before he can enter. Plate with number will be furnished (cost 6 to 10 marks). All foreign numbers must be removed.

Keep to right, pass to left. Inquire carefully in each city what roads are closed to automobilists. Speed signs posted, 15 kilometers (9½ miles) allowed in built up sections, greater in country.

Italy.—Duty from 200 to 600 francs, returnable (insist on having return made in gold) on leaving country. Duty on touring car or limousine about \$120. License to drive easily procured. Within four days after crossing frontier, make a declaration at the office of some Provincial Prefect. This four-day term is established by the toll-gate certificate. If tourist comes from some country where there are rules and regulations for the driving of automobiles, as in America, he will receive a temporary permit to drive in the kingdom. He must prove ability to drive, ownership, etc. Lead seals will then be placed on the car.

Membership in the Touring Club of Italy is helpful in securing necessary papers, maps and touring information. Cost of membership, 10 lire (\$1.94). Two headlights necessary, left green and right white, rear light to show number. Number of permit to be attached both front and rear. Speed 12 kilometers (7½ miles) in built up sections, 40 kilometers (25 miles) in open country. In general, keep to the right and pass to the left, but in some provinces, notably Rome and Genoa, the rule is reversed, and only by excessive care can accident be avoided.

Spain.—Deposit on entrance, returnable at departure, if within six months. Road and speed rules not severe.

A circulation permit for the car should be obtained from the Civil Governor of the province, and a driver's certificate from the police authorities. Keep to the right, pass to the left.

Austro-Hungarian Empire.—Customs duty is collected on frontier and refunded on departure. Numbers and letters are assigned on entry and must be carried both front and rear. Letter Z in red, must also appear on plate, in addition to letters assigned. Two white headlights necessary. Tourist not obliged to secure driving license if he can produce certificate from his native State or country. Speed from 15 kilometers (9½ miles) in villages to 45 kilometers (28 miles) in country. Must not exceed 6

Touring Information (Continued)

kilometers (4 miles) in foggy weather, at sharp turnings, on bridges, etc. Keep to the right and pass to the left in the following provinces; Tyrol, Carinthia, Istria, Carniola (Krain) and Dalmatia. Keep to the left and pass to the right in all other provinces. It is advisable to notify the authorities of the custom house in advance of leaving, otherwise some of the small frontier stations may not have the refund money on hand.

Denmark.—No duty on declaration that car is temporarily imported for touring purposes.

Two white headlights and horn necessary. Keep to the right, pass on the left. Some streets and roads forbidden to automobiles. Car must be declared to the police of place of entry who will provide number and letter on plate. License of native country or State necessary.

Russia.—Automobiles may not pass the frontier simply by depositing duties, but special permission must be secured from the Secretary of Finance. Such permission must be applied for in writing on paper stamped with two stamps of 80 kopecks (41 cents) each. Since reply may be delayed, it is expedient to ask for an early answer, giving some urgent reason. Driver must declare by which custom stations car is to enter and leave the country and for what space of time a permit is sought. The reimbursement takes place from two to ten months after leaving. Local road and speed rules not generally severe.

Keep to the right, pass to the left. A passport is necessary, and must be viséd by a Russian Consul. Driving certificate should be obtained.

Holland.—For temporary importation there is no well established regulation, but tourists usually enter free, depending mostly on the good will of the officials. A license good for eight days can be secured at point of entry. For a longer stay apply to the Minister of Public Works (Minister van Waterstraat) at The Hague, at least three weeks in advance, stating the greatest length and width of the car, whether steam, gasoline or electric, and date and place of arrival. Enclose one guilder (40 cents) to cover stamp duty. Travelers will then have no trouble, and the necessary permit will be ready for them on arrival, together with a copy of the rules and regulations.

Two white lights and loud horn or bell are necessary. Speed, 20 kilometers (12 miles) in country and 8 kilometers (5

Touring Information (Continued)

miles) in villages. All prohibited roads are posted.

The above permit is good only on State roads, and not those belonging to provincial or municipal governments. To travel in the provinces of Zealand, Northern Holland, North Brabant or Friesland, additional permits must be secured from each.

Switzerland.—Deposit of 60 francs for every 100 kilos gross weight of car required. Against the deposit, a permit is given, valid for one year. The deposit is returned on leaving Switzerland by any of the frontier stations in exchange for the permit. Regulations are very exacting in Switzerland and motor drivers are not popularly liked. To escape owners' permits and plates, etc., tourists must carry permits of their home country, and that country must be one between which and Switzerland reciprocity exists. Each car must carry a deep-sounding horn. The driver must sound this as soon as he intends crossing or overtaking another car, a cycle or pedestrian crossing the road. He must also use the signal at all sharp turns in the road or at the end of any private road or avenue leading into a public highway; also at night or in foggy weather. A car must carry two brakes, which must be used on sloping ground. The brakes must be independent and each must be competent to stop the car at full speed and full power on any incline. At night all cars must carry two lanterns in front, one green, the other white; also a red light at the rear, which must be lighted even if the vehicle is standing still. The driver must have perfect control of his car at all times. He must slow up or even come to a full stop whenever the vehicle might cause an accident or interfere with traffic or when a saddle or harness horse shows signs of fright. In cities, villages, or hamlets and on mountain roads, speed must never exceed 10 kilometers (6¼ miles) an hour. On bridges, narrow streets, on steep declines and in front of signboards and official posters, speed must be reduced to 6 kilometers (4 miles) per hour. On no account must the speed be increased to more than 30 kilometers (19 miles) in the open country.

Bohemia.—A car brought into Bohemia may be used 14 days without restriction. After that it must be examined by a commission appointed by the chief court of administration at Prague. Cost of examination 120 crowns (\$24.36). Persons driving in Bohemia more than

Touring Information (Continued)

eight days must secure license at Prague or Reichenberg, cost 50 crowns (\$10.15). Speed 9 miles in towns and 28 miles in the country.

Belgium.—Duty is 12 per cent ad valorem, returned upon leaving the country. Permit received is valid until December 31 of that year. Permits granted in November or December are good till October 31 of the following year. Amount of duty is large, and use of the T. C. F. triptyque is advised. Numbers are assigned at most important cities and plates must be carried on both front and rear of cars, the latter being illuminated at night.

Speed, 10 kilometers (6¼ miles) in settlements and 19½ miles in open country. Keep to the right and pass to the left.

Norway.—Duty 15 per cent ad valorem, returned when the car is taken out of the country. A certificate stating the value of the car, signed by the mak-

Touring Information (Continued)

ers or their agents should be produced. A lead seal is affixed to the car at the Custom House. Fees for receipts, seal, etc., amount to about \$1.50. License number is furnished by the police, and must be carried both front and rear. Two headlights and one red light in rear must be carried. Speed must at all times be compatible with public safety. Keep to the right, pass to the left.

Sweden.—Duty 15 per cent ad valorem, returnable when leaving the country. Proof of ability to drive a car must be furnished. Special regulations are in force in Stockholm, where many streets are closed. Keep to left and pass to right. Speed from 15 to 25 kilometers per hour.

To supplement the foregoing, and to put the matter in convenient form for reference, the following tables are given. They cover the regulations of all the principal European countries where automobiling is done.

Automobile Regulations in Force in Europe.

NATION	Side to be Kept in case of Meeting of Vehicles	Lighting of Automobiles	Legislation Peculiarities
AUSTRIA	LEFT	A lamp with white glass.	No general regulation. In Lower Austria the police regulation is in force. A permit to drive is required.
BELGIUM	RIGHT (decree) except at Gand. LEFT (communal regulation.)	A lamp in front and rear. (decree) At Gand a supplementary lamp in front and colorless glasses are required by virtue of a communal regulation.	Laws and decrees, but modifiable in a certain measure by the Burgomaster, who has nearly the same authority as French Mayors. A number in front and rear is required. Speed permitted is 30 kilometers in the country and 10 in cities and villages.
DENMARK	LEFT		The driving of automobiles on the streets of cities is prohibited, and is permitted in the country only upon the national roads.
FRANCE	RIGHT	Two lamps in front, one white and the other green.	The front of the car must carry a plate 4 inches in height on which are painted in white figures on a black ground a registration number and letters designated by the Chief of Mines. The rear of the car must carry a plate 6 inches in height on which the figures and letters are painted in white on a black ground. The letters and figures must be separated by a horizontal line. The plate must be illuminated at night by reflection or by the light of lamp shining through an opalescent glass covered by an open work plate carrying the letters and figures. The speed must be reduced to that of a pedestrian in narrow passages and encumbered places. In no case must the speed exceed 30 meters per hour in cities and villages.
GERMANY	RIGHT (Communal regulations in general)	One lamp. (Communal regulation in general.) At Darmstadt, colored glass is prohibited.	No general regulation. Maximum speed in cities and villages, 12 kilometers. In Southern Germany, Bavaria, Saxony, and a few cities of Northern Germany, a plate and number are required. At Darmstadt a permit to drive is required for a sojourn of more than 8 days. At Munich, a permit is required for carriages. The running of motor cycles is absolutely prohibited.

Touring Information (Continued)			Touring Information (Continued)
NATION	Side to be Kept in case of Meeting of Vehicles	Lighting of Automobiles	Legislation Peculiarities
GREAT BRITAIN	LEFT	A white lamp in front and a red one in the rear on the right side (law). The county councils can add any measures in their districts.	15 kilometers in the country, and at the speed of a pedestrian in cities. It is forbidden to keep at home or to carry in an automobile more than 180 litres (45 gallons) of gasoline.
ITALY	RIGHT in the country and in villages. LEFT in large cities.	Two lamps in front, the one to the left with a green glass; and one lamp in the rear with a red glass.	A permit to drive is required in case of a sojourn of more than eight days. Maximum speed 12 kilometers.
LUXEMBURG	RIGHT	No regulation for automobiles.	
NETHERLANDS	RIGHT	Two lamps in front.	Two permits to drive have to be obtained; one of them from the Minister of Public Works for the roads kept in repair by the State, and the other from the permanent delegation of the states of the Province of Zealand for the other public roads. A number is necessary in front and behind. Maximum speed 20 kilometers, reduced to 8 in descents, curves, and cities and villages. At Amsterdam, a third permit to drive is required by the municipal authority. It is forbidden to carry more than 5 litres (5 quarts) of gasoline and this must be placed in a metal tank covered with asbestos. The owner of the carriage is responsible for the driver.
SPAIN	RIGHT		Same regulations as in France. 28 and 12 kilometers.
SWITZERLAND	RIGHT		The driving of automobiles on certain highways and in the entire Canton of Valais is forbidden. There is no general regulation. The legislation is very variable according to the Canton. Numbers required in some of them. Speed must be very moderate.

Miscellaneous Information

PROPOSED UNITED STATES AUTOMOBILE LAW.

A Federal automobile bill was introduced in the 59th Congress and again in the 60th Congress, where it is still pending. The measure, which is entitled "A bill providing for the regulation, identification and registration of motor vehicles engaged in interstate travel," was prepared by the Legislation Board of the American Automobile Association, of which Charles Thaddeus Terry is chairman. Its passage is being strongly advocated by automobile associations, clubs and individuals. The text of the bill follows:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the term "motor vehicle," as used in this Act, except when otherwise expressly provided, shall include all vehicles propelled by any power other than muscular power, except motor bicycles, motor cy-

cles, road rollers, fire engines, police patrol wagons, ambulances, and such vehicles as run only upon rails or tracks. The term "State," as used in this Act, except where otherwise expressly provided, shall include the Territories and the Federal districts of the United States.

Sec. 2. That the provisions of this Act shall apply to any motor vehicle operated and driven from one State to any other State of the United States, or from any State in the United States to an adjacent foreign country, and operated and driven from such place to any other place in the United States: Provided, That the provisions of this Act shall not apply to motor vehicles when operated and driven wholly within the State which is the residence of the owner of such vehicle and not engaged in interstate travel as aforesaid: Provided further, That nothing in this Act shall be so construed as to conflict with the

Proposed U. S. Automobile Law (Con.)

laws of any State in regard to the regulation of motor vehicles, except that, upon compliance with the provisions of this Act by an owner of a motor vehicle, such motor vehicle shall be exempt from the provisions of State laws in reference to the registration of motor vehicles, but such motor vehicles shall not be exempt from any of the provisions of the law of the State which is the residence of the owner of such motor vehicle.

Sec. 3. That every person hereafter acquiring a motor vehicle which may be engaged at any time in interstate travel, as aforesaid, and every person who has acquired or is the owner of a motor vehicle at the time of the passage of this Act, and who desires to take advantage of the provisions hereof, shall cause to be filed, either by mail or otherwise, in the office of the commission constituted and appointed under the provisions of this Act, upon the payment of the registration fee of five dollars, a verified application containing—

First. A brief description of the vehicle to be registered, including the name of the manufacturer, the manufacturer's number of the motor vehicle, if number there be, the character of the motor power, and the amount of such motor power stated in figures of horsepower.

Second. The name and address of the owner of such motor vehicle and the State in which he resides, with a statement that such owner has complied with the provisions of the law of the State of his residence, if any, made and provided by the legislature thereof in regard to—

(a) The said owner's right to operate and drive the said motor vehicle within the boundaries of that State.

(b) The registration and identification of the said motor vehicle.

Third. The registration number assigned to such motor vehicle by the officers of the State in compliance with the State law.

Sec. 4. That upon the filing and approval of the bureau, as hereinafter constituted, of an application, as hereinbefore provided, the bureau, or its duly authorized agent, shall assign to such motor vehicle, as described in such application, a distinctive number, and shall issue to the owner of such motor vehicle, under the seal of such bureau, a certificate of registration of such motor vehicle, as it is described in the application as filed, which certificate shall contain the distinctive number, as assigned to such motor vehicle, the name of the State of his residence, a brief description

Proposed U. S. Automobile Law (Con.)

of such motor vehicle, stating the name of the manufacturer, the manufacturer's number, if there be one, the character of the motor power, and the amount of such power stated in figures of horsepower, and the distinctive registration number assigned to such vehicle, pursuant to the law of the State in which such motor vehicle had previously been registered, if any.

Sec. 5. That every motor vehicle registered in accordance with the provisions of this Act shall have the distinctive number assigned to it by the commission, as hereinafter constituted, displayed on the front and on the rear of such motor vehicle as an identification mark, and it is further provided—

First. That such distinctive number shall be exhibited separately and apart from any such number displayed in accordance with the provisions of the law of the State under which such motor vehicle shall have previously been registered.

Second. That such distinctive number, as an identification mark, shall consist of a white placard as a background, upon the face of which shall appear the distinctive number assigned to such vehicle by the commission, as hereinafter constituted, in black Arabic numerals, such numerals to be not less than three inches long, nor each stroke less than one-half inch in width, such number to be preceded on the placard by the initial or abbreviation of the State under the laws of which such motor vehicle has previously been registered, in black letters, each letter to be at least one inch and a half in height, and such number to be followed on the placard by the letters "U. S.," each letter to be of the same size and character as the letters of the initial or abbreviation of the State as hereinbefore provided.

Third. Every motor vehicle registered under the provisions of this Act shall at all times between sunset and sunrise carry and bear at least two lighted lamps, one on the front of such motor vehicle and one on the rear of such motor vehicle, the rays of which rear lamp shall shine upon and illuminate each and every part of the said distinctive number borne upon that part of the motor vehicle, and the light of which lamps shall be visible at a distance of at least two hundred feet in the direction in which the vehicle is proceeding and an equal distance in the reverse direction, respectively.

Sec. 6. That in the event of a violation of any of the provisions of this Act by an owner or operator of a motor vehicle registered as hereinbefore pro-

Proposed U. S. Automobile Law (Con.)
 vided the following consequences shall ensue, that is to say—

First. Such owners shall be deemed to have forfeited all registration fees paid by him in accordance with the provisions of this Act and to have forfeited all rights and privileges granted hereunder, and such registration as may have been had theretofore under the provisions of this Act of any motor vehicle owned or controlled by such owner shall become null and void and of no effect immediately upon such breach or default by such owner.

Second. No such owner may, at any time thereafter, register any motor vehicle owned and controlled by him, or which he may afterwards acquire, in the office of the commission under the provisions of this Act; and the commission is expressly prohibited from accepting and filing the application of such owner for registration under the provisions of this Act of any motor vehicle owned or controlled by him except upon the performance of the following conditions, to wit:

(a) The payment by said owner of a penalty fee of twenty-five dollars.

(b) The filing of a new verified application for each motor vehicle owned or controlled by such owner, as hereinbefore provided.

(c) The payment by such owner anew of such registration fees as are provided for herein.

Sec. 7. That in the case of a manufacturer or dealer in motor vehicles, such manufacturer or dealer shall make application for the registration, in the same manner as is herein before provided, of each style or type of motor vehicle manufactured or dealt in by such manufacturer or dealer. Whereupon, upon the payment of a registration fee of ten dollars, there shall be assigned to such style or type of motor vehicle a distinctive number as an identification mark, which shall be carried and displayed by every motor vehicle of such style or type registered in the manner hereinbefore provided, and there shall be issued to such manufacturer or dealer a certificate of registration, as hereinbefore provided, for each such style or type of motor vehicle and as many certified copies thereof as may be desired upon the payment of a fee of fifty cents for each such copy.

Sec. 8. That in the event of the sale or the letting for hire for a period of over ten days of any motor vehicle registered in the office of the commission, as hereinafter constituted, in accordance with the provisions of this Act, such registration shall become null and void

Proposed U. S. Automobile Law (Con.)
 within five days after such event, and the vendor or lessor of such motor vehicle shall immediately upon such event return the certificate issued to him upon the registration of such motor vehicle, for cancellation, with a verified statement that such motor vehicle has been sold or let for hire for a period of over ten days. In case the purchaser or lessee of such motor vehicle should desire to bring such motor vehicle again within the provisions of this Act, he shall thereupon, in conformity with the provisions hereof, register such motor vehicle anew and procure a certificate upon the payment of the fees and the filing of a verified application, as hereinbefore provided, which shall state among other things the name of such vendor or lessor.

Sec. 9. That if any motor vehicle shall display an identification mark or number which purports to have been assigned to such vehicle, pursuant to the provisions of this Act, but which is fictitious or which such motor vehicle has no right to display, the following consequences, in addition to those provided for in section five hereof, shall ensue, that is to say—

First. Every motor vehicle owned or controlled or afterwards acquired by the owner of such offending motor vehicle shall be denied registration within the provisions of this Act for a period of five years.

Second. Such motor vehicle and all other motor vehicles owned and controlled by the owner of such offending motor vehicle, if previously registered as hereinbefore provided, shall, nevertheless, immediately become amenable to all the provisions of the law of the State in which such offense is committed, and the registration of such motor vehicle in accordance with the provisions of this Act shall immediately become null and void.

Sec. 10. That every person who shall own or operate a motor vehicle registered under the provisions of this Act shall be ready at all times, while such motor vehicle is engaged in interstate travel, to exhibit the certificate issued to him upon the demand of the proper authorities, either of the State or United States Government: Provided, however, That in the event that such certificate has been lost or mislaid, such owner or operator shall sign an affidavit setting forth the name and address of the affiant, the fact of such loss or mislaying of the certificate, the contents of such certificate, and the fact that such motor vehicle has been registered in the office of the commission as hereinafter consti-

Proposed U. S. Automobile Law (Con.)
tuted, in accordance with the provisions of this Act, and deliver such affidavit to the authority making the demand; and upon the making and delivery of such affidavit to such authority the owner or operator shall be relieved of penalty for the mischance: Provided further, That upon the discovery of the loss of such certificate the owner of such motor vehicle shall immediately notify the office of the commissioner of such fact. Whereupon such commission shall issue to such owner a duplicate of such lost certificate upon the payment of a fee of one dollar.

Sec. 11. That a bureau is hereby created and established in and to be a part of the Department of Commerce and Labor to be known as "Motor vehicle bureau," which shall be composed of a commissioner who shall be appointed by the President, by and with the consent of the Senate, together with an assistant and a clerical force as hereinafter provided.

First. The commissioner shall serve for a term of five years and until his successor shall have been appointed and qualified, but the commissioner may be removed by the President for inefficiency, neglect of duty, or malfeasance in office.

Second. Such commissioner shall appoint a secretary, who shall serve at his pleasure and whose duty it shall be to keep full and faithful record of the proceedings of such bureau, preserve at its general office all documents and papers entrusted to his care, prepare for service such papers and notices as may be required of him by the commissioner, and perform such other duties as the commissioner may prescribe.

Third. Such commissioner may also appoint and at his pleasure remove such additional clerical officers as may be necessary for the transaction of the bureau's business.

Fourth. The office of the bureau shall be in the city of Washington, District of Columbia, in rooms in an official building, which shall be designated by the proper authorities.

Fifth. Such commissioner shall be empowered to adopt such rules and regulations as shall be necessary to carry into effect the provisions of this Act. Such commissioner shall have power to issue certificates and suspend and nullify the same as herein provided.

Sixth. Upon the receipt of an application for registration of a motor vehicle or motor vehicles, as hereinbefore provided, the commissioner shall thereupon file such application in his office and register such motor vehicle with the

Proposed U. S. Automobile Law (Con.)
name and address of the owner thereof, and the facts as stated in the application, in a book or index to be kept for such purposes, under the distinctive number or identification mark assigned to such motor vehicle, by such commissioner, according to the provisions of this Act, satisfy himself that the verified statement made in such application is correct, and issue to the applicant a certificate as hereinbefore provided. The book or index in which motor vehicles are registered, as hereinbefore provided, shall be kept by the commissioner at his main office and shall be open to the inspection of any person during reasonable business hours. Upon the application of any person, by mail or otherwise, any information within the knowledge of the commissioner in reference to any motor vehicle registered in accordance with the provisions of this Act shall be furnished to a reasonable extent by the commissioner to such person applying, free of charge.

Seventh. Any person, firm, corporation, or association, or any mercantile, agricultural, or manufacturing society, or any body politic or municipal organization, complaining of anything done or omitted to be done by the owner of any motor vehicle, subject to the provisions of this Act, in contravention of the provisions thereof, may apply to the commissioner by verified petition which shall briefly state the facts. Whereupon, a statement of the charges thus made shall be forwarded by the commissioner to the owner of such motor vehicle, who shall be called upon to answer the same, by a verified statement in writing, within a reasonable time, to be specified by the commissioner. If the owner of such motor vehicle shall not answer the complaint, as hereinbefore provided, within the time specified, or there shall appear to be any reasonable ground for investigating the said complaint it shall be the duty of the commissioner to investigate the matters complained of in such manner and by such means as he shall deem proper. If, upon such investigation, the commissioner shall find the violation complained of was committed, such commissioner may suspend or nullify the registration of all motor vehicles owned and controlled by the owner of the motor vehicle complained of, and impose such terms or conditions upon any new registration by such owner as it shall deem proper, in addition to those already provided for.

Eighth. The revenue derived from this Act shall be appropriated to the payment of the expenses of the bureau, and such surplus as there may be shall be

Proposed U. S. Automobile Law (Con.)

paid into the Treasury of the United States of America. The expenses of such bureau shall consist of the salaries of the commissioner, the secretary, and the clerical force, and such expenses as shall be necessary to carry into full force and effect the provisions of this Act. The commissioner shall have a salary of five thousand dollars a year, payable quarterly. The secretary of the commission shall have a salary of two thousand dollars a year, payable in such manner as the commissioner may prescribe. The salary of any single member, of the clerical force shall not exceed the sum of one thousand two hundred dollars a year. The commissioner shall submit to the Secretary of the Treasury semi-annually a full report of the revenues and receipts and the expenses of such bureau.

Sec. 12. That this Act shall be known as the "Motor vehicle Act," and shall take effect thirty days after its approval by the President.

FRENCH ROAD RULES.

Rules adopted by the Automobile Club of France and Alsace-Lorraine, the League of Chauffeurs, the Touring Club, the Federation of Regional Automobile Clubs, the Moto-Club, etc.:

Art 1.—On an automobile road it is permissible to occupy the center of it provided space enough be allowed to the left to permit of the passing of a faster car going in the same direction.

Art 2.—Passing of two cars.—(a) Two cars running in opposite directions pass each other in each keeping to the right. When the road is manifestly too narrow to allow the vehicles to pass each other easily, they must slow up. The speed must even be reduced to that of a pedestrian if the road is such as to render the passing difficult. (b) If two cars are running at a different speed in the same direction, the one behind has only to keep to the right. The car going to the front must make its presence known by sounding the horn and not attempt to proceed unless it is plainly seen that there is sufficient space. (c) A driver must never exceed the speed of a carriage in traversing rural settlements.

Art 3.—Turns.—(a) In exposed turns, that is to say, where there is a clear view of the entire extent of the turn, there is no special necessity for slowing up. (b) In any turn where any portion of the road is hidden from view, the driver must slow up so as to be able to stop at ten yards. This is particularly necessary in a mountainous district. (c) In case of absolute impossibility, say if the right side of the road is obstructed

French Road Rules (Continued)

by some obstacle, the driver obliged to take the left side will have to proceed slowly enough to be able in case of necessity to stop within three yards at the most, and to signal continually with the horn.

Art 4.—Crossing of Roads.—(a) If a road crossing is absolutely exposed, that is to say, if the view is not interfered with by anything, there is no necessity of modifying the speed if the road is clear. If two cars are converging toward the open crossing, the driver who observes a car approaching toward his right must make way for it, whatever be the relative width of the roads; and must therefore slow up, and if need be, stop. (b) If the crossing is such that the view is impossible, or even only interfered with, every car approaching it must reduce its speed to at least twelve miles an hour. If, on reaching the crossing, with speed thus reduced, two cars suddenly come in sight and run the risk of colliding with each other, each driver should invariably turn to the right, even should such a measure cause him momentarily to abandon his route.

Art 5.—Passing through cities and villages.—(a) In passing through cities special rules will be observed. (b) In the case of villages the speed will always have to be sufficiently reduced to permit of a stop in ten yards if the road is wide, and in three yards if it is narrow. The use of the horn is obligatory on approaching isolated houses.

Art 6.—Meetings.—In approaching human beings and animals, they must be forewarned by sounds of the horn until their attention has been manifestly attracted, and, if the road is narrow, the speed must be sensibly reduced. If the animals exhibit fright, the car must, in all cases be slowed up, and, if necessary be stopped, and the motor also.

Art 7.—Accidents to Persons.—In case of accident the driver must stop and render the victim or victims all the aid possible. After the injured have been cared for and medical aid has been assured them the driver should at once gather all the testimony capable of throwing light upon the causes of the accident.

Art 8.—An automobile passing at the time of the accident, should likewise stop in order to offer the completest assistance to the injured in the first place and then to those who caused the accident, which is always presumed to have been unavoidable.

Art 9.—Damages, break-downs, and accidents to the car.—(a) Every driver should render aid to a fellow-automobilist who requires it of him. (b) An auto-

French Road Rules (Continued)

mobilitist in distress asks help in the following manner: 1. If it is daylight, by waving one arm in a plane at right angles to the road his face turned toward the car which he is begging to stop, or by placing conspicuously upon the car a white flag, for which, at a pinch, a handkerchief can be employed; or 2. If it be night, by swinging one of the lamps across the road.

Art 10.—In case of running short of gasoline, the driver from whom a supply is requested should furnish such a quantity as he has to spare. For such gasoline cost must be paid.

ENTRY OF TOURISTS' CARS INTO CANADA.

In the summer of 1907 an arrangement was effected whereby the difficulties theretofore attending the entry of United States tourists into Canada were largely done away with. Under this arrangement automobilists living in the United States may enter and tour Canada with their cars without trouble and at a very small cost—special bonding arrangements having been made by brokers in various Canadian points with the Canadian Department of Customs rendering this possible.

No cash deposit is required, and the permit which is supplied allows the car to run about in Canada and to enter and leave the country at any point as often as desired until the end of the year without interference or delay.

AUTOMOBILES ON FERRIES.

The carriage of automobiles on ferry boats or other passenger steamers in the United States is regulated by the national government. The Federal statute forbidding the carriage of inflammable materials was modified, after a long agitation by automobilists, by an act passed by Congress and approved February 18, 1905. Under its provisions the clause in the statute, which rendered it mandatory upon owners or operators of steam vessels to have "fire" extinguished before permitting motor vehicles to be driven or run upon such vessels, was changed in a manner that would permit them to be run on and off the vessels under their own power. The clause, as changed, reads as follows:

"Nothing in the foregoing or following sections of this Act shall prohibit the transportation by steam vessels of gasoline or any of the products of petroleum when carried by motor vehicles (commonly known as automobiles) us-

Automobiles on Ferries (Continued)

ing the same as a source of motive power:

"Provided, however, That all fire, if any, in such vehicles or automobiles be extinguished immediately after entering the said vessel, and that the same be not relighted until immediately before said vehicles shall leave the vessel:

"Provided further, that any owner, master, agent, or other persons having charge of passenger steam vessels shall have the right to refuse to transport automobile vehicles the tanks of which contain gasoline, naphtha, or other dangerous burning fluids."

While under the statute as amended steam vessels are permitted to carry automobiles that have gasoline in the tanks, they are not obliged to do so. Nevertheless, nearly all ferry boats and passenger steamers now carry motor vehicles without requiring the tanks to be emptied.

RULES AND REGULATIONS FOR NAVIGATORS.

Navigation rules promulgated and enforced by the United States Government apply equally to "power vessels"—under which name all motor driven craft are included—and vessels equipped with sails. The sailing vessel is, of course, favored, power boats being enjoined not to "obstruct the passage" of those depending entirely upon sails. Following are the general rules:

U. S. Rules for Navigation of Vessels

Alter the course to starboard and pass on port side of other vessel when meeting end on or nearly so. Follow this rule at night whenever both side lights of approaching vessel are visible across the beam.

When crossing, the vessel having the other on her starboard side, must not obstruct the other's passage.

A power vessel shall not obstruct the passage of a sailing vessel.

Do not overtake and pass another vessel in a narrow passage.

The whistle signals indicating the course required are specified.

When a signal is received, answer with the same signal.

One blast signifies "I am directing my course to starboard."

Two blasts signify "I am directing my course to port."

Three blasts signify "My engines are full speed astern."

When nearing a bend in the channel sound one long blast.

Give whistle signals by day or night only when other vessel signaled is in sight.

Rules for Navigators (Continued)

Fog signals only are given in thick or foggy weather.

A reverse or cross signal should never be sounded.

Should the signal given be inadvisable, or if same is not understood, sound not less than four short and rapid whistle blasts. If required by conditions, both vessels shall reduce speed, or stop, or reverse until proper signals are given or understood.

Bell and Whistle Signals. For the Ocean

1. When engine is stopped,
One bell means, Ahead Slow.
2. When running ahead slow,
Jingle means, Full Speed Ahead.
3. When running full speed ahead,
One bell means, Slow Down.
4. When running ahead slow,
One bell means, Stop.
5. When stopped,
Two bells mean, Astern Slow.
6. When running astern slow,
Jingle means, Full Speed Astern.
7. When running astern, slow or at full speed,
One bell means, Stop.
8. When running full speed ahead,
Four bells mean, Astern.
9. With jingle,
Full Speed Astern.

When no jingle bell is provided the following signals will suffice:

1. When stopped,
One bell means, Ahead.
2. When running ahead,
One bell means, Stop.
3. When stopped,
Two bells mean, Astern.
4. When running astern,
One bell means, Stop.
5. When running ahead,
Four bells mean, Astern.

Rules for Navigators (Continued)

For the Great Lakes, St. Lawrence River and their Tributaries

- 1 whistle or bell, Go Ahead.
- 1 whistle or bell, Stop.
- 2 whistles or bells, Back.
- 3 whistles or bells, Check.
- 4 whistles or four bells, Strong.
- 4 whistles or 4 bells, All Right.

Rules for Prevention of Collisions

Lights must be carried on a vessel in all weathers from sunset to sunrise.

White light must be placed forward visible over ten points of the compass on each side.

Red light placed on left or port side, visible from right ahead to two points abaft the beam.

Green light placed on right or starboard side, visible from right ahead to two points abaft the beam.

Combination lights, including the above, may be carried on open launches and sailing craft.

A white light shall be on board a row boat to be used in time to prevent collision.

Upon being overtaken by another vessel, a white light must be shown astern visible over twelve points of the compass aft.

Rules regarding sidelights are to be complied with when vessel is under way and not otherwise.

A white light is to be shown, while at anchor, which is visible all around the horizon.

A whistle, siren, fog-horn or something of similar nature is to be used as a fog signal. A "prolonged blast" is from four to six seconds duration.

One prolonged blast at one minute intervals or less must be given when the boat has way upon her.

In sailing vessels, one blast at one minute intervals or less must be given when on starboard tack; two blasts, at one minute intervals when on port tack; with wind abaft the beam, three blasts at similar intervals.

Ring bell or make sufficient sound.

La Roche (35-hp. Darracq), 1st. Percy Owen (15-hp. Winton), 2nd. Time, 6m. 42s. New track records in this class. Ten miles, free-for-all—H. S. Harkness (Mercedes-Simplex), 1st. F. A. La Roche (Darracq), 2nd. Time, 11m. 54 4-5s. Unlimited pursuit races—H. S. Harkness (Mercedes), 1st. J. W. How-ard (Howard), 2nd, caught at 5¾ miles in-7m. 13s. Obstacle race—W. F. Murphy (Locomobile), 1st. Time, 1m. 51 1-5s. One-mile time trial—George C. Cannon (Cannon), 1st. Time, 1m. 7 3-5s. World's track record for steam vehicles.

Empire City track, May 30, 1903.—Summaries: One-mile open class, gaso-lene cars under 1,000 pounds—G. C. Gould (4-hp. Orient), 1st. Dr. A. L. Nelden (5-hp. Northern), 2nd. Three-mile open class for gasolene cars, 1,000 to 1,800 pounds—J. Tracy (35-hp. Pan-hard-Levassor), 1st. Albert C. Bostwick (18-hp. Daimler), 2nd. Time, 3m. 50s. Five-mile open class for gasolene cars over 1,800 pounds, Oldfield and Wridg-way machines barred—A. Poole (40-hp. Daimler), 1st. L. Markle (18-hp. Mors), 2nd. Time, 6m. 23s. Five-mile motor bicycle race—G. H. Curtiss (5-hp. Cur-tiss), 1st. George N. Holden (1¾-hp. Hendee), 2nd. Time, 6m. 34s. Five-mile

Track Races—New York (Continued)

exhibition with motor cycle—Albert Champion. Time, 5m. 35s. Mile record trials, open to all cars—Laurent (60-hp. Mercedes), 1st. Time, 1m. 7s. A. C. Bostwick (18-hp. Mors), 2nd. Time, 1m. 12s. Special match race between Barney Oldfield and Charles G. Wridgway, five-mile heats—Barney Oldfield (Cooper), second heat and race, 1st. Time, 5m. 31s.

Empire City track, July 26, 1903.—Summaries: Five miles, for gasolene cars under 1,200 pounds—J. Wilkinson (10-hp. Franklin), 1st. L. O. Gitchell (16-hp. Darracq), 2nd. Time, 6m. 54 3-5s. Ten miles match race—J. Wilkinson (10-hp. Franklin), 1st. Joseph Tracy (10-hp. Renault), 2nd. Time, 15m. 15 1-5s. Ten miles, for gasolene cars under 1,800 pounds—Jules Sincholle (40-hp. Dar-racq), 1st. H. Page (40-hp. Decauville), 2nd. Time, 10m. 52 4-5s. Fifteen-mile match race—Laurent Grosso (60-hp. Mercedes), 1st. H. Page (40-hp. Decau-ville), 2nd. Time, 16m. 10 4-5s. Fifteen miles, for any weight and power, Old-field and La Roche cars barred—H. Page (40-hp. Decauville), 1st. George Papil-lon (35-hp. Darracq), 2nd. Time, 16m. 39 2-5s. Special match for silver trophy, emblematic of track championship of America, between Barney Oldfield and F. A. La Roche, five-mile heats—Barney Oldfield (Cooper), first heat, 1st. Time, 1m. 11 3-5s. Barney Oldfield (Cooper), second heat, 2nd. Time, 1m. 2 3-5s. Mile record trials, open to all—Laurent Grosso (60-hp. Mercedes), 1st. Time, 1m. 3 1-5s.

Empire City track, October 3, 1903.—Summaries: Five miles, special class for 16-hp. gasolene locomobiles—Archie Mc-Neil, Jr., 1st. De Ver H. Warner, 2nd. Time, 7m. 19 2-5s. Five miles, for cars of any motive power, weighing under 1,200 pounds—Joseph Tracy (24-hp. car), 1st. F. A. La Roche (24-hp. Darracq), 2nd. Time, 5m. 2 2-5s. Ten miles, for machines of any motive power, weighing under 1,800 pounds. Henri Page (40-hp. Decauville), 1st. Henry Cunningham (25-hp. Packard), 2nd. Time, 10m. 16 2-5s. New record for this class of machine on track. Ten-mile match race between Henri Page and Charles Schmidt—Henri Page (40-hp. Decauville), 1st. Charles Schmidt (25-hp. Packard Gray Wolf), 2nd. Time, 10m. 23s., breaking all track records for this class. Fifteen mile race, free-for-all—Barney Oldfield (40-hp. Win-ton Bullet II), 1st. Henri Page (40-hp. Decauville), 2nd. Time, 14m. 35s. Five miles, Great Empire handicap, free-for-all, for machines of any weight, any power and motive power—J. F. Plank (Cadillac), 1st. ¾-mile. Henri Page (De-

Track Races—New York (Continued)

cauville), 2nd, $\frac{1}{2}$ -mile. Time, 4m. 43 1-5s. One-mile record trials, open to all machines—Henri Page (Decauville), 1st. Charles Schmidt (Packard), 2nd. Time, 1m. 1s.

Brighton Beach (Brooklyn), October 31, 1903.—Summaries: Ten miles, for cars of any motive power, weighing under 1,800 pounds—M. G. Bernin (30-hp. Renault), 1st. F. A. La Roche (40-hp. Darracq), 2nd. Time, 11m. 23 2-5s. Five miles, gentlemen operators—F. A. La Roche (40-hp. Darracq), scratch, 1st. C. A. Hayden (10-hp. Franklin), 2nd, 3m. 20s. Time, 6m. 32 2-5s. Five miles, manufacturers' cup—F. A. La Roche (40-hp. Darracq), 1st. H. Cunningham (25-hp. Packard), 2nd. Time, 6m. 7 3-5s. Fifteen miles, free for all—M. G. Bernin (30-hp. Renault), 1st. F. A. La Roche (40-hp. Darracq), 2nd. Time, 16m. 18 1-5s. Three miles, special match race, steam cars—George G. Cannon (6-hp. car), 1st. John W. Howard (10-hp. car), 2nd. Time, 3m. 46 3-5s. Five miles, for cars of any motive power weighing under 1,200 pounds—F. A. La Roche (12-hp. Darracq), 1st. W. P. Harlow (16-hp. Darracq), 2nd. Time, 6m. 41 4-5s. Pursuit race, 1:13-16 miles, free for all—M. G. Bernin (30-hp. Renault), 1st. F. A. La Roche (40-hp. Darracq), 2nd. Five miles, open to members of Long Island Automobile Club—Charles A. Carlson (15-hp. Winton), 1st. C. H. Tangeman (16-hp. Fiat), 2nd. Time, 8m. 14 3-5s. Ten-mile handicap—Charles A. Carlson (15-hp. Winton), 4m. 20s., 1st. F. A. La Roche (40-hp. Darracq), 5s., 2nd. Time, 15m. 5s.

Empire City track, July 16 and 18, 1904.—Summaries: Ten miles, for cars of any motive power, from 881 to 1,432 pounds—M. G. Bernin (30-hp. Renault), 1st. Time, 10m. 13 2-5s. Guy Vaughn (40-hp. Decauville), 2nd. Time, 11m. 11 1-5s. Five miles, for Franklin stock cars—Harry Esselstyn, 1st. Time, 8m. 49 3-5s. Alfred F. Comacho, 2nd. Time, 8m. 51 1-5s. Fifteen miles, free for all, for cars of any motive power, weighing from 1,432 to 2,204 pounds—Paul Sartori (60-hp. Mercedes), 1st. Carl Meusel (60-hp. Mercedes), 2nd. Time, 14m. 44 2-5s. The winner kept on for twenty miles, smashing track records from sixteen miles to the finish, as follows: 15m. 41 2-5s., 16m. 39 4-5s., 17m. 38 4-5s., 18m. 37 1-5s., 19m. 37 1-5s. Empire handicap, free-for-all, no limitations—A. E. Morrison (Peerless), 1st. Time, 4m. 52 2-5s. W. G. Brokaw (Renault), 2nd. Time, 5m. 12 2-5s. Mile record trials

Track Races—New York (Continued)

—G. W. Brokaw (Renault), 1st. Time, 59s. George Arent (Mercedes), 2nd. Time, 59 2-5s.

Empire City track, Sept. 24, 1904.—Summaries: Stock cars selling for \$1,000 or less—Rodney Peeler (10-hp. Autocar), 1st. R. M. Alexander (Pope-Hartford), 2nd. Time, 8m. 15s. Five-mile race for the "Old Glory Cup"—Chas. Saules (24-hp. Pope-Toledo), 1st. A. E. Morrison (24-hp. Peerless), 2nd. Time, 7m. 12 3-5s. Ten-mile race for the Knickerbocker Cup—Joseph Tracy (30-hp. Renault), 1st. Time, 10m. 15s. Final for the International Cup, Italian, German, French and American cars competing in separate trial heats for each nationality at five miles, the winners competing in the final heat at ten miles—Tracy (Renault), 1st. Five-mile race for the Great Empire handicap—Sartori (Ford), 1st. Lee (Pope-Toledo), 2nd. Time, 8m. 2 1-5s.

Brighton Beach (Brooklyn), Oct. 22, 1904.—Summaries: One-mile handicap, for the Seabreeze Cup.—This was a prize handicap affair, an entry being allowed one yard handicap for each dollar it cost less than \$1,000, which was the limit-priced car eligible. mobile Company's car, 2nd. Time, 6m. 12s. Five-mile handicap, limited to cars which took part in the tour from Chicago—E. F. Schueffler, 50s., 1st. Dr. A. C. Lee, 60s., 2nd. Time, 8m. 25s. Five miles, 'manufacturers' and dealers' race for stripped stock cars—C. A. Coey, 1st. Dick Ferris, 2nd. Time, 6m. 10s. Three miles, for cars weighing under 1,432 pounds—J. Stinson, 1st. Charles Joy, 2nd. Time, 4m. 35s. Five miles, for Twin City challenge cup—Earl Kiser, 1st. Time, 5m. 11s. Special event—Barney Oldfield against the world's record, circular track. Time, 56 4-5s. Five-mile invitation race—Earl Kiser, 1st. Charles Meyers, 2nd. Time, 5m. 35s. Five miles, open—Webb Jay, 1st. Louis Chevrolet, 2nd. Time, 4m. 46 2-5s. Ten miles, club championship race between New York, Chicago and St. Paul—Earl Kiser (St. Paul), 1st. Webb Jay (Chicago), 2nd. Time, 10m. 33s.

Track Races—St. Paul (Continued)

July 10.—Two-mile novelty race for women with escorts, women driving—Mrs. F. Josewick, 1st. Mrs. C. A. Fawkes, 2nd. Time, 3m. 24 1-5s. Three-mile invitation race for Minnesota cars—Charles Joy, 1st. J. Simpson, 2d. Time, 4m. 13 3-5s. Five miles, final heat, manufacturers' and dealers' race—Charles Joy, 1st. Harry Pence, 2nd. Time, 4m. 7s. Three miles, final heat, cars under 1,432 pounds—C. A. Coey, 1st. Harry Pence, 2nd. Time, 3m. 36s. Three-mile handicap race for equipped cars—C. H. Burnham, 1st. J. K. McCollough, 2nd. Time, 5m. 9s. Five-mile invitation race—Earl Kiser, 1st. Victor Stromquist, 2nd. Time, 5m. 22 1-5s. Five-mile open handicap for stripped cars—A. D. Huffman, 1st. Victor Stromquist, 2nd. Time, 7m. Five-mile open race—Earl Kiser, 1st. Barney Oldfield, 2nd. Time, 4m. 51s. One-mile dash, flying start, special event—Barney Oldfield, 1st. Time, 55s. Earl Kiser, 2nd. Time, 56 4-5s.

ROAD RACES

NEW YORK, N. Y.

Coney Island Boulevard (Brooklyn), one mile trials promoted by the Long Island Automobile Club, Nov. 16, 1901.—Summaries: Gasolene vehicles under 1,000 pounds. Jacquez Longuez (10-hp. De Dion), time, 1m. 27 3-5s. Gasolene vehicles between 1,000 and 2,000 pounds—Percy Owen (12-hp. Winton), time, 1m. 53 3-5s. C. I. Stralem (7-hp. Panhard), time, 1m. 57 2-5s. Gasolene vehicles over 2,000 pounds—Henry Fournier (40-hp. Mors), time, 51 4-5s. Foxhall P. Keene (40-hp. Mors), time, 54 2-5s. Albert C. Bostwick (40-hp. Winton), time, 56 2-5s. Louis Charley (35-hp. Daimler), time, 1m. 8s. J. Wesley Blair (16-hp. Panhard), time, 1m. 43s. Steam vehicles—S. T. Davis, Jr. (8-hp. Locomobile), time, 1m. 15s. T. D. De Witt (4½-hp. Locomobile), time, 1m. 33 1-5s. B. L. Wright (5-hp. Grout), time, 1m. 56 4-5s. W. J. Stewart (3½-hp. Locomobile), time, 1m. 57 1-5s. Electric vehicles—A. L. Riker (Riker), time, 1m. 3s.

Merrick Road, Long Island, 50-mile race, Springfield to Babylon and return, promoted by Automobile Club of America, April 14, 1900.—Summaries: 1. A. L. Riker (5-hp. Electric), time 2h. 3m. 30s. 2. S. T. Davis, Jr. (4½-hp. Steam), time, 2h. 18m. 27s. 3. A. Fisher (5-hp. Gasolene), time, 2h. 30m. 1s. 4. D. Wolfe Bishop, Jr. (6-hp. Gasolene), time, 2h. 37m. 52s. 5. A. C. Bostwick (6-hp. Gasolene), time, 2h. 46m. 40s. 6. G. F.

Chamberlin (6-hp. Gasolene), time, 2h. 48m. 42s.

1. S. T. Davis, Jr. (4½-hp. steam), time, 58m. 15s. 2. A. L. Riker (5-hp. Electricity), time, 1h. 38s. 3. A. Fischer (5-hp. Gasolene), time, 1h. 6m. 44s. 4. D. Wolfe Bishop, Jr. (6-hp. Gasolene), time, 1h. 13m. 10s. 5. G. F. Chamberlin (6-hp. Gasolene), time, 1h. 17m. 3s. 6. A. C. Bostwick (6-hp. Gasolene), 1h. 18m. 58s.

Three contestants failed to reach Babylon, viz., Dave H. Morris, 5-hp. steamer; W. H. Hall, in a similar car, and C. J. Field, in a 3-hp. voiturette. C. H. Tangeman, with a gasolene tricycle, kept company on the outward journey with Mr. Riker, and then beat him home by five minutes.

South Shore Boulevard (Staten Island), mile and kilometer trials promoted by Automobile Club of America, May 30, 1902.—Summaries: Motor bicycles—C. H. Metz (3½-hp. Orient), 1st. Time for km., 43 3-5s. Time for mile, 1m. 10 2-5s. Gasolene under 1,000 pounds—L. S. Thompson (5-hp. Renault), 1st. Time for km., 59s. Time for mile, 1m. 35 3-5s. Lewis Nixon (7-hp. Long Distance), 1st. Time for km., 1m. 3s. Time for mile, 1m. 43 3-5s. H. Ward Leonard (8-hp. Knickerbocker), 1st. Time for km. 1m. 53-5s. Time for mile, 1m. 45s. Gasolene, 1,000 to 2,000 pounds—Percy Owen (15-hp. Winton), 1st. Time for km. 47s. Time, for mile, 1m. 17 3-5s. Ernest Cueno (16-hp. Rochet-Schneider), 2nd. Time for km.,

Road Races—New York (Continued)

56 3-5s. Time for mile, 1m. 22 4-5s. Gasolene, over 2,000 pounds—E. E. Britton and A. J. Levy (60-hp. Mors), 1st. Time, for km., 34 4-5s. Time for mile, 55 1-5s. William Guggenheimer (24-hp. Panhard), 2nd. Time for km., 44s. Time for mile, 1m. 11s. Steam—S. T. Davis, Jr. (10-hp. Locomobile), 1st. Time for km., 46 1-5s. Time for mile, 1m. 12s. H. M. Wells (4½-hp. Prescott), 2nd. Time for km., 1m. 1 1-5s. Time for mile, 1m. 37 1-5s.

VANDERBILT CUP.

Vanderbilt Cup race, designed to be an annual speed contest on the road, open to teams of not more than 10 cars from each country, for a trophy donated by W. K. Vanderbilt, Jr. Was first run in 1904, and annually thereafter, except in 1907.

Early in 1904 Mr. Vanderbilt announced his intention of offering a trophy to be contested for on an international basis, no country to be represented by more than 10 cars. It was provided in the deed of gift that the first and second races should be run in the United States and that thereafter the race "may be held in any country holding the cup." A commission to take over the management of the race was provided for, consisting, during 1904 and 1905, of the racing board of the American Automobile Association, the donor of the cup and one member of the sports committee, of the Automobile Club of France; and, subsequently to 1905, of the sports committee of the Automobile Club of France, the donor and one member of the racing board of the A. A. A. It was also provided that the competition should not be less than 250 nor more than 300 miles, and must be held on a recognized regular highway or an automobile speedway; and that no car should be allowed to compete the weight of which exceeds 2,204 pounds or is less than 881 pounds.

The first race was run Oct. 8, 1904. A course on Long Island, termed the Hicksville-Hempstead-Jericho circuit, measuring 30.24 miles, or 28.44 miles excluding controls, was covered ten times, making a total distance of 284.4 miles. George Heath, an American, driving a 90-hp. Panhard, won, his time being 5h. 26m. 45s. Albert Clement (90-hp. Clement), was second in 5h. 28m. 13s.

Eighteen cars started in the race, which began at 6 o'clock in the morning. Of these six were of French make, five German, two Italian and five American. Only two cars completed the full distance, the race being stopped after

Road Races—Vanderbilt (Continued)

Clement had finished, owing to the fact that the immense crowd, estimated at more than 100,000, swarmed on the course and rendered further running dangerous. Six other cars were still running at the time.

The complete summary follows: 1st, Heath, (90-hp. Panhard), 5h. 26m. 45s.; 2nd, Clement, (90-hp. Clement), 5h. 28m. 13s.; 3d, Lyttle, (24-hp. Pope-Toledo), 9 laps; 4th, Schmidt, (24-hp. Packard), 8 laps; 5th, Campbell, (60-hp. Mercedes), 8 laps; 6th, Tarte, (90-hp. Panhard), 7 laps; 7th, Luttgen, (60-hp. Mercedes), 7 laps; 8th, Croker, (75-hp. Simplex), 6 laps. The race was managed by the racing board of the American Automobile Association, of which A. R. Pardington was chairman.

In 1905 entries were received from 13 American cars, and this necessitated the running of elimination trials. This preliminary contest was held on Sept. 23, on the regular course for that year. Instead of going the full ten laps, however, the contesting cars covered only four, making a distance of 113.2 miles, thus shortening the time of the race in deference to public sentiment against too frequent closing of the roads.

The start was made at 5:30 A. M. and five cars finished, as follows: 1st, B. H. Dingley (50-hp. Pope-Toledo), 2h. 50s.; 2d, Jos. Tracy (90-hp. Locomobile), 2h. 1m. 49s.; 3rd, Robert Jardine (40-hp. Royal), 2h. 19m. 18s.; 4th, Frank Nutt (40-hp. Haynes), 2h. 23m. 32s.; 5th, M. Roberts (60-hp. Thomas), 2h. 29m. 40s. Geo. Robertson (80-hp. Christie), stopped on third round; H. H. Lyttle (75-hp. Pope-Toledo), stopped on second round; Walter C. White (40-hp. White), stopped on second round. The cup commission, instead of naming the five cars which finished as the American team, availed itself of its privilege to disregard the results of the trial contest and threw out three of the five cars, the Haynes, the Royal and the Thomas, and substituted the Christie, the White and the Lyttle Pope-Toledo in their places.

On Saturday, Oct. 14, the second Vanderbilt race was run, there being 19 starters. France, America and Italy were represented by five cars each and Germany by four. A course slightly different from that of the previous year, but still on Long Island, had been selected, measuring exactly 28.3 miles, without controls, which was covered ten times. The starting point was near Mineola on the Jericho turnpike, the cars heading due east for Jericho, thence to East Norwich, to Bull's Head, to Albertson, to Hyde Park and into the Jericho turnpike again.

Road Races—Vanderbilt (Continued)

Lancia, (Italy), took the lead at the start and steadily increased it until the eighth lap when, having put in at his station near Lakeville to repair a tire, being 20 minutes ahead of Heath, (France), who was second, he started out in front of Christie, another competitor, and the latter crashed into him before he got fairly underway. The collision bent the axle of Lancia's car and thirty minutes was consumed in straightening it sufficiently to permit the Italian driver to proceed. It was then too late to catch up and Lancia finished in fourth place. Meanwhile Hemery (80-hp. Darracq), wrested the lead from Heath on the 8th lap and never thereafter lost it. He finished first, his time being 4h. 36m. 8s., an average of 61.51 miles per hour. Heath was second, in 4h. 39m. 40s. Joseph Tracy (90-hp. Locomobile), was third in 4h. 58m. 26s., and Lancia fourth, his time being 5h. 31s. These four were the only cars to finish, the crowd swarming on the course and rendering it necessary to call off the race.

Ideal weather conditions prevailed and brought out a crowd that was variously estimated from 100,000 to 200,000. As in 1904, the contest was in charge of the racing board of the American Automobile Association, Robert Lee Morrell being chairman.

The entry of fifteen American cars in 1906 again necessitated the running of a preliminary or elimination test. This was held on the regular Vanderbilt cup course for this year on Saturday, Sept. 22, and resulted in the selection of the following team to represent America: Joseph Tracy (100-hp. Locomobile), Herbert LeBlon (115-hp. Thomas), H. N. Harding (50-hp. Haynes), Frank Lawell (110-hp. Frayer-Miller), and Walter Christie (50-hp. Christie). Only the first three covered the full course, and Lawell and Christie were given places on the team; the former owing to the fact that he was still running when the race was called off, and the latter owing to the disqualification of Lyttle (Pope-Toledo), for being towed. Tracy's time was 5h. 27m. 45s., for the 297.1 miles.

Just two weeks later the race itself, being the third contest for the Vander-

Road Races—Vanderbilt (Continued)

bilt cup, was run. France won for the third successive time, the victorious driver being Louis Wagner, who, in a 100-hp. Darracq, covered the 297.1 miles in 4h. 50m. 10s. 2-5s., just 3m. 29s. faster than Lancia (Fiat), who finished second. Third place was won by Duray (130-hp. De Dietrich), who was only 6s. behind Lancia. Following was the order of finish: 1st, Wagner (Darracq), time, 4h. 50m. 10s.; 2nd, Lancia (Fiat), 4h. 53m. 28s.; 3rd, Duray (De Dietrich), 4h. 53m. 44s.; 4th, Clement (Clement), 5h. 1m. 59.4-5s.; 5th, Jenatzy (Mercedes), 5h. 4m. 38s.

Under the provisions of the deed of gift the 1906 race could have been run in France, that country being the holder of the cup, through Hemery's victory in 1905. The Automobile Club of France declined to promote a race, however, or even to nominate a team to represent it in the 1906 race. Consequently the race was again run in America, and the French representation was unofficial.

Owing to the crowding of the spectators on the course in the 1906 race, and the failure of the effort to obtain the use of militia for patrolling purposes, it was deemed impracticable to conduct another contest on the public highways. A project to build a motor parkway on Long Island was set on foot and it was expected that this new speedway would be ready in time for the 1907 Vanderbilt race. It proved to be impossible to do so, however, and in the summer the A. A. formally declared that no race would be held during 1907. Including the wooden base, the Vanderbilt cup stands about 31 inches. The bowl contains 481 ounces of sterling silver and has a capacity of over 10½ gallons. A portrait of the donor in his 90-hp. Mercedes at Ormond Beach is worked up in bold relief on the front of the bowl, while on the back appears this inscription: "Challenge cup presented by W. K. Vanderbilt, Jr., to the American Automobile Association, under deed of gift, to be raced for yearly by cars under 1,000 kilos. Won by.....". Around the top of the cup is shown in relief a bold, richly carved laurel wreath, symbolizing success.

BEACH RACES

ATLANTIC CITY, N. J.

Ventnor Course, Sept. 4 and 5, 1905—Summaries:

Sept. 4.—One mile, for light weight cars, 551 to 851 pounds, from a moving start—E. Walter Harper (10-hp. Stanley), 1st. Mrs. Jean Cuneo (White), 2nd.

Time, 1m. 13.2-5s. One mile, for touring cars, owner and three passengers, from a standing start—Charles Swain (Winton), 1st. John T. Wilkins, Jr. (Winton), 2nd. Time, 1m. 27s. One mile, for heavyweight cars, from 1,432 to 2,204 pounds—Charles Bacharach

Beach Races—Atlantic City (Continued)

(Packard), 1st. Edward Wilkie (Buick), 2nd. Time, 1m. 15 1-5s. One mile, 20-hp. or over, owned by resident of Atlantic City, and driven by owner or chauffeur—J. Miers (Welch), 1st. G. H. Jones (Corbin), 2nd. Time, 1m. 25s. One mile, time guess, open to all, car to carry driver and three passengers—J. Everett Mohrer (Thomas), 1st. J. N. Wilkins, Jr. (Winton), 2nd. Time, 3m. 2-5s.

Sept. 5.—One mile, for touring cars, costing \$2,500 or under, to carry driver and three passengers—Charles Myers (Upton), 1st. John Donnelly (National), 2nd. Time, 1m. 48 2-5s. One mile, for American made cars of 38-hp. or under—Charles Bacharach (Packard), 1st. James Duff (Pope-Toledo), 2nd. Time, 1m. 21 1-5s. One mile, free-for-all—Frank Kulick (Ford), 1st. A. L. Campbell (Darracq), 2nd. Time, 40 1-5s. Afterward declared off because Kulick started ahead of Campbell. One mile, for touring cars costing \$2,500 or over, to carry driver and three passengers—Charles Swain (Winton), 1st. Charles Bacharach (Packard), 2nd. Time, 1m. 15 2-5s. One mile, for middleweight cars, 851 to 1,432 pounds—Walter Harper (Stanley), 1st. Edward Wilkie (Buick), 2nd. Time, 1m. 17 1-5s. One mile, for heavyweight cars, 1,432 to 2,204 pounds—Edward Wilkie (Buick), 1st. Charles Swain (Winton), 2nd. Time, 1m. 11 4-5s. One mile, for touring cars, to kilometer station, pick up three passengers—Charles Swain (Winton), 1st. John N. Wilkins, Jr. (Winton), 2nd. Time, 1m. 46 2-5s. One mile, free-for-all, stripped cars—A. L. Campbell (Darracq), 1st. F. Kulick (Ford), 2nd. Time, 43 seconds. This event run because the first trial was called off. One mile, for heavyweight stripped cars—F. Kulick (Ford), 1st. A. L. Campbell (Darracq), 2nd. Time, 42 3-5s.

Ventnor Beach, April 26, 27 and 28, 1906.—Summaries:

April 26.—Record trials, steam—H. E. Rogers (20-hp. Stanley), 1st. Time, 42 3-5s. Four-cylinder cars, championship—W. H. Hilliard (80-hp. Napier), 1st. Montague Roberts (50-hp. Thomas), 2nd. Time, 46 2-5s. John H. Lyons Cup, American touring cars of 30-hp., owners to drive, five passengers—P. F. Rockett (30-hp. Stoddard-Dayton), 1st. F. S. Walton (30-hp. Stoddard-Dayton), 2nd. Time, 1m. 17 3-5s. Standing start championship, gasoline cars—Walter Christie (110-hp. Christie), 1st. W. H. Hilliard (80-hp. Napier), 2nd. Time, 53s., creating new American record.

Beach Races—Atlantic City (Continued)

Touring cars, gasoline, selling at \$4,000 or less, five passengers—Charles Soules (35-hp. Pope-Toledo), 1st. Montague Roberts (50-hp. Thomas), 2nd. Time, 1m. 13 2-5s. Special class, for stripped touring cars, 50-hp. or less—Montague Roberts (50-hp. Thomas), 1st. E. B. Jackson (40-hp. Chadwick), 2nd. Time, 1m. 2s. Price handicap, four-cylinder cars, five passengers, \$4,000 car on scratch, handicap of one second for each \$100 less in price—F. S. Walton (50-hp. Stoddard-Dayton), 1st. P. F. Rockett (20-hp. Stoddard-Dayton), 1st., 2nd. Time, 1m. 25s. Time trials, special against the minute mark—Montague Roberts (50-hp. Thomas). Time, 56 4-5s.

April 27.—Record trials, gasoline cars, 881 to 1,432 pounds—Mrs. J. Newton Cuneo (10-hp. Maxwell), 1st. Time, 1m. 25 3-5s. Mrs. H. Ernest Rogers (10-hp. Maxwell), 2nd. Time, 1m. 31s. Middleweight gasoline cars, 881 to 1,432 pounds—R. L. Lockwood (30-hp. Reo Bird), 1st. Time, 1m. 2-5s. Mrs. Joan Cuneo (10-hp. Maxwell), 2nd. Time, 1m. 36 3-5s. Touring car championship, open to all touring cars of 50-hp. or less, regular equipment, carrying five passengers—J. E. Bristol (45-hp. Pierce), 1st. Time, 1m. 7 2-5s. W. C. Thomas (50-hp. Thomas), 2nd. Price handicap for two-cylinder touring cars, regular equipment, carrying five passengers, \$1,500 car on scratch, handicap of one second for \$500 less in price—H. J. Koehler (Buick), 5s., 1st. Time, 2m. 6 1-5s. W. Haupt (Buick), 5s., 2nd. Time, 2m. 8 1-5s. Heavyweight gasoline cars, 1,432 to 2,204 pounds—Walter Christie (Christie), 1st. Time, 46 4-5s. Guy Vaughn (Darracq), 2nd. High gear test, quarter mile, prize going to car which covered distance slowest on high speed, driver and an official to act as watcher of clutch and gears, to ride on each car, regular equipment, open to gasoline cars, a stop disqualifying—J. N. Wilkins, Jr. (20-hp. Winton), 1st. D. Landau (30-hp. Acme), stopped and was disqualified. Gasoline runabouts, selling at \$1,000 or less, made to carry two passengers, regular equipment, with full complement of passengers—H. J. Koehler (22-hp. Buick), 1st. Time, 1m. 15 3-5s. W. Haupt (22-hp. Buick), 2nd.

April 28.—Record trials, gasoline cars, 1,432 to 2,204 pounds—Walter Christie (110-hp. Christie), 1st. Time, 35 1-5s. Guy Vaughn (80-hp. Darracq), 2nd. Time, 39s. Chauffeurs' handicap—E. C. Johnson (18-hp. White), 40s., 1st. Roberts (60-hp. Thomas), 1st., 2nd. Time, 1m. 25s. Free-for-all championship, flying start, cup to be won twice for

Beach Races—Atlantic City (Continued)

permanent ownership—Guy Vaughn (80-hp. Darracq), 1st. William Wallace (80-hp. Darracq), 2nd. Time, 47 3-5s. Touring cars selling at \$3,000 or less, regular equipment and carrying five passengers—P. T. Rockett (30-hp. Stoddard-Dayton), 1st. H. P. Bellow (24-hp. Columbia), 2nd. Time, 1m. 22 1-5s. Foreign car race, open to all foreign touring cars of 50-hp. or less, regular equipment, carrying five passengers—H. N. Harding (35-hp. English Daimler), 1st. Walter E. Edge (30-hp. Darracq), 2nd. Time, 1m. 14 4-5s. One minute class handicap, open to cars that established mark of one minute or better on beach—H. R. Robinson (50-hp. Thomas), 5s., 1st. Time, 1m. 13 1-5s. Montague Roberts (60-hp. Thomas), scratch, 2nd. Time, 1m. 13 2-5s.

Ventnor Beach, Sept. 3, 4 and 5, 1906. —Summaries:

Sept. 3.—Record trial, steam—D. Walter Harper (20-hp. Stanley), 1st. Time, 51 2-5s. Record trial, gasoline, heavy-weight, 1,432 to 2,204 pounds—Campbell (80-hp. Darracq), 1st. Time, 39 3-5s. Wallace (80-hp. Darracq), 2nd. Time, 40 3-5s. Record trial, gasoline, middle weight, 631 to 1,432 pounds—Cedrina (14-hp. Fiat), 1st. Time, 51 4-5s. Touring cars, gasoline, selling at \$3,000 or less, regular equipment to carry five passengers—C. W. Kelsey (35-hp. Maxwell), 1st. Time, 1m. 30 3-5s. H. R. Sack (30-hp. Mitchell), 2nd. Mitchell car protested for not being regularly equipped. Touring car championship, open to all touring cars of 60-hp. or less, regular equipment, to carry five passengers, Bureau of Information Cup, to be won twice for permanent possession, first and second cars in trial heats to qualify for finals—Harding (45-hp. English Daimler), 1st. Time, 1m. 8 4-5s. Ernest Kelly (50-hp. Thomas), 2nd. Free-for-all championship, flying start, best two in three heats, Atlantic City Cup, to be won twice for permanent possession—Stevens (Darracq), 1st. Time, 45 2-5s. Schroeder (Darracq), 2nd. Price handicap four-cylinder touring cars, regular equipment to carry five passengers, \$4,000 cars on scratch, handicap of 1s. for each \$200 less in price—Ernest Kelly (50-hp. Thomas), scratch, 1st. Time, 1m. 21 3-5s. W. T. Smith (50-hp. Thomas), scratch, 2nd. Foreign car events, open to all imported touring cars of 50-hp. or less—Harding (45-hp. English Daimler), 1st. Time, 1m. 10 4-5s. Cedrina (35-hp. Fiat), 2nd. Runabouts, gasoline, selling at \$1,000 or less, to carry two passengers, regular equipment

Beach Races—Atlantic City (Continued)

—E. Wilkie (22-hp. Buick), 1st. Time, 1m. 34 4-5s. W. M. Davis (10-hp. Maxwell), 2nd. Winner protested for not being regularly entered.

Sept. 4.—Touring cars selling at \$5,000 or less—E. R. Kelly (50-hp. Thomas), 1st. Ernest Lash (24-hp. Packard), 2nd. Time, 1m. 14 3-5s. Standing start for gasoline cars—C. A. Schroeder (80-hp. Darracq), 1st. S. B. Stevens (30-hp. Darracq), 2nd. Time, 58 1-5s. Touring cars selling at \$1,500 or less—D. Walter Harper (10-hp. Stanley), 1st. Eddie Wilkie (18-hp. Buick), 2nd. Time, 1m. 42s. John H. Lyon's Cup for American touring cars of 30-hp. or less—Ernest Lash (24-hp. Packard), 1st. Samuel Moore (30-hp. Franklin), 2nd. Time, 1m. 15 4-5s. Four-cylinder cars, open—S. B. Stevens (80-hp. Darracq), 1st. C. A. Schroeder (80-hp. Darracq), 2nd. Time, 50s. Special race—A. Codman (60-hp. Napier), 1st. Hol-Tan Co. (35-hp. Fiat), did not finish. Special steam car event—Merrill Dobbins (10-hp. Stanley), 1st. J. T. Moriarity (10-hp. Stanley), 2nd. Time, 1m. 25 1-5s. Match race—Cooper (50-hp. Matheson), 1st. Harding (45-hp. English Daimler), 2nd. Time, 58 1-5s. Time trials—Pierce Arrow, 1st. Time, 1m. 9 2-5s. Stanley, 2nd. Time, 1m. 7s.

Sept. 5.—Record trials, steam—Howard W. Gills (20-hp. Stanley), 1st. Time, 55 2-5s. D. Walter Harper (20-hp. Stanley), 2nd. Time, 56 2-5s. Record trials, gasoline cars, 1,432 to 2,204 pounds—Campbell (Darracq), 1st. Time, 37 4-5s. Schroeder (Darracq), 2nd. Time, 38 1-5s. Special record trial—Cooper (Matheson), 1st. Time, 38 1-5s. Special record trial—Harding (English Daimler), 1st. Time, 55 1-5s. Runabouts, all types, handicap open to all runabouts regularly cataloged and equipped for two passengers—John W. Wilkins (40-hp. Winton), 25s., 1st. Time, 1m. 35 3-5s. Matheson Co. (50-hp. Matheson), scratch, 2nd. Heavyweight gasoline cars, 1,432 to 2,204 pounds—Campbell (80-hp. Darracq), 1st. Time, 49 3-5s. Wallace (80-hp. Darracq), 2nd.

Ventnor Beach, Aug. 5, 6, 7, 1907.— Summaries:

August 5.—Touring cars, \$3,000 or less, regularly equipped, carrying five passengers—T. W. Berger (35-hp. Oldsmobile), 1st. C. W. Hoffman (30-hp. Pope-Hartford), 2nd. Time, 1m. 15s. Runabouts, \$1,200 or less—Charles Fleming (14-hp. Maxwell), 1st. Thomas Wilkie (22-hp. Buick), 2nd. Time, 1m. 32 4-5s. Touring car championship—F. H. Hancock (50-hp. Stevens-Duryea), 1st. 50-hp. Matheson, 2nd. Time, 66 3-5s. Run-

Beach Races—Atlantic City (Continued)

abouts, all types, regularly equipped—Frank Leland (60-hp. 6-cylinder Stearns), 1st. Guy Vaughn (30-hp. Stearns), 2nd. Time, 52s. Touring cars, \$5,000 or less, regularly equipped—Guy Vaughn (30-hp. Stearns), 1st. William Coyle (30-hp. Stearns), 2nd. Time, 61 1-5s. Steam cars—D. W. Harper (25-hp. Stanley), 1st. Time, 53 2-5s. Touring cars, \$3,000 or less, regularly equipped—T. W. Berger (35-hp. Oldsmobile), 1st. E. L. Leinbach (30-hp. Stoddard-Dayton), 2nd. Time, 1m. 15s. Foreign cars, 60-hp. or less—Harry Levey (60-hp. Mercedes), 1st. L. R. Burnes (Rolls-Royce), 2nd. Time, 1m. 15 3-5s. Match race—Guy Vaughn (60-hp. Stearns), 1st. C. L. Lawrence (30-hp. B. L. M.), 2nd. Time, 57 3-5s.

Aug. 6.—Touring cars, \$1,500 or less, regularly equipped—W. J. Hayes (20-hp. Jackson), 1st. Edward Wilkie (22-hp. Buick), 2nd. Time, 1m. 26 3-5s. Prize handicap, regularly equipped touring cars, carrying five passengers, handicap 1s. for each \$200 less in price—T. W. Berger (35-hp. Oldsmobile), scratch, 1st. E. L. Linebach (30-hp. Stoddard-Dayton), 1s., 2nd. Time, 1m. 32s. Free-for-all championship—Montague Roberts (120-hp. Thomas), 1st. Time, 40 2-5s. F. W. Leland (45-hp. 6-cylinder Stearns), 2nd. Time, 41 4-5s. John N. Lyon's cup, open to American touring cars of 30-hp. and less, regularly equipped, carrying five passengers, owners to drive—T. W. Berger (30-hp. Oldsmobile), 1st. P. F. Rockett (30-hp. Stoddard-Dayton), 2nd. Time, 1m. 14 1-5s. Gentlemen's roadster handicap, cars selling from \$2,500 to \$5,000, owners to drive—William McIlvird (40-hp. Thomas), 1st. E. L. Linebach (30-hp. Stoddard-Dayton), 9s., 2nd. Time, 1m. 11 3-5s. 1:10 class handicap, open to all cars which had made a record of 1:10 or better on the beach—Guy Vaughn (30-hp. Stearns), 7s., 1st. D. W. Harper (Stanley), 4s., 2nd. Time, 67 2-5s. Time trial for stripped touring car record—F. W. Leland (45-hp. Stearns 6-cylinder), 1st. Time, one mile in 44s. Time trial—R. Crawford (50-hp. Crawford). Time, 63 3-5s., the best record for the beach being 34s., by Walter Christie (Christie).

Aug. 7.—Stripped cars, open to all cars of American manufacture—M. Roberts (120-hp. Thomas), 1st. J. B. Ryall (90-hp. Matheson), 2nd. Time, 50 1-5s. Match race for Stoddard-Dayton cars—Newton, 1st. Edwards, 2nd. Match race—W. McIlvird (40-hp. Thomas), 1st. J. Scanley (1902 Mercedes), 2nd. Time, 1m. 11 1-5s. Match race—Stewart Elliott

Beach Races—Atlantic City (Continued)

(30-hp. Packard), 1st. R. G. Kelsey (50-hp. Matheson), 2nd. Time, 1m. 9 1-5s. Roadsters class, owners to drive—Guy Vaughn (30-hp. Stearns), 1st. D. W. Harper (Stanley), 2nd. Time, 57 4-5s. Stock cars, fully equipped, carrying four passengers.—Dead heat between Guy Vaughn and J. Gunther, both in steam cars.—J. W. Beyer (30-hp. Oldsmobile), 2nd. Time, 1m. 52-5s. Motorcycle race—W. H. Wray, Jr. (8-hp. Simplex Peugeot), 1st. Fred. Borden (5-hp. Curtis), 2nd. Time, 51 4-5s. Handicap, owners to drive—Guy Vaughn (30-hp. Stearns), scratch, 1st. R. G. Kelsey (50-hp. Matheson), 12s., 2nd. Time, 1m. 22s. Match race—Frank Potts (60-hp. Thomas), 1st. Stewart Elliott (30-hp. Packard), 2nd. Time, 1m. 9 1-5s. Time trials—Montague Roberts (120-hp. Thomas), 1st. Time, 39 1-5s. A. J. Moulton (85-hp. B. L. M.), 2nd. Time, 44 4-5s.

CAPE MAY, N. J.

July 29, 1905.—Summaries: Touring cars, up to 20-hp., to be driven by owners—W. C. Longstreth (16-hp. Maxwell), 1st. C. J. Swain (16-20-hp. Winton), 2nd. Time, 1m. 50 4-5s. Touring cars, up to 30-hp., to be driven by owners—G. B. Fletcher (28-hp. Packard), 1st. Time, 1m. 20 1-5s. Walter Dubree (24-30-hp. National), 2nd. Time, 1m. 26s. Touring cars, up to 40-hp., to be driven by owners—C. J. Swain (40-hp. Winton), 1st. Time, 1m. 17 1-5s. J. A. Depew (40-hp. Winton), 2nd. Time, 1m. 22s. Touring cars, up to 20-hp., driven by owner or chauffeur—T. E. Swayne (16-20-hp. Elmore), 1st. Time, 1m. 35 2-5s. C. J. Swain (16-20-hp. Winton), 2nd. Time, 1m. 42s. Touring cars, up to 30-hp., driven by owner or chauffeur—Walter Dubree (24-30-hp. National), 1st. G. B. Fletcher (28-hp. Packard), 2nd. Time, 1m. 37 4-5s. Touring cars, up to 40-hp., driven by owner or chauffeur—C. J. Swain (40-hp. Winton), 1st. J. A. Depew (40-hp. Winton), 2nd. Time, 1m. 22 4-5s. Touring cars, up to 10-hp., driven by owner or chauffeur—H. A. Wilson (10-hp. Cadillac), 1st. C. C. Martin (10-hp. Cadillac), 2nd. Time, 2m. 3s. One-mile special exhibitions—Walter Christie (120-hp. Christie). Time of first trial, 45 4-5s. Second trial, 42 2-5s. Third trial, 38 2-5s. Special event for 40-hp. Wintons—C. J. Swain, 1st. Time, 1m. 23 1-5s. Special event for 10-hp. Cadillacs—C. C. Martin, 1st. Time, 2m. 5 1-5s. Special event for 16-hp. Maxwells—W. C. Longstreth, 1st. Time, 2m. 4 2-5s.

Beach Races—Cape May (Continued)

Aug. 25 and 26, 1905.—Summaries:

Aug. 25.—Middleweight cars from a moving start—Cedrina (Fiat), 1st. C. W. Kelsey (Maxwell), 2nd. Time, 39 1-5s. Gasolene touring cars, up to 30-hp., driven by owners—Mrs. C. C. Fidler (Packard), 1st. Charles Bacharach (Packard), 2nd. Time, 56s. Touring cars, up to 20-hp., driven by owners or chauffeurs from a moving start—Sweeney (Pope-Toledo), 1st. C. W. Kelsey (Maxwell), 2nd. Time, 58s. Gasolene touring cars, up to 40-hp., driven by owners from a moving start—J. A. Thropp (Winton), 1st. Event for touring cars up to 40-hp., varying, driver and three persons, from a moving start—J. A. Depew (Winton), 1st. J. A. Thropp (Winton), 2nd. Time, 51 1-5s. Touring cars, up to 50-hp., from a standing start—J. A. Thropp (Winton), 1st. C. J. Swain (Winton), 2nd. Time, 59s. Two trials were made by Walter Christie (12-hp. Christie) to break the kilometer record, which he holds, of 25 seconds flat. Time, 26 4-5s. and 26 1-5s. Campbell also made two trials at the record. Time, 25 4-5s. and 25 1-5s.

Aug. 26.—Mile event, for middleweight cars, from a moving start—Henry Ford (Ford), 1st. Time, 51 3-5s. Mile event, for gasolene touring cars—Mrs. C. C. Fidler (Packard), 1st. George Jones (Jones-Corbin), 2nd. Time, 1m. 15 3-5s. Mile event, up to 50-hp.—J. N. Wilkins, Jr. (Winton), 1st. J. H. Thropp (Winton), 2nd. Time, 1m. 31s. Mile event, for gasolene touring cars, driven by owner from a moving start—J. N. Wilkins, Jr. (Winton), 1st. J. H. Thropp (Winton), 2nd. Time, 1m. 16s. Mile event, for touring cars up to 40-hp., to carry driver and three passengers, to be driven by owner or chauffeur from a moving start—C. J. Swain (Winton), 1st. J. N. Wilkins, Jr. (Winton), 2nd. Time, 1m. 13s. Mile special event, for gasolene car, flying start, against time, for the \$1,000 Cape May trophy—A. L. Campbell (Darracq), 1st. Time, 38s. Mile event, for heavyweight cars, 1,432 to 2,204 pounds, standing start—Louis Chevrolet (Fiat), 1st. A. L. Campbell (Darracq), 2nd. Time, 51 4-5s. \$500 Cape May Automobile Club kilometer trophy—Walter Christie (130-hp. Christie), 1st. Time, 24 2-5s. and 23 2-5s. Henry Ford (60-hp. Ford), 2nd. Time, 25s. Christie's former record for the kilometer was 25s. Kilometer event, from a standing start—Campbell (Darracq). Time, 43s. flat. Time trials, \$1,000 club trophy—Campbell (Darracq), 1st. Time, 38s. Walter Christie (Christie), 2nd. Time, 39 1-5s.

NEWPORT, R. I.

Sachusett Beach 1½-mile course, July 31, 1904.—Summaries: Motorcycle event, any power—Oscar Hedstrom (1¼-hp. Indian), 1st. J. McNevin (1¼-hp. Rambler), 2nd. Time, 1m. 27s. Local, gasolene cars exceeding 10-hp., not exceeding 24-hp.—H. Hamlin (24-hp. Panhard), 1st. J. J. Astor (20-hp. Mercedes), 2nd. Time, 1m. 35¼s. Gasolene cars not exceeding 10-hp., road condition—P. F. Conroy (7-hp. Stevens-Duryea), 1st. P. Jones (10-hp. Renault), 2nd. Time, 56 3-5s. Local, electrics—H. Bull, Jr. (3-hp. Waverley), 1st. H. Oelrichs, Jr. (3-hp. Waverley), 2nd. Time, 3m. 32¼s. Class 5, open, gasolene cars not exceeding 24-hp.—A. E. Morrison (24-hp. Peerless), 1st. H. Hamlin (24-hp. Panhard), 2nd. Time, 1m. 27s. Open, gasolene cars exceeding 24-hp.—E. R. Thomas (60-hp. Mercedes), 1st. H. S. Harkness (60-hp. Mercedes), 2nd.

Sachusett Beach, Aug. 6, 1906.—Summaries: Motor cycle race—S. T. Kellogg, 1st. W. T. Bowler, 2nd. Time, 1m. 15 2-5s. Gasolene cars not over 15-hp.—E. L. Baron (10-hp. Ford), 1st. C. B. Nordhoff (10-hp. Maxwell), 2nd. Time, 1m. 48 2-5s. Invitation race—John E. Pugh (28-hp. Queen), 1st. Calvin D. Snow (20-hp. Stevens-Duryea), 2nd. Time, 1m. 20 3-5s. Stanley steamers, catalog equipment, touring cars—B. F. Blackinton (20-hp. car), 1st. L. F. N. Baldwin (20-hp. car), 2nd. Time, 1m. 10 4-5s. Stanley steamers, catalog equipment—N. M. Laporte (10-hp. car), 1st. W. W. Little (10-hp. car), 2nd. Time, 1m. 19 1-5s. Exhibition mile—Robert Goelet (24-hp. Renault). Time, 1m. 42 3-5s. Exhibition mile—S. T. Kellogg (motorcycle). Time, 1m. 12s. Exhibition mile—L. F. N. Baldwin (20-hp. Stanley). Time, 53s.

ORMOND-DAYTONA, FLA.

Ormond-Daytona beach races, held on the beach between these two Florida towns. The first regular contests occurred March 26, 27 and 28, 1903, when W. J. Morgan promoted a meeting there. The only notable performance was that of Alexander Winton, who, driving the Winton Bullet, covered a mile in 52 1-5s., which did not equal the American record, viz., that of Henry Fournier on the Coney Island Boulevard, 51 4-5s.

The summaries: Thursday, March 26.—Daytona handicap, five miles, open to all vehicles—Oscar Hedstrom (Indian motor bicycle), handicap 1m. 5s., actual time 5m. 37s. H. T. Thomas (Oldsmobile racer), handicap 50s., actual time, 6m. 50s. Raymond Booth-

Beach Races—Ormond (Continued)

royd (Oldsmobile runabout), handicap 4m. 15s., actual time, 10m. 45s. Alex. Winton, scratch, actual time, 7m. 23s. Dr. Bennett (Oldsmobile), handicap 5m., actual time, 15m. 2s. Motor bicycle championship of Florida, one mile—W. W. Austin, 1st. D. P. Merrill, 2nd. Time, 1m. 36s.

Friday, March 27.—One mile—H. T. Thomas (Oldsmobile), against American record of 1m. 6 1/5s., for gasoline machines under 1,000 pounds—Time, 1m. 8 3/5s. One mile, for Ormond challenge cup—Alexander Winton (Winton Bullet). Time, 38s. No other competitor. One-mile motor cycle race—Oscar Hedstrom (Indian), 1st. Time, 1m. 11s. One mile against record of 1m. 12s., for steam carriages—J. F. Hathaway (Stanley), 1st. Time, 1m. 35s. Five miles, all machines—Oscar Hedstrom (Indian), 1st. Time, 5m. 30s. H. T. Thomas and Alexander Winton also started.

Saturday, March 28.—Ten miles—Alexander Winton (Winton Bullet), 1st. Time, 10m. 26s. One mile against record of 51 4/5s.—Alexander Winton, 1st. Time, 52 1/5s. One mile—H. T. Thomas (Oldsmobile), 1st. Time, 1m. 6 3/4s.

The first big Florida meet was held during the week of January 27, 1904, when W. K. Vanderbilt drove a mile in a 90-hp. Mercedes in exactly 39s. This was made in a trial against time. Other records made in races were as follows: 5 miles, 3m. 31 3/5s.; 10 miles, 6m. 50s.; 20 miles, 17m. 2s.; 30 miles, 24m. 11s.; 40 miles, 33m. 52 2/5s.; 50 miles, 40m. 49 4/5s.; all by W. K. Vanderbilt, Jr. (90-hp. Mercedes); 15 miles, 10m. 18s., H. L. Bowden (60-hp. Mercedes).

Following are the winners of the various races run during the week: One-mile invitation—W. K. Vanderbilt, Jr., 1st. Time, 48s. Five-mile invitation—W. K. Vanderbilt, Jr., 1st. Time, 3m. 34 3/5s. Five-mile free-for-all—W. K. Vanderbilt, Jr., 1st. Time, 3m. 31 3/5s. Ten-mile invitation—W. K. Vanderbilt, Jr., 1st. Time, 6m. 50s. Ten-mile championship—W. K. Vanderbilt, Jr. 1st. No time taken. Fifty-mile championship—W. K. Vanderbilt, Jr., 1st. Time, 40m. 49 4/5s. One-mile (56-second class)—H. L. Bowden, 1st. Time, 48s. One mile (1.05 class)—H. L. Bowden, 1st. Time, 52 2/5s. Fifteen-mile match race—H. L. Bowden, 1st. Time, 10m. 18s. Twenty-mile handicap—H. L. Bowden, 1st. Time, 18m. 40s. Five-mile handicap—S. B. Stevens, 1st. Time, 4m. 2/5s. Ten-mile handicap—S. B. Stevens, 1st. Time, 7m. 28 4/5s. One-mile A. A. A. championship—Bar-

Beach Races—Ormond (Continued)

ney Oldfield, 1st. Time, 46 2/5s. Fifteen-mile match race—M. G. Bernin, 1st. Time, 12m. 51 4/5s. Five-mile race for runabouts—Louis S. Ross, 1st. Time, 7m. 53 1/5s.

In January, 1905, another meeting occurred. The mile in 39s., made by W. K. Vanderbilt, Jr., the preceding year, was supplanted when H. L. Bowden drove a 120-hp. Mercedes the same distance in 32 4/5s.; he followed this up by covering a kilometer in 20 2/5s. Both were world's records, although not recognized as such by the A. A. A. The Mercedes car which Bowden drove was equipped with two regular Mercedes engines coupled together, the frame having been rebuilt to take the increased weight. Consequently the car exceeded the maximum weight of 1,000 kilograms (2,204 pounds) permitted under the racing rules of the A. A. A., and on this account the record was not allowed. The next best time for the mile was made by Arthur Macdonald, an English driver, in a Napier car, his mark being 34 2/5s., which was styled the official record for the distance.

In addition to these the following records against time and in competition were added to the table:

Tuesday, Jan. 24.—One kilometer race, for cars weighing from 851 to 1,432 pounds—Webb Jay (15-hp. White), 1st. Time, 44 2/5s. A. Le Blanc (20-hp. Darracq), 2nd. One-mile trials for stock cars—C. Soules (30-hp. Pope-Toledo), 1st. Time, 57s. Webb Jay (15-hp. White), 2nd. Time, 1m. 3/5s. Five miles, for stock cars costing from \$2,751 to \$4,000—C. Soules (30-hp. Pope-Toledo), 1st. Time, 5m. 13 3/5s. M. Roberts (40-hp. Thomas), 2nd. Time, 5m. 47 4/5s. Five-mile time trial, class B.—Guy Vaughn (40-hp. Decauville), 1st. Time, 4m. 34 2/5s. Five miles, for gasoline stock cars costing \$650 and under—M. B. Aultman (6-hp. Pope-Tribune). Time, 11m. 39 4/5s. No other starter. Five miles, for stock cars costing \$4,001 to \$6,000, inclusive—C. Soules (30-hp. Pope-Toledo), 1st. Time, 5m. 17 4/5s. Alex. Le Blanc (20-hp. Darracq), 2nd. Time, 6m. 22 2/5s. Five miles, for stock cars costing from \$651 to \$1,000, inclusive—Louis S. Ross (8-hp. Stanley), 1st. Time, 6m. 42 3/5s. C. N. Wheeler (12-hp. Glide), 2nd. Time, 8m. 16s. Five miles, time trial, class A—Arthur Macdonald (90-hp. Napier), 1st. Time, 3m. 32s. Five-mile handicap, open to first four cars in preceding competitions—H. P. Maxim (18-hp. Columbia), 1/47, 1st. Time, 7m. 18 1/5s. C. Soules (30-hp. Pope-Toledo), scratch, 2nd. Time, 7m.

Beach Races—Ormond (Continued)

28.4-5s. Five miles, time trial, class A—Arthur MacDonald (90-hp. Napier), 1st. Time, 3m. 17.2-5s. Ten miles, for stock cars costing from \$2,751 to \$6,000, inclusive—C. Soules (30-hp. Pope-Toledo), 1st. Time, 10m. 35.3-5s. B. B. Holcomb (35-40-hp. Columbia), 2nd. Time, 12m. 11.1-5s. Ten miles, time trial, class A—M. G. Bernin (60-hp. Renault), 1st. Time, 7m. 42s. Ten miles, for stock cars costing from \$1,001 to \$1,800, inclusive—M. J. Budlong (18-hp. Columbia), 1st. No time taken. C. N. Wheeler (12-hp. Glide), 2nd. No time taken.

Wednesday, Jan. 25.—One-mile time trials, classes A, B and C, given in order of running—J. L. Breese (class A) (18-hp. Mercedes), 1st. No time taken. W. K. Vanderbilt, Jr. (class A) (95-105-hp. Mercedes), 2nd. Time, 42.3-5s. One-mile international championship race for Dewar challenge trophy—Louis S. Ross (20-hp. Ross), 1st. Time, 42s. Arthur MacDonald (90-hp. Napier), 2nd. Time, 42.2-5s. One mile, for steam vehicles, for the Col. R. C. Clowry trophy—Louis S. Ross (20-hp. Ross), 1st. Time, 57.2-5s. Webb Jay (15-hp. White), 2nd. Time, 58.1-5s. One-mile Corinthian cup race, amateur owners only to drive, Col. L. C. Weir trophy—Louis S. Ross (20-hp. Ross), 1st. Time, 41.3-5s. S. B. Stevens (90-hp. Mercedes), 2nd. Time, 46.1-5s.

Thursday, Jan. 26.—One kilometer time trials, for classes A, B and C—A. C. MacDonald (90-hp. Napier), time, 23s. H. L. Bowden (120-hp. Mercedes), time, 23.3-5s. One kilometer race for the H. L. Bowden trophy—Arthur MacDonald (90-hp. Napier), 1st. Time, 27.3-5s. Louis S. Ross (20-hp. Ross), 2nd. Time, 28.1-5s. One kilometer, open only to vehicles weighing from 1,432 to 2,204 pounds—Louis S. Ross (20-hp. Ross), 1st. Time, 29.2-5s. S. B. Stevens (90-hp. Mercedes), 2nd. Time, 29.3-5s. One mile, for class A cars only—Louis S. Ross (20-hp. Ross), 1st. Time, 42s. S. B. Stevens (90-hp. Mercedes), 2nd. Time, 45.4-5s. One mile, for class B cars only—Webb Jay (15-hp. White), 1st. Time, 51.4-5s. Guy Vaughn (40-hp. Decauville), 2nd. Time, 54.2-5s.

Friday, Jan. 27.—Fifty miles, for American-made cars only, Lozier trophy—Walter Christie (60-hp. Christie), 1st. Time, 1h. 11m. 22.2-5s. Barney Oldfield (60-hp. Peerless), did not finish. Ten-mile special race, not on the program, for a wager of \$500 a side—Guy Vaughn (40-hp. Decauville), 1st. Time, 9m. 25.2-5s. R. Magondeaux (40-hp. Bollée), 2nd. Time, 9m. 27.3-5s.

Saturday, Jan. 28.—Ten miles, for Fiat cars only, Hollander and Tangeman

Beach Races—Ormond (Continued)

cup—Wm. Wallace (90-hp. Fiat), 1st. Time, 6m. 54.4-5s. Paul Sartori (90-hp. Fiat), 2nd. Ten miles, for Mercedes cars only—E. R. Thomas, 1st. Time, 6m. 31.4-5s. E. H. Fredericks, 2nd. Time, 7m. 44.1-5s. Ten miles, the Ormond Derby, for the C. J. S. Miller trophy—James L. Breese (35-hp. Mercedes), 1st. Time, 10m. 29.2-5s. Wm. Wallace (90-hp. Fiat), did not finish.

Monday, Jan. 30.—One hundred miles, for W. K. Vanderbilt, Jr., trophy—H. W. Fletcher (80-hp. De Dietrich), 1st. Time, 1h. 18m. 24s. M. G. Bernin (60-hp. Renault), 2nd. Time, 1h. 21m. 38s. Five miles, open, for W. Gould Brokaw trophy—E. R. Thomas (105-hp. Mercedes), 1st. Time, 3m. 30.1-5s. William Wallace (90-hp. Fiat), 2nd. Time, 3m. 46s. Five miles, Ormond handicap, for J. R. Moore trophy—Paul Sartori (90-hp. Fiat), 34s. handicap, 1st. Time, 3m. 57s. E. R. Thomas (105-hp. Mercedes), scratch, 2nd. Time, 4m. 2.1-5s.

Thursday, Jan. 31.—Fifty miles, handicap, for Burgoyne cup—Paul Sartori (90-hp. Fiat), 4.50 handicap, 1st. Time, 40m. 20s. E. Fredericks (90-hp. Mercedes), 4.01, handicap, 2nd. Time, 41m. 58.4-5s. Twenty miles, for E. R. Thomas trophy. Time contest, with one minute intervals between starters. Ten miles, with neutralized turn—Arthur C. MacDonald (90-hp. Napier), 1st. Time, 15m. 23s. William Wallace (90-hp. Fiat), 2nd. Time, 15m. 34s. Ten miles, for Major C. J. S. Miller trophy—Arthur C. MacDonald (90-hp. Napier), 1st. Time, 6m. 15s. E. R. Thomas (105-hp. Mercedes), 2nd. Time, 6m. 18.1-5s. Ten miles, handicap—C. Canant (45-hp. De Dietrich), 2.15 handicap, 1st. Time, 8m. 2.3-5s. M. Roberts (40-hp. Thomas), 3.20 handicap, 2nd. Time, 8m. 54.2-5s. Record trials, one mile—H. L. Bowden (120-hp. Mercedes), 1st. Time, 32.4-5s. Walter Christie (60-hp. Christie), 2nd. Time, 40s. Record trials, one kilometer—H. L. Bowden (120-hp. Mercedes), 1st. Time, 20.3-5s. A. C. MacDonald (90-hp. Napier), 2nd. Time, 25.1-5s.

In January, 1906, all speed records for the shorter distances were broken, and one for the larger, the new figures being: Kilometer, 18.2-5s.; mile, 28.1-5s.; 2 miles, 58.4-5s.; 5 miles, 2.47; 15 miles, 10m.; 100 miles, 1h. 15m. 40.2-5s. As in 1905, the meeting was held under the control of the A. A. A., with Chairman R. L. Morrell of the racing board in charge. The weather was bad, being unreasonably cold, and the beach was not in the best condition. The results, day by day, were as follows:

Beach Races—Ormond (Continued)

Tuesday, Jan. 23.—One-mile International, for the Sir Thomas Dewar trophy—Marriott (30-hp. Stanley), 1st. Time, 33s. Cedrino (Fiat), 2nd. Time, 38s. One-mile heavyweight championship—Lancia (110-hp. Fiat), 1st. Time, 37s., making a new competition record for gasoline cars. Fletcher (110-hp. Fiat), 2nd. Time, 37 3/5s. One-mile steam championship—Marriott (30-hp. Stanley) 1st. Time, 31 4/5s.

Wednesday, Jan. 24.—Five-mile open championship—Lancia (110-hp. Fiat), 1st. Time, 3m. 11-5s. Fletcher (110-hp. Fiat), 2nd. Time, 3m. 2s. Five-mile middleweight championship—Clifford Earp (100-hp. Napier), 1st. Time, 2m. 56s. Downey (90-hp. Mercedes), 2nd. Time, 3m. 29 1/5s.

Thursday, Jan. 25.—Fifteen-mile race for American touring cars, handicaps—Durbin (15-hp. Stanley), 1st. Time, with a 25s. start, in 13m. 42 2/5s. J. E. Bristol (30-hp. Stoddard-Dayton), 2nd. Time, with 12 1/2s. start, in 17m. 11 2/5s. Ten-mile Corinthian championship—S. B. Stevens (80-hp. Darracq), 1st. Time, 9m. 28s. J. L. Breese (35-hp. Mercedes), 2nd. Time, 9m. 47 3/5s.

Friday, Jan. 26.—Ten-mile middleweight championship—Guy Vaughn (80-hp. Darracq), 1st. Time, 7m. Cedrino (24-hp. Fiat), 2nd. Time, 7m. 50s. Ten-mile Corinthian handicap—H. N. Harding (45-hp. Daimler), 1st. Time, with 3m. 30s. start, in 8m. 48 4/5s. S. B. Stevens (80-hp. Darracq), scratch, 2nd. Time, 6m. 42 4/5s. Kilometer record trials, heavyweight class—Marriott (50-hp. Stanley), 1st. Time, 18 2/5s. Chevrolet (200-hp. Darracq), 2nd. Time, 19 2/5s. Middleweight class—Guy Vaughn (80-hp. Darracq), 1st. Time, 25s. Wurgis (32-hp. Reo), 2nd. Time, 34 2/5s. Lightweight class—Fleming (10-hp. Maxwell), 1st. Time, 59s. One-mile record trials, heavyweight class—Marriott (50-hp. Stanley), 1st. Time, 28 1/5s. Chevrolet (200-hp. Darracq), 2nd. Time, 30 3/5s. Middleweight class—Guy Vaughn (80-hp. Darracq), 1st. Time, 40 3/5s. Wurgis (32-hp. Reo), 2nd. Time, 52 3/5s. Lightweight class—Fleming (10-hp. Maxwell), 1st. Time, 1m. 29 2/5s.

Saturday, Jan. 27.—One-hundred-mile International, for Minneapolis cup—Earp (100-hp. Napier), 1st. Time, 1h. 15m. 40 2/5s. Cedrino (110-hp. Fiat), 2nd. Time, 1h. 16m. 39s.

Monday, Jan. 29.—Ten-mile open handicap—Lancia (110-hp. Fiat), 1st. Time, from scratch in 6m. 18 2/5s. Hilliard (80-hp. Napier), 2nd. Time, from 1m., in 8m. 34 5/5s. Thirty-mile championship, for American built cars—Mar-

Beach Races—Ormond (Continued)

riott (50-hp. Stanley), 1st. Time, 34m. 18 2/5s. Walter Christie (100-hp. Christie), 2nd. Time, 37m. 24 3/5s. Fifteen-mile championship—Lancia (110-hp. Fiat), 1st. Time, 10m., establishing new record. Hilliard (80-hp. Napier), 2nd. Time, 11m. 36 3/5s. Ten-mile open championship, combined with ten-mile heavyweight championship—Lancia (110-hp. Fiat), 1st. Time, 6m. 19 3/5s. Marriott (50-hp. Stanley), 2d. Time, 7m. 35 3/5s. One-mile middleweight championship—Guy Vaughn (50-hp. Darracq), 1st, no time taken. Two-mile-a-minute record trials—Demogeot (200-hp. Darracq), 1st. Time, 58 4/5s. Marriott (50-hp. Stanley), 2nd. Time, 59 3/5s.

In 1907 a much smaller number of entries were received, and the racing produced no records. Following are the results:

Tuesday, Jan. 23.—Five miles, from standing start—E. B. Blakely (70-hp. American Mercedes), 1st. Time, 4m. 25s. R. A. McCready (20-hp. Rolls-Royce), 2nd. Five miles, from flying start—Fred. A. Marriott (30-hp. Stanley), 1st. Time, 3m. 44 4/5s. R. A. McCready (20-hp. Rolls-Royce), 2nd. Time, 4m. 52 2/5s. Five-mile match race—P. E. Rogers (30-hp. Stanley), 1st. Time, 3m. 51 4/5s. E. B. Blakely (American Mercedes), 2nd. Mile American touring car championship—Frank Durbin (20-hp. Stanley), 1st. Time, 55 2/5s. R. A. McCready (20-hp. Rolls-Royce), 2nd. Time, 1m. 9 2/5s. Mile for touring cars carrying passengers—Ralph Owen (35-hp. Oldsmobile), 1st. Time, 1m. 37 3/5s. Asa Paine (35-hp. Winton), 2nd. Quarter-mile on high speed gear—W. A. Adriance (30-hp. Stoddard-Dayton), 1st. Time, 1m. 13s. Walter C. Baker (25-hp. Peerless), 2nd.

Wednesday, Jan. 24.—Five miles, standing start—E. B. Blakely (70-hp. American Mercedes), 1st. Captain C. E. Hutton (20-hp. Rolls-Royce), 2nd. Time, 4m. 52 4/5s. Five miles open, championship, flying start—F. H. Marriott (Stanley racer), 1st. Time, 3m. 44 1/4s. C. E. Hutton (20-hp. Rolls-Royce), 2nd. One-mile, flying start—W. Durbin (Stanley), 1st. C. E. Hutton (Rolls-Royce), 2nd. Five-mile match race—F. H. Marriott (Stanley racer), 1st. E. B. Blakely (70-hp. Mercedes), 2nd. Time, 3m. 51 4/5s. Won by 5 seconds. One-mile stock touring cars, driven by owners and carrying four passengers—Ralph Owen (35-hp. Oldsmobile), 1st. Asa Paine (30-hp. Winton), 2nd.

Thursday, Jan. 25.—One-hundred-mile championship, for the Minneapolis cup, over a fifteen-mile course, with seven

Beach Races—Ormond (Continued)

turns—E. Blakely (70-hp. American Mercedes), 1st. Time, 1h. 26m. 10s. C. E. Hutton (20-hp. Rolls-Royce), 2nd. Time, 2h. 2m. 35s. Ten-mile open handicap—E. B. Blakely (70-hp. American Mercedes), 1st. Time, with 45s. start, 13m. 59s. Dr. Stinson (30-hp. Franklin), 2nd. with 4m. 30s. start. Five-mile touring

Beach Races—Ormond (Continued)

cars—A. L. Kull (35-hp. Wayne), 1st. Time, 5m. 52 1-5s. W. C. Adriance (20-hp. Stevens-Duryea), 2nd. Time, 6m. 25s. One-mile record trials—F. H. Marriott (Stanley steam racer), 1st. Time, 31m. 4-5s. F. E. Stanley (30-hp. Stanley), 2nd. Time, 45m. 2-5s., establishing a record for steam touring cars.

TOURS

AMERICAN AUTOMOBILE ASSOCIATION.

New York to St. Louis tour, Monday, July 25, to Aug. 10, 1904. The tour was made up of two divisions, one starting from New York and the other from Boston. In the New York contingent were Augustus A. Post (White) and chauffeur; C. H. Gillette (Pope-Hartford) and Mrs. Gillette; Ray D. Lillibridge (White) and two passengers; Carl Page (White) and two passengers; Webb Jay (White) and passenger; H. C. Esseltyn (Franklin) and passenger; A. L. Pope (Pope-Toledo) and two passengers; R. B. Scott (Special Peerless) and four passengers; C. W. Birchwood (Haynes) and chauffeur; P. F. and R. G. Megargel (Elmore); W. C. Hurlburt (Cadillac) and two passengers; Dr. Huss (Oldsmobile) and passenger; A. J. and J. W. Seaton (Buckmobile); A. D. McLachlan (Royal) and two passengers; James M. Waters (Panhard) and chauffeur.

In the New England division were: Harlan W. Whipple (Mercedes), Mrs. Whipple and chauffeur; Charles J. Glidden (Napier), Mrs. Glidden and chauffeur; Frederick Lesh (Pope-Toledo), H. F. Lesh, Mrs. Camp, Ralph McClellan and chauffeur; F. N. Manross (Columbia), R. H. Manross, W. W. Horton and chauffeur; Percy Pierce (Pierce Arrow) and chauffeur; F. W. Richards (Phelps), Mrs. Richards and chauffeur; George H. Lowe (White), two passengers and chauffeur; George O. Draper (Packard), two passengers and chauffeur; L. Pope (Pope-Hartford) and passenger. The New England tourists joined those from New York at Albany.

The route and night stops were as follows: Monday, July 25—Poughkeepsie, N. Y., 76 miles. Tuesday, July 26—Albany, 75 miles, total 150 miles. Wednesday, July 27—Utica, 100 miles, total 250 miles. Thursday, July 28—Syracuse, 49 miles, total 299 miles. Friday, July 29—Rochester, 82 miles, total 381 miles. Saturday, July 30—Buffalo, 73 miles, total 454 miles. Monday, August 1—Erie, Pa., 94 miles, total 548 miles. Tuesday, August 2—Cleveland, O., 110 miles, total 658 miles. Wednesday, August 3—Toledo,

113 miles, total, 771 miles. Thursday, August 4—Waterloo, Ind., 93 miles, total, 860 miles. Friday August 5—South Bend, 76 miles, total, 940 miles. Saturday, August 6—Chicago, Ill., 102 miles, total, 1,042 miles. Monday, August 8—Pontiac, 91 miles, total 1,133 miles. Tuesday, August 9—Springfield, 94 miles, total, 1,227 miles. Wednesday, August 10—St. Louis, Mo., 91 miles, total, 1,318 miles.

Tourists in the parade into St. Louis in the order of their arrival at East St. Louis were: W. C. Hurlburt (Cadillac), A. A. Post (White), Webb Jay (White), E. T. Fetch (Packard), R. H. Johnson (Peerless), C. H. Birchwood (Haynes), D. B. Huss (Oldsmobile), Carl Page (White), P. P. Pierce (Pierce), W. C. Temple (Pierce), George H. Lowe (White), A. D. McLachlan (Royal), H. C. Esseltyn (Franklin), Harold Hoag (Covert), Charles J. Glidden (Napier), J. M. Waters (Panhard), C. H. Gillette (Pope-Hartford), H. F. Lesh (Pope-Toledo), A. D. Waite (White), H. L. Pope (Pope-Hartford), P. F. Megargel (Elmore), B. A. Lesh (Rambler) and R. G. Hauselin (Rambler).

Second annual A. A. A. tour and first annual contest for Charles J. Glidden trophy, from New York to Bretton Woods, N. H., and return, July 11 to July 22, 1905.

The deed of gift provides that the Glidden trophy, a handsome silver cup, shall be competed for annually, beginning with the year 1905, by members of any American Automobile Club affiliated with the American Automobile Association, or of any club in the world recognized by it. The club of which the winner is a member shall have the custody of the trophy until it is won by another, and shall give to the American Automobile Association, or its successor.

The distance to be driven in competition shall not be less than one thousand miles, nor less than five hundred miles weekly, and shall be over regularly used highways in the country where the holding club is located, except in the years 1905, 1906 and 1907, when the contest

Tours—A. A. A. (Continued)

shall be held in either the United States or Canada, or both.

Thirty-five cars, carrying 138 passengers, participated in the tour, which covered a distance of 871 miles. The itinerary of the tour from the start is as follows: Tuesday, July 11, New York to Hartford, Conn., 121.2 miles; Wednesday, July 12, Hartford to Boston, 122.5 miles; Thursday, July 13, Boston to Portsmouth, N. H., 63 miles; Friday, July 14, Portsmouth to Bretton Woods, 108 miles; Saturday, Sunday, Monday and Tuesday, July 15 to 18, short tours and climb to the clouds; Wednesday, July 19, Bretton Woods to Concord, N. H., 103 miles; Thursday, July 20, Concord to Worcester, Mass., 99 miles; Friday, July 21, Worcester to Pittsfield, 105 miles; Saturday, July 22, Pittsfield to New York, 149.5 miles.

Twenty-eight cars finished the tour, as follows: W. C. Temple (40-hp. Pierce), 4 p'ngs; H. W. Whipple (40-hp. Peerless), 4 p'ngs; Augustus Post (15-hp. White), 3 p'ngs; Carl Page (15-hp. White), 4 p'ngs; G. O. Draper (22-hp. Packard), 2 p'ngs; A. W. Church (40-hp. Decauville), 2 p'ngs; Percy P. Pierce (30-hp. Pierce), 5 p'ngs; Harold L. Pope (12-hp. Pope-Tribune), 2 p'ngs; Charles E. Walker (18-hp. Pope-Hartford), 3 p'ngs; A. L. Pope (45-hp. Pope-Toledo), 4 p'ngs; Benjamin Briscoe (16-hp. Maxwell), 4 p'ngs; J. D. Maxwell (8-hp. Maxwell), 2 p'ngs; E. H. Wood (18-hp. Napier), 3 p'ngs; E. A. Gilmore (18-hp. Rambler), 4 p'ngs; Walter C. White (15-hp. White), 2 p'ngs; Robert Lee Morrell (40-hp. Locomobile), 4 p'ngs; S. B. Stevens (20-hp. Darracq), 2 p'ngs; R. E. Olds (16-hp. Reo), 4 p'ngs; R. M. Owen (16-hp. Reo), 4 p'ngs; J. C. Kerrison (18-hp. Cadillac), 3 p'ngs; E. H. Fitch (15-hp. White), 4 p'ngs; E. H. Cutler (16-hp. Knox), 3 p'ngs; W. N. Eppig (15-hp. White), 4 p'ngs; Julius Mehlig (15-hp. White), 4 p'ngs; G. H. Tyrrell (15-hp. White), 3 p'ngs; W. A. Lamson (15-hp. White), 3 p'ngs; C. W. Kelsy (16-hp. Maxwell), 4 p'ngs; Ralph Coburn (16-hp. Maxwell), 4 p'ngs. The trophy was awarded to Percy P. Pierce, who finished with a perfect score.

Third Annual Tour of the American Automobile Association and second contest for the Charles J. Glidden trophy, from Buffalo to Bretton Woods, July 12 to July 28, 1906, covering a distance of 1,134 miles.

Seventy-six cars started, of which 49 competed for the Glidden Cup, and the remaining 22 in the A. A. A. division of

Tours—A. A. A. (Continued)

the tour for a cup offered by Paul H. Deming. The itinerary of the run was as follows: Thursday, July 12, Buffalo to Auburn, 135 miles; Friday, July 13, Auburn to Utica, 76 miles; Saturday, July 14, Utica to Saratoga, 95 miles; Sunday, July 15, stopped at Saratoga; Monday, July 16, Saratoga to Elizabethtown, N. Y., 94.1 miles; Tuesday, July 17, Elizabethtown to Lake Champlain Hotel, 37.7 miles; Wednesday, July 18, Lake Champlain Hotel to Montreal, 72 miles; Thursday, July 19, stopped at Montreal; Friday, July 20, Montreal to Three Rivers, 96.1 miles; Saturday, July 21, Three Rivers to Quebec, 97.9 miles; Sunday and Monday, July 22 and 23, stopped at Quebec; Tuesday, July 24, Quebec to Jackman, Me., 109 miles; Wednesday, July 25, Jackman to Waterville, Me., 95 miles; Thursday, July 26, Waterville to Rangeley Lakes, 105 miles; Friday, July 27, stopped at Rangeley; Saturday, July 28, Rangeley to Bretton Woods, 124 miles. Total distance, 1,134.8 miles.

On the arrival of the participants at Bretton Woods 13 cars had perfect scores, as follows: L. J. Petre, 45-hp. Stearns; Geo. M. Davis, 50-hp. Thomas; Geo. Soules, 30-40-hp. Pope-Toledo; W. C. Walker, 25-hp. Pope-Hartford; Philip J. Flinn, 32-hp. Pierce; Wm. E. Wright, 35-40-hp. Knox; Chas. F. Barrett, 24-28-hp. Columbia; Percy P. Pierce, 40-45-hp. Pierce; Archie E. Hughes, 40-45-hp. Pierce; Ernest Keeler, 28-30-hp. Oldsmobile; C. Burnam, 45-hp. Peerless; F. E. Wing, 24-hp. Marmon; Gus. G. Buse, 24-hp. Packard.

The fourth annual A. A. A. tour and the third contest for the Glidden trophy started from Cleveland, O., July 10 and ended in New York, July 24, 1907. As in 1906, there was also a division which contested for a trophy presented by Frank B. Hower, chairman of the touring committee. The event was participated in by 82 cars, 52 of which competed for the Glidden trophy, 14 for the Hower trophy, while the remainder were non-contestants.

The itinerary of the run was as follows: July 10, Cleveland to Toledo, 121 miles; July 11, Toledo to South Bend, 166.3 miles; July 12, South Bend to Chicago, 101.1 miles; July 13, Chicago to South Bend, 101.2 miles; July 16, South Bend to Indianapolis, 147.6 miles; July 17, Indianapolis to Columbus, 174.2 miles; July 18, Columbus to Canton, 150.6 miles; July 19, Canton to Pittsburgh, 99.8 miles; July 20, Pittsburgh to Bedford Springs, 97.2 miles; July 22, Bed-

Tours—A. A. A. (Continued)

ford Springs to Baltimore, 140.2 miles; July 23, Baltimore to Philadelphia, 171.9 miles; July 24, Philadelphia to New York, 98.2 miles. Total, 1,569 miles.

When the tour ended in New York there were 19 perfect score cars in the Glidden class as follows: R. D. Garden, New York M. C., 40-45-hp. Pierce; G. S. Salzman, A. C. of Buffalo, 60-hp. Thomas; M. Hallowell, A. C. of Buffalo, 60-hp. Thomas; Philip S. Flinn, Pittsburgh A. C., 40-45-hp. Pierce; G. Cabanne, St. Louis A. C., 40-hp. American Mors; F. S. Dey, A. C. of Buffalo, 60-65-hp. Pierce; H. H. Perkins, Pittsburgh A. C., 30-hp. Packard; A. Kumpf, A. C. of Buffalo, 40-45-hp. Pierce; C. P. Moore, Pittsburgh A. C., 50-hp. Welch; E. S. Lea, Mercer Co. A. C., 40-hp. Walter; R. M. Owens, A. C. of America, 40-hp. Reo; A. N. Jervis, N. Y. M. C., 40-hp. Berliet; R. H. Tucker, Cleveland A. C., 45-hp. Royal; W. C. White, Chicago A. C., 30-hp. White; A. J. Scaife, N. Y. M. C., 30-hp. White; Charles H. Burman, Cleveland, A. C., 30-hp. Peerless; W. C. Straub, Cleveland A. C., 30-hp. Peerless; Edward Noble, Chicago A. C., 50-hp. Haynes.

The 1907 event was run on a club team basis, the team with the best score to be awarded the trophy. The Buffalo Automobile Club won with a score of 981.4-5 points. The other club scores were as follows: Pittsburg Automobile Club, 977½ points; New York Motor Club, 683.4-5 points; Westchester Motor Club, 620.1-3 points; Automobile Club of America, 498½ points; Cleveland Automobile Club, 483.5-9 points, and Chicago Automobile Club, 240.1-7 points.

There were two perfect score cars in the Hower trophy class, H. K. Sheridan, Cleveland A. C., 30-hp. White; and G. S. Smith, Quaker City M. C., 35-hp. Stoddard-Dayton. These cars ran off the tie, Sheridan eventually winning the cup.

AUTOMOBILE CLUB OF AMERICA.

Five-hundred-mile Endurance Run, New York to Buffalo (called off on arrival at Rochester upon receipt of news of death of President McKinley). Monday, Sept. 9 to Friday, Sept. 13, 1901. First day's run, New York to Poughkeepsie, 84.4 miles; second day, Albany, 159.8 miles; third day, Herkimer, 242 miles; fourth day, Syracuse, 307.1 miles; fourth day, Rochester, 394.3 miles. Eighty-one cars started and forty-one reached Rochester. Certificates were awarded by the club to the following:

First class (average speed of 12 to 15 miles per hour).—David Wolfe Bishop, (30-hp. Panhard), average 15 miles, El-

Long Distance), average 10.91 miles. G. N. Pierce Co., (2¾-hp. Pierce), average 10.69 miles. C. J. Field, (5-hp. De Dion-Motorette), average 10.38 miles. St. Louis Motor Carriage Co., (7-hp. St. Louis), average 10.17 miles. John M. Satterfield, (12-hp. Packard), average 10.11 miles.

Third-class (average speed from 8 to 10 miles per hour).—Alexander Dow, (12-hp. Winton), average 9.99 miles. John Jacob Astor, (12-hp. Gasmobile), average 9.78 miles. Louis S. Clarke, (8½-hp. Autocar), average 9.69 miles. Sidney Dillon Ripley, (9-hp. Gasmobile), average 9.64 miles. Locomobile Co. of America, (3½-hp. Locomobile), average 9.47 miles. Duryea Power Co., (8-hp. Duryea), average 8.71 miles. Knox Automobile Co., (4-hp. Knox), average 8.50 miles.

On the first day, Sept. 8, a contest was held on Nelson Hill, near Peekskill,

Tours—A. C. A. (Continued)

which was on the route to Poughkeepsie. The hill is 2,372 feet long, with a rise of about 260 feet; the steepest place is a 16 per cent. gradient. The surface was poor. The fastest ascent was made by D. W. Bishop, (30-hp. Panhard), in 2m. 13s., a Grout steamer being second in 2m. 45s. and a Locomobile steamer third in 2m. 47s.

Five-Hundred-Mile Reliability Run, New York to Boston and return, Thursday, Oct. 9 to Wednesday, Oct. 15, 1902. First day's run, New York to New Haven, 79 miles; second day, Springfield, 147.6 miles; third day, Boston, 244.2 miles; fourth day, Springfield, 340.8 miles; fifth day, New Haven, 409.4 miles; sixth day, New York, 488.4 miles. Maximum speed permitted, 14 miles per hour. Observers on all cars and penalties imposed for all involuntary stops.

Controls were officially established at the beginning of each day's run, at luncheon places, and at the end of each day's run. The start was made each morning at nine o'clock, and an hour and a half was allowed for luncheon.

No replacing of engines, boilers, axles or wheels was allowed. Such repairs only were permitted as could be accomplished with the tools and extra parts carried on the vehicle, and with such local assistance as could be readily obtained under ordinary touring conditions.

All stops from whatever cause were timed and recorded by the official observers. Stops for the following causes were considered involuntary stops, and did not count against the vehicle although such stoppages were recorded: (1) Compulsory stops of 1½ hours for luncheon, which were made at specified places indicated in the program; (2) road blocked by traffic; (3) tire troubles; (4) stoppage by police; (5) to avoid frightening timid horses; (6) to render aid in case of accident; (7) blocked railroad crossing; (8) demands of nature; (9) to recover articles accidentally dropped from vehicle; (10) to light carriage lamps. Steam vehicles were allowed a total of 20 minutes' stoppage for gasoline and water between controls in each half-day's run, for which marks were not deducted. One mark per minute was deducted for time thus consumed in excess of 20 minutes.

Seventy-five cars started, 55 being gasoline, 19 steam and 1 electric, and 68 finished. Perfect scores were made by 17 cars, as follows:

H. W. Whipple (Packard); H. B. Joy (Packard); Prescott Automobile Mfg. Co. (Prescott steamer); Lane Motor Ve-

Tours—A. C. A. (Continued)

hicle Co. (Lane); Haynes-Apperson Co. (Haynes-Apperson); Paul H. Deming, (White); Windsor T. White, (White); White Sewing Machine Co., (White); Grout Bros. Co., (Grout); Knox Automobile Co., (Knox); H. B. Shattuck, (Searchmont); John Wanamaker, (Searchmont); Oldsmobile Co. of New York, (Oldsmobile); Fredonia Mfg. Co., (Fredonia); Foster Auto Mfg. Co., (Foster).

LONG ISLAND AUTOMOBILE CLUB.

One-hundred-mile endurance run and hill climb, April 20, 1901. Held on a course on Long Island, starting at Jamaica, thence to Flushing, Manhasset, Roslyn, Oyster Bay, Jericho, Amityville, Mineola, Valley Stream and back to the starting point. Ribbons were awarded as follows: Blue to cars making no stops; red to cars making stops of less than 10 minutes; yellow to cars making stops of more than 10 minutes; white to cars stopping more than half an hour. Following were the ribbon winners:

F. Walsh (Gasmobile), blue ribbon, 100 P.C.; E. Apperson (Haynes-Apperson), blue ribbon, 100 P.C.; C. R. Greuter (Holyoke), red ribbon, 99 P.C.; C. J. Field (De Dion-Bouton), red ribbon, 98 P.C.; H. B. Barruch (Darracq), red ribbon, 97 P. C.; E. A. Law (Electric Vehicle Co.), yellow ribbon, 97 P.C.; C. Harmes (Daimler), yellow ribbon, 96 P.C.; A. L. McMurtry (Ohio), white ribbon, 91 P.C.

In a contest on a 10 per cent. grade at Roslyn special cups were awarded, as follows: For vehicles of more than 2,000 pounds, to C. R. Greuter (Holyoke), 1st, time, 2m. 10s. For vehicles of between 1,000 and 2,000 pounds to E. A. Law (Electric Vehicle), 1st, time, 2m. 45s. For vehicles of less than 1,000 pounds to C. J. Field (De Dion-Bouton), 1st, time, 1m. 48s.

NATIONAL ASSOCIATION OF AUTOMOBILE MANUFACTURERS

Endurance Run, New York to Pittsburgh, Wednesday, Oct. 7 to Thursday, Oct. 15, 1903. The official start was made from Weehawken, N. J. The run approximated 800 miles, divided into seven stages, averaging about 114 miles per day, as follows: Wednesday, Oct. 7, New York to Pine Hill, 135 miles. Thursday, Oct. 8, Pine Hill to Binghamton, 106 miles. Friday, Oct. 9, Binghamton to Bath, 103.5 miles. Saturday, Oct. 10, Bath to Buffalo, 122.5 miles. Monday, Oct. 12, Buffalo to Erie, 94 miles,

Tours—N. A. A. M. (Continued)

Tuesday, Oct. 13, Erie to Cleveland, 115 miles. Wednesday, Oct. 14, Cleveland to Youngstown, 68.5 miles. Thursday, Oct. 15, Youngstown to Pittsburg, 65.5 miles.

Thirty-four cars started, and 25 of these finished in the following order: Webb Jay (White), all controls. Holcomb (Columbia), all controls. Deming (White), all controls. W. H. Bex (Franklin), missed 3rd, 4th and 5th controls. A. Gardner (Rambler), all controls. John Wilkinson (Franklin), missed several controls. Stearns Stearns), all controls. A. L. Riker (Locomobile), missed two controls. E. S. Fetch (Packard), all controls. Dorris (St. Louis), lost six controls. Frank

Tours—N. A. A. M. (Continued)

Nutt (Haynes-Apperson), missed one control. Sheppy (Arrow), all controls. Davis (Knox), missed several controls. F. W. Whitman (Olds), missed two controls. Soules (Toledo), all controls. P. P. Pierce (Pierce), all controls. Winters (Toledo), missed two controls. Collier (Rambler), missed two controls. Roberts (Olds), lost two controls. Gaither (Fredonia), lost six controls. Thomas (Fredonia), lost five controls. Cowan (Knox), missed two controls. Fowler (Knox), lost three controls. Lauterman (Haynes-Apperson), lost five controls. Duffie (Columbia), missed six controls.

Heavy rains on the second, third and fourth days, while going over the mountains, caused much delay.

HILL CLIMBS

BOSTON, MASS.

Commonwealth Avenue, April 20, 1903.—Summaries: Steam vehicles—F. Durbin (5½-hp. Stanley), 1st. Time, 17m. J. H. MacAlman (5½-hp. Locomobile), 2nd. Time, 22m. 1-5s. Gasolene, under 2,000 pounds—F. E. Randall (5-hp. Stevens-Duryea), 1st. Time, 43m. 1-5s. A. T. Harris (8-hp. Duryea), 2nd. Time, 45m. Gasolene, over 2,000 pounds—J. L. Snow (16-hp. Peerless), 1st. Time, 43m. 2-5s. C. H. Robinson (16-hp. Peerless), 2nd. Time, 51m. 2-5s. Gasolene, with tonneau—J. L. Snow (16-hp. Peerless), 1st. Time, 51m. 4-5s. Gerard Bement (16-hp. Peerless), 2nd. Time, 51m. 4-5s. Electrics—W. G. Titcomb (3-hp. Waverley), 1st. Time, 1h. 16m. 3-5s. W. E. Eldridge (3-hp. Waverley), 2nd. Time, 1h. 40m. 2-5s. Motor bicycles—Joe Downey (1¾-hp. Warwick), 1st. Time, 28m. Oscar Hedstrom (1¾-hp. Indian), 2nd. Time, 28m. 1-5s. Grand final—F. Durbin (5½-hp. Stanley), 1st. Time, 16m. 3-5s. Joe Downey (1¾-hp. motor bicycle), 2nd. Time, 28m.

Commonwealth Avenue Hill, April 19, 1904.—Summaries: Electric vehicles weighing from 818 to 1,433 pounds—C. H. Barney (2½-hp. National), 1st. Time, 1m. 15 3-5s. H. E. Marvel (3-hp. Pope-Waverley), 2nd. Time, 1m. 15 3-5s. Gasolene cars weighing over 2,205 pounds—Arthur Adams (24-hp. Pope-Toledo), 1st. Time, 29 3-5s. Cars weighing between 1,433 and 2,205 pounds—H. L. Bowden (60-hp. Mercedes), 1st. Time, 15 2-5s. A. Adams (24-hp. Pope-Toledo), 2nd. Time, 24 4-5s. Cars weighing between 818 and 1,433 pounds—H. B. Hills, Jr. (40-hp. Georges Richard-Brasier), 1st. Time, 15 2-5s. Otto Nestrom (14-hp.), 2nd. Time, 18 4-5s. Cars weighing between 110 and 515

pounds—J. C. Robbins (6-hp.), 1st. Time, 33 2-5s. Guy Green (4-hp.), 2nd. Time, 1m. 5 1-5s. Steamers—C. B. Grout (12½-hp. Grout), 1st. Time, 21 3-5s. Louis S. Ross (6-hp. Stanley), 1st. Time, 18 3-5s. John Carney (4½-hp.), 2nd. Time, 42 2-5s. F. H. Marriott, Jr. (6-hp. Stanley), 1st. Time, 16 3-5s. K. M. Blake (4½-hp. Locomobile), 2nd. Time, 20s.

BRIDGEPORT, CONN.

Sport Hill, May 30, 1907.—Summaries: Stock cars up to \$1,000—Watson (12-hp. Maxwell), 1st. Time, 2m. 6s. Stock cars from \$1,000 to \$2,000—H. D. Gates (16-hp. Reo), 1st. Time, 2m. 19s. Stock cars from \$2,000 to \$3,000—H. H. Seymour (25-30-hp. Pope-Hartford), 1st. Time, 1m. 49s. Stock cars over \$3,000—N. W. Bishop (75-hp. Simplex), 1st. Time, 1m. 37 3-5s. Free-for-all-cars and runabouts up to \$5,000—Joseph Tracy (40-hp. Locomobile), 1st. Time, 1m. 24 2-5s.

CINCINNATI, O.

Paddock Road, May 19, 1906.—Summaries: Runabouts—1 to 12-hp.—A. R. Morgan (12-hp. Franklin), 1st. Time, 1m. 26s. A. G. Brunsman (12-hp. Stoddard-Dayton), 2nd. Time, 1m. 30s. Touring cars, tonneau attached, 12 to 24-hp.—Norwood Auto Co. (20-hp. Wayne), 1st. Time, 1m. 34s. J. Baum (20-hp. Buick), 2nd. Time, 1m. 47s. Touring cars, four passengers, 24 to 35-hp.—F. F. Bradley (35-hp. Pope-Toledo), 1st. Time, 1m. 9s. A. G. Brunsman (35-hp. Stoddard-Dayton), 2nd. Time, 1m. 18¼s. Touring cars, four passengers, 35 to 50-hp.—F. F. Bradley (35-hp. Pope-Toledo), 1st. Time, 1m. 7s. Henry Burkhold (50-hp. Thomas),

Hill Climbs—Cincinnati (Continued)

2nd. Time, 1m. 23s. Free-for-all—O. F. Pogue (24-hp. Packard), 1st. Time, 1m. 1s. W. A. Balke (24-hp. Packard), 2nd. Time, 1m. 24-5s.

CLEVELAND, O.

Stucky Hill, June 15, 1907.—Summaries: Country amateur championship—W. F. Hart (Stearns), 1st. Time, 1m. 20s. Al Engel (Reo), 2nd. Time, 1m. 39s. Stock runabouts under \$850—McGinnis (Reo), 1st. Time, *1m. 36 1-5s. A. B. Manley (Ford), 2nd. Time, 1m. 49 2-5s. *Protested; decided in favor of Ford. Stock runabouts under \$1,500—Robert Burman (Jackson), 1st. Time, 1m. 38 3-5s. C. R. Thomas (Reo), 2nd. Time, 1m. 44 4-5s. Stock touring cars under \$1,500—C. R. Thomas (Reo), 1st. Time, 1m. 46 1-5s. Al Engel (Reo), 2nd. Time, 2m. 8 1-5s. Stock runabouts under \$2,000—R. Burman (Jackson), 1st. Time, 1m. 32 4-5s. E. C. Ireland (Stoddard-Dayton), 2nd. Time, 1m. 32 4-5s. Stock touring cars under \$2,000—Robert Burman (Jackson), 1st. Time, 1m. 34 1-5s. McGinnis (Reo), 2nd. Time, 1m. 37 7-10s. Stock runabouts under \$3,000—M. J. Roseboro (Ford), 1st. Time, 1m. 13 1-5s. E. C. Ireland (Stoddard-Dayton), 2nd. Time, 1m. 32 1-5s. Stock touring cars under \$3,000—Kubeck (Ford), 1st. Time, 1m. 21 7-10s. A. Scufe (White), 2nd. Time, 1m. 27 9-10s. Stock runabouts under \$5,000—F. Leland (Stearns), 1st. Time, 1m. 33-10s. W. F. Hart (Stearns), 2nd. Time, 1m. 13 1-5s. Stock touring cars under \$5,000—C. Schilpp (Stearns), 2nd. Time, 57 1-10s. H. Lyttle (Pope-Toledo), 2nd. Time, 58 9-10s. Winner of event, as others were thrown out on account of protests. Stock cars over \$5,000—F. Leland (Stearns). Time, 1m. 11 1-10s. Only entrant. Piston displacement, two cylinder—R. Burman (Jackson), 1st. Time, 2m. 33s. C. D. Paxson (Jackson), 2nd. Time, 2m. 33s. Piston displacements, four cylinder—A. L. Campbell (Darracq), 1st. Time, 54 4-5s. C. Schilpp (Stearns), 2nd. Time, 56s. Piston displacement, six cylinder—F. Leland (Stearns). Time, 1m. 14s. Only entrant. Cars from 851 to 1,432 pounds—A. Brooks (Stoddard-Dayton), 1st. Time, 1m. 28 7-10s. J. McGinnis (Reo), 2nd. Time, 1m. 36 1-5s. Cars from 1,432 to 2,264 pounds—Walter White (White), 1st. Time, 47 2-5s. A. L. Campbell (Darracq), 2nd. Time, 51s. Free-for-all—Walter White (White), 1st. Time, 48 7-10s. F. Leland (Stearns), 2nd. Time, 52 9-10s. Special for electrics—Gruenfeld (Baker). Time, 1m. 41 1-2s. Only entrant.

Hill Climbs (Continued)

CRAWFORD NOTCH (WHITE MOUNTAINS).

July 30 and 31, 1906.—Summaries: July 30—Stock cars costing \$1,750 to \$2,250—F. Allen (28-hp. Oldsmobile), 1st. Time, 4m. 20s. Dwight B. Huss (28-hp. Oldsmobile), 2nd. Time, 6m 29 1-5s. Event for stock cars costing \$2,250 to \$3,000—J. H. Jones (30-hp. Knox), 1st. Time, 4m. 25 1-5s. Postponed till July 31 on account of rain.

July 31—Free-for-all—Guy Vaughn (30-hp. Stearns), 1st. Time, 2m. 48s. For stock cars, \$850, to \$1,200—H. E. Rogers (20-hp. Stanley), 1st. Time, 3m. 11 2-5s. H. Koehler (22-hp. Buick), 2nd. Time, 4m. For stock cars, \$1,200 to \$1,750—G. Crittenden (24-hp. Premier), 1st. Time, 4m. 1s. Wm. Rosewell (24-hp. Crawford), 2nd. Time, 4m. 18 4-5s. For stock cars, \$1,750 to \$2,250—F. Allen (28-hp. Oldsmobile), 1st. Time, 3m. 59 4-5s. R. Crawford (24-hp. Crawford), 2nd. Time, 4m. 12-5s. For stock cars, \$2,250 to \$3,000—C. F. Barrett (24-28-hp. Columbia), 1st. Time, 3m. 46 4-5s. H. E. Wilson (35-hp. Rambler), 2nd. Time, 4m. 3-5s. For stock cars, \$3,000 to \$4,000—G. O. Draper (24-hp. Packard), 1st. Time, 3m. 42s. For stock cars, \$4,000 to \$5,000—A. E. Morrison (30-hp. Stearns), 1st. Time, 3m. 4s. Guy Vaughn (30-hp. Stearns), 2nd. Time, 3m. 84-5s.

EAGLE ROCK (Near NEWARK, N. J.)

Nov. 27, 1902.—Summaries: Gasolene cars—O. P. Nestman (8-hp. Stevens-Duryea), time, 2m. 45s. Dr. H. Power (6-hp. Duryea), time, 4m. 26s. J. G. Dale (7-hp. Long Distance), time, 4m. 49 3-4s. C. E. Proctor (15-hp. Winton), time, 4m. 52 3-4s. H. M. Odiorne (7-hp. Long Distance), time, 5m. 20s. I. D. Plank (4-hp. Oldsmobile), time, 6m. 6s. L. J. Wyckoff (8-hp. Knox), time, 7m. 15s. Steam cars—W. J. Stewart (4-hp. Locomobile), time, 2m. 58 3-4s. E. P. Washburn (4 1-2-hp. Mobile), time, 3m. 8s. W. S. Stewart (4 1-2-hp. Locomobile), time, 3m. 43 3-4s. H. M. Wells (4 1-2-hp. Prescott), time, 3m. 43 3-4s.

Nov. 26, 1903.—Summaries: Gasolene cars under \$1,000—Crescent Automobile Co. (6 1-2-hp. Cadillac), 1st. Time, 3m. 19s. L. J. Wyckoff (4-hp. Orient Buckboard), 2nd. Time, 3m. 34s. For gasolene vehicles, from \$1,000 to \$1,800—Motor Car Co. (7-hp. Stevens-Duryea), 1st. Time, 1m. 38 1-2s. American A. S. Co. (10-hp. Franklin), 2nd. Time, 3m. 21 1-2s. For steam vehicles, all prices,

Hill Climbs—Eagle Rock (Cont.)

only one starter—A. Phelps (4-hp. Locomobile), 1st. Time, 3m. 54s. For gasoline vehicles, from \$1,800 to \$3,000—L. J. Phelps (15-hp. Phelps), 1st. Time, 2m. 21¼s. R. T. Heitmeyer (16-hp. Darracq), 2nd. Time, 3m. 55s. For gasoline vehicles over \$3,000—W. K. Vanderbilt, Jr. (30-hp. Mors), 1st. Time, 1m. 36¼s. F. A. La Roche (40-hp. Darracq), 2nd. Time, 1m. 46s. For electric vehicles, all prices—N. Y. Edison Co. (8-hp. Columbia), 1st. Time, 6m. 38¼s. H. C. Whipple (5-hp. National), 2nd. Time, 7m. 39¼s. Open for gasoline vehicles, all prices, touring conditions—L. J. Phelps (15-hp. Phelps), 1st. Time, 2m. 55¼s. A. Phelps (4-hp. Locomobile), 2nd. Time, 3m. 37¼s. Special event for gasoline vehicles under 1,800 pounds, only one starter—Motor Car Co. (7-hp. Stevens-Duryea). Time, 1m. 37s.

HARTFORD, CONN.

Albany Avenue, Sept. 14, 1907.—Summaries: For gasoline runabouts costing \$1,000 or less—Maxwell, time, 1m. 8 3/5s. Ford, time, 1m. 8 3/5s. Event a tie not run off. For gasoline runabouts costing from \$1,001 to \$2,000—Jackson, 1st. Time, 1m. 19 1/5s. Gasoline touring cars costing from \$1,001 to \$2,000—Franklin, 1st. Time, 1m. 15 3/5s. Jackson, 2nd. Time, 1m. 17 4/5s. Gasoline stock runabouts from \$2,001 to \$2,500—Knox, 1st. Time, 1m. 22 5/5s. Pope-Hartford, 2nd. Time, 1m. 22 5/5s. For gasoline stock touring cars costing from \$2,001 to \$2,500—Pope-Hartford, 1st. Time, 1m. 14 5/5s. Corbin, 2nd. Time, 1m. 7 4/5s. For stock runabouts costing from \$2,501 to \$3,000—Corbin, 1st. Time, 57 1/5s. Ford, 2nd. Time, 1m. 1 5/5s. For gasoline stock touring cars costing from \$2,501 to \$3,000—Corbin, 1st. Time, 1m. 8 2/5s. Pope-Hartford, 2nd. Time, 1m. 8 3/5s. For gasoline stock runabouts costing \$3,001 to \$4,000—Thomas, 1st. Time, 1m. 64 5/5s. For gasoline stock touring cars from \$3,001 to \$4,000—Stevens, 1st. Time, 1m. 1s. Free-for-all gasoline stock cars—Stevens, 1st. Time, 57 2/5s. Knox, 2nd. Time, 58 1/10s. Open for gasoline cars—Pope-Hartford, 1st. Time, 56 2/5s. Stevens, 2nd. Time, 56 3/5s. Special slow event for gasoline stock cars—Knox, 1st. Time, 3m. 59s. Ford, 2nd. Time, 6m. 58s. Open for motorcycles—Goerke (Indian), 1st. Time, 1m. 9s. For motor cycles not exceeding 18 cubic inches of piston displacement—Gustafson (Indian), 1st. Time, 56 4/5s.

Hill Climbs (Continued)

INDIANAPOLIS, IND.

Glen Valley Hill, May 24, 1906.—Summaries: Owner's contest, owners driving—Edgar Apperson (40-hp. Apperson), 1st. Time, 31 1/5s. W. L. Carr (20-hp. Buick), 2nd. Time, 41 2/5s. Light runabouts, carrying driver—S. W. Elston (12-hp. Franklin), 1st. Time, 35 3/5s. Harry Stutts (12-hp. Franklin), 2nd. Time, 53 4/5s. Runabouts, 1,432 to 2,204 pounds—Waltman (16-hp. Premier), 1st. Time, 42s. Whittle (20-hp. Buick), 2nd. Time, 42s. Light touring cars, 1,432 to 2,204 pounds, carrying three passengers and driver.—F. L. Moore (30-hp. Stoddard-Dayton), 1st. Time, 36 2/5s. Whittle (22-hp. Buick), 2nd. Time, 46s. Touring cars, over 2,204 pounds, carrying five passengers and driver—Howard Marmon (30-hp. Marmon), 1st. Time, 40 4/5s. Jap Clements (35-40-hp. National), 2nd. Time, 45 4/5s. Stock cars, listed under \$850—Cherry (16-hp. Leader), 1st. Time, 50 3/5s. Willis (10-hp. Maxwell), 2nd. Time, 1m. 3 5/5s. Stock cars listed from \$850 to \$1,500—Whittle (20-hp. Buick), 1st. Time, 37 2/5s. Wellsman (16-hp. Premier), 2nd. Time, 40 3/5s. Stock cars listed from \$1,500 to \$2,000—S. W. Elston (12-hp. Franklin), 1st. Time, 39 1/5s. Lambert (30-hp. Lambert), 2nd. Time, 42 4/5s. Stock cars listed from \$2,000 to \$3,000—F. L. Moore (35-hp. Stoddard-Dayton), 1st. Time, 32 1/5s. Howard Marmon (30-hp. Marmon), 2nd. Time, 36 3/5s. Stock cars listed above \$3,000—Apperson (40-hp. Apperson), 1st. Time, 33s. Stutts (28-30-hp. Peerless), 2nd. Time, 45 2/5s.

LOS ANGELES, CAL.

Box Springs Canyon, Dec. 1, 1906.—Summaries: For runabouts costing \$850 or under—Ford, 1st. Time, 7m. 50¼s. Maxwell, 2nd. Time, 8m. 48 4/5s. For runabouts costing \$1,250 or less—Buick, 1st. Time, 6m. 32 1/5s. Tourist, 2nd. Time, 7m. 11 4/5s. For touring cars costing \$1,600 or less—Buick, 1st. Time, 7m. 40 1/5s. Mason, 2nd. Time, 7m. 19s. For touring cars costing \$2,500 and under—Tourist, 1st. Time, 5m. 57s. Cadillac, 2nd. Time, 6m. 47 1/4s. Free-for-all, challenge cup for touring cars—Stevens-Duryea, 1st. Time, 5m. 41¼s. July 11—James L. Breese (40-hp. Daimler), time, 34m. 9 4-5s. A. E. Morrison (24-hp. Peerless), time, 36m. 44 1-5s. Alexander Winton (20-hp. Winton), time, 1m. 35s. Percy P. Pierce (24-hp. Pierce), time, 44m. 31 1/4s. H. Ernest Rogers (24-hp. Peerless), time, 48m. 7 2-5s. L. J. Phelps, time, 56m. 15 2-5s. Harry Fosdick (20-hp. Winton), time, 54m. 2-5s. Frank Nutt (12-hp. Haynes-Apperson), time, 1h. 32m. 25 2-5s. W. B. Jameson (Waltham), time, 2h. 9m. 38 4-5s. E. S. Cameron (6-hp. Brown), time, 2h. 7m. 8 3-5s. Benjamin Smith (7-hp. Oldsmobile), time, 1h. 25m. 14 1-5s.

July 12—For all vehicles weighing from 1,000 to 2,000 pounds. A. E. Morrison (24-hp. Peerless), 1st. Time, 29m. 6 4-5s. Webb Jay (10-hp. White), 2nd. Time, 42m. 19 4-5s. For all vehicles not exceeding 1,000 pounds in weight—F. G. Peabody (6-hp. Oldsmobile), 1st. Time, 20m. 46s. Benjamin Smith (Special), 2nd. Time, 2h. 16m. 55s. For motorcycles—Arthur Batchelder (2-hp. Metz), 1st. Time, 34m. 11 3-5s. F. R. Dickinson (Metz), 2nd. Time, 52m. 42 2-5s. Open to any vehicle—Harry Harkness (60-hp. Mercedes), 1st. Time, 24m. 37 3-5s. F. E. Stanley (6-hp. Stanley), 2nd. Time, 28m. 19 2-5s.

Hill Climbs—Mt. Washington (Cont.)

July 17 and 18, 1905.—Summaries:

July 17.—Runabouts costing \$650 or less—F. A. Park (6-hp. Olds), 1st. Time, 56m. 10 2-5s. S. G. Skinner (6-hp. Olds), 2nd. Time, 1h. 1m. 28 1-5s. For cars costing \$650 to \$1,000—F. E. Stanley (10-hp. Stanley), 1st. Time, 31m. 6 4-5s. F. H. Peabody (16-hp. Marion), 2nd. Time, 1h. 54m. 18 2-5s. For cars costing \$1,000 to \$2,000—R. M. Owen (16-hp. Reo), 1st. Time, 52m. 35 2-5s. J. D. Maxwell (16-hp. Maxwell), 2nd. Time, 1h. 27s. For cars costing \$3,000 to \$4,500—Charles Soules (30-hp. Pope-Toledo), 1st. Time, 29m. 37 2-5s. Percy P. Pierce (28-hp. Pierce), 2nd. Time, 38m. 45s.

July 18.—Cars costing \$2,000 to \$3,000—Webb Jay (10-hp. White), 1st. Time, 39m. 1s. Cars costing all over \$4,500—H. A. Valentine (50-hp. Richard Brazier), 1st. Time, 26m. 38 2-5s. Cars weighing from 551 to 881 pounds—Bert Holland (10-hp. Stanley), 1st. Time, 30m. 34 3-5s. F. F. Cameron (16-hp. Cameron), 2nd. Time, 1h. 3m. 34 2-5s. Cars weighing from 881 to 1,432 pounds—F. E. Stanley (15-hp. Stanley), 1st. Time, 29m. 17 2-5s. C. W. Kelsey (8-hp. Maxwell), 2nd. Time, 51m. 41 3-5s. Cars weighing from 1,432 to 2,204 pounds—Webb Jay (10-hp. White), 1st. Time, 33m. 32 2-5s. Free-for-all—W. H. Hilliard (40-60-hp. Napier), 1st. Time, 20m. 58 2-5s. Bert Holland (15-hp. Stanley), 2nd. Time, 32m. 17 3-5s. For cars any weight, cylinder fired, gasoline—Geo. Soules (45-hp. Pope-Toledo), 1st. Time, 47m. 24 4-5s. Motorcycles, under 2-hp., weight limit—S. T. Kellogg (1 1/4-hp. Indian), 1st. Time, 26m. 34s. Motorcycles over 2-hp., any weight, not over 5-hp.—S. T. Kellogg (3-hp. Indian), 1st. Time, 20m. 59 1-5s. O. Hedstrom (3-hp. Indian), 2nd. Time, 22m. 42s. Special two-cylinder class, gasoline—A. H. Weisser (22-hp. Buick), 1st. Time, 36m. 35 4-5s.

PAWTUCKET, R. I.

Stump Hill, Nov. 29, 1906.—Summaries: Steam runabouts—L. F. N. Baldwin (20-hp. Stanley), 1st. Time, 1m. 3-5s. B. F. Blackinton (20-hp. Stanley), 2nd. Time, 1m. 3s. Steam touring cars with tonneau—B. F. Blackinton (20-hp. Stanley), 1st. Time, 1m. 17 1-5s. L. F. N. Baldwin (20-hp. Stanley), 2nd. Time, 1m. 17 3-5s. Gasolene cars costing \$1,000 and under—C. C. Edwards (16-hp. Cameron), 1st. Time, 1m. 55 1-5s. D. W. Flint (15-hp. Ford), 2nd. Time, 2m. 4 3-5s. Gasolene cars costing \$2,000 and under—H. S. Wolfe (20-24-hp. Jackson), 1st. Time, 1m. 50s. R. L. Lippitt (12-

Hill Climbs—Pawtucket (Continued)

hp. Franklin), 2nd. Time, 1m. 59 1-5s. Gasolene cars costing \$3,000 and under—H. A. Capron (25-hp. Pope-Hartford), 1st. Time, 1m. 28s. E. F. Jones (35-hp. Stoddard-Dayton), 2nd. Time, 1m. 38 2-5s. Gasolene cars costing \$5,000 and under—Elliott Flint (30-hp. Packard), 1st. Time, 1m. 16s. J. L. Snow (30-hp. Peerless), 2nd. Time, 1m. 26s. Gasolene cars costing over \$5,000, touring cars only—W. P. Mather (60-hp. Fiat), 1st. Time, 1m. 24 1-5s. C. D. Snow (50-hp. Stevens-Duryea), 2nd. Time, 1m. 25 2-5s. Free-for-all, no restrictions—L. F. N. Baldwin (20-hp. Stanley), 1st. Time, 1m. 13 3-5s. B. F. Blackinton (20-hp. Stanley), 2nd. Time, 1m. 4 4-5s.

ROCHESTER, N. Y.

Dugdale Hill, Oct. 13, 1906.—Summaries: Cars of 16-hp. and under—R. G. Finucane (12-hp. Franklin), 1st. Time, 1m. 13 2-5s. R. Foote (12-hp. Franklin), 2nd. Time, 1m. 19s. Cars of 17 to 22-hp., inclusive—N. B. Stetsel (18-hp. Ford), 1st. Time, 1m. 7s. John Kelly (20-hp. Stevens-Duryea), 2nd. Time, 1m. 10s. Cars of 23 to 30-hp., inclusive—Arthur Demmler (28-30-hp. Pope-Hartford), 1st. Time, 54 1-5s. N. B. Stetsel (18-hp. Ford), 2nd. Time, 1m. 51 1-5s. Cars of 31 to 40-hp., inclusive—John Meiser (34-40-hp. Pope-Toledo), 1st. Time, 59s. N. B. Stetsel (18-hp. Ford), 2nd. Time, 1m. 5s. Cars above 40-hp.—Carl W. Storandt (30-35-hp. Stoddard-Dayton), 1st. Time, 57 3-5s. A. V. Hart (50-hp. Thomas), 2nd. Time, 1m. 64 5-5s. Free-for-all, including racing stripped cars—William Knipper (60-hp. Thomas), 1st. Time, 51 4-5s. J. P. Brady (28-30-hp. Pope-Hartford), 2nd. Time, 51 4-5s. Electric cars—George J. Bauer (Babcock), 1st. Time, 1m. 55s. Vernon Adkin (Columbus), 2nd. Time, 2m. 4 1-5s.

WILKESBARRE, PA.

Giant's Despair (Wilkesbarre mountain), May 10, 1906.—Summaries: Free for all racing and stripped cars—H. N. Harding (45-hp. English Daimler), 1st. Time, 2m. 16 1-15s. C. W. Kelsey (36-hp. Maxwell), 2nd. Time, 3m. 4 3-5s. Stock cars, costing \$1,000 and under—H. J. Koehler (22-hp. Buick), 1st. Time, 3m. 10 1-5s. Stock cars, costing \$1,500 and under—H. J. Koehler (22-hp. Buick), 1st. Time, 3m. 4 5-5s. E. P. Scheuffler (20-hp. Jackson), 2nd. Time, 4m. 49 2-5s. Stock cars, costing \$2,500 and under—Charles Soules (24-hp. Pope-Toledo), 1st. Time, 2m. 56 4-5s. H. J.

Hill Climbs—Wilkesbarre (Continued)

Koehler (22-hp. Buick), and Herbert Bittner (35-hp. Rambler), tied for 2nd place. Time, 3m. 21 1-5s. Stock cars, costing \$2,600 to \$3,600—Herbert Bittner (35-hp. Rambler), 1st. Time, 3m. 18 1-5s. S. A. Elliott (35-hp. Pope-Toledo), 2nd. Time, 3m. 25 3-5s. Stock cars costing \$5,000 and under—S. H. Hancock (50-hp. Stevens-Duryea), 1st. Time, 2m. 27s. Valentine Bliss (45-hp. Pope-Toledo), 2nd. Time, 3m. 12s. Stock cars, costing \$9,000 and under—H. N. Harding (45-hp. English Daimler), 1st. Time, 2m. 11 1-5s. S. A. Elliott (35-hp. Pope-Toledo), 2nd. Time, 3m. 16 3-5s.

Giant's Despair, May 30, 1907.—Summaries: Motorcycles, free for all.—Bill Wray (6-hp. Simplex-Peugeot), 1st. Time, 1m. 40s. Stock cars costing \$1,000 and under—H. A. Grant (14-hp. Maxwell), 1st. Time, 2m. 7s. Quaker City runabout class—D. Walter Harper (20-hp. Stanley), 1st. Time, 1m. 56 4-5s. Stock cars costing \$2,500 and under—Guy Hutcheson (24-hp. Corbin), 1st. Time, 2m. 31 3-5s. Stock cars costing \$4,000 and under—J. P. Hardy (25-hp. Pope-Hartford), 1st. Time, 2m. 54 5-5s. Stock touring cars, all prices and hp.—C. W. Hoffman (30-hp. Stearns), 1st. Time, 2m. 16 4-5s. Quaker City touring car class—C. W. Hoffman (30-hp. Stearns), 1st. Time, 2m. 13 2-5s. Stock cars costing \$5,500 and under—William Haupt (50-hp. Chadwick), 1st. Time, 2m. 23 3-5s. Stock cars costing over \$5,500—William Haupt (Chadwick), 1st. Time, 2m. Free-for-all racing and stripped cars—J. B. Ryall (60-hp. Matheson), 1st. Time, 1m. 59 2-5s.

WORCESTER, MASS.

Dead Horse Hill, one mile long, average rise, 13 per cent., May 25, 1905.—Summaries: Gasolene stock cars, all prices—M. Percival Whittall (24-hp. Pierce Arrow), 1st. Time, 3m. 15 2-5s. George D. Webb (35-hp. Columbia), 2nd. Time, 3m. 46s. Steam stock cars, all prices—B. Holland (10-hp. Stanley), 1st. Time, 1m. 38s. F. B. Durbin (10-hp. Stanley), 2nd. Time, 1m. 41s. Gasolene stock cars, not more than \$850—George H. Kimball (10-hp. Ford), 1st. Time, 3m. 26 1-5s. Forest H. Peabody (10-hp. Ford), 2nd. Time, 3m. 31s. Gasolene stock cars, not more than \$1,250—H. L. Newton (16-hp. Elmore), 1st. Time, 2m. 32 4-5s. W. Eldredge (22-hp. Buick), 2nd. Time, 2m. 43 4-5s. Gasolene stock cars, not more than \$2,000—Hiram P. Maxim (18-hp. Columbia), 1st. Time, 2m. 45 4-5s. Ralph Coburn (15-hp. Stoddard-Dayton), 2nd. Time, 3m.

Hill Climbs—Worcester (Continued)

5 1-5s. Gasolene stock cars, not more than \$3,000—J. F. Duryea (20-hp. Stevens-Duryea), 1st. Time, 2m. 14 4-5s. C. S. Henshaw (40-hp. Thomas), 2nd. Time, 2m. 22 3-5s. Gasolene stock cars, not more than \$6,000—John Snow (35-hp. Peerless), 1st. Time, 1m. 43 2-5s. George Soules (30-hp. Pope-Toledo), 2nd. Time, 1m. 46 3-5s. Cars from 1,432 to 2,204 pounds—A. L. Campbell (90-hp. Mercedes), 1st. Time, 1m. 9s. W. L. Hilliard (60-hp. Napier), 2nd. Time, 1m. 16s. Cars from 857 to 1,432 pounds—F. H. Marriott (10-hp. Stanley), 1st. Time, 1m. 34 2-5s. J. F. Duryea (20-hp. Stevens-Duryea), 2nd. Time, 1m. 42 2-5s. Cars from 551 to 851 pounds—B. Holland (10-hp. Stanley), 1st. Time, 1m. 24 2-5s. F. B. Durbin (10-hp. Stanley), 2nd. Time, 1m. 25 1-5s. Cars weighing over 2,204 pounds—Eddie Bald (35-hp. Columbia), 1st. Time, 1m. 49s. George Reed (40-hp. Stearns), 2nd. Time, 1m. 49 1-5s. All makes and prices—William L. Hilliard (60-hp. Napier), 1st. Time, 1m. 12 3-5s. George C. Cannon (50-hp. Grout), 2nd. Time, 1m. 21 1-5s.

Dead Horse Hill, May 26, 1906.—Summaries: Event 1—H. F. Granger (20-hp. Stanley), 1st. Time, 1m. 31s. M. P. Whittall (45-hp. Pierce), 2nd. Time, 2m. 1s. Events 4-5—Mrs. H. Ernest Rogers (10-hp. Maxwell), 1st. Time, 3m. 31s. Ralph Coburn (10-hp. Maxwell), 2nd. Time, 3m. 45 2-5s. Event 6—H. J. Koehler (22-hp. Buick), 1st. Time, 1m. 52s. R. M. Owen (16-hp. Reo), 2nd. Time, 2m. 1 2-5s. Event 7—Pope (16-hp. Reo), 1st. Time, 1m. 58 2-5s. M. P. Whittall (22-hp. Buick), 2nd. Time, 2m. 41s. Event 8—B. F. Crockett (22-hp. Buick), 1st. Time, 2m. 35 1-5s. T. M. Wetherbee (24-28-hp. Crawford), 2nd.

Hill Climbs—Worcester (Continued)

Time, 2m. 56 1-5s. Event 9—E. H. Thomas (16-hp. Reo), 1st. Time, 2m. 11 2-5s. E. Poor (24-28-hp. Crawford), 2nd. Time, 3m. 12 1-5s. Event 10—James Grady (24-25-hp. Pope-Hartford), 1st. Time, 1m. 50s. W. Kelsey (35-hp. Maxwell), 2nd. Time, 1m. 57 2-5s. Event 11—Geo. D. Emerson (30-hp. Marmon), 1st. Time, 2m. 26 1-5s. Event 12—H. E. Wilson (35-hp. Rambler), 1st. Time, 2m. 15 4-5s. F. Ewing (30-hp. Marmon), 2nd. Time, 2m. 25 2-5s. Event 14—Duryea (50-hp. Stevens-Duryea), 1st. Time, 1m. 14 3-5s. H. P. Maxim (40-45-hp. Columbia), 2nd. Time, 2m. Event 15—H. E. Harding (English Daimler), 1st. Time, 1m. 16s. John Shephard (Columbia), 1st. Time, 1m. 54 4-5s. Event 16.—W. S. Hilliard (80-hp. Napier), 1st. Time, 1m. 37 4-5s. F. E. Hill, Jr. (50-hp. Fiat), 1st. Time, 1m. 38 2-5s. Event 17—J. Downey (80-hp. De Dietrich), 1st. Time, 1m. 19 1-5s. Event 18—S. H. Hancock (50-hp. Stevens-Duryea), 1st. Time, 1m. 10s. L. Harding (60-hp. Daimler), 2nd. Time, 1m. 12s. Event 19—L. F. N. Baldwin (20-hp. Stanley), 1st. Time, 1m. 64-5s. H. Ernest Rogers (20-hp. Stanley), 2nd. Time, 1m. 13 2-5s. Event 20—Mrs. H. E. Rogers (10-hp. Maxwell), 1st. Time, 3m. 2s. Ralph Coburn (10-hp. Maxwell), 2nd. Time, 3m. 13s. Event 21—R. D. Grant (40-hp. Berliet), 1st. Time, 1m. 16s. H. E. Wilson (35-hp. Rambler), 2nd. Time, 1m. 58 2-5s. Event 22—S. B. Stevens (80-hp. Darracq), 1st. Time, 1m. 2s. Remington (50-hp. Stevens-Duryea), 2nd. Time, 1m. 9 2-5s. Event 23—A. C. Campbell Darracq, 1st. Time, 1m. 2 1-5s. R. D. Grant (Berliet), 2nd. Time, 1m. 19 4-5s. Special runabouts—G. H. Kimball (24-hp. Corbin), 1st. Time, 1m. 57s. G. A. Kimball (24-hp. Corbin), 2nd. Time, 1m. 59 4-5s.

ARDENNES (BELGIUM), CIRCUIT OF—1902-1907.

Organized by the Automobile Club of Belgium. An annual speed contest, held on a course in the Belgian Ardennes, starting at Bastogne and passing through Champlon, Saint-Hubert, Recogne, Neufchâtel, Habay-la-Neuve, Martelauge and returning to Bastogne; making a circuit that measures 120 k., which is covered five times, or 600 k. Until 1904 the race was run on a course measuring only 512 k.

The first contest was held July 31, 1902, with the following result: Cars—1st, Jarrott (Panhard), 5h. 33m. 39 3-5s.; 2nd, Gabriel (Mors); 3rd, Vanderbilt (Mors). Light cars—Rigolly (Gobron-Brillié), 6h. 2m. 16 4-5s. Voiturettes—Corre (Corre), 9h. 34m. 39s. Motorcycles—Osmont (de Dion-Bouton). Motorcyclettes—Derney (Clement).

Second contest was held June 22, 1903, with the following results: Cars—1st, de Crawlitz (Panhard), 5h. 52m. 7 3-5s.; 2nd, Girardot (C. G. V.); 3rd, de Brou (De Dietrich). Light cars—1st, Barras (Darracq), 6h. 30m. 38 1-5s. Voiturettes—1st, Wagner (Darracq), 3h. 55m. 27s. Motorcycles—1st, Demester (Griffin), 4h. 59m. 46s.

The third contest was held July 24 and 25, 1904, with the following results: Cars—Heath (Panhard), 6h. 30m. 49s.; Teste (Bayard-Clement). Light cars—1st, Clement (Bayard-Clement), 4h. 26m.

53 3-5s. Motorcycles—1st, Khuling (Minerva), 3h. 46m. 6 4-5s. Motorcyclettes—1st, Tavenaux (Gregorie), 3h. 50m. 51 3-5s.

The fourth contest was held August 7, 1905, resulting as follows: Cars—1st, Hemry (Darracq), 5h. 58m. 32s.; 2nd, Tart (Panhard), 6h. 3m. 37s.; 3rd, Le Blon (Panhard), 6h. 22m. 56s.; 4th, Wagner (Darracq); 5th, Heath (Panhard); 6th, De Caters (Mercedes). Voiturettes—1st, Wagner (Darracq), 46m. 32s.; 2nd, Tavenaux (Gregorie).

The fifth contest was held August 13, 1906, with the following results: Cars—1st, Duray (De Dietrich), 5h. 38m. 39 1-5s.; 2nd, Hanriot (Darracq), 5h. 40m. 21s.; 3rd, Rougier (De Dietrich), 5h. 50m. 11s.; 4th, Barillier (Brazier), 5h. 52m. 14s.; 5th, Gabriel (De Dietrich), 5h. 52m. 14s.; 6th, Clement (Bayard-Clement), 6h. 2m. 55s.; 7th, (De Dietrich), 6h. 4h. 38s.; 8th, Wagner (Darracq), 6h. 14m. 46s.; 9th, Salger (Mercedes), 6h. 14m. 50s.; 10th, Jenatzy (Mercedes), 6h. 15m. 9s.; 11th, Villemain (Bayard-Clement), 6h. 32m. 40s.; 12th, Garcet (Bayard-Clement), 6h. 51m. 37s. Motorcycles—1st, Giuppone (Griffin), 2h. 45m. 55s.; 2nd, Cissac (Griffin), 3h. 4m. 19s.; 3rd, Demester (Griffin), 3h. 16m. 7 4-5s. Touring class, 150 kilometers—1st, Meura (Savolea), 2h. 23m. 36s.; 2nd, Bandelet (Adler), 2h. 23m. 36s.; 3rd, Willy (Savolea), 2h. 40m. 11 2-5s.

The sixth contest was held July 25

Competitions, Foreign (Continued)

and 27, 1907, with the following results: July 25.—Cars—1st, Brabazon (Minerva), 6h. 14m. 52-5s.; 2nd, Koshoven (Minerva), 6h. 14m. 32s.; 3rd, Guinness, (Minerva), 6h. 15m. 24 2-5s. July 26.—Motorcycles, one leader class—1st, Peters (Minerva), 2h. 27m. 38s.; 2nd, Ruys (Minerva), 2h. 46m. 36s.; 3rd, Lambert (Minerva), 2h. 57m. 1s. July 27.—Cars—1st, Baron de Caters (Mercedes), 6h. 29m. 10 2-5s.; 2nd, Guinness (Darracq), 6h. 30m. 34 2-5s.; 3rd, Jenatzy (Mercedes), 6h. 40m. 40 4-5s. Voiturettes—1st, Portier (Minerva), 6h. 40m. 11s.; 2nd, Brabazon (Minerva), 6h. 40m. 46 1-5s.; 3rd, Wilford (Virimus), 7h. 15m. 25s.

AUVERGNE CUP CONTEST.— SEPT. 3-8, 1906.

This was a 1,000 kilometer event, in which 48 cars were entered. The results were as follows: 1st, Rigolly (Gobron), 17h. 19m. 35s.; 2nd, Dunesté (Gobron), 17h. 50m. 16s.; 3rd, Favoux (Gobron), 18h. 28m. 51s.; 4th, J. Gobron (Gobron), 18h. 33m. 23s.; 5th, Feuillet (Brouhot), 19h. 47m. 20s.; 6th, Baron Eynard (Gobron), 20h. 1m. 11s.; 7th, Hamelin (Rochet-Schneider), 20h. 18m. 43s.; 8th, Dubois (Herald), 20h. 26m. 18s.; 9th, Marechal (Brouhot), 22h. 37m. 20s.; 10th, Souchal (Brouhot), 22h. 37m. 20s.; 11th, Briand (Brouhot), 23h. 19m. 34s.; 12th, Pelisson (de Dion-Bouton), 23h. 43m. 37s.; 13th, Sire (Darracq), 24h. 3m. 5s.

BENNETT CUP RACE.—1900-1905.

In 1899 James Gordon Bennett presented a cup as a prize for an international speed contest. To stimulate the automobile industry of the various motor-vehicle-using countries, it was required that all competing cars should be built entirely in the country from which they were entered. It was also provided that no country should be permitted to have more than three cars in the race.

The first contest occurred June 14, 1900, between Paris and Lyons (556 k.). France was represented by a full team of three Panhard cars, driven by Rene de Knyff, Charron and Girardot, respectively. Belgium also had a full team, cars being driven by Baron de Caters, Jenatzy and Lefebvre. Alexander Winton represented America and S. F. Edge England. Germany was represented by one car, the driver inscribing himself "Eugene."

De Caters, Lefebvre and Edge did not take part in the race. R. de Knyff, Win-

Competitions, Foreign (Continued)

ton and Jenatzy had to give up, and the winner was Charron (44-hp. Panhard), who covered the distance in 9h. 9m. Girardot came in second in 10h. 36m. on a Panhard car.

The second race was run in 1901 concurrently with the Bordeaux-Paris contest. Two cars, a Panhard and a Mors, represented France, while a Napier driven by Edge was England's representative. Of the starters Girardot driving the 50-hp. Panhard alone finished the race. He covered the distance of 527.65 km. in 8h. 54m. 59½s.

The third Bennett race took place on June 26, 1902, in connection with the Paris-Vienna race. France was represented by Girardot (C. G. V.), Fournier (Mors), de Knyff (Panhard). S. F. Edge again represented England in a Napier. The cup was won by Edge, who was the first to reach the control at Innsbruck.

The fourth race, in 1903, was held in Ireland. England was represented by three Napier (40-hp.) cars driven by Edge, Jarott, and Stocks. France sent de Knyff (70-hp. Panhard). Farman (Panhard) and Gabriel (80-hp. Mors). America was represented by two Wintons, one of them driven by Alexander Winton and the other by Percy Owen, and a Peerless driven by E. P. Mors. The race was won by Jenatzy (Mercedes), in 6h. 39m., his gross time, counting the time lost in the controls, being 10h. 15m. France was second, with de Knyff (Panhard), in 6h. 50m. 40s. Another Frenchman, Farman (Panhard), was third; Gabriel (Mors), was fourth, while Edge (Napier), England's winner of the year before, was fifth.

The fifth race took place June 17, 1904, at Taunus in Germany. Seven nations were represented; viz, Germany, France, England, Austria, Italy, Belgium and Switzerland. America did not take part.

Théry was the winner in 5h. 50m. 38s.; Jenatzy was second in 6h. 1m. 28s. and de Caters third in 6h. 45m. 3s. The rest came in in the following order: 4th, Rougier (France), 6h. 47m. 11 1-5s.; 5th, Braun (Austria), 6h. 59m. 49 1-5s.; 6th, Hautvast (Belgium), 7h. 2m. 36 2-5s.; 7th, Salleron (France); 8th, Lancia (Italy); 9th, Girling (England); 10th, Cagno (Italy); 11th, Werner (Austria); 12th, Jarott (England).

The 1905 race was run in France on the Auvergne circuit. Six countries, France, England, Germany, Italy, Austria, and America were represented, each having a full team of three cars. Every one of the 18 cars started. Following were the results: 1st, Théry (Brasier), 7h. 2m. 42 3-5s.; 2nd, Nazzaro

Competitions, Foreign (Continued)

(Fiat), 7h. 19m. 9 1-5s.; 3rd, Cagno (Fiat), 7h. 21m. 22 3-5s.; 4th, Caillois (Brasier), 7h. 27m. 6 2-5s.; 5th, Werner (Mercedes), 8h. 3m. 30s.; 6th, Duray (De Dietrich), 8h. 5m. 50s.; 7th, De Caters (Mercedes), 8h. 11m. 11 3-5s.; 8th, Rolls (Wolsley), 8h. 26m. 42 3-5s.; 9th, Clifford Earp (Napier), 8h. 27m. 29 4-5s.; 10th, Braun (Mercedes), 8h. 33m. 53 5-5s.; 11th, Bianchi (Wolsley), 8h. 38m. 39 2-5s.; 12th, Lytle (Pope-Toledo), 9h. 30m. 32s.

BLACKPOOL, ENGLAND, (MEETING OF).

Oct. 12 and 13, 1906.—The following were the different final winners: 1st, Brice (a road motorcycle); 1st, Giupone (on a Peugeot racing motorcycle); 1st, Rimmer (Vulcan); 1st, Day (a Talbot car); 1st, Wright (Darracq); 1st, Rawlinson (Darracq). The flying start kilometer test was won in the different categories by Reed (Peugeot racing motorcycle), in 45 4-5m.; by Cissac (racing motorcycle), in 29m.; by H. Walker (80-hp. Darracq), in 30 2-5m.; Warwick Wright (100-hp. Darracq), in 26m.; Guinness (200-hp. Darracq), in 21m. The standing start kilometer test shows the following winners: Huntley Walker (80-hp. Darracq), in 41 2-5m.; Warwick Wright (100-hp. Darracq), in 35m.; Guinness (200-hp. Darracq), in 32 2-5m.

BORDEAUX-BIARRITZ.

This test took place Oct. 3, 1899, in very bad weather. A category of tourists had been established which made the entire distance in two stages; Bordeaux. Mount-de-Marscut, Briaritz, with a night's rest at Mount-de-Marscut. The result of the speed category was as follows: 1st, Levegh, in 4h. 23m.; 2nd, Antony, in 4h. 31m. 30s.; 3rd, Yves Petit, in 4h. 56m. 8s.; 4th, Koechlin, in 5h. 19m. 2s.; 5th, Broc, in 5h. 32m. 20s.; 6th, Edmond Georges, in 5h. 38m. Motorcycles—1st, Bertin, in 4h. 40m.; 2nd, Rigal, in 7h. 51m. Voiturettes—1st, Ravenez, in 6h. 23m. Tourists—1st, Lafitte, in 7h. 17m.

BOULOGNE-SUR-MER (MEETING OF).

The meeting, which took place July 18, 19 and 20, 1906, was organized at Boulogne-sur-Mer by the Boulogne section of the A. C. of the North. The cup of Caters was run with the following results: 500 metres up hill with flying start—1st, Wagner (on 100-hp. Darracq), in 17 3-5m.; 2nd, Cecil Edge

Competitions, Foreign (Continued)

(on 100-hp. Napier), in 35 3-5m. One kilometre up hill, flying start—1st, Franchomme (on 100-hp. Darracq), in 38 1-5m.; 2nd, Lattuire (on 24-hp. Cottin-Desgouttes), in 59 4-5m.; 3rd, Cottin (on 24-hp. Cottin-Desgouttes), in 1m. 5s.

CATERS (CUP OF).

On July 16th, 1905, was disputed, upon the coast of Doullens, the challenge cup offered by M. Pierre de Caters. The results were (500 metres up hill flying start): 1st, Wagner (80-hp. Darracq), in 15 1-5m.; average per hour 118 km. 422 m.; 2nd, Hanriot (Bayard-Clement), in 15 4-5m.

CHATEAU THIERRY.

In 1905 the contest was run on Oct. 1, with the following result: Speed class, motorcycles less than 50ks.—1st, Angani (Alcyon), 55 3-5m. Voiturettes—1st, De la Touloubre (Darracq), 53 3-5m. Light cars—1st, Hanriot (Darracq), 41 3-5m. Cars—1st, Clifford Earp (Napier), 38 1-5m.; 2nd, Stead (Mercedes); 3rd, Faure.

CIRCUIT OF THE NORTH (910 KILOMETERS).

May 16 and 18, 1902.—An alcohol race organized by the Minister of Commerce and the A. C. F. Paris-Chalons-Arros-Dieppe-Paris. The results were as follows: Cars—1st, Panhard (Maurice Farman); 2nd, Panhard (Jarott); 3rd, Gardner-Serpollet; 4th, Gardner-Serpollet; 5th, Gardner-Serpollet. Light cars—1st, Darracq (Marcellin); 2nd, Panhard; 3rd, Gobron-Brillie; 4th, Panhard. Voiturettes—1st, Renault (Grus); 2nd, Renault (Oury); 3rd, Renault (Cormier); 4th, Clement; 5th, Darracq; 6th, Corre. Motorcycles—1st, de Dion-Bouton (Bardeaux).

CIRCUIT, SICILIAN, FOR VOITURETTES.

Sept. 5, 1906, Palermo-Petreola-Palermo Circuit (247 kilometers). First prize, Chevalier Florio (de Dion-Bouton), time, 7h. 25m. 12s.; 2nd, Longoni (de Dion-Bouton); 3rd, Tasca (de Dion-Bouton).

COMMISSION SPORTIVE CUP CONTEST.

This race, which was for voiturettes, was run in France on July 2, 1907, over the same course as the Grand Prix. Six cars finished in the following order: De Langhe, Darracq 1, 5:13:25; Mot-

Competitions, Foreign (Continued)

tard, La Buire, 5:26:19 2-5; Demogeot, Darracq 11, 5:27:56 2-5; Sibour, La Buire, 5:29:2; Dumame, La Buire, 5:45:40; Defries, Porthos, 6:25:10.

COUPE DE LA PRESSE.

This contest was run on August 6, 1907, on a 77 kilometer course in France. The race was five times around this circuit. The first three finished in the following order: Renaux (Peugeot), 4h. 32m. 56s.; Vimont (Westinghouse), 4h. 36m. 35s.; Zelede (de Dion), 4h. 44m. 46s.

CRITERION OF BELGIUM.

Organized by the Automobile Club of Belgium, Namur, Luxembourg, and Spa July 20 and 26, 1906. The results were as follows: Sixth class—1st, Hautvast (Pipe), in 6h. 45m. 14s.; 2nd, Croquet (Darracq), in 6h. 57m. 25s. Fifth class—Rigoly (Gobron), in 7h. 26m. 37s.; Dallemagne-Elskamp (Gobron), in 7h. 35m. 56s.; 3rd, Fiat; 4th, Gobron; 5th, Aries; 6th, Martini. Fourth Class—Fischer (Vivinus), in 8h. 7m. 45s.; 2nd, Pipe; 3rd, Pipe; 4th, N. A. G.; 5th, N. A. G.; 6th, Pipe. Third Class—Coquart (Aries), in 7h. 22m. 27s.; 2nd, La Metallurgique.

DOURDAN (FRANCE).

Kilometer and mile speed trials were held Oct. 5, 1905, the results being as follows: Standing mile, light motorcycles—1st, Peugeot (Cissac), 53 1-5m. Motorcycles—1st, Peugeot (Giuppone), 57m. Voiturettes—1st, Darracq (De la Touloubre), 1m. 13 1/4s. Light cars—1st, Darracq (Hanriot). Cars—1st, Napier (Clifford Earp), 53 4-5m.; 2nd, Mercedes (Faure). Flying kilometer, light motorcycles—1st, Peugeot (Cissac), 27 3-5m. Motorcycles—1st, Peugeot (Giuppone), 28m.; 2nd, Buchet (Anzani); Alcyon (Chauvet). Voiturettes—1st, Darracq (De la Touloubre), 38 4-5m. Light cars—1st, Darracq (Hanriot), 29 2-5m. Cars—1st, Napier (Clifford Earp), 25 3-5m.; 2nd, Mercedes (Faure).

Oct. 21, 1906, the results were as follows: Standing mile, large cars—1st, 200-hp. Darracq (Lee Guinness), 47 2-5s.; 2nd, Itala, 59 3-5s. Light cars—1st, 30-hp. Gladiator (Leon Molon), 1m. 4s.; 80-hp. Darracq, 59 2-5s. (disqualified for excess of weight). Voiturettes—1st, Vulpes I, 44 3-5s. Motorcycles—1st, Anzani III., 30 1-5s.; average hour, 119 km. 205; 2nd, Mototri Contal, 1m. 32 2-5s.

Flying kilometer, large cars—1st, 200-hp. Darracq (Lee Guinness), 20m. (mean per hour 180 km.); 2nd, Itala, 29 2-5m.; 3rd, Mors, 41 1-5m. Light

Competitions, Foreign (Continued)

cars—1st, Bayard II. (Villemain), 26 3-5m. (mean per hour 135.338 km.); 2nd, Gladiator, 31 3-5m.; Darracq, disqualified for excess of weight. Voiturettes—1st, Vulpes I, 44 3-5m. Motorcyclettes—1st, Peugeot (Giuppone), in 28m. (mean per hour 128.57 km.); 2nd, Peugeot (Cissac), 28 3-5m. Motorcycles—1st, Anzani III., 30 1-5m. (mean per hour 119.2 km.); 2nd, Mototri Contal I., 39 1-5m.

EMPEROR'S CUP RACE.

Held June 13 and 14, 1907, over the Taunus course, Germany, 500 k. Open to cars conforming to these conditions: Cylinder capacity 8 liters as a maximum; wheel-base, 3 meters; weight of vehicle, inclusive of carriage-work, 1,175 kilograms; minimum height of seats, 25 centimeters; minimum clearance, 15 centimeters; backward running (reverse), obligatory; three cars as a maximum of each make.

Two elimination trials, run the day previous to the big race, disposed of 52 of the 92 entrants, leaving 40 cars to start in the final run. The 31 German cars were painted white; 21 French, blue; 19 Italian, red; 10 Belgian, yellow; 4 English, green; 3 Austrian, orange and black, and 3 Swiss, red and yellow. Twenty of the starters finished in the following order: Nazzaro, 5:34:26; Hautvast, 5:39:10; Joerns, 5:39:49; Michel, 5:49:35; Wagner, 5:50:53; Lancia, 5:51:11; Minoia, 5:51:15; Fournier, 5:53:18; Salzer, 5:57:33; Cagno, 5:59:12; Schmidt, 6:3:31; Beutler, 6:5:11; Roygier, 6:8:15; Jenatzky, 6:8:54; Beck, 6:21:14; Fabry, 6:29:11; Tommaselli, 6:31:45; Scholz, 6:35:33; Schmidt, 6:46:45; Adelberger, 7:13:8.

FREJUS (TOURING COMPETITION OF THE AUTOMOBILE CLUB OF).

This took place May 27, 1906, upon a course of 125 km., passing through Frejus, Brignoles, Draguignan, Frejus. Results were as follows: Cars—1st, Peugeot (16-hp.) in 3h. 2m. 20s.; 2nd, Peugeot (10-hp.); 3rd, de Dion (6-hp.); 4th, Gladiator (15-hp.); 5th, Peugeot (6-hp.); 6th, Aster (12-hp.); 7th, de Dion (8-hp.). Motorcycles—1st, Alcyon (6-hp. Laurin-Klement), in 2h. 51m.; 2nd, Griffon (3 1/2-hp.); 3rd, Griffon (3 1/2-hp.).

GAILLON HILL—1889-1906.

A hill 1k. long, straight, and from 5 to 9 per cent. rise. First contested under the auspices of Velo, Nov. 12, 1899, there being 95 entries. Villemain

Competitions, Foreign (Continued)

made the best time. Category without chain, 1m. 16 1-5s. (48.37 an hour). Motorcycle category with chain, 1h. 20m.

In 1900 the contest was conducted by the Motor Club of France and held Nov. 11. In the motor car category, Brasier took the first place in 1m. 26 1-5s. Beconnais (motorcycles) made 55s. (65 km. an hour).

The 1901 contest was held Nov. 18, and Rigolly made the best time of any class, having ascended the hill at the rate of 72k. per hour.

Oct. 12, 1902, was the date of the fourth contest, which was organized by L'Auto. The prize was 11,500 francs, and there were 158 cars entered, of which 82 started. A Serpollet steam car driven by Le Blon made the best time, the rate of speed being 100k. per hour.

In 1903 the contest occurred on Nov. 8th and resulted in another victory for Rigolly, who attained a speed of 107k. per hour.

In 1904 the date was Oct. 30th and resulted in a dead heat between Barras and Clement.

The seventh contest was held in 1905 in bad weather, and resulted as follows: Large cars—P. de Caters (Mercedes), 31s. (mean per hour 116.129 km.); Villemain (Bayard-Clement), 32s. Light cars—1st, Clement (Bayard-Clement), 32m. 1st, Hanriot (Darracq), dead heat, 32 4-5s. Voiturettes—1st, Baneaux (Vulpes), 45s.; 2nd, De la Touloubre (Darracq). Motorcycles—Cissac (Peugeot), 31s.; 2nd, Giuppone (Peugeot).

The 1906 contest was held Oct. 28, the results being as follows: Large cars—1st, Lee Guinness (200-hp. Darracq), 25s. (average per hour 144 km.); 2nd, Cecil Edge (Napier), 29s.; 3rd, Longchamps (Itala), 34 3-5s. Light cars—1st, Demogeot (Darracq), 29s. (average per hour 124.8 km.); 3rd, Gladiateur, 39s. Voiturettes—Barriaux (Vulpes), 46 2-3s. Motorcycles—1st, Cissac (Peugeot), 27 4-5s.

GRAND PRIX OF THE A. C. F.—1906-1907.

Organized by the Automobile Club of France as an annual international speed contest to succeed the Bennett Cup race. Was designed to be contested in 1905, but was deferred until the following year. The rules differ from those of the Bennett race in two important particulars, viz., in permitting each maker (instead of each country) to enter three cars and in requiring all repairs to be made by the driver and his mechanician.

Competitions, Foreign (Continued)

The first contest was held on the Sarthe circuit (103 k.) on June 26 and 27, 1906. It lasted two days, on each of which six rounds of the circuit were made, a distance of about 618 kilometers.

Thirty-two cars started and at the end of the first day the results were as follows: 1st, Szisz (Renault), 5h. 45m. 30 2-5s.; 2nd, Clement (Clement), 6h. 11m. 40 3-5s.; 3rd, Nazzaro (Fiat), 6h. 26m. 53s.; 4th, Shepard (Hotchkiss), 6h. 30m. 45s.; 5th, Lebrun (Brasier), 6h. 31m. 48 1-5s.; 6th, Richez (Renault), 6h. 35m. 47s.; 7th, Heath (Panhard), 6h. 48m. 12s.; 8th, Tart (Panhard), 7h. 1m. 52 2-5s.; 9th, Lancia (Fiat), 7h. 12m. 19 1-5s.; 10th, Hemery (Darracq), 7h. 26m. 18 2-5s.; 11th, Rigolly (Gobron), 7h. 36s. 8 1-5s.; 12th, Mariaux (Mercedes), 7h. 39m. 31 1-2s.; 13th, Barras (Brasier), 7h. 41m. 43s.; 14th, Duray (de Dietrich), 7h. 58m. 46s.; 15th, Barillier (Brasier), 7h. 59m. 5s.; 16th, Jenatzy (Mercedes), 8h. 7m. 20s.; 17th, Rougier (de Dietrich), 8h. 15m. 55s.

The results of the second day were as follows: 1st, Szisz (105-hp. Renault), 12h. 14m. 7s.; 2nd, Nazzaro (135-hp. Fiat), 12h. 47m. 38 1-5s.; 3rd, Clement (125-hp. Clement-Bayard), 12h. 49m. 46 4-5s.; 4th, Barillier (110-hp. Brasier), 13h. 53m.; 5th, Lancia (135-hp. Fiat), 14h. 22m. 11s.; 6th, Heath (130-hp. Panhard), 14h. 47m. 45 2-5s.; 7th, Baras (110-hp. Brasier), 15h. 15m. 50s.; 8th, Duray (130-hp. de Dietrich), 15h. 26m. 1 3-5s.; 9th, Pierre (110-hp. Brasier), 16h. 15m. 7 3-5s.; 10th, Jenatzy-Burton (120-hp. Mercedes), 16h. 18m. 42 4-5s.; 11th, Mariaux (120-hp. Mercedes), 16h. 38m. 51 2-5s.

On July 2, 1907, the second Grand Prix race was run. The distance covered was 478 miles over what is known as the Dieppe course. Thirty-eight cars started the race and 16 of these finished in the following order: Nazzaro (Fiat), 6h. 46m. 33s.; Szisz (Renault), 6h. 53m. 10s.; Baras (Brasier), 7h. 5m. 5s.; Gabriel (De Dietrich), 7h. 11m. 37s.; Rigal (Darracq), 7h. 12m. 36s.; Cailliois (Darracq), 7h. 15m. 58s.; Barillier (Brasier), 7h. 27m. 54s.; Garcet (Bayard-Clement), 7h. 39m. 56s.; Hemery (Mercedes), 8h. 25m. 25s.; Courtade (Motobloc), 8h. 48m. 33s.; Bablot (Brasier), 9h. 12m. 59s.; Richez (Renault), 9h. 30m. 52s.; Degrais (Germain), 9h. 50m. 36s.; Brault (Germain), 10h. 10m. 48s.; Collomb (Motobloc), 10h. 24m. 57s. Fastest lap, 47.8 miles, Duray (De Dietrich), 37m. 54s. Of the first ten cars, 8 were French, 1 Italian and 1 (the tenth), German.

Competitions, Foreign (Continued) LIEDERKERKE (CUP).

This test of 428.57 km., reserved for touring cars, was run Aug. 14, 1906, the day following the circuit of Ardenes. The results were as follows: 1st, La Metallurgique (Wilhelm), in 5h. 27m. 28s.; 2nd, Germain (Perpere), in 5h. 29m. 51s.; 3rd, Minerva, in 5h. 39m. 49s.; 4th, Germain; 5th, La Metallurgique; 6th, Minerva; 7th, Pipe; 8th, La Metallurgique; 9th, Vivinus; 10th, Pipe.

MARSEILLES-NICE-MONTE-CARLO, 1897.

This test began Jan. 29, 1897, and was run really on the Marseilles-Nice-La Turbie route, in 3 days: 1st day from Marseilles to Frejus (148 km.); 2nd day from Frejus to Nice (68 km.); 3rd day from Nice to La Turbie (17 km.). Results: 1st, Chasseloup-Laubat (steam cars), 7h. 45m. 9s.; 2nd, Lemaitre (gasoline car), 8h. 17m. 27s.; 3rd, Prevost, 8h. 26m. 58s.; 4th, de Knyff, 9h. 5m. 14s.; 5th, E. Giraud, 9h. 24m. 23s.; 6th, Michelin, 9h. 35m. 50s. Motorcycles—1st, Chesnay, 9h. 23m. 36s.; 2nd, Marcellin, 9h. 40m. 53s.; Vicomte du Soulies, 9h. 46m. 18s.

MATIN (CUP OF).

Organized Aug., 1906, by the journal "Le Matin" as an automobile endurance test of 6000 kilometers, in 28 stages, through France. Of the 47 cars that started 32 returned. Following are the results: First, without penalization, sharing in the division of the prize of 25,000 francs constituting that of the "Le Matin" cup. Pellegrin (8-hp. de Dion-Bouton); Sire (12-hp. Darracq); Bardin (12-hp. Darracq); Paquette (12-hp. Cottureau); Didier (24-hp. de Dion-Bouton); Dunlop (16-hp. Bayard); Renaux (40-hp. Mercedes). Afterward came, likewise first, but not entitled to the prize, the competitors that had completed the stages, with the times of penalization. Herald, 33m.; de Dion-Bouton, 36m.; Darracq, 1h. 28m.; Contal II., 1h. 28m.; Bayard, 1h. 58m.; Darracq, IV., 13h. 7m.

MILAN, GOLD CUP OF—1906.

This Italian touring contest ended May 24, 1906, after 11 days, over a 3,938 km. course. The test was run in 28 stages, and the following were the results: 1st, Lancia (Fiat); 2nd, Maggioni (Zust); 3rd, Cagno (Itala); 4th, Nazzaro (Fiat); 5th, Boschis (Fiat); 6th, Macdonald (San Giorgio); 7th, Glenworth (San, Giorgio); 8th, Fraschini

(Isotta-Fraschini); 9th, Pfanz (Benz); 10th, Bossano (Benz); 11th, Vercellone (Diatto-A. Clement); 12th, Minora (Isotta-Fraschini); 13th, Colimet (Diatto-A. Clement); 14th, Fabry (Itala); 15th, Von Lude (Martini); 16th, Nagliati (de Dion-Bouton). Lancia won the Gold Cup plus a prize of 25,000 francs. Maggioni won the Automobile Cup of Milan and 6,000 francs. The Fiat team won the cup of the City of Milan.

MILITARY VEHICLES (COMPETITION OF).

This competition, which took place in July, 1905, gave the following results: 1st, Delahaye; 2nd, de Dion-Bouton; 3rd, Gillet-Forest.

MONT CENIS.

In 1905 the contests were held on July 16 and the results were as follows: Speed class, large cars—1st, Nazzaro (100-hp. Fiat), 19m. 18s.; 2nd, Cagno (Fiat); 3rd, Hemery (Darracq). Light cars—1st, Raggio (24-hp. Itala); 2nd, Biarh (Itala). Motorcycles—1st, Riva (Peugeot); 2nd, Maffies (Maffies); Reale (Peugeot). Tourists, large cars—1st, Weilschott (75-hp. Fiat), 23m. 6s.; Bigio (Itala). Light cars—1st, Graziana (Peugeot); 2nd, Picena (Peugeot). Light voitures—1st, Giraud (Panhard), 19h. 18m. 14s.; 2nd, Berteaux (Panhard-Levassor), 22h. 3m. 9s.; 3rd, Teste (Panhard-Teste), 22h. 3m. 41s. Motorcycles—1st, Osmont (de Dion), 18h. 50m. 10s.; 2nd, Barteaux, 20h. 35m. 39s.; 3rd, Cormier, 21h. 58m. 24s.

MONT VENTOUX.

In 1905 the results were as follows: Touring category—motorcycles—1st, Ruamps (Griffon), 27m. 9½s.; 2nd, Lamberjack (Griffon). Cars—1st, Rivierre (Cottureau); 1st, Giry (Svelt); 1st, Didier (La Buire); 1st, Mottard (La Buire). Speed category—1st, Lamberjack (Griffon), 25m. 48½s. Motorcycles—1st, De la Touloubre (Darracq). Light carriages—1st, Cagno (Fiat); 2nd, Rougier (de Dietrich).

At the meeting of Sept. 15 and 16, 1906, the following were the results. Tricars—1st, Bucquet, 1h. 8s.; 2nd, Bonneville (S. A. F.), 1h. 10m. 56s. Chassis of less than 4000 francs—1st, Fournier (Alcyon), 1h. 19m. 53.3-s. Chassis of less than 9000 francs—1st, Belleville (12-hp. Brouhot), 59m. 8.1-s.; 2nd, Comanos (Cottureau), 1h. 2m. 45.3-s. The record belongs to Rivierre (Cottureau), 59m. 6s. Tourists, chassis of from 9000

Competitions, Foreign (Continued)

to 14,000 francs—1st, Ladougue (Motobloc), 32m. 25s.; 2nd, Gasté (Radia), 35m. 59s.; 3rd, Aubert (Mieusset), 40m. 52s.; 4th, Jomain (Le Buire), 44m. 25s.; 5th, Rouget (Mieusset), 44m. 58s.; 6th, Larcheveque (La Buire), 45m. 51s.; 7th, Picherel (Darracq), 56m. 13s.; 8th, Simon (Mors), 1h. 2m. 4s.; 9th, Cote (Pilain), 1h. 3m. 12s. Motorcycles—1st, Giuppone, 26m. 58s. (record beaten); 2nd, Champoiseau (Alcyon), 30m. 63-5s.; 3rd, Cissac, 33m. 12 1-5s.; 4th, Escoffier (Magnat-Debon 1-3 litre), 35m. 46 1-5s.; 5th, Camoin (Alcyon-Buchet), 52m. 28 3-5s.; 6th, Sinde (Bruneau 1-3 litre), 1h. 4m. 52 2-5s. The second day the following were the results: Chassis of from 14,000 to 20,000 francs—1st, Mottard (La Buire), 25m. 52 2-5s. (record beaten by 7 minutes); 2nd, Fabre (Berliet), 26m. 38 2-5s.; 3rd, Bec (Martin), 35m. 53 2-5s. Chassis of more than 20,000 francs—1st, Taddeoli (Rochet-Schneider) 25m. 15s.; 2nd, Garcet (Bayard), 25m. 48 3-5s. Speed, motorcycles—1st, Camoin (Alcyon-Buchet), 1h. 23-5s. Cars—1st, Col lomb (Rochet-Schneider), 24m. 40s.

In 1907 the contest was run on Sept. 14 and 15, the first day being given over to motorcycles and touring cars. The distance from Bedoin, where the start was made, to the summit is 21.6 kilos., and the rise averages 9 per cent., the steepest part being near the top where it reaches 13 per cent. Following is the first day's summary: Speed class, motorcycles under 50 kilos.—1st, Griffon (Gauthier), 34m. 103-5s.; 2nd, Motosacoche (Jacquemod), 38m. 13-5s.; 3rd, Motosacoche (Bastiani). Touring classes—Class I.—Voiturettes, 1-cyl. 120 mm. bore, 2-cyl. 90 mm. bore, 4-cyl. 70 mm. bore; weight, 500 kilos—1st, Sizaire et Naudin (Sizaire) 43m. 27 3-5s.; 2nd, Sizaire et Naudin (Naudin). Class Ia.—Voiturettes, 1-cyl. 121-140 mm. bore—1st, Peugeot (Giuppone), 48m. Class II.—2-cyl. cars, 91-120 mm. bore, 4-cyl. cars, 71-80 mm. bore—1st, La Buire (Lachannay), 46m. 38 2-5s.; 2nd, Vermorel (Vermorel), 48m. 29 2-5s.; 3rd, Roy (Roy); 4th, Motobloc (Desgeorge); 5th, Lutece (Gachet). Class III.—4-cyl. cars, 81-90 mm. bore—1st, Brouhot (Belleville), 35m. 30 1-5s.; 2nd, Werner J. Herveu, 47m.; 3rd, Gregoire (Renounce). Class IV.—4 cyl. cars, 71-102 mm. bore—1st, Brouhot (Souchal), 31m. 58s.; 2nd, La Buire (Mottard), 31m. 58s.; 3rd, Cottin-Desgouttes (Aubert).

Following is the second day's summary: Speed class—Grand Prix cars—1st, Lorraine-Dietrich (Rougier), 19m. 30 2-5s.; 2nd, Brasier (Bablot), 19m.

Competitions, Foreign (Continued)

59 2-5s. Touring classes—Class V.—24-30-hp., 4-cyl. 103-116 mm. bore, weight, 1,100 kilos.—1st, Brouhot (Feuillet), 28m. 43-5s.; 2nd, La Buire (Kist), 28m. 11s.; 3rd, Brasier (Rivierre), 28m. 50s. Class VI.—30-40-hp., 4-cyl. 117-125 bore, weight, 1,150 kilos.—1st, Cottin et Desgouttes (Marze), 25m. 16 4-5s.; 2nd, Darracq (Metargy), 27m. 3s.; 3rd, Pilain (Chalandon), 27m. 32s.; 4th, Cottin et Desgouttes (Deydier), 28m. 18s. Class VIa.—30-40-hp. 123-129 bore—1st, Mors, (Hamelle), 28m. 22s.; 2nd, Roland-Pilain, (Pilain), 42m. 26s. Class VII.—40-60-hp. 123-140 bore, weight, 1,250 kilos.—1st, Radia (Gaste), 25m. 44 1-5s.; 2nd, La Buire (Mottard), 33m. 8s. Class VIII.—40-60-hp. 6-cyl.—1st, Rossel (Jenne), 24m. 54 4-5s.; 2nd, Rossel (Sahler), 27m. 23s.; 3rd, Aquila Italiana (Pichat).

PARIS-MARSEILLES-PARIS.—1896.

Held Oct. 1 and the days following in successive stages, viz: Out: Auxerre, Dijon, Lyons, Arignon, Marseilles. In: Arignon, Lyons, Dijon, Sens, Paris. Of the 30 competitors who started from Versailles only 28 left Auxerre, 16 Dijon, and 14 Lyon. These fourteen reached Paris in the following order: 1st, Panhard, 67h. 42m. 58s.; 2nd, Panhard, 68h. 11m. 5s.; 3rd, de Dion, 71h. 1m. 5s.; 4th, Panhard, 71h. 23m. 22s.; 5th, Michelin, 73h. 20m. 12s.; 6th, Peugeot, 75h. 26m.; 7th, Delahaye, 75h. 29m. 48s.; 8th, Peugeot, 81h. 23m. 51s.; 9th, de Dion, 83h. 43m. 16s.; 10th, Delahaye, 84h. 27m. 5s.; 11th, Maison Parisienne, 102h. 41m. 37s.; 12th, Maison Parisienne, 108h. 39m.; 13th, Landry and Beyvoux, 119h. 44m. 21s.; 14th, Michelin, 141h. 10m. 47s.

PARIS-DIEPPE—1897.

Organized by "Figaro" under the patronage of the Automobile Club of France, was held July 24, 1897. Distance, 170 k. Following were the results: Motorcycles—1st, Jamin (Bollée), 4h. 13m. 33s.; 2nd, Pellier (Bollée), 4h. 33m. 55s.; 3rd, Bertrand (de Dion), 4h. 48m. 12s. Cars (2-seat)—1st, Gilles-Hourgier (Panhard), 4h. 36m.; 2nd, Charon (Panhard), 4h. 38m. 31s.; 3rd, Prevost (Panhard), 4h. 48m. 12s. Cars (4-seat)—1st, de Dion (de Dion), 4h. 19m. 34s.; 2nd, Giraud (Panhard), 4h. 19m. 34s.; 3rd, Archdeacon (Delahaye), 5h. 41m. 15s. Cars (6-seat)—1st, D. Courtois (Delahaye), 5h. 58m. 13s.; 2nd, Doriot (Peugeot), 6h. 26m. 53s.

Competitions, Foreign (Continued) PARIS-THOUVILLE (170 km.).

Race organized by "Le Journal" under the patronage of the A. C. F. and run Aug. 14, 1897. Results: Cars—1st Jamin (Bollée voiturette), 3h. 48m. 56s. 2nd, Gilles-Hourgieres (Panhard-Levasor); 3rd, Lemaitre (Peugeot); 4th, A. de Dion (de Dion-Bouton).

PARIS-AMSTERDAM-PARIS.—1898.

This contest was divided into two classes, a speed and a touring. The touring class started from Paris July 5, and completed its itinerary in 10 stages. The speed contestants started July 7, and followed an itinerary that took in ten stages. In the speed class, out of the 43 contestants who started, 37 reached Chateau d'Ardenne and placed themselves under the orders of the starter the next day for the second stage. The following are the number that arrived at each stage. Paris-Chateau d'Ardenne, 7 out of 43 started; Chateau d'Ardenne-Nymègue, 33 out of 37; Nymègue-Amsterdam, 31 out of 33; Amsterdam-Liege, 29 out of 33; Liege-Verdun, 26 out of 29; Verdun-Paris, 23 out of 26. The arrival really took place at Montgeron, the authorities having forbidden the race in the department of the Seine. Following are the results: 1st, Charron, 33h. 4m. 34s.; 2nd, Girardot, 33h. 25m. 18s.; 3rd, Gandry, 34h. 8m. 58s.; 4th, de Knyff, 34h. 58m. 50s.; 5th, Loysel, 35h. 19m. 9s.; 6th, Adam, 35h. 45m. 57s.; 7th, Doriot, 36h. 20m. 47s.; 8th, Kraeutler, 38h. 26m. 55s.; 9th, Levegh, 38h. 41m. 2s.; 10th, Antony, 39h. 30m. 14s.; 11th, Chesnay, 43h. 58m. 40s.; 12th, Hourgieres, 46h. 50m. 19s.; 13th, Heath, 48h. 58m. 26s.; 14th, Dr. Pascal, 52h. 30m. 58s.; 15th, Vedrine, 57h. 27m. 5s.

PARIS-OSTEND—1898.

Organized by the Committee of the Exposition of the Kursaal of Ostende, and run August 31 in two stages, viz., Paris-Saint-Pol (186 km.) and Saint-Pol-Ostende (140 km.). Results: Cars—1st, Girardot and Levegh, dead-heat, in 6h. 11m.; 3rd, Lemaitre, in 6h. 22m.; 4th, Charron, in 6h. 39m.; 5th, Jenatzy, in 6h. 40m. Voiturettes—1st, Renault Brothers; 3rd, Renault Brothers. Motorcycles—1st, Barras, in 6h. 6m.; 2nd, Teste, in 6h. 10m.; 3rd, Corre, in 6h. 30m.; 4th, Bardin, in 7h. 28m.; 5th, Merville, in 7h. 23m.; 6th, Oury, in 7h. 20m.

Competitions, Foreign (Continued) PARIS-BORDEAUX—1899.

Held May 24. Organized by the Automobile Club of France. Distance, 565 k. There were 74 entries, of which 41 were motorcycles and 33 cars. Results: Cars—1st, Charron, in 11h. 43m. 29s.; 2nd, R. de Knyff, in 11h. 51m. 26s.; 3rd, Girardot, in 12h. 32m. 35s.; 4th, Archambault, in 12h. 37m. 45s.; 5th, Hourgieres, in 13h. 3m. 44s.; 6th, Antony, in 13h. 17m. 43s. Motorcycles—1st, Bardin, in 13h. 22m. 42s.; 2nd, Teste, in 13h. 20m. 30s.; 3rd, De Méaulne, in 13h. 44m. 35s.; 4th, Vasseur, in 14h. 56m. 35s.

In 1901, a second test, also organized by the Automobile Club of France, took place. The start was made on May 29. Following are the results: Cars—Fournier (Mors), 6h. 11m. 44 3-5s.; 2nd, Farman (Panhard), in 6h. 41m. 14-5s.; 3rd, Voigt (Panhard), 7h. 16m. 11 2-5s.; 4th, Pinson (Panhard), 7h. 46m. 51 4-5s. Light Cars—1st, Giraud (Panhard), 8h. 9m. 48 4-5s.; 2nd, Baras (Darracq), 8h. 42m. 52 2-5s.; 3rd, Edmond (Darracq), 10h. 25m. 4s. Voiturettes—1st, L. Renault (Renault), 9h. 32m. 27s.; 2nd, M. Renault (Renault), 9h. 40m. 14s.; 3rd, Oury (Renault), 9h. 46m. 50 1-4s. Motorcycles—1st, Teste (de Dion tricycle), 8h. 13-5m.; 2nd, Osmont (de Dion), 8h. 3m.; 3rd, Bardeaux (de Dion), 8h. 54m. 63-5s.

PARIS-BOULOGNE-SUR-MER—1899.

Held Sept. 17. Distance, 230 k. The start took place at Saint-Germain-en-Laye. Results: Cars—1st, Girardot, in 4h. 17m. 44s.; 2nd, Levegh, in 4h. 19m. 20s.; 3rd, Broc, in 4h. 32m. 50s.; 4th, Rolls, in 6h. 11m. 30s. Voiturettes—1st, Leuliette, in 7h. 9m. 4s.; 2nd, Lefebvre, in 7h. 33m. 15s. Motorcycles—1st, Baras, in 5h. 22m. 17s.; 2nd, Demester, in 6h. 13m. 20s.; 3rd, Osmontmeu, in 6h. 4m.; 4th, Lea Lemoine, in 6h. 24m. 40s.

PARIS-TOULOUSE-PARIS—1900.

Organized on the occasion of the Exposition of 1900 and run in three stages, beginning July 25, as follows: 1, Paris-Toulouse; 2, Toulouse-Limoges; 3, Limoges to Paris. The first stage was won by Levegh (Mors), in 13h. 13m. 25s.; the second by Voigt, in 5h. 43m. 49s.; the third by Pinson, in 6h. 44m. 18s.

The result of the entire course (1,348.75 km.) was as follows: Cars—1st, Levegh, in 20h. 50m. 9s.; 2nd, Pinson, 22h. 11m. 1s.; 3rd, Voigt, in 22h. 11m. 51s.; 4th, Giraud, in 22h. 55m. 32s.; 5th, Antony, in 26h. 46m. 27s.; 6th, Turckheim, in 37h. 35m. 36s.; 7th, Ravel, in 41h. 29m. Voi-

Competitions, Foreign (Continued)

turettes—1st, Renault, in 34h. 33m. 38s.; 2nd, Schrader and Oury, in 45h. 49m. 35s.; 3rd, Grus, in 57h. 25m. 43s. Motorcycles—1st, Teste, in 23h. 54m. 15s.; 2nd, Collignon, in 27h. 28m. 32s.; 3rd, Bardin, in 28h. 26s.; 4th, Gasté, in 30h. 32m. 30s.; 5th, Gleize, in 36h. 19m. 14s.

PARIS-BERLIN—1901.

Organized by the Automobile Club of France and run in three stages on June 27, 28 and 29, through Aachen and Hanover into Berlin, 1,200 k. Of 155 vehicles which started from Paris only 78 arrived at Aachen, 25 at Hanover and the same number reached Berlin before the control closed at 10 P. M. The roads were very dusty and the speed, averaging from 37 to 47 miles per hour for the whole race, accounted for the many mishaps which occurred. The race was won by Henri Fournier in the same 35-hp. Mors with which he won the Paris-Bordeaux race one month previously. The winning drivers and cars were as follows: 1st, Fournier (Mors), in 15h. 32m. 6s.; average per hour 71.1 k.; 2nd, Girardot (Panhard), in 16h. 38m. 38s.; 3rd, R. de Knyff (Panhard), in 15h. 40m. 24s.; 4th, Brasier (Mors), in 17h. 14m. 35s.; 5th, H. Farman (Panhard), 17h. 46m. 6s.; 6th, Charron (Panhard), in 18h. 20m. 57s. Light Cars—1st, Giraud (Panhard), in 19h. 18m. 14s.; 2nd, Berteaux (Panhard), in 22h. 3m. 9s.; 3rd, Teste (Panhard), in 22h. 3m. 41s. Voiturettes—1st, Louis Renault (Renault Frères), in 18h. 37m. 23s.; 2nd, Grus (Renault Frères), in 22h. 28m. 33s.; 3rd, L. Morin-Corre (Corre), in 29h. 4m. Motorcycles—1st, Osmont (de Dion), in 18h. 50m. 10s.; 2nd, Berteaux, in 20h. 35m. 39s.; 3rd, Cormier, in 21h. 5m. 24s.

PARIS-VIENNA—1902.

Organized jointly by the Automobile Club of France and the Automobile Club of Austria, and run June 26, 27, 28 and 29, in four stages, viz: 1st stage, Paris-Belfort, 415 km.; 2nd stage, Belfort-Bregenz, 327 km.; 3rd stage, Bregenz-Salsbourg; 4th stage, Salsbourg-Vienna. The second stage, which included the passage through Switzerland, was neutralized. Total distance, 1,415 k. The winning cars and drivers were as follows:

1st, H. Farman (Panhard), in 16h. 30 1-5s.; 2nd, Count Zborowski (Mercedes), in 16h. 13m. 29 3-5s.; 3rd, M. Farman (Panhard), in 16h. 19m. 29 2-5s.; 4th, Teste (Panhard), in 17h. 13m. 28 4-5s.; 5th, Pinson (Panhard), in 18h. 41 2-5s.; 6th, P. de Crawhez (Panhard), in 18h. 5m. 20 2-5s.; 7th, Chau-

Competitions, Foreign (Continued)

chard (Panhard), in 18h. 16m. 45 2-5s.; 8th, Edge (Napier), in 19h. 16m. 21 4-5s.; 9th, de Caters (Mors), in 19h. 54m. 58 1-5s.; 10th, G. de Crawhez (Panhard), in 20h. 6m. 36 2-5s. Light Cars—1st, Marcel Renault (Renault Frères), in 15h. 47m. 43s.; 2nd, Edmond (Darracq), in 16h. 10m. 16 1-5s.; 3rd, Barras (Darracq), in 17h. 4m. 52s.; 4th, Hemery (Darracq), in 17h. 23m. 38 3-5s.; 5th, Marcellin (Darracq), in 17h. 38m. 36 1-5s.; 6th, Tart (Clement), in 18h. 26m. 45 3-5s. Voiturettes—1st, Guilanme (Darracq), in 20h. 4m. 33s.; 2nd, Grus (Renault Frères), in 20h. 17m. 54 2-5s.; 3rd, Cormier (Renault Frères), 23h. 22m. 37 2-5s.; 4th, Durand (Corre), in 25h. 47m. 13 2-5s.; 5th, G. Rivierre (Richard), in 26h. 7m. 23 1-5s.

PARIS-MADRID—1903.

Last of the great inter-city races. It was planned to be run in three stages, as follows: First, May 22, from Versailles to Bordeaux (552 km.); second, May 26, from Bordeaux to Victoria (335 km.); third, May 27, from Victoria to Madrid. There were 314 vehicles entered. The race was stopped at the end of the first stage, as, on account of the numerous accidents that had occurred, the French and Spanish governments forbade its continuance. Marcel Renault was killed outright and a number of other fatalities and casualties to both contestants and spectators along the road occurred. They were due to the large number of cars in the race, to the great interest evinced in it and the consequent enormous crowds that gathered along the route through France, the lack of police or military protection and the reckless pace kept up by the participants in the race.

Results at the end of the first stage: Heavy cars—1st, Gabriel (Mors), 5h. 14m. 31 1-5s.; 2nd, Salleron (Mors), 5h. 47m. 14 5-5s.; 3rd, Jarott (de Dietrich), 5h. 52m. 55s.; 4th, Crawhez (Panhard), 5h. 54m. 11 2-5s.; 5th, Warden (Mercedes), 5h. 55m. 30 4-5s.; 6th, Voigt (C. G. V.), 5h. 57m. 49 1-5s. Light Cars—1st, L. Renault (Renault), 5h. 29m. 39 1-5s.; 2nd, Barras (Darracq), 6h. 20 4-5s.; 3rd, Page (Decauville), 6h. 20m. 8 1-5s.; (Darracq), 6h. 56m. 53 1-5s.; Pelisson (de Dion), 7h. 13m. 42 3-5s.; 6th, Thèry (Decauville), 7h. 24m. 16s. Voiturettes—1st, Masson (Clement), 7h. 14m. 45 1-5s.; 2nd, Barillier (Richard), 7h. 40m. 3-5s.; 3rd, Wagner (Darracq), 7h. 48m. 12 2-5s. Motorcycles—1st, Bucquet (Werner), 8h. 56m. 55s.; 2nd, Demester, 9h. 4m. 44 4-5s.; 3rd, Jollivet, 9h. 26m. 54 2-5s.

Competitions, Foreign (Continued) PARIS-BORDEAUX-PARIS (1905).

Held June 11, the distance being 1,200 km. The starting point was Versailles, and out of 40 cars entered, only 20 started. Nine vehicles finished in the following order: 1st, Panhard, in 48h. 47m.; 2nd, Peugeot, in 54m. 35s.; 3rd, Peugeot, in 59m. 48s.; 4th, Peugeot, in 59h. 59s.; 5th, Roger, in 64h. 30m.; 6th, Panhard, in 72h. 14m.; 7th, Panhard, in 78h. 7m.; 8th, Roger, in 82h. 48m.; 9th, Bollée steam omnibus, in 90h. 5m. A cash prize of 10,000 francs, donated by James Gordon Bennett and the Baron De Zuylen was divided among the winners as follows: 1st, 50 per cent.; 2nd, 20 per cent.; 3rd, 10 per cent., and the next four 5 per cent. each.

PYRENEES (CUP).

This test, organized by "La Depeche" of Toulouse and "La Vie au Grand Air," was run from the 20th to 27th of August, 1905. The results were: 1st, Sorel (de Dietrich); 2nd, Belleville (Brouhot); 3rd, Didier (de Dion-Bouton); 4th, Babinet (Berliet); 5th, Richez (Brouhot); 6th, Feuillet (Brouhot); 7th, Marechal (Brouhot); 8th, Coujet (Darracq); 9th, Sambucy (Rochet-Schneider); 10th, Cormier (de Dion-Bouton).

RHONE (COMPETITION OF THE AUTOMOBILE CLUB OF).

This competition, which took place July 14, 15 and 16, 1906, finished by the victory of Montville on a Brasier car. Following are the results of the various tests. Efficiency: Dead heat between Brasier and Pilain, both of whom obtained the maximum number of points, very closely followed by Rochet-Schneider with two cars. Regularity: Brasier and Rochet-Schneider obtained the maximum followed immediately by Pilain. Hill-climb: New dead heat between Brasier and Pilain. General results: 1st, Brasier (Montville), 300 out of 100 points; 2nd, Pilain (Chalands), 292.2 points; 3rd, Rochet-Schneider (Pierre), 270.37 points.

ROCHET-SCHNEIDER (CUP).

This test, which was founded in 1904 by the Automobile Club of the Rhone, was disputed June 4, 1906, upon the circuit of Auvergne, which was to be covered three times. It was won by Perret (Peugeot), who thus renewed his victory of 1905. Following were the results of the test: 1st, A. C. Perret (16-hp. Peugeot); 2nd, Guyaille (20-24-hp. Bayard-Clement); 3rd, Desson (18-hp. Rochet-Schneider); 4th, Bergmann (20-24-hp. Bayard-Clement).

Competitions, Foreign (Continued) SAINT GOTHARD (COMPETITION OF).

August 26, 1906.—Circuit: Lugano-Airolo-Lugano, in the mountainous regions of Saint Gothard. The results were as follows. Four-cylinder Cars: Friedlanzer (Zust), in 9h. 3m.; Soldati (White); Comi (Benz); Salvioni (Rapid); Popp (Diatto-Clement); Morel (Bayard).

SEMMERING HILL (AUSTRIA).

The 1905 contests were held Sept. 17. The hill is 10 k. long with a rise of 8 to 12 per cent. Following are the results: Speed, light motorcycles—1st, Wondrich (Laurin-Klement). Motorcycles—Wetzlia (Puch). Cars—Braun (100-hp. Mercedes), 7m. 50.4-5s.; winning the challenge cup and beating the record. Touring: In each category—1st, Zeitlinger (Peugeot); 1st, Arnold (Mercedes); 1st, Hieronymus (Spitz); 1st, Mueller (Mercedes); 1st, Braun (Mercedes).

In 1906, held Sept. 23, the results were as follows: Light motorcycles—1st, Wezka (Puch), 10m. 13s. Voiturettes—1st, Yerns (Darracq), 8m. 46s. Touring cars—1st Category (Cyl. 1½ litre); 1st, Slevogt (Laurin-Klement), 17m. 26s.; 2nd, Kollatz (Laurin-Klement), 17m. 35.2-5s.; 3rd, Joerns (Darracq), 19m. 16s. 2nd Category (Cyl. 2½ litres)—1st, Benschlag (Opel-Darracq), 15m. 20s.; 2nd, Loeffler (Peugeot), 17m. 26s.; 3rd, Klincka (de Dion), 18m. 10s. 3rd Category (Cyl. 3½ litres)—1st, Julius Milch (Bock and Hollaender), 14m. 23.2-5s.; 2nd, Monson (Darracq), 14m. 44.3-5s. 4th Category (Cyl. 6 litres)—1st, Erle (Benz), 9m. 56s.; 2nd, Hieronymus (Spitz), 10m. 18s. 5th Category (Cyl. 8½ litres)—1st, Deplus (Pipe), 10m. 14.4-5s.; 2nd, Opel (Darracq), 10m. 15s.; 3rd, Seidl (Mercedes), 10m. 44.4-5s. 6th Category (Cyl. more than 8½ litres)—1st, Braun (Mercedes), 8m. 44.4-5s.

TARGA FLORIA (CUP)—1905-1911.

This cup, offered by Chevalier Florio and reserved for motor-cars of 1,000 kilograms at a maximum is to be put up for competition for seven years (1905-1911). After this it will become the property of the house that gains the greatest number of victories in the annual tests. In 1905 22 cars started. The results were as follows: 1st, Raggio (Itala), 4h. 46m. 47.2-5s.; 2nd, Duray (de Dietrich), 4h. 55m. 20s.; 3rd, Lancia (Fiat); 4th, Hemery (Darracq); 5th, Rougier (de Dietrich); 6th, Nazzaro (Fiat); 7th, Fabry (Itala); 8th, Wagner (Darracq).

Competitions, Foreign (Continued)

In 1906 (May 6), only 10 cars started, the results being as follows: 1st, Cagno (Itala), 9h. 32m. 20s.; 2nd, Grazziana (Itala), 10h. 5m. 8s.; 3rd, Bablot (Berliet), 10h. 25m. 5s.; 4th, Rigal (Itala), 10h. 25m. 8s.; 5th, de Caters (Itala), 10h. 38m. 26s.; 6th, Le Blon (Hotchkiss), 12h. 9m. 23s.

In 1907 the race was run on April 21. The cars ran three times over a 92-mile circuit, making a total of 276 miles. There were 45 cars to start and 28 finished in the following order: Nazzaro (Fiat), 8h. 17m. 36s.; Lancia (Fiat), 8h. 29m. 29s.; Fabry (Itala), 8h. 32m. 40s.; Duray (Lorraine-Dietrich), 8h. 39m. 7s.; Cagno (Itala), 8h. 39m. 16s.; Gabriel (Lorraine-Dietrich), 8h. 39m. 46s.; Tamagni (Isotta-Fraschini), 8h. 41m. 45s.; Weillschott (Fiat), 8h. 42m. 52s.; Sorel (Isotta-Fraschini), 8h. 52m.; Garcet (Bayard-Clement), 8h. 53m. 14s.; Minoia (Isotta-Fraschini), 8h. 53m. 19s.; Maggioni (Zust), 9h. 0m. 7s.; Isan (Deluca-Daimler), 9h. 1m. 22s.; Dureste (Gobron), 9h. 10m. 24s.; Erle (Benz), 9h. 11m. 15s.; Gremo (Junior), 9h. 13m. 38s.; Spagmann (Benz), 9h. 15m. 56s.; Buzio (Diatto-Clement), 9h. 20m. 5s.; Gauderman (Bayard-Clement), 9h. 29m. 4s.; Hubertot (Deluca-Daimler), 9h. 32m. 20s.; Collinet (Bayard-Clement), 9h. 38m. 25s.; Gallina (Rapid), 9h. 50m. 10s.; De Bojario (Benz), 9h. 52m. 40s.; Hemery (Deluca-Daimler), 10h. 16m. 20s.; Capuggi (Zust), 10h. 32m. 30s.; Gaste (Radia), 10h. 33m. 25s.; Fare (Gobron), 11h. 17m. 25s.; Pizzagalli (Pilain), 11h. 21m. 53s. The average speed was 53.83 kilometers per hour.

TOUR OF FRANCE—1889.

Organized by Le Matin, under the control of the Automobile Club of France, and held July 16 to 24, in seven stages, viz: 1, Paris-Nancy; 2, Nancy-Aix-les-Bains; 3, Aix-les-Bains-Vichy; 4, Vichy-Perigueux; 5, Perigueux-Nantes; 6, Nantes-Cabourg; 7, Cabourg-Paris. Out of 49 starters 21 vehicles finished, as follows: Cars—1st, R. de

Competitions, Foreign (Continued)

Knyff (Panhard), 44h. 43m. 39½s.; 2nd, Girardot (Panhard), 49h. 37m. 39 2-5s.; 3rd, Chasseloup-Loubat (Panhard), 49h. 44m. 18s.; 4th, Voigt-Pinson (Panhard), 52h. 34m. 17 4-5s.; 5th, Boileau du Castelneau (Bollée); 6th, Heath (Panhard), 58h. 46m. 55s.; 7th, Clement (Panhard), 75h. 45m. 35 3-5s.; 8th, Levegh (Mors), 80h. 14m. 59 2-5s.; 9th, Jenatzy (Mors), 166h. 6m. 3s. Motorcycles—1st, Teste (de Dion-Bouton), 50h. 58m. 9 2-5s.; 2nd, Tart (de Dion-Bouton), 51h. 32m. 37s.; 3rd, G. de Meaulne (de Dion-Bouton), 53h. 38m. 42s.; 4th, Degrais (de Dion-Bouton), 56h. 7m. 5 2-5s.; 5th, Bardin (de Dion-Bouton), 56h. 7m. 5 2-5s.; 6th, Beconais (Aster), 56h. 30m. 34 3-5s.; 7th, Gleize (de Dion-Bouton), 58h. 49m. 14 2-5s.; 8th, Cormier (de Dion-Bouton), 71h. 30m. 35s.; 9th, Rivierre (de Dion-Bouton), 93h. 44m. 44s. Voiturettes—1st, Gabriel (Decauville), 67h. 15m. 35 2-5s.; 2nd, Théry (Decauville), 75h. 43m. 22 4-5s.; 3rd, Aubin-Ulmann (Decauville), 125h. 25m. 4s.

TOURISTS' TROPHY—1905-1906.

This contest, organized by the Automobile Club of Great Britain, was conducted on the Isle of Man in 1905, over a 335 k. (about 208 miles) course. There were 51 entries. Following are the results: 1st, Arrol-Johnston (Napier), 6h. 9m. 14 3-5s.; 2nd, Rolls-Royce (Napier), 6h. 11m. 23s.; 3rd, Vinot-Deguingand (Littlejohn), 6h. 14m. 35 2-5s.; 4th, Arrol-Johnston (Roberts), 6h. 56m. 58 3-5s.; 5th, Rover (Courtis), 6h. 43m. 53 3-5s.; 6th, (Swift), 7h. 1m. 12 2-5s. Only 20 competitors finished the race.

In 1906 the contest was held on Sept. 27. An English car was winner, while France, with three representatives, took second, third and fourth places. The results: 1st, C. S. Rolls (Rolls-Royce), 4h. 6m.; 2nd, Bablot (Berliet), 4h. 32m. 58 1-5s.; 3rd, A. Lee-Guinness (Darracq), 4h. 42m. 48 1-5s.; 4th, G. Dumont (Clement), 4h. 47m. 20s.

Aeronautics

BENNETT CUP BALLOON RACE, 1906.

The first annual balloon contest for the Gordon Bennett Cup started from the Garden of the Tuileries, Paris, Sept. 20, 1906. Sixteen balloons started, and seven of these crossed the channel and landed in England. The cup went to the American representative, the result being as follows: 1st, Lieut. F. P. Lahm (America), landed near Scarborough, 645 km.; 2nd, A. Vonwiller (Italy), landed at New Holland, 575 km.; 3rd, Count de la Vaulx (France), landed at Walsingham, 470 km.

BENNETT CUP BALLOON RACE, 1907.

The second annual balloon contest for the Bennett cup started from St. Louis, Mo., Oct. 21, the event being held in America as a result of Lieut. Lahm's winning of the cup the year previous. Three countries—America, France and Germany—were represented by nine balloons, the cup being won by Germany. The crew of the Pommern sailed east as far as the Atlantic coast, and undoubtedly would have gone farther had it not been for the ocean. Following is the order of finish: 1st, "Pommern" (Germany), Oscar Erbsloch, landed at Asbury Park, N. J., 876

miles; 2nd, "Isle de France" (France), A. La Blanc, Herbertsville, N. J., 874 miles; 3rd, "Dusseldorf" (Germany), Hugo Abercron, Little Creek, Del., 780 miles; 4th, "America" (America), Chas. De F. Chandler, Patuxent, Md., 720 miles; 5th, "Anjou" (France), Rene Gassnier, Armenius Mines, Louisa County, Va., 700 miles; 6th, "Tschudi" (Germany), Paul Meckel, Manassas, Va., 680 miles; 7th, "United States" (America), Major H. B. Hersey, Hamilton, Ont., 650 miles; 8th, "St. Louis" (America), Alan Hawley, Westminster, Md., 632 miles; 9th, "Lotus II." (England), G. Brewer, Sabina, O.

CIRCULAR KILOMETER AIRSHIP RECORD TRIAL.

On Monday, Jan. 13, 1908, at Issy-les-Moulineaux, France, Henry Farman, in his heavier-than-air flying machine accomplished a flight of one kilometer in a closed circuit without touching ground. His performance won for him a prize of \$10,000 offered by M. Deutsch de la Meuthe and M. Ernest Archdeacon, to the inventor of a flying machine who should first accomplish a flight of one circular kilometer. Farman's time was 1m. 28s. and his average elevation was between four and six meters from the ground.

Types of Automobile Bodies

In the accompanying text and plates will be found nearly every type of automobile body now used. Body construction has changed materially during the past few years, and now the styles in common use not only embrace practically all those employed in carriage con-

every point to ensure extreme lightness being considered. A small extra seat for mechanic's use is shown at the back; this is of such a nature that it can be completely collapsed and made to retire into the rear back box or tool and tire carrying space.

struction, but many others that have been evolved to meet the needs of automobile users. The numbers used in the text correspond with those on the plates.

1. This is a two-seater or racing type, suitable for testing purposes, or is preferred for general use by many motorists who desire to keep their cars exclusively for their own use, and not to entertain their friends. It is built very lightly and is so constructed that the panels of the seats are made with a wire mesh,

2. This sketch represents a more elaborate and graceful design with the same ends in view; the rear seat in this case is more of a permanent fixture, inasmuch as it does not fold into the locker.

3. An ordinary tonneau with back entrance, or it can be arranged so that the front seat should swing or revolve to allow of ingress to the car.

4. Here is a small Victoria type body to seat two; fitted with a folding hood, either leather or canvas covered, with a glass screen to the front, arranged so that the top of the hood should meet the

Automobile Bodies (Continued)

screen. This is a type very much in favor among country doctors, providing as it does, a carriage seat and high class in appearance, yet light on tires, and not necessitating a large horse-power and gasoline consumption, thus keeping the cost of upkeep within the limits of the daily use of a country medico.

5. Is an enclosed coupé, which allows for being driven from the inside, and is

Automobile Bodies (Continued)

8. Is a completely enclosed coupé, which allows of driving from inside.

9. Here is a novel design of a double coupé, with the front completely enclosed. The lines of this are carried out in the style of an old posting coach, which is a design that lends itself to a very graceful appearance, taking away the rigidity of straight lines, which, in a covered body on a similar car, tend to

fitted with an extra seat for mechanic's or personal use. This also is a type very much in favor by doctors.

6. Represents a more elaborate design with the same end in view. It will be seen that the steering wheel and lubricator are entirely cased in; no particular object is achieved here except that of novelty in design and appearance.

7. Represents a single landaulet with the front cased in in the same manner.

destroy the harmonious appearance of the whole.

10. Is a variation on these lines, the rear part being made in landaulet style.

11. This embodies the same idea, the rear of the carriage being expressly designed for long touring purposes in sunny climates.

12. This is a small park or town type, being practically a Victoria. The usual objection to a Victoria type body, name-

Automobile Bodies (Continued)

ly, that the occupants of the back of the car suffer from an extreme draught blowing in behind the driving seats, has been overcome by the substitution of wind doors as indicated by the dotted lines.

13. Here is a graceful phaeton with side-entrance, otherwise similar design to No. 3.

14. This shows the ever popular Roi des Belges, fitted with a hood to the rear. This type is again shown in No. 16, with the rear hood up, and an extension blind or curtain is carried from the front of the rear hood to the top of the glass screen in front of the driver. This is a very convenient method of protecting the front seat, but has a strong objection against it in regard to appearance.

15. This is a Victoria type of side-entrance body.

17. Indicates the Roi des Belges type phaeton fitted with a useful double extension hood.

18. Is an extended type of the same body made to seat two extra persons, a folding or collapsing arm chair being placed forward of the rear seats.

19. Is a type that may, be aptly described as a "triple phaeton," seating seven persons including the driver; the extra inside seats in this case are not of a collapsible or folding form, but are built in as part of the original construction of the body. To obtain this effect a very long chassis is necessary, and the side entrance door has to be limited in size. On the other hand, a very comfortable seating space is arrived at for the extra passengers.

20. Here is a handsome phaeton of Roi des Belges design, fitted with a canopy. This canopy has a large panel at the rear, brought round the elbow, practically converting the car into a semi-limousine; in fact, this type of body is frequently described in this manner.

21. Is a variation of the same, the rear panel being of cab shape.

22. Is a type that is very rare, and not likely to be in very great demand; in fact, probably this design was created to the special requirements or pattern of one particular customer. It will be seen that the occupants of the rear or end part of the car are able to vis-a-vis in the same style as a landau. This again requires good length of chassis.

23. Is a limousine with removable sides. This type of body allows great range of possibility in regard to the manner of usage, combining as it does a canopied car, a semi-limousine and a full limousine. It should be very carefully constructed in order to obviate rattling,

Automobile Bodies (Continued)

owing to the numerous movable parts involved.

24. Is a single landaulet of a standard type, made to entirely fold down to enable the car to be used as a closed town carriage or a country vehicle.

25. Is a double landaulet the front of which is fixed, extra seats being arranged in the space between the driver's seat and the side door.

26. Illustrates a limousine landaulet. This design of carriage came into vogue about three years ago, since when it has gained ever increasing popularity among motorists, especially in this country, its advantage being that it enables a large and commodious carriage to be built in the limousine style, and yet can be easily equipped and converted to a completely open carriage.

27. Shows a single landaulet with an arrangement at the back for seating a servant.

28. Is a cab type, carried out on the familiar lines of a London hansom.

29. Shows a smart coupé, a type of carriage which, while not greatly used for motorcar work, yet has many advantages, particularly lending itself to a smart and neat appearance; in fact, it is from this type of body that the limousine has been evolved; the limousine being practically nothing more or less than a large coupé.

30, 31, 32, 33, 34, 35 and 36. These are variations of the limousine. This vehicle is coming more and more into daily use among motorists, especially on the Continent. It is one that lends itself admirably to luxurious equipment and fitting, while the occupants are well protected from the weather. It is true that it is always closed, but if made with large windows, which in their turn are made to open, almost the same advantages are gained as with a canopied car, with the advantage of greater comfort and equipment.

32. Is a cab type made to seat four.

37. Is a further variation of the phaeton.

38. Represents a "Berline"—a very unusual type of body, it being carried out on the lines of a stage coach.

39. Shows an enclosed coupé with an extra continuation to back for luggage and servants, very suitable for long touring where the owner of the car wishes to carry a retinue or personal attendants conveniently.

40. Gives a large station or estate omnibus.

41 and 42. Are respectively coupé and landaulet types for electric vehicles, being purely town carriages.

THEORETICAL MOTOR HORSEPOWER

Horsepower Delivered to the Wheels

(French Formula)

Number of Cylinders	Bore (mm)	Total piston surface (sq. cm.)	Horsepower	H. P. deliv- ered to wheels	Number of cylinders	Bore (mm)	Total piston surface (sq. cm.)	Horsepower	H. P. deliv- ered to wheels.

Wood, B. F.—City Island, N. Y.
Wright, W. G.—Paulsboro, N. J.
Yacht, Launch & Eng. Co.—Philadelphia, Pa.

MOTOR GENERATORS

General Electric Co.—Schenectady, N. Y.
Holtzer-Cabot Electric Co.—Brookline, Mass.

MOTORS — AERONAUTIC, GASOLINE

Aero & Marine Motor Co.—60 Pemberton Square, Boston, Mass.
Antoinette, Société.—10 rue des Bas Rogers, Puteaux, France.
Bozier, G.—7 rue Denis Pepin, Puteaux, France.
Buchet, Usines.—Levallois-Perret, France.
Herschell & Spillman Co.—North Tonawanda, N. Y.

MOTORS — AUTOMOBILE GASOLINE

Aachener Stahlwaarenfabrik Actiengesellschaft.—Aix-la-Chapelle, Germany.
Adami e Cie.—via degli Artisti, Florence, Italy.
Adolf Ungers Industriaktiebolag.—Arbra, Sweden.
Advance Mfg. Co.—B St., 2 Blocks North of Main St., Hamilton, Ohio.
Aktiebolagee Octopedmotorbiblioteks-golau.—Stockholm, Sweden.
Alexander & Co.—72 W. Monroe St., Chicago, Ill.
American Die & Tool Co.—Reading, Pa.
American Mica Co.—Newton Lower Falls, Mass.
Anderson Engine Co.—Shelbyville, Ill.
Antoine fils et Cie.—41 quai St. Leonard, Liege, Belgium.
Antoinette, Société.—10 rue des Bas Rogers, Puteaux, France.
Aquila, Fabbrica Italiana di Automobile.—9 via Bonsignore, Turin, Italy.
Argus Chenu.—10 rue Fontaine St., Georges, Paris, France.
Argus Motoren Gesellschaft, Jeannin und Co.—1 Prinz Luis Ferdinandstrasse, Berlin, Germany.
Armac Motor Co.—472-78 Carroll Ave., Chicago, Ill.
Aster, Société'l.—St. Denis, France.
Ateliers Amstoutz et Ravel.—ave. de Fontaine, Argent, Besançon, Doubs, France.
Ateliers de Constructions Mécaniques.—105 rue de Fazilleau, Levallois, France. (Signia motors.)
Automobil und Motorfahrzeugfabrik.—140 Greifswalderstrasse, Berlin, Germany.

MOTORS—AUTOMOBILE, GASOLINE (Continued)

Automobilwerke Leipzig.—35 Carl Heine Strasse, Leipzig, Platzwitz, Germany.
Badecker Gas Engine Co.—Omaha, Neb.
Balancemobil Werke, C. E. Buhler.—Buttstadt im Thüringen, Germany.
Ballot et Cie.—105 bvd. Brune, Paris, France.
Barber Bros.—101 Grape St., Syracuse, N. Y.
Barriquand et Marre, Ateliers.—127 rue Oberkampf, Paris, France.
Belcher Motor Co.—Fall River, Mass.
Bendix Co., The.—2107 N. 9th St., Chicago, Ill.
Ben Hur Motor Co.—120 Randolph St., Chicago, Ill.
Benz und Co., Rheinische Gasmotorenfabrik, Actiengesellschaft.—Mannheim, Germany.
Beverly Mfg. Co.—Beverly, Mass.
Bowen Motor Co.—419 Auburn Ave., Buffalo, N. Y.
Bozier, G.—7 rue Denis Papin, Puteaux, France.
Bradley Motor Patents, Ltd.—165 Fenchurch St., London, E. C., England.
Brennan Motor Co.—Syracuse, N. Y.
Briggs & Wade.—Sagamore St., Lynn, Mass.
Brillié, Automobiles Eugene.—Havre, France.
Brixton Motor Works.—283 Brixton Road, London, S. W., England.
Brouhot, Usines.—Vierzon, Cher, France.
Brownell Motor Co., F. A.—634-6 Lexington Ave., Rochester, N. Y.
Brown-Talbot Co.—19 Oakland St., Salem, Mass.
Buchet, Usines.—Levallois-Perret, France.
Buffalo Engine Co.—12-20 Perry St., Buffalo, N. Y.
Bielfuss Motor Co.—Saginaw St. and M. C. Railway, Lansing, Mich.
Burlat Frères.—85 bis cours Lafayette Prolonge, Lyon, Villeurbanne, France.
Burt Mfg. Co.—128 N. Edward St., Kalamazoo, Mich.
Chase Motors.—Station Road, Adderley, London, S. E., England.
Clark Motor Co., E. C.—Jackson, Mich.
Cohendet et Cie, A.—166 quai Jemappes, Paris, France.
Compagnie Belges de Construction d'Automobiles.—10 rue Ruysdael, Brussels, Belgium.
Compagnie Duplex.—Ferrière-la-Grande, Nord, France.
Continental Motor Mfg. Co.—Muskegon, Mich.
Cremorne Motor Mfg. Co.—Lots Road, Chelsea, London, S. W., England.

MOTORS—AUTOMOBILE, GASOLINE (Continued)

Cross Engine Co., M. O.—800-806 Bellevue Ave., Detroit, Mich.
Crouch & Co., Chas. P.—484 Carroll Ave., Chicago, Ill.
Cudell und Co.—46 Ruckersdorferstrasse, Berlin, Germany.
Cushman Motor Co.—2020 North St., Lincoln, Neb.
Dalifol et Cie.—40 bvd. d'Asnières, Ile-de-la-Jatte, Neuilly, France.
Dasse, Gérard.—Verniers, Belgium.
Davis Mfg. Co.—935 30th St., Milwaukee, Wis.
Decauville, Société Nouvelle des Établissements.—Petit-Bourg, Seine-et-Oise, France.
de Dion, Bouten et Cie.—quai National, Puteaux, France.
Dempster Machine Co., W. R., The.—16th and Walnut Sts., Kansas City, Mo.
Deschler, August.—18-20 E. Water St., Chillicothe, Ohio.
Dop.—16 rue du Débarcadère, Paris, France.
Edler, X.—Hirson, Aisne, France.
Entrepot General d'Automobiles.—211 bvd. Pereire, Paris, France.
Español-Suiza, Sociedad Anonima.—Barcelona, Spain.
Fabbrica di Automobili "Florentia."—via Ponte all'Asse, Florence, Italy.
Fabrique de Moteurs Zedel, Société Anonyme.—Pontarlier, Doubs, France.
Fairbanks-Grant Mfg. Co.—Ithaca, N. Y.
Farcot Frères et Cie.—St. Ouen, France.
Ferro Machine & Foundry Co.—115 Wade Bldg., Cleveland, Ohio.
Filtz, J.—13 ave. du Roule, Neuilly, France.
Forman Motor Mfg. Co.—Dayslane, Coventry, England.
Fowler Machine Co.—1781 Middlesex St., Lowell, Mass.
Frishi Motor & Machine Works.—Middletown, Conn.
Fullgarus Gjuleri & Mekineriverkstad-saktiebolag.—Upsala, Sweden.
Furan, Société des Ateliers du.—4 rue Barrouin, St. Etienne, France.
Gautier, Paul.—11 rue Taine, Paris, France.
Germain, Ateliers.—Monceau-sur-Sambre, Charleroi, Belgium.
Goshen Motor Works.—Ave. and 9th St., Goshen, I.
Grade Motorwerke.—Magde many.
Grant-Ferris Co.—Troy, N.
Guerin Frères.—10 rue de France.
Haney Gas Engine Co.—I
Harvard Marine & Auto Co.—25 St., Cambridge, Mass.
Hayden Co., N. L.—Columbus, Oh

LIFTERS—VALVE

- Automobile Specialty Co.**—509 Willoughby Bldg., Chicago, Ill.
Auto Specialty Co.—6 E. Madison St., Chicago, Ill.
Noonan Tool & Machine Works.—Rome, N. Y.
Polson, W. F.—22 W. Utica St., Buffalo, N. Y.
White, Sam B.—91 Sabin St., Providence, R. I.

LOCKERS

- Art Metal Construction Co.**—Jamestown, N. Y.
Darby & Sons Co., Edward.—233 Arch St., Philadelphia, Pa.
Merritt & Co.—1022-30 Ridge Ave., Philadelphia, Pa.
Ohnstrand & Son, H. R.—413 S. Clinton St., Syracuse, N. Y.

LUBRICATORS

- Adapt Machinery Co.**—1624-34 Wabash Ave., Chicago, Ill.
American Injector Co.—Detroit, Mich.
American Lubricator Co.—Detroit, Mich.
Bailly, C.—168 bvd. de la Villette, Paris, France.
Ben Hur Motor Co.—120 Randolph St., Chicago, Ill.
Blanke und Rast.—Leipzig, Plagwitz, Germany.
Briet et Cie., M.—7 rue Magenta, Puteaux, France.
Cailleau et Cie.—20 rue des Walloons, Liege, Belgium.
Charter & Co.—303 Dearborn St., Chicago, Ill.
Couteau, H.—95 rue d'Angouleme, Paris, France.
de Boisse, J.—85 rue Traverssière, Billancourt, Seine, France.
Detroit Lubricator Co.—Trumbull and Lincoln Aves. and G. T. Ry., Detroit, Mich.
Dodge Lubricator Co.—8 Waltham St., Boston, Mass.
Draper Co., Walter H.—120 S. Railroad Ave., Mt. Vernon, N. Y.
Dubulle, Louis.—28 rue Villeneuve, Clichy-sur Seine, France.
Elevator Supply & Repair Co.—76 W. Monroe St., Chicago, Ill.
Frasze & Co., Peter A.—92-4 Fulton St., New York City.
Gauthier et Trentelivres.—30 rue de Malines, Brussels, Belgium.
Greene, Tweed & Co.—17 Murray St., New York City.
Guyénet, J.—rue de Printemps, Paris, France.
Hamelle, H.—21 quai Valmy, Paris, France.

LUBRICATORS (Continued)

- Hancock Mfg. Co.**—770 E. Henry St., Charlotte, Mich.
Hatcher Auto Parts Co.—2108 Superior Ave., Cleveland, Ohio.
Hill, E. H., Beta Works.—56 Bromfield St., Sheffield, England.
Hussenet et Raynaud.—39 rue La Boétie, Paris, France.
Kinsey Mfg. Co.—Dayton, Ohio.
Lavigne Mfg. Co.—Detroit, Mich.
Lee Injector Co.—Port Huron, Mich.
Lafeyvre fils, Albert.—5 rue Delteral, Pré St. Gervais, Seine, France.
Liotard Frères.—22 rue de Lorraine, Paris, France.
Lonegran & Co., J. E.—211-215 Race St., Philadelphia, Pa.
Longhurst, Jas. S., Jr.—Walnut St., Lynbrook, L. I., N. Y.
Lunkenheimer Co., The.—Cincinnati, Ohio.
Manzel Bros. Company.—317-319 Babcock St., Buffalo, N. Y.
McCanna Mfg. Co.—56 N. Jefferson St., Chicago, Ill.
McCord & Co.—1400 Old Colony Bldg., Chicago, Ill.
Michigan Lubricator Co.—661-67 Beau-pien St., Detroit, Mich.
Mosher Sales Co.—32 St. Paul St., Rochester, N. Y.
Muller et Cie., Roger.—108 ave. Philippe-Auguste, Paris, France.
National Sewing Machine Co.—Belvidere Ill.
Neely, Edward.—244 Wells St., Chicago, Ill.
Noera Mfg. Co.—Waterbury, Conn.
Officina San Giorgio.—via Valperga Caluso, Turin, Italy.
Oger et Guérin.—36 rue Godefroy-Cavaignac, Paris, France.
Ohio Brass Co.—Mansfield, Ohio.
Palous und Beuse.—Zimmerstrasse 30, Berlin, Germany.
Pedersen Mfg. Co.—400-412 E. 37th St., New York City.
Peeters, Cl.—85 rue Heyvaert, Molenbeek-Brussels, Belgium.
Penberthy Injector Co.—Detroit, Mich.
Piccoli Fratelli e Ca.—via Capellari Milan, Italy.
Powell Co., William, The.—2525-2531 Spring Grove Ave., Cincinnati, Ohio.
Precision Appliance Co.—Chicago, Ill.
Redington & Co., F, B—gamon St., Chicago,
Roller et Cie.—67 ave. France.
Ross, Courtney and C—brooke Road, Upper H don, N., England.
Rotherham and Sons.—C land.

LUBRICATORS (Continued)

Schaeffer und Oehlmann.—Chaussee-
strasse 46, Berlin, N., Germany.
Schoelkopf Mfg. Co.—Madison, Wis.
Sclaverand, Morin Successeur.—48 rue de
l'Aqueduc, Paris, France.
Sherwood Mfg. Co.—Elmwood Ave. and
Belt Line, Buffalo, N. Y.
Standard Automobile Lubricator Co.—
361-63 Ellicott St., Buffalo, N. Y.
Standard Gauge Mfg. Co.—Industrial
Bldg., Syracuse, N. Y.
Sturtevant Mill Co.—Harrison Sq., Bos-
ton, Mass.
Thevenin Freres, Seguin et Cie.—116
bvd. Richard-Lenoir, Paris, France.
Turner Brass Works, The.—72 Michigan
St., Chicago, Ill.
Wanner et Cie.—67 ave. de la Repub-
lique, Paris, France.
Weidner, Richard.—Leipzig, Germany.
Williams Valve Co., D. T.—904-10 Broad-
way, Cincinnati, Ohio.
Winkley Co., The.—226 Abbot St., De-
troit, Mich.

**MACHINES, BUFFING, see BUF-
FERS**

MACHINES—MILLING

Becker-Brainard Milling Machine Co.—
110 Business St., Hyde Park, Mass.
Cincinnati Milling Machine Co.—Cincin-
nati, Ohio.
Gisholt Machine Co.—1300 Washington
Ave., Madison, Wis.
Whitney Mfg. Co.—Hartford, Conn.

**MACHINES, PORTABLE DRILLING,
see DRILLS, MACHINE, PORT-
ABLE**

**MACHINES—TUFTING AND UP-
HOLSTERING**

Novelty Tufting Machine Co.—1200
Michigan Ave., Chicago, Ill.

MACHINE WORK—TO ORDER

American Die & Tool Co.—Reading, Pa.
American Machine & Mfg. Co., The.—
Cleveland, Ohio.
Ashley Machine Works.—714 University
Ave., Rochester, N. Y.
Beverly Mfg. Co.—Beverly, Mass.
Blake & Johnson.—Waterbury, Conn.
Whitman Co.—94-104 W. 7th
St., N. J.
Machine & Foundry Co.—115
1st St., Cleveland, Ohio.
Fulton St., New
York City.
Machine Screw Co.—476 Capi-
toul St., Hartford, Conn.

**MACHINE WORK—TO ORDER
(Continued)**

Hill Co., Geo. Q.—326 A St., Boston,
Mass.
Holt & Co., W. H.—95 Pine St., Provi-
dence, R. I.
Homer Brass Works.—231 Race St.,
Philadelphia, Pa.
Hopson & Chapin Mfg. Co.—New Lon-
don, Conn.
Jones, Frank S.—629 Filbert St., Phila-
delphia, Pa.
Jones Motor Co., Geo. H.—6th St.,
Camden, N. J.
Konigslow Mfg. Co., Otto.—2279 Clark-
wood Rd., Cleveland, O.
Lee Mfg. Co., The.—Connors St., Port
Huron, Mich.
**Lippincott Steam Specialty & Supply
Co.**—Newark, N. J.
Machinery Forging Co.—Hamilton &
Marquette Sts., Cleveland, Ohio.
Manufacturers Foundry Co.—Waterbury,
Conn.
Massnick Mfg. Co.—1567 River St., De-
troit, Mich.
McCutchen Gear & Mfg. Co.—205 W.
South St., Indianapolis, Ind.
Michigan Automobile Co., Ltd.—Kala-
mazoo, Mich.
Muncie Auto Parts Co.—Ellicott St. and
L. E. W. Yards, Muncie, Ind.
National Cycle Mfg. Co.—Bay City,
Mich.
Pacific Iron Works, Inc.—Bridgeport,
Conn.
Patterson, Gottfried & Hunter, Ltd.—
146-50 Center St., New York.
Pattinson Mfg. Co.—48 Stanhope St.,
Boston, Mass.
Pittsburg Brass Mfg. Co.—3153 Penn
Ave., Pittsburg, Pa.
Rhode Island Machine Co., The.—Provi-
dence, R. I.
Standard Metalwork Co.—Thompson-
ville, Conn.
Taft, Pierce Co.—Woonsocket, R. I.
Throop Perforating Co.—80 Terrace,
Buffalo, N. Y.
Widmer Machine Works.—43-47 Fort
St., E., Detroit, Mich.

**MACHINERY—SPECIAL AUTOMO-
BILE**

Adams Co., The.—Dubuque, Iowa.
American & British Mfg. Co.—Gov't.
Contractors, Crescent Ave., Bridge-
port, Conn.
Baker Bros.—Westlake and Post Sts. and
M. C. R. R., Toledo, Ohio.
Barnes Co., W. F. & John.—Rockford,
Ill.
Beaman & Smith Co., The.—Providence,
R. I.
Becker-Brainard-Milling Machine Co.—
110 Business St., Hyde Park, Mass.

MOTORS—AUTOMOBILE, GASOLINE (Continued)

Ribettie Colombatto.—via Bava, Turin, Italy.
Richard, G.—108 rue St. Maur, Paris, France.
Rigaud, A.—251 rue du faubourg de Roubaix, Lille, France.
Robberts, R. M.—140 Indiana Ave., Anderson, Ind.
Rockford Automobile & Engine Co.—Rockford, Ill.
Roots Oil Motor & Motor Car Co., Ltd.—Chichelly St., York Rd., Lambeth, London, England.
Rosselli.—29 via Nizza, Turin, Italy.
Royal Motor.—15 bvd. de Strasbourg, Boulogne-sur-Seine, France.
Ryde Motors, Ltd.—Grosvenor Road, Westealing, London, W., England.
Schlosser Mfg. Co.—151 E. 126th St., New York City.
Schonlein, P.—32 Frankfurterstrasse, Wiesbaden, Germany.
Simms Mfg. Co., Ltd.—Kimberley Road, Kilburn, London, N. W., England.
Sintz, Guy L.—Fulton and Front Sts., Grand Rapids, Mich.
Smith, Chas. A.—Church Lane and P. & R. Ry., Germantown, Philadelphia, Pa.
Société Anonyme des Brevets et Moteurs Létombe.—59 rue d'Amsterdam, Paris, France.
Société Anonyme Muller-Vogel et Cie.—St. Aubin, Neufschatel, Switzerland.
Société des Moteurs Gnome.—Petit-Gennevilliers, Seine, France.
Société Neufchateloise d'Automobiles.—Boudry-Néufchatel, Switzerland.
Solos Motoren Gesellschaft.—Gottleutstrasse 94 Frankfort-am-Main, Germany.
Speed Changing Pulley Co.—750 E. Washington St., Indianapolis, Ind.
Stamford Motor Co., The.—Stamford, Conn.
Sterling Engine Co.—Fall River, Mass.
Stevens Motor Mfg. Co., Ltd.—Pelham St., Wolverhampton, England.
Stimula.—St.-Chamond, Loire, France.
Streit Machine Co., A.—1108-10 Harrison Ave., Cincinnati, Ohio.
Sturtevant Mill Co.—Harrison Sq., Boston, Mass.
Swain Engine Co.—2239 State St., Chicago, Ill.
Theim Mfg. Co.—Minneapolis, Minn.
Toutain fils, Frémy et Cie.—4 rue Thiéban, Havre, France.
Trebert Gas Engine Co.—35-37 Ford St., Rochester, N. Y.
Trenton Malleable Co., The.—New York Ave., Trenton, N. J.
Truscott Boat Mfg. Co.—St. Joseph, Mich.
United Mfg. Co.—175 Woodbridge St., Detroit, Mich.

MOTORS—AUTOMOBILE, GASOLINE (Continued)

Vallade et Cie.—116 bvd. Percire, Paris, France.
Van Auken Cleavance Co.—Yonkers, N. Y.
Volker und Prugel.—Obernberg-am-Main, Bavaria, Germany.
Warren Mfg. Co.—Warren, Mass.
Watermans Marine Motor Co.—1506-12 Fort St., W., Detroit, Mich.
Watt Engnie Co.—Port Huron, Mich.
Weidmann et Cie.—93 Brunnaustrasse, Zürich, Switzerland.
Westerfield Motor Co., The.—1525 S. Main St., Anderson, Ind.
Willet Engine & Carbureter Co.—764 Ellicott Sq., Buffalo, N. Y.
Windhoff, Gebruder.—Rheine-im-Westphalia, Germany.
White & Poppe, Ltd.—Coventry, England.
Whitley Motor & Engineering Co.—Fleet St., Coventry, England.
Xardell Co., C. A.—Utica, N. Y.
Yocom Co., A. H.—Reading, Pa.
Zust, Roberto.—via Borgogne, Milan, Italy.

MOTORS—ELECTRIC

Browning Mfg. Co.—Milwaukee, Wis.
Bullock Electric Mfg. Co.—Cincinnati, Ohio.
Eddy Electric Mfg. Co.—Windsor, Conn.
C. & C. Electric Co.—143 Liberty St., New York City.
Electric Vehicle Equipment Co.—20th St. and Montgomery Ave., Philadelphia, Pa.
Elwell Parker Electric Co.—1076 Hamilton St., Cleveland, Ohio.
Fairfield Motor Co.—172 Cannon St., Bridgeport, Conn.
Fort Wayne Electric Works.—Fort Wayne, Ind.
Gilmore Electric Co.—625 First St., Boston, Mass.
Kendrick & Davis.—Lebanon, N. H.
Lamb Electric Co.—31 Canal St., Grand Rapids, Mich.
Lincoln Electric Co.—Cleveland, Ohio.
Milwaukee Electric Co.—Milwaukee, Wis.
Parsell & Weed.—129-131 W. 31st St., New York City.
Richardson Engineering.—Conn.
Roth Bros. & Co.—27-29 Chicago, Ill.
Sprague Electric Co.—527 New York City.
Sterling Electric Motor.—Ohio.
Storey Motor & Electric.—sex St., Harrison, N. J.

MOTORS—ELECTRIC (Continued)

Wagner Electric Mfg. Co.—St. Louis, Mo.
Westinghouse Electric & Mfg. Co.—Pittsburg, Pa.
Witherbee Mfg. Co., Inc.—433 W. 42nd St., New York City.

MOTORS—KEROSENE

Acme Oil Engine Co.—Union Ave., near R. R., Bridgeport, Conn.
American Diesel Oil Engine Co.—11 Broadway, New York City.
Fay & Bowen Engine Co.—92 Lake St., Geneva, N. Y.
Grand Rapids Gas Engine & Yacht Co.—Grand Rapids, Mich.
International Power Vehicle Co.—216 Pacific St., Stamford, Conn.
Mietz, A.—138 Mott St., New York City.
New York Kerosene Oil Motor Co.—31 Burling Slip, New York City.
Wolverine Motor Works.—Grand Rapids, Mich.

MOTORS—MARINE, GASOLENE

Ader, Société Anonyme des Anciens Etablissements.—40ter ave. de Suffren, Paris, France.
Aero & Marine Motor Co.—60 Pemberton Square, Boston, Mass.
Alexander & Co.—72 W. Monroe St., Chicago, Ill.
American Mica Co.—Newton Lower Falls, Mass.
Anderson Engine Co.—Shelbyville, Ill.
Atlantic Co., The.—Amesbury, Mass.
Ateliers de Construction.—50 ave. de Normandie, Colombes, France.
Ateliers et Chantiers Cosmos.—Ostend, Belgium.
Aurora Motor Works.—North Aurora, Ill.
Automatic Machine Co., The.—Bridgeport, Conn.
Ayres Gasoline Engine Works.—Saginaw, Mich.
Badecker Gas Engine Co.—Omaha, Neb.
Badger Motor Co.—Milwaukee, Wis.
Ballot et Cie.—105 bvd. Brune, Paris, France.
Bay State Machine Co.—1302-06 Peach St., Erie, Pa.
Belcher Motor Co.—Fall River, Mass.
Beverly Mfg. Co.—Beverly, Mass.
Bonnet.—4 rue de la Bastelle, Paris, France.
Boudreaux, L.—8 rue Hautefeuille, Paris, France.
Brennan Motor Co.—Syracuse, N. Y.
Bridgeport Motor Co.—Bridgeport, Conn.
Briggs & Wade.—Sagamore St., Lynn, Mass.

MOTORS—MARINE, GASOLENE (Continued)

Brill Engine Works.—Appleton, Wis.
Brooks Boat Mfg. Co.—Saginaw, Mich.
Brooke & Co., Ltd., J. W.—Adrian Works, Lowestoft, England.
Brown-Cochran Co., The.—Loraine, O.
Brownell Motor Co., F. A.—623-6 Lexington Ave., Rochester, N. Y.
Bruno-Knapp Co., W. S.—Saginaw, Mich.
Budd & Ranney Mfg. Co., The.—35-37 S. Scioto St., Columbus, Ohio.
Buffalo Gasoline Motor Co.—1280-90 Niagara St., Buffalo, N. Y.
Burlat Frères.—89 bis cours Lafayette plg., Lyon-Villeurbanne, France.
Caille Bros. Co., The.—Second Ave. and Amsterdam St., Detroit, Mich.
Camden Anchor-Rockland Machine Co.—Camden, Maine.
Campbell Motor Co.—Wayzata, Minn.
Carlson, Chas. A.—1016 Bedford Ave., Brooklyn, N. Y.
Chase Motor Co.—201 Pitman St., Providence, R. I.
Crouch & Co., Chas. P.—484 Carroll Ave., Chicago, Ill.
Chicago Caloric Engine Co.—Chicago, Ill.
Clark, Ed. S.—242 Freeport St. Boston, Mass.
Clemick-Hirsch Co.—594 National Ave., Milwaukee, Wis.
Clifton Motor Works.—265 E. Clifton Ave., Cincinnati, Ohio.
Coleman & Sons, Walter.—300 S. Water St., Providence, R. I.
Continental Motor Mfg. Co.—Muskegon, Mich.
Cooley Mfg. Co.—Waterbury, Vt.
Couach et fils, J.—39 bvd. d'Haussez, Arcachon, Gironde, France.
Craig, James.—556 W. 34th St., New York City.
Cross Engine Co., M. O.—800-06 Bellevue Ave., Detroit, Mich.
Cushman Motor Co.—2020 North St., Lincoln, Neb.
Daimler Motoren Gesellschaft.—Unterturkheim, Germany.
Dean & Bruden Bros., Ltd.—Salisbury, England.
Dechartres, E.—3 cite des Enoierges, Paris, France.
de Dion, Bouten et Cie.—quai National, Puteaux, France.
De Moory Bros.—765-767 Wilson Ave., Cleveland, Ohio.
Detroit Auto Marine Co.—82 Congress St., E., Detroit, Mich.
Dingfelder Motor Co.—Detroit, Mich.
Doman Co., H. C.—Oshkosh, Wis.
Dressler, W.—14 Annenstrasse, Berlin, Germany.

MOTORS—MARINE. GASOLENE
(Continued)

Ducro Mfg. Co.—1378 Niagara St., Buffalo, N. Y.
Duluth Gas Engine Works.—Minnesota Ave. and Vine St., Duluth, Minn.
Dunn, Walter E.—Ogdensburgh, N. Y.

As It Was In The Beginning

The **"Maxwell"** **Car**

Is now and (I promise) ever shall be an honest Car—honestly designed—conscientiously built—truthfully sold and in good faith backed up by it's makers after it is in the hands of the buyer.

Times and conditions may change but principles never do.

Maxwell principles of construction—chief among which are Thermo-syphon cooling, Unit Power Plant with three point suspension, and metal body—are sound; all have been time-tried and road-proven.

Here and there you'll find a maker who has adopted one or more of those Maxwell features, but only in Maxwell Cars do you find a combination of all of them.

I always feel sorry for the Maker or Sales Manager who finds it necessary to contradict year after year all he has said previously or who must devise new "talking points" to cover up past mistakes. I feel more sorry for the people who are beguiled into buying his cars.

Maxwell advertisements of four years ago expounded the same theories and principles as do those of 1908—and those of next year will be consistent with this. That's only one expression of Maxwell stability—it's one reason why Maxwell owners are such a contented lot.

Our Catalog is free.

Fisk Tires (BOLTED ON)

are for those who believe in safety and want a tire that cannot be pulled off accidentally on any curve at any speed, even if punctured.

Fisk Removable Rims

are for those who want the latest practical expression in this line. They fit the bolted-on tires and are marvels of lightness, sureness and facility. Newly improved and fool proof. An ordinary wrench and two minutes suffice to remove the rim and replace with a spare one, carrying the already inflated tire.

Fisk Quick Detachables and Fisk Clinchers

are for those who use these types, but who believe in economy and are willing to pay a trifle more for **FISK QUALITY**.

THE FISK RUBBER COMPANY

Chicopee Falls, Mass.

Eighteen branches in principal cities enable us to take good care of Fisk customers

THE HOL-TAN CAR

THE HOL-TAN Car has been designed and built to our order. It incorporates those features of design which in our experience have proved satisfactory to our high-class clientele. It is built in two types of chassis, one adapted for runabout and light touring bodies, the other for heavy touring and closed types, any of which will be supplied to order.

The HOL-TAN Company's guarantee backs up the performance of every HOL-TAN Car just as has formerly been the case with our FIAT cars.

Our large FIAT stock room of duplicate parts will be maintained for our old FIAT purchasers, and the prices of parts have been greatly reduced.

THE HOL-TAN CO.

244-250 West 49th St., New York

(NOTE NEW ADDRESS)

Garford

The Garford automobile is designed to be the "type" of the day.

In every element that enters into the final product, the Garford undertakes to conform to the most approved engineering and constructive practice in the art of automobile building.

Expressed differently, the consensus of opinion of those best qualified to judge is in favor of certain types and standards proved good by general experience, and the Garford strives to conform absolutely to these accepted standards.

RHYME AND REASON

That out of door man, who cuts many a melon,
Spends "mun" moting motors, its useless to dwell on.
You make THE machine and let him make the money,
Like God makes the flowers, while bees make the honey.
This man's in the market a bubble to buy,
You may sell him your make of car, if you try.

OUTING is a magazine as broad as all outdoors.
It is first of all the magazine of lovers of
outdoor life, who have the means and the
taste to enjoy the sports that go with outdoor life.
They have also the ordinary wants, and the means
to buy your goods.

If you only make something good enough,
OUTING is the best advertising medium in the world
for you. You do not have to argue with OUTING's
readers to prove that quality is a desirable thing, no
matter what the price. You merely have to prove
to them that you have the quality. They will not
even ask the price.

New York—The Outing Magazine—Chicago

ALLAN C. HOFFMAN, Advt. Mgr.

Collier's has ideas, and dares to express them;
It is hampered by no cut-and-dried policy;
It speaks for no party, no class, no section;
It is controlled only by what it believes to be
the truth.

Collier's keeps step with the march of the
times;

Yet timeliness never plays havoc with its
discrimination,

And its enterprise is tempered always with
judgment.

Stories, verse, drawings, paintings, news-
bringing photographs, and clever sketches make
Collier's attractive from cover to cover.

Whatever is interesting, is timely, is really
worth while—may always be found in **Collier's**.

That is why over half a million American
homes subscribe for **Collier's**.

Discerning advertisers naturally find it
advantageous to have their announcements
heralded in **Collier's**.

TWO LETTERS AND A CLAIM REGARDING Motor Age

The Most Interesting of all Automobile Publications to its Subscribers, and the Greatest of Result Bringers among its Advertisers.

The letters represent a composite reproduction of the many received

From Our Subscribers

"Motor Age is the brightest and most readable of all the publications devoted to automobiling. Its profuse illustrations, its touring stories, and "Clearing House" department make it invaluable to motor-car owners. Its technical section is also all that any reader might desire, although it does not tire its readers by giving them only this engineering matter to the exclusion of lighter and more breezy topics. Motor Age is an ideal publication for all motorists."

The above letter is a composite reproduction of the sentiments contained in the thousands received by us from our appreciative subscribers.

From Our Advertisers

"As an advertising medium, Motor Age has done more for us than any other publication in the field. Our investment in its advertising pages has been productive of exceedingly good results. Every mail brings letters from various sections of the country stating our adv. was seen in Motor Age. It is a perfect medium for reaching automobile owners as well as the makers, dealers and garages. We will renew our advertising contract when same now running expires."

Hundreds of letters received by us from as many of our advertisers would, if boiled into one, contain the expressions embodied above.

The subscription price to **Motor Age** is **\$3.00 per year**—\$3 for 52 weekly issues of America's brightest and best automobile publication. Sample copy on request. Advertising rates on application. Write us for the most liberal "try out" advertising proposition you ever heard of.

TOOLS

HARDWARE

The Chicago Inter Ocean

FIRST

IN AUTOMOBILE ADVERTISING

DURING THE PAST TWO YEARS

IN the year 1907, as in the year 1906, The Inter Ocean greatly excelled all other Chicago newspapers in the amount of automobile advertising carried. This is the more striking since the Inter Ocean radically increased its rates on this class of advertising last spring.

ACHIEVEMENTS IN 1907.

The principal achievements of the year were:

During the Automobile Show last February The Inter Ocean printed as much display automobile advertising as its two principal competitors in the morning field combined.

In the first six months of the year The Inter Ocean printed 133 columns more advertising than its nearest competitor in the morning field.

During the Automobile Show in December The Inter Ocean printed nearly twice as much display automobile advertising as its nearest competitor in the morning field.

In the last six months of 1907 The Inter Ocean printed 111 columns more display automobile advertising as its nearest competitor and more than the Record-Herald and Examiner combined.

For the full year of 1907 The Inter Ocean printed 723 1-3 columns of automobile advertising. This is 269 columns more than was carried by its next competitor in the morning field and over 125 columns more than the leader in the evening field.

THE RECORD IN FIGURES

Following are the figures of the morning newspapers, in columns, together with a comparison with the previous year:

	1907	1906	Increase
INTER-OCEAN	723 1-3	453 1-3	270
Record-Herald	454 4-5	320 1-2	134 1-5
Tribune	422 2-5	151 1-2	271
Examiner	302 4-5	*	

*Figures not available.

THE REASON WHY.

The reason The Inter Ocean carries more automobile advertising than any other Chicago newspaper is because it brings better results to automobile advertisers.

Automobiles are high class merchandise and are purchased only by people with money. The Inter Ocean's circulation is high class circulation and appeals to people with money.

THE INTER OCEAN has more readers who can afford to buy automobiles than any other Chicago newspaper.

THE INTER OCEAN is the recognized medium in the Middle West for Automobile Advertising.

"KEEP YOUR EYE ON CONTINENTALS"

Continental TIRES

The Continental Caoutchouc Company is one of the oldest and largest rubber manufacturing establishments in the world. It produces every year more automobile tires than any other concern.

It has agencies in all countries. The Continental is really an international tire. The equipment can be replaced readily in any part of the world—a great consideration for tourists.

Continental Tires are noted for durability. They are correctly termed "the low-cost-per-mile" tires. Made in all styles and sizes. American and Metric, flat tread, round tread, Rouge-Ferré and Ready-Flated.

Rouge-Ferré (anti-skid) is a type of

tire with steel studs embedded in the tread during the process of manufacture, in such a way that they cannot work loose or be torn out, but will permanently prevent skidding.

Ready-Flated Tires are for use with our Demountable Rim. They are carried already inflated, and, in case of puncture or accident, tires can be changed immediately, in less time than the inflating alone would require by the ordinary method.

On account of its leading position in the tire trade, the Continental Company aims to introduce new features as soon as satisfied that they are right. At the same time, tires of all the standard types are provided of the highest quality.
